II. Повторение видов вопросительных предложений:

Общие вопросы в английском языке

Общий вопрос – это вопрос, требующий ответа "да" или "нет". В вопросах такого вида на первое место ставится вспомогательный глагол, после которого следует обычный порядок слов.

Например:

Are you from Brazil?

Вы из Бразилии?

Возможные ответы: Yes, I am. / No, I am not.

Did you meet Andy?

Вы видели Энди?

Возможные ответы: Yes, I did. / No, I did not.

Was she at home yesterday?

Она вчера была дома?

Возможные ответы: Yes, she was. / No, she was not.

Специальные вопросы в английском языке

Специальный вопрос используется, чтобы узнать какие-либо детали, подробности чего-либо. Специальные вопросы начинаются с вопросительного слова или группы слов, которые указывают, к какому члену предложения относится вопрос.

Например:

Where are you from?

Откуда вы?

How much money do you have?

Сколько у вас денег?

How old are you?

Сколько вам лет?

Обратите внимание, что в случае, когда вопросительное слово, вводящее специальный вопрос, является подлежащим в предложении, то порядок слов в таком вопросе соответствует порядку слов в повествовательном предложении.

Например:

Who will buy milk?

Кто купит молока?

What is on going on here?

Что здесь происходит?

Альтернативные вопросы в английском языке

Альтернативный вопрос – это вопрос, в котором предлагается выбор вариантов ответа. Порядок слов в таких вопросах соответствует порядку слов общего вопроса.

Например:

Is your car red or blue?

Твоя машина красная или зеленая?

Will you have tea or coffee?

Вы будете чай или кофе?

Разделительные вопросы в английском языке

Разделительные вопросы известны также как **вопросы с "хвостиком"**, или **хвостатые вопросы**. Данные вопросы - в основной части утвердительные (или отрицательные) предложения, к которым присоединяется "хвостик", состоящий из вспомогательного глагола, отрицания (если его не было в основной части) и подлежащего, выраженного, как правило, местоимением. Интонация зависит от того, какой ответ ожидается, и насколько говорящий уверен в истинности своего высказывания. Вопросы с "хвостиком" употребляются в том случае, когда говорящий ожидает от собеседника подтверждения высказанной мысли. В русском языке вопросам с "хвостиками" соответствуют вопросительные обороты "не правда ли?", "не так ли?" или усилительная частица "ведь" в составе вопросительного предложения.

Например:

They have just arrived, **haven't they?**

Они только что прибыли, *не так ли?*

He wasn't serious, **was he?**

Он *ведь* не серьезно?

Our team will win this match, **won't it?**

Наша команда выиграет этот матч, *не правда ли?*

Justin met her 3 years ago, **didn't he?**

Джастин познакомился с ней 3 года назад, *не так ли?*

You like her, **don't you?**

Она *ведь* тебе нравится?

II. Read and translate the text:

My Household Duties.

This is my last year at school, and I work hard to pass my final exams successfully. As I am very busy, I can't help my parents much in keeping the house. But still I have some household duties.

Every day I do room and my Dad, wash up dishes, dust the furniture and usually go to the baker's after I have dinner. I buy some brown and white bread, biscuits and cakes. The shop is not far from our house and it doesn't take me long to do everyday shopping. Once a week I help my mother to do all other work about the house. We wash our linen, iron and mend it, clean the flat. We beat the dust out of the carpets, vacuum the floors and polish them. It's not difficult to keep the flat tidy if you do your rooms regularly. This is my usual round of duties.

But sometimes I have some other things to do. When my mother is ill or away from home, I do the cooking and the washing up, the buying of food and the planning of meals. I am not a good cook, but my vegetable soup is always tasty. I can also boil an

egg or fry some meat. I also lay the table and clear away the dishes. If I'm too busy or can't do these things, all the duties are organized among other members of our family.

Sometimes I have to visit everyday services: hairdresser's, shoemaker's, tailor's, dry-cleaner's, photographer's. At the hairdresser's I have my hair cut and waved. At the shoemaker's I have my shoes and boots repaired, at the photographer's I have my photos taken. Service is generally good, but in some cases it leaves much to be desired,

My brother has his own duties at home. He helps to fix and repair some things. For example, he repairs electrical appliances when they are out of order. He has already repaired our mother's electric iron, my desk lamp and his own shaver. This year I was at my grandparents. They are elderly people and need care and attention. During my stay there, I swept the floors and washed them, fed the chickens, collected the eggs and weeded the vegetable-beds. I don't know how to milk the cow but I helped to feed the other animals: lambs, sheep and pigs. I enjoyed this work very much.

My brother has a responsibility of mowing the lawn, taking out the rubbish, pruning the trees and cleaning up the yard. He says he likes doing yard work. He's a sportsman, so he enjoys everything physical. He can occasionally do the laundry, which my mom usually does, but he hates doing the cleaning. As for the parents, they both work full time, so it's difficult for them to manage it. My mom still does most of the cooking, washes the windows in the house and cleans the carpets and my dad is responsible for doing repairs which is often needed when you live in a house rather than in a flat. My father is responsible for fixing the breakages in our flat. For example, if something breaks or stops working, he fixes it. He also does daily shopping.

I believe chores are really life lessons for children, so I'm deeply thankful to my mom for such homemaking school.

III. Answer the questions:

1. Why do you work hard?
2. What do you do every day?
3. What do you do once a week?

6. What services do you have to visit?
7. What are your brother's duties at home?
8. What did you do when you were at your grandparents?
9. What do you like to do best of all?

IV. Learn the dialogue:

- Dan, do you mind vacuum-cleaning in the living-room and in the children's bedroom while I am doing the washing-up?

- Oh, I did it just half an hour ago. I have also ironed my shirts and trousers. By the way, there is a coffee stain on a sleeve of my blue shirt. I'll have to take it to the dry-cleaner's tomorrow.

- Oh, dear! Thanks a lot, sweetheart. And don't forget to take our white blanket too.

- Sure. It's rather muddy after the barbecue. And I'll be busy mowing the lawn after dinner.

- That would be great! The grass is really tall after the rains. I'll go and ask Kelly to make their beds, water the plants and dust off.

- OK. And who is going to wash the kitchen floor today?

- I think, Johnny is. The floor becomes so dirty every day. We should be less messy! And I want our son to do the laundry as well.
- Probably we have to hire a cleaning lady to do all the scrubbing and tidying in the house at least once a month.
- I don't mind. Well, let's finish all the housework now. Dinner will be ready in an hour. I bought some beef and fresh vegetables this morning. I will call you to set the table. Johnny, could you take the garbage out while I cook? And don't forget to feed the dog, please.

Описание жилища. Past Continuous.

Цель работы: Введение и закрепление новой лексики по теме. Развитие умения поиска специфической информации; развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

Ход работы: Описание жилища. Текст «Our flat». Past Continuous.

I. Read and give a summary of the text (Прочитайте и перескажите):

OUR FLAT

We live in a comfortable flat in a new house. It is on the fifth floor. It is neither large nor small. There are three rooms in it: a living room, two bedrooms We have also a kitchen, a bathroom and a hall. It is a great pity that we have no balcony.

Our living room is large and light, because there are two wide windows in it. The walls of the room are blue, the curtains on the windows, and the carpet on the floor are of the same colour. There is no much furniture there: a sofa, a table with four chairs, two armchairs and a two armchairs t in the corner. All the members of our family spend a lot of time there.

Our parents occupy one bedroom which is not large but very cosy. There are two beds, a wardrobe, two armchairs and a TV set in it. There is a large thick carpet on the floor, and a nice picture on the wall above the beds.

My brother and I share another bedroom. There, you can see two beds, a small desk near the window, two chairs at the desk: for me and my brother. The bookcase is near the door. There are many books in it. Besides, we have many shelves on the walls. There is a musical centre on one of them. We have a lot of friends. And when they come to see us, we invite them into our room. We usually listen to music or play different games.

Our kitchen is big enough. As a rule, we have breakfast and dinner in the kitchen together. Our mother is cooking for us but sometimes we prepare some tasty things with my brother for our parents.

The hall of our flat is not narrow. There is a big wardrobe there. And besides, there is a telephone on a small round table.

We like our flat very much. We are happy when our relatives and friends visit us.

I. Употребление Past Continuous.

Past Continuous употребляется для обозначения или выражения: Длительного действия, происходящего в определенный момент прошлого.

The fire began right at midnight when everybody was sleeping. – Пожар начался точно в полночь, когда все спали.

Момент может быть обозначен непосредственно указателями времени или другими действиями. At 6 Brooke was cooking. – В 6 Брук готовила. When I called Lily she was packing up. – Когда я позвонил Лили, она упаковывала вещи. Иногда то, что действие длится в определенный момент ясно просто из контекста.

I stood motionless – the enormous bull was galloping towards me. Я стоял без движения – огромный бык неся на меня.

Длительного действия, происходящего в течение какого-то промежутка времени в прошлом. В подобном случае употребляются следующие указатели времени from...to, from...till, all day long, the whole night, when, as, while или схожие с ними.

Kyle and Stephanie were quarrelling all day long yesterday. – Кайл и Стефани ругались вчера весь день.

Действий, запланированных на будущее, если говорящий рассуждал о них в прошлом. Rebecca said she was leaving for Greece in 5 days. – Ребекка сказала, что она уезжает в Грецию через 5 дней.

Употребление Past Simple вместо Past Continuous.

В Past Continuous не употребляются глаголы не имеющие формы Continuous. Вместо них следует использовать форму Past Simple. Colin saw that Jocelyn understood him. – Колин видел, что Джослин понимала его.

Глаголы to sit, to lie, to stand, обозначающие длительное действие, предпочтительнее ставить в Past Simple, если за ними следует Participle I (причастие настоящего времени). Ashton and Gabriella stood by the door, talking loudly. – Эштон и Габриэлла стояли у двери, громко разговаривая. They sat besides Timothy, drinking soda. – Они сидели подле Тимоти, попивая газировку. Sean lay in bed, trying to forget everything. – Шон лежал в кровати, пытаясь забыть обо всем.

Момент может быть обозначен непосредственно указателями времени или другими действиями. At 6 Brooke was cooking. – В 6 Брук готовила. When I called Lily she was packing up. – Когда я позвонил Лили, она упаковывала вещи. Иногда то, что действие длится в определенный момент ясно просто из контекста.

I stood motionless – the enormous bull was galloping towards me. Я стоял без движения – огромный бык несся на меня.

Длительного действия, происходящего в течение какого-то промежутка времени в прошлом. Действий, запланированных на будущее, если говорящий рассуждал о них в прошлом. Rebecca said she was leaving for Greece in 5 days. – Ребекка сказала, что она уезжает в Грецию через 5 дней.

В Past Continuous не употребляются глаголы не имеющие формы Continuous. Вместо них следует использовать форму Past Simple. Colin saw that Jocelyn understood him. – Колин видел, что Джослин понимала его.

Глаголы to sit, to lie, to stand, обозначающие длительное действие, предпочтительнее ставить в Past Simple, если за ними следует Participle I (причастие настоящего времени). Ashton and Gabriella stood by the door, talking

loudly. – Эштон и Габриэлла стояли у двери, громко разговаривая. They sat besides Timothy, drinking soda. – Они сидели подле Тимоти, попивая газировку. Sean lay in bed, trying to forget everything. – Шон лежал в кровати, пытаясь забыть обо всем.

My college.

My college is not the oldest school in the town. But we know that its history began in difficult times after the Great Patriotic War. Our country needed in new houses and buildings. That's why our country needed in good specialists. My college was founded in 1947 as a technical school. It was a two-stored building. There were classrooms on the first floor and on the second floor.

Today our college is a modern educational institution. It is very cosy and spacious. There is a large and light hall, a sport gym, a training room with sport heavy equipment on the ground floor. Many subject classrooms, a rich library and a reading hall are situated on the first floor. We can find any book or any magazine we need there. Our college is well-equipped and uses computing training system in educational process: we have three computer classes. They are usually opened for students and teachers. All classrooms are large and light and have modern equipment: TV-sets, players, notebooks, interactive boards.

Opposite the college it is a club and a canteen. During the lunch-break we go there to have dinner. Besides our college has workshops, laboratories and so on. I think all conditions are given to study and to achieve good results.

There are day-time departments. The academic session lasts 10 months. Our studies begin at 8 o'clock. Usually we have three or four double-periods a day. Every day we attend lectures and have practice. We have a lunch break at 11 o'clock. Our college trains specialists in many branches of knowledge. There are four departments in it: Building department, Technical department, machines and equipment, Landscape design and architecture. The aim of our education is primarily to prepare the students for a job. The senior pupils study various subjects there: mathematics, physics, chemistry, programming, biology, computer science, English and other educational subjects. Students are taught more technical subjects. After college we can work as technicians. We like to repair machines and want to modernize the equipment. We can work in the different plants and factories. We believe our future work will be useful and necessary for people.

There are about 78 teachers in the college. A good teacher ought to know how to organize class work in more efficient and right way, is able to maintain discipline and order, using a lot of different materials, equipment and teaching methods and attempts, and spend time obtaining of knowledge at an occasion with entertainment. They are clever, high-educated, experienced. They are always friendly and helpful to his or her colleagues, and that is as well important keeps in contact with the parents of his or her

students and lets them participate in the life of the college. All the teachers are sociable, attentive, helpful to the students.

Our curator's name is.... He (she) is a very kind man (woman), patient and open. He (she) is always ready to help us, to give us a necessary advice. Sometimes he (she) scolds the student who misses the classes or gets bad marks, but he (she) does it in tactful form. He (she) teaches mechanics and drawing. We often do practical works at his (her) lessons, he (she) gives us to know compound parts of motors and their functioning (operation). We learn much new and interesting materials at mechanics and drawing because explains patiently the new material. We like our curator and respect him (her) for his (her) fairness, strong will, intellect, and modesty.”

The students of our college are the best in the town. There are about 600 students in day-time department. Many of them live with their parents, others - in the hostel. Our students are from 15 till 20 years old. Many of them try to study well to get a scholarship. Our students have no time to be bored. They carry out research work every year! They don't only study successfully but take an active part in non-academic activities! Our group consists of 20 students. We are clever, well-read, hard-working, strong and sportive. We are the first-year students. Many things were very new and unusual for us but we adopted the conditions very quickly, the study gives us pleasure and we try to make good progress, because we want to be good specialists.

Our students do not only study but take an active part **in** non-academic activity.

The college has its own traditions and customs. Every year on the First of September the teaching staff organizes Day of Knowledge. The teachers meet the students and conduct homeroom class. It is the beginning the course of study. We celebrate a holiday “Devoting into the First-Year students.

Практическая работа №10

Рабочий день студента колледжа.

Цель работы: Введение и закрепление новой лексики по теме. Развитие умения поиска специфической информации; развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

Ход работы: The text: My Working Day. Future Indefinite Tense.

I. Read and translate the text:

My Working Day.

On weekdays the alarm clock wakes me up at 6.30 and my working day begins. I am not an early riser, that is why it is very difficult for me to get out of bed, especially in winter. I switch on my tape recorder and do my morning exercises. Then I go to the bathroom, take a warm shower, clean my teeth and shave. After that I go to my bedroom to get dressed. Usually my mother makes breakfast for me. But when she is away on business or just does not have to get up early, I make breakfast myself.

I passed the entrance exams. And finally, I was a first-year student. I entered the college. College life can sound more exciting for me. From the first classes the avalanche of home assignments falls on me. I have to keep late hours if I want to manage to keep pace with the curriculum. As for me, my studies keep me busy all day long. Our classes begin at 8.10 o' clock in the morning. I have six or eight hours a day with a lunch break. My favorite subjects are history and English, because they make my brain in fit.

There is a time-table on the wall when I enter the hall of the college. The time-table includes subjects, the names of the teachers, time and numbers of the rooms for each day of the week. The time-table includes obligatory and optional subjects. In the first year all the students of the technical and specialized schools study the same general educational subjects. They are Russian, literature, English, sciences (physics, mathematics, chemistry), social sciences. We get physical training. The students also begin to study specialized subjects. We have lectures, practice (tutorials) and do laboratory works. During the examination period I almost forget about sweet dreams because twenty-four hours a day I am preparing for my exams. I always say: hard to learn, easy in a battle. Near the time-table there is an advertisement board advertising running meetings, socials, clubs and society sittings. We don't go to the college on Sundays. So by the end of the week I get very tired. All I can do on Sundays is to sleep, watch television, listen to music and read something in English. It is a day off.

Future Simple Tense.

Образование Future Simple происходит при помощи вспомогательного глагола shall / will (отличительная черта всех времен группы Future) для всех лиц и чисел и инфинитива смыслового глагола без частицы to:

I will work. We will work.
 You will work. You will work.
 He (she, it) will work. They will work.

Для образования Future Simple первого лица также можно использовать вспомогательный глагол shall. Но сейчас этим вспомогательным глаголом пользуются все реже и реже.

I shall work. We shall work.

В вопросительных предложениях Future Simple вспомогательный глагол will ставится перед подлежащим:

Will you work? Will he work?

В отрицательных предложениях в Future Simple частица not ставится после will:

I will not work. She will not work.

В качестве сокращенных форм используется 'll и won't ('ll и shan't для глагола shall). Считается, что глагол shall практически перестал использоваться именно потому, что в сокращенной форме оба вспомогательных глагола выглядят одинаково – 'll:

We'll work. They won't work.

Случаи употребления Future Simple основываются на четырех основных функциях, которые выполняет это время.

1.Future Simple может выражать:

простое одиночное действие в будущем:

He will miss the bus. – Он опоздает на автобус.

действие, которое будет занимать определенный период времени в будущем:

Will you be my friend? – Ты будешь моим другом?

последовательность действий в будущем:

I will meet you and tell you the whole story. – Мы встретимся, и я расскажу тебе всю историю.

повторяющиеся действия в будущем:

I will visit you a few times while I'm in London. – Я навещу вас несколько раз пока буду в Лондоне.

2.В предложении используется Future Simple Tense, если человек высказывает свои предположения или мысли насчет будущего (prediction based on what we think or imagine). Обычно в таких предложениях присутствуют глаголы **think** (думать), **believe** (считать, верить), **expect** (ожидать), **imagine** (представлять, воображать), выражения **be sure** (быть уверенным), **be certain** (быть уверенным), **be afraid** (бояться) или наречия **probably** (вероятно), **certainly** (определенно), **perhaps** (наверно):

I think I'll pass the exam. – Думаю, я сдам экзамен.

I'm afraid the rain won't stop soon. – Боюсь, дождь закончится не скоро.

He will certainly come to see us. – Он определенно придет повидаться с нами.

3.Если человек принимает решение насчет своего будущего действия в момент разговора и сразу его озвучивает, это действие передается через Future Simple (on-the-spot decision):

- I'm cold! – Мне холодно.

— I'll give you my jacket. – Я дам тебе свою куртку.

- I know nothing! – Я ничего не знаю!

— Ok, I'll tell you the truth right away! – Хорошо, я расскажу тебе правду прямо сейчас!

- I will order a steak and chips, and you? – Я закажу стейк и жареную картошку, а ты?

Время Future Simple Tense используется для выражения обещания (promise), предложения (offer), угрозы (threat) и просьбы (request):

I'll give you the book after I have read it. – Я дам тебе книгу после того, как сам прочитаю ее. (promise)

Don't worry, everything will be alright. – Не волнуйся, все будет хорошо. (promise)

Will you have a cup of tea? – Тебе налить чашечку чая? (offer)

I'll kill you! – Я тебя убью! (threat)

Will you help me with my homework? — Ты поможешь мне сделать домашнюю работу? (request).

У Future Simple есть слова-спутники: tomorrow (завтра), tonight (сегодня вечером), the day after tomorrow (послезавтра), next week (на следующей неделе), next year (в следующем году), in a week (через неделю), in a month (через месяц), soon (вскоре) и пр.

Практическая работа №11

Посещение библиотеки студентом колледжа.

Цель работы: Введение и закрепление новой лексики по теме. Развитие умения поиска специфической информации; развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

Ход работы: The text: Library. FutureIndefiniteTense.

I. Vocabulary:

infinite - масса, множество; inquire - спрашивать, узнавать; reference - ссылка; сноска; with reference to - ссылаясь на ; title - заглавие, название; alternate - чередовать(ся); сменять друг друга; librarian - библиотекарь; magazine - (периодический) журнал; courageous - смелый, отважный, храбрый; excite - возбуждать, волновать;

II. Read and translate the text:

Library.

The Word library comes from the Latin word 'liber', meaning 'book'. This is a place where information in print (book, manuscripts, periodicals and musical scores) and in

other forms is collected. Libraries can be found in many places. There are libraries in small towns and large cities and there are libraries at schools, universities, colleges. Libraries make an important part of the world culture. There is infinite number of books in the world. We can not buy all the books we like and would like to read. People go to the library to read, look, listen, search, inquire, relax, discuss, learn and think.

The largest and the best known libraries in the world are: the British National library in London, the Library of Congress in Washington and The Russian State Library. The British Library is the largest state library in Britain. The British Library is one of the finest libraries in the world. The Lenin Library is the central library. The Lenin Library is one of the world's largest. The old library building was built in 1786 on a hill opposite the Kremlin by Vasily Bashenov. The Lenin Library was a typical example of a Moscow town residence of that time. Its new buildings were built in 1940. When the library was founded in 1961, it contained over 1000.000 volumes.

There are a lot of reading-halls: special halls for scientific reference work, for current periodicals, for music and art, for foreign languages and others. All books are arranged in alphabetical order. People pay attention to the cover of the book, its illustrations, the name of the author, the title of the book and its contents. When we take a book, we mustn't do dog's ears, we mustn't write anything on the pages, and we must return books in time. It is necessary to follow these rules.

The library is helpful when I have to make a report or when I need information on some subjects. I cannot read one and the same sort of literature for a long time. I prefer to alternate short stories with the novels, love stories with books on history, poems with plays. The choice of books in our library is very good. To enter the library one should have a reading card. A lot of people go to the libraries on weekends.

There is a rich library in my college. I must admit my library is not bad at all. The library is a big light room, very clean and cosy on the ground floor. There are a lot of bookcases and bookshelves there. The rich library and a reading hall are situated on the first floor. We can find any book or any magazine we need there and books of adventure stories, historical novels, collection of short stories. Two nice librarians can help you to find the book you need. Students go to the library to read and to take books, to look through some new magazines and newspapers. Many teachers go to the library too. I often read for pleasure and sometimes for information. So I'm interested in different kinds of books. I like to read stories about heroes, great travelers, explorers, and courageous men. These books excite my imagination.

III. Questions:

Is there a library in your college?

Do you like to read books?

How often do you go to the library?

What kind of books do you like to read?

Why do a lot of people visit library on weekends?

Future Simple Tense.

Образование Future Simple происходит при помощи вспомогательного глагола shall / will (отличительная черта всех времен группы Future) для всех лиц и чисел и инфинитива смыслового глагола без частицы to:

I will work. We will work.
You will work. You will work.
He (she, it) will work. They will work.

Для образования Future Simple первого лица также можно использовать вспомогательный глагол shall. Но сейчас этим вспомогательным глаголом пользуются все реже и реже.

I shall work. We shall work.

В вопросительных предложениях Future Simple вспомогательный глагол will ставится перед подлежащим:

Will you work? Will he work?

В отрицательных предложениях в Future Simple частица not ставится после will:

I will not work. She will not work.

В качестве сокращенных форм используется 'll и won't ('ll и shan't для глагола shall). Считается, что глагол shall практически перестал использоваться именно потому, что в сокращенной форме оба вспомогательных глагола выглядят одинаково – 'll:

We'll work. They won't work.

Случаи употребления Future Simple основываются на четырех основных функциях, которые выполняет это время.

1.Future Simple может выражать:

простое одиночное действие в будущем:

He will miss the bus. – Он опоздает на автобус.

действие, которое будет занимать определенный период времени в будущем:

Will you be my friend? – Ты будешь моим другом?

последовательность действий в будущем:

I will meet you and tell you the whole story. – Мы встретимся, и я расскажу тебе всю историю.

повторяющиеся действия в будущем:

I will visit you a few times while I'm in London. – Я навещу вас несколько раз пока буду в Лондоне.

2.В предложении используется Future Simple Tense, если человек высказывает свои предположения или мысли насчет будущего (prediction based on what we think or imagine). Обычно в таких предложениях присутствуют глаголы **think** (думать), **believe** (считать, верить), **expect** (ожидать), **imagine** (представлять, воображать), выражения **be sure** (быть уверенным), **be certain** (быть уверенным), **be afraid** (бояться) или наречия **probably** (вероятно), **certainly** (определенно), **perhaps** (наверно):

I think I'll pass the exam. – Думаю, я сдам экзамен.

I'm afraid the rain won't stop soon. – Боюсь, дождь закончится не скоро.

He will certainly come to see us. – Он определенно придет повидаться с нами.

3.Если человек принимает решение насчет своего будущего действия в момент разговора и сразу его озвучивает, это действие передается через Future Simple (on-the-spot decision):

- I'm cold! – Мне холодно.

— I'll give you my jacket. — Я дам тебе свою куртку.

- I know nothing! — Я ничего не знаю!

— Ok, I'll tell you the truth right away! — Хорошо, я расскажу тебе правду прямо сейчас!

- I will order a steak and chips, and you? — Я закажу стейк и жареную картошку, а ты? Время Future Simple Tense используется для выражения обещания (promise), предложения (offer), угрозы (threat) и просьбы (request):

I'll give you the book after I have read it. — Я дам тебе книгу после того, как сам прочитаю ее. (promise)

Don't worry, everything will be alright. — Не волнуйся, все будет хорошо. (promise)

Will you have a cup of tea? — Тебе налить чашечку чая? (offer)

I'll kill you! — Я тебя убью! (threat)

Will you help me with my homework? — Ты поможешь мне сделать домашнюю работу? (request).

У Future Simple есть слова-спутники: tomorrow (завтра), tonight (сегодня вечером), the day after tomorrow (послезавтра), next week (на следующей неделе), next year (в следующем году), in a week (через неделю), in a month (через месяц), soon (вскоре) и пр.

II. Read and translate the text:

Day Off.

Most people in our country work five days a week but students and pupils work six days. They have only one day off. It is Sunday.

I like this day very much. You needn't hurry anywhere and you may go wherever you like after your week's work. On this day I wake up later than usual. But sometimes I don't get up till nine or ten o'clock. I read morning newspapers or listen to music.

As soon as I get up I air the room, make my bed and do morning exercises. Then I have breakfast, clear away the dishes and wash up. Two more hours for getting ready with my homework, and I am free.

I meet my friends and we discuss our plans together. We may go to the cinema or theatre, to museums and parks. Last Sunday we went to the park. There were many beds of spring flowers there: red, yellow and blue. People in light clothes were walking along the

paths. The air was fresh and clean. It was very pleasant to spend time there. In fine weather we also like to be out of town. We find a nice place somewhere in the forest or on the bank of the river. We lie in the sun, play different games and swim. In winter my friends and I often go to the skating-rink. Skating is my favourite kind of sport, but I like to ski too.

When the weather is bad my friends come to my place. We listen to music or go to the cinema. We like films about the life of the youth abroad. On the way home we usually discuss the films we've seen.

In the evening all the members of our family get together. We have our supper, make plans for tomorrow, watch TV or read books. Reading is my hobby. Sometimes we receive guests at our place or go for a walk. I enjoy my days off very much.

III. Answer the questions:

A thing we do in our free time for recreation and pleasure is called a hobby. Hobbies are practiced for interest and enjoyment, rather than for money. The person who does something for fun, not remuneration, is called an amateur (or hobbyist). Engaging in a hobby can lead to acquiring substantial skill, knowledge, and experience. The aim of a hobby is pleasure and personal fulfillment.

Hobby can be any type of activity, which people do during their leisure time. Most people choose a hobby for relaxation, pleasure, or for development of new interests. People of almost any age can enjoy hobbies. A hobby offers a way to relax after periods of hard work. Almost any kind of leisure activity can become a hobby. Most hobbies are divided into four general categories, which may overlap. They are the arts, collecting, handicrafts, games and sports.

There are such art forms, as dancing, drama, painting, graphic arts and music. Each art form has many possibilities for a hobby. For example, music may include singing, playing an instrument, collecting records and tapes, learning ballet, or attending concerts or operas. Painting offers the hobbyist a wide choice of materials, such as oil paints or water colours.

Collecting is probably the most widespread kind of hobby, because almost any thing can be collected. Stamps and coins are the most popular items. Hobbyists also collect such things as autographs, books, dolls, buttons.

Handicrafts attract a hobbyist who can work skillfully with their hands. Many of them are engaged in needlework activities, crocheting, knitting and sewing. Some use kits to make model aeroplanes, boats and trains. Other handicrafts include ceramics, metalworking, jewellery making.

Games and sports are popular with many hobbyists who enjoy competition, physical activity and exercise. Thousands of hobbyists take part in sports, such as bowling, fishing, mountain climbing, skiing and tennis. Popular indoor games include card games, chess. Nowadays, electronics-related hobbies are becoming increasingly popular. Many people, especially children, play computer games.

III. English grammar. Present Simple.

We use the Present Simple to talk about repeated actions or events, permanent states or things which are always true. We use the present simple to talk about things which are repeated

every day, every week, every year.

Examples: I usually get up at seven o'clock. During the week I have swimming practice on Mondays, I do taekwondo on Tuesdays and tennis on Thursdays. We always go on holiday in the summer.

We often use adverbs of frequency **sometimes, often, usually** or other time expressions like

on Mondays, twice a week or in the summer.

Permanent states are situations or feelings which are temporary.

Examples: I like him a lot. Sophie works as a travel writer. They live in London.

We also use the present simple for general facts, for example when talking about science or geography.

Examples: Thailand is really hot at this time of year. Snakes live on the ground, in trees and in water.

The main thing is that the third person singular forms end in -s, -es. That is for he, she, it.

Examples: He watches black and white films at his cinema club on Wednesdays. He thinks chess is a sport.

The other forms don't end in -s, -es.

Examples: I watch TV a lot. We think Coldplay are boring.

What about questions and negatives?

For most verbs we use the present simple of the verb do / does + subject + infinitive without to to form questions.

Examples: **Do** you **see** him on Wednesdays then? **Does** Jack **like** sports?

For negatives we use **the subject + do / does + not + infinitive without to**.

Examples: Daisy and Jack don't go out together much at the weekend. I don't think Coldplay are boring.

To go back to the idea of permanent and temporary things, what about this sentence: Is your mum in Thailand this week? Isn't that temporary?

That is a very good point. Normally we use the present simple for permanent states, and the present continuous for temporary states, but some verbs are thought of as State Verbs and they are not usually used in the continuous form.

And the verb **to be** is one of those verbs? So even though staying in Thailand is temporary, we use the present simple with the verb **to be**.

Example: How is Daisy? Is she with you?

But that isn't the question form you just told me about. Where is the verb **do**? We use **do** in questions'.

The verb **to be** is different and so are modal verbs like **can**. We shall look at the verb to be separately because it is different and very common.

What are the other state verbs?

We shall look at those when we look at the Present Continuous. Any more questions?

Example: The train leaves at five in the morning. Isn't that talking about an event in the future?

But it is also a repeated event. This is sometimes called the "timetable future".

Example: I have a maths in a minute, so I have to go.

IV. Complete the questions. Use the present simple or the present continuous:

1. ...(your mum/work) today?
2. How often ... (you/play) football?
3. ...(your classmates/write) now?
4. When ... (you/usually do) your homework?
5. ...(your teacher/talk) at the moment?
6. ...(you/always speak) English in class?

The Past Simple Tense

Образование:

Утвердительная форма Past Simple:

- правильных глаголов образуется путём прибавления окончания **-ed-**.

- неправильные глаголы имеют особый способ образования формы прошедшего времени.

I worked/wrote;

He worked/wrote;

She worked/wrote;

It worked/wrote;

We worked/wrote;

You worked/wrote;

They worked/wrote;

Примеры:

He opened the windows in his room = Он открыл окна в своей комнате.

I wrote a letter yesterday = Я написал письмо вчера.

Отрицательная форма Past Simple:

- правильных и неправильных глаголов образуется при помощи вспомогательного глагола **did not** или сокращенно **didn't**. Основной глагол не изменяется (словарная форма):

I did not work/write (I didn't work/write).

He did not work/write (He didn't work/write).

She did not work/write (She didn't work/write).

It did not work/write (It didn't work/write).

We did not work/write (We didn't work/write).

You did not work/write (You didn't work/write).

They did not work/write (They didn't work/write).

Примеры:

She didn't know what to do = Она не знала что делать.

They didn't like the idea = Им не понравилась идея (мысль).

Вопросительная форма Past Simple:

- правильных и неправильных глаголов образуется при помощи вспомогательного глагола **did**, который ставится перед подлежащим. Основной глагол не изменяется (словарная форма):

Did I write?

Did he write?

Did she write?

Did it write?

Did we write?

Did you write?

Did they write?

Примеры:

Did you help him? = Ты помог ему?

Did I say something funny? = Я сказал что-то смешное?

Употребление:

Past Simple обозначает действие, произошедшее в прошлом и время совершения которого истекло:

- например, когда на прошлое прямо указано такими словами как: last year = в прошлом году, five days ago = пять дней тому назад, yesterday = вчера, an hour ago = час назад, in 1985 = в 1985 году и т.д.

I returned home yesterday = Я возвратился домой вчера.

I spoke to him three days ago = Я разговаривал с ним 3 дня тому назад.

They didn't like the news = Им не понравилась новость.

Did Dan work at a factory? = Дэн работал на фабрике?

- когда время совершения становится ясным благодаря упоминанию места действия и других сопутствующих обстоятельств. Или из контекста (разговора, содержания текста) становится ясным, что речь идет о прошлом.

We met when I was in France = Мы познакомились, когда я был во Франции.

I didn't understand what you said = Я не понял, что вы сказали.

He changed his point of view = Он изменил свою точку зрения.

Примечание: в специальных вопросах, начинающихся с **when** (= когда) и **where** (= где), практически всегда употребляется **Past Simple**, так как такие вопросы относят действие к конкретной ситуации в прошлом:

When did you see him? = Когда ты его видел?

Where did you see him? = Где ты его видел?

- для выражения обычных, регулярно повторяющихся действий в прошлом:

He always came to school in time = Он всегда приходил в школу вовремя.

She never talked to us = Она никогда не разговаривала с нами.

Last winter I spent a lot of time in the library = Прошлой зимой я проводил много времени в библиотеке.

- для выражения действий, происходивших последовательно друг за другом:

He opened the door and went out of the room = Он открыл дверь и вышел из комнаты.

He took a book, opened it and began reading it = Он взял книгу, открыл ее начал читать.

Вместо **Past Simple** для выражения повторяющихся, регулярных действий или длительных состояний в прошлом, но прекратившихся в настоящем, часто употребляется **used to** (= иметь обыкновение) в сочетании с инфинитивом. На русский переводится прошедшим временем несовершенного вида, часто с наречием *обычно, бывало*, например:

I used to write home twice a week = Я, бывало, писал домой дважды в неделю (но сейчас не пишу).

She used to get up early = Она обычно вставала рано (но сейчас не встает рано).

Did he use to take French lessons? = Он раньше брал уроки французского языка? (а сейчас не берет их).

He didn't use to take English lessons = Он раньше не брал уроки английского языка (а сейчас берет).

Leisure.

Leisure is time spent in non-compulsory activities. Because leisure time is free from compulsory activities such as work, study, household duties, eating and sleeping, it is often referred to as 'free time'. When we have time for leisure, we usually need

something that can amuse and interest us. There are several ways to do this. People use radio or television. They switch on the radio set or TV set and choose the programme they like best. Some people like music. They listen to various concerts of modern and old music, new and old songs, and see dances. Those who are fond of sports listen to or watch football and hockey matches. These are the most popular kinds of sports. There are a lot of fans among people. They can also see championships in athletics and other kinds of sports. Radio and television extend our knowledge about the world. Television helps us to “visit” different lands, see new plants, animals, unusual birds, fish and insects, mountains and valleys, lakes, rivers and seas. We are shown different countries, cities and towns and people who live there. This is what we can do at home.

If we want to go out, there are a lot of cinemas, theatres, museums and clubs where we can spend our free time. It is often difficult to decide where to go in the evening. Newspapers tell us what is on at cinemas and theatres. If you are a theatre-goer, you will choose a play you want to see. If you are a film fan, you will go to a cinema. Those who are interested in music may go to a concert. Some people like to go to discos, some people prefer to go to see their friends or to go to a restaurant. Old traditions are coming to life. In some places they build “Huts, on hen's legs”, taverns in the old Russian style, where people can -meet their friends, have pleasant talks, eat Russian food and listen to Russian music. So you can see how interesting are the ways in which leisure time can be spent.

II. Grammar forms:

Present Simple.

We use the Present Simple to talk about repeated actions or events, permanent states or things which are always true. We use the present simple to talk about things which are repeated

every day, every week, every year.

Examples: I usually get up at seven o'clock. During the week I have swimming practice on Mondays, I do taekwondo on Tuesdays and tennis on Thursdays. We always go on holiday in the summer.

We often use adverbs of frequency **sometimes, often, usually** or other time expressions like

on Mondays, twice a week or in the summer.

Permanent states are situations or feelings which are temporary.

Examples: I like him a lot. Sophie works as a travel writer. They live in London.

We also use the present simple for general facts, for example when talking about science or geography.

Examples: Thailand is really hot at this time of year. Snakes live on the ground, in trees and in water.

The main thing is that the third person singular forms end in -s, -es. That is for he, she, it.

Examples: He watches black and white films at his cinema club on Wednesdays. He thinks chess is a sport.

The other forms don't end in -s, -es.

Examples: I watch TV a lot. We think Coldplay are boring.

What about questions and negatives?

For most verbs we use the present simple of the verb do / does + subject + infinitive without to to form questions.

Examples: **Do** you **see** him on Wednesdays then? **Does** Jack **like** sports?

For negatives we use **the subject + do / does + not + infinitive without to**.

Examples: Daisy and Jack don't go out together much at the weekend. I don't think Coldplay are boring.

To go back to the idea of permanent and temporary things, what about this sentence: Is your mum in Thailand this week? Isn't that temporary?

That is a very good point. Normally we use the present simple for permanent states, and the present continuous for temporary states, but some verbs are thought of as State Verbs and they are not usually used in the continuous form.

And the verb **to be** is one of those verbs? So even though staying in Thailand is temporary, we use the present simple with the verb **to be**.

Example: How is Daisy? Is she with you?

But that isn't the question form you just told me about. Where is the verb **do**? We use **do** in questions'.

The verb **to be** is different and so are modal verbs like **can**. We shall look at the verb to be separately because it is different and very common.

What are the other state verbs?

We shall look at those when we look at the Present Continuous. Any more questions?

Example: The train leaves at five in the morning. Isn't that talking about an event in the future?

But it is also a repeated event. This is sometimes called the "timetable future".

Example: I have a maths in a minute, so I have to go.

II. English grammar.

The **Simple Past Tense**, often just called the **Past Tense**, is easy to use in English.

The **Past Tense** is used to talk about something that started and finished at a definite time in the past.

How to form the Past Tense in English

The main rule is that for every verb in English, there is only one form of it in the past tense.

(The exception is the Past tense of To Be, which has two forms: *was* and *were*)

For example: The past tense of the verb **want** is **wanted**.

Wanted is used as the past tense for all subjects/pronouns.

- I wanted
- You wanted
- He wanted
- She wanted
- It wanted
- We wanted
- They wanted

So you just have to learn one word to be able to use it in the past tense. In this case we just needed to learn the one word *wanted* which can be used for all subjects (or people).

Past Tense Regular Verbs

To change a regular verb into its past tense form, we normally add –ED to the end of the verb.

- play – played
- cook – cooked
- rain – rained
- wait – waited

There are some exceptions with a slight change in spelling which you can see here:

Spelling of words ending in ED.

Examples of sentences using regular verbs in the past tense

- Last night I **played** my guitar loudly and the neighbors **complained**.
- She **kissed** me on the cheek.
- It **rained** yesterday.
- Angela **watched** TV all night.
- John **wanted** to go to the museum.

Note: There are three different ways of pronouncing the –ed at the end of a verb in the past tense.

We recommend reading our guide about the pronunciation of –ED at the end of words.

Negative sentences in the Past Tense

We use **didn't (did not)** to make a negative sentence in the past tense.

This is for regular AND irregular verbs in English.

(Exception is *To Be* and Modal Verbs such as *Can*)

Compare the following:

Present: They **don't** live in Canada.

Past: They **didn't** live in Canada.

The main verb (*live* in the example above) is in its base form (of the infinitive). The auxiliary *DIDN'T* shows that the sentence is negative AND in the past tense.

NOTICE: The only difference between a negative sentence in the present tense and a negative sentence in the past tense is the change in the auxiliary verb.

Both **don't** and **doesn't** in the present tense become **didn't** in the past tense.

Compare the negative sentences in the examples below:

Present: You **don't** need a mechanic.

Past: You **didn't** need a mechanic.

Present: You **don't** walk to work.

Past: You **didn't** walk to work.

Present: He **doesn't** speak Japanese.

Past: He **didn't** speak Japanese.

Examples of negative sentences in the Past Tense

- I **didn't** want to go to the dentist.
- She **didn't** have time.
- You **didn't** close the door.
- He **didn't** come to my party.
- They **didn't** study so they **didn't** pass the test.
- We **didn't** sleep well last night.

I. Read and translate the text:

My Day off.

When we have time for leisure, we usually need something that can interest and amuse us. There are several ways to do this. In big cities it's often difficult to decide where to go in the evening.

If we want to go out there are a lot of theatres, cinemas and clubs in our country where we can spend our free time. (But in small towns and villages they have no actors of their own. So they invite a group of actors from a big town to show plays.)

People who are fond of music join a musical section where they are taught to play different instruments. Those who like to dance join a dancing section.

People who are interested in sports can join sport sections such as tennis, basket-boll, chess and others. And, of course, all the people use radio or television. They switch on the radio set or TV set and choose the programme they like best of all. People who are interested in sports listen to or watch football and basket-ball matches. Everyone likes to see skating and dancing on the ice.

Some people like music. They listen to concerts of modern and old music, new and old songs and see dances. Television helps us to "visit" different lands, see fish and insects, lakes, rivers and seas. We are shown different countries, cities and people who live there. On TV people could even see both sides of the Moon.

Radio and television extend our knowledge about the world. All that we can do at home. So I think, that ways in which leisure time can be spent are different and interesting!

3. She/study English/ twice a week.
4. When ...(you/usually do) your homework?
5. ...(your teacher/talk) at the moment?
6. ...(you/always speak) English in class?

V. Present Simple.

We use the Present Simple to talk about repeated actions or events, permanent states or things which are always true. We use the present simple to talk about things which are repeated **every day, every week, every year.**

Examples:

I usually get up at seven o'clock. During the week I have swimming practice on Mondays, I do taekwondo on Tuesdays and tennis on Thursdays. We always go on holiday in the summer.

We often use adverbs of frequency **sometimes, often, usually** or other time expressions like

on Mondays, twice a week or in the summer.

Permanent states are situations or feelings which are temporary.

Examples: I like him a lot. Sophie works as a travel writer. They live in London.

We also use the present simple for general facts, for example when talking about science or geography.

Examples: Thailand is really hot at this time of year. Snakes live on the ground, in trees and in water.

The main thing is that the third person singular forms end in -s, -es. That is for he, she, it.

Examples: He watches black and white films at his cinema club on Wednesdays. He thinks chess is a sport.

The other forms don't end in -s, -es.

Examples: I watch TV a lot. We think Coldplay are boring.

What about questions and negatives?

For most verbs we use the present simple of the verb do / does + subject + infinitive without to to form questions.

Examples: **Do** you **see** him on Wednesdays then? **Does** Jack **like** sports?

For negatives we use **the subject + do / does + not + infinitive without to.**

Examples: Daisy and Jack **don't** go out together much at the weekend. I **don't** think Coldplay are boring.

To go back to the idea of permanent and temporary things, what about this sentence: Is your mum in Thailand this week? Isn't that temporary?

That is a very good point. Normally we use the present simple for permanent states, and the present continuous for temporary states, but some verbs are thought of as State Verbs and they are not usually used in the continuous form.

And the verb **to be** is one of those verbs? So even though staying in Thailand is temporary, we use the present simple with the verb **to be**.

Example: How is Daisy? Is she with you?

But that isn't the question form you just told me about. Where is the verb **do**? We use **do** in questions'.

The verb **to be** is different and so are modal verbs like **can**. We shall look at the verb to be separately because it is different and very common.

What are the other state verbs?

We shall look at those when we look at the Present Continuous. Any more questions?

Example: The train leaves at five in the morning. Isn't that talking about an event in the future?

But it is also a repeated event. This is sometimes called the "timetable future".

Example: I have a maths in a minute, so I have to go.

The **Simple Past Tense**, often just called the **Past Tense**, is easy to use in English.

VI. The **Past Tense** is used to talk about something that started and finished at a definite time in the past.

How to form the Past Tense in English

The main rule is that for every verb in English, there is only one form of it in the past tense.

(The exception is the Past tense of To Be, which has two forms: *was* and *were*)

For example: The past tense of the verb **want** is **wanted**.

Wanted is used as the past tense for all subjects/pronouns.

- I wanted
- You wanted
- He wanted
- She wanted
- It wanted
- We wanted
- They wanted

So you just have to learn one word to be able to use it in the past tense. In this case we just needed to learn the one word *wanted* which can be used for all subjects (or people).

Past Tense Regular Verbs

To change a regular verb into its past tense form, we normally add –ED to the end of the verb.

- play – played
- cook – cooked
- rain – rained
- wait – waited

There are some exceptions with a slight change in spelling which you can see here:

Spelling of words ending in ED.

Examples of sentences using regular verbs in the past tense

- Last night I **played** my guitar loudly and the neighbors **complained**.

- She **kissed** me on the cheek.
- It **rained** yesterday.
- Angela **watched** TV all night.
- John **wanted** to go to the museum.

Note: There are three different ways of pronouncing the –ed at the end of a verb in the past tense.

We recommend reading our guide about the pronunciation of –ED at the end of words.

Negative sentences in the Past Tense

We use **didn't (did not)** to make a negative sentence in the past tense.

This is for regular AND irregular verbs in English.

(Exception is *To Be* and Modal Verbs such as *Can*)

Compare the following:

Present: They **don't** live in Canada.

Past: They **didn't** live in Canada.

The main verb (*live* in the example above) is in its base form (of the infinitive). The auxiliary *DIDN'T* shows that the sentence is negative AND in the past tense.

NOTICE: The only difference between a negative sentence in the present tense and a negative sentence in the past tense is the change in the auxiliary verb.

Both **don't** and **doesn't** in the present tense become **didn't** in the past tense.

Compare the negative sentences in the examples below:

Present: You **don't** need a mechanic.

Past: You **didn't** need a mechanic.

Present: You **don't** walk to work.

Past: You **didn't** walk to work.

Present: He **doesn't** speak Japanese.

Past: He **didn't** speak Japanese.

Examples of negative sentences in the Past Tense

- I **didn't** want to go to the dentist.
- She **didn't** have time.
- You **didn't** close the door.
- He **didn't** come to my party.
- They **didn't** study so they **didn't** pass the test.
- We **didn't** sleep well last night.

Marks & Spencer is Britain's favourite store. Today there are 564 branches of Marks & Spencer all over the world. The store bases its business on 3 principals: good value, good quality and good service. most important key to its success is its happy well-trained staff. Conditions of work are excellent. Shopping in Britain is also famous for its Fresh food. Fresh food is a chain of food stores and very successful supermarkets.

Some shops have many departments. We can buy nearly everything we need there. They are called department stores.

There are many shops where even licensed articles (such as clock, cameras, videos, electrical appliances, etc.) are sold at a discount and their value results much cheaper than at the departments stores. There are similar clothes shops.

Shopping malls are typical for many countries where a lot of specialized stores and a big department store are joined in one building. There is also a restaurant and some food shops. There can be a movie hall as well so the clients can spend the whole day at the shopping mall. Clients usually pay cash or by credit cards. Customers are better to keep the receipt to be able to exchange the thing they bought in case of necessity or return it and get a refund.

Many stores organize special seasonal sales and experienced buyers are looking forward to visiting them. People learn about discount periods from the newspapers and thus can save a lot of money.

Questions:

1. How is it possible to save some money if you are going to buy expensive things?
2. What is a shopping mall?
3. Why is it necessary to keep the receipt?

Goods.

There are many different goods, so there are many shops which sell this or that kind of products. Department stores have many different departments: haberdashery, headwear, perfumery, stationery, leather goods, sports goods, china and glass, fabrics, linen, readymade men's and ladies' departments. In the ladies' clothing department you can choose dresses, skirts, blouses, coats, underwear. In the men's clothing department one can buy suits, sweaters, cardigans, pullovers, trousers and woolen jackets.

We go to the dairy shop to buy milk, cream, cheese. Tinned fish, caviar, crabs, lobsters, and different sorts of fish — carp, cod, salmon, trout, mackerel — can be found at the fishmonger's. Sugar, semolina, buckwheat, rice, coffee, spaghetti, noodles are sold at the grocer's. At the greengrocer's we can find all sorts of vegetables and fruit. Well, all this stuff you may buy at a market place and very often it is cheaper and of better quality. There are also big supermarkets where you can buy everything. Such shops are very

universal and well-stocked. Moreover, we can order goods by telephone and with the help of different catalogues and fashion magazines.

If you want to do the shopping you should know some rules. First of all, you should pay for everything you buy. It is important to spend money rationally. If you are queuing up at the cash-desk you need to wait for your turn. You should check your money before and after paying. It is important to think over your choice and to buy only good things. These are the main rules of shopping. Knowing the rules helps to get real bargains.

cereals, flour, tea, coffee, sugar. Meat and poultry can be bought at the butcher's. But if you need food products, you'd better go to a food supermarket where they sell various products under one roof and it is very convenient.

When your clothes become old and worn out or small, you go to a department store which consists of different departments: ready-made clothes, fabrics, shoes, sport goods, toys, china and glass, electric appliances, hi-fi equipment, cameras, records, etc. You can buy everything you need there. Things for sale are on the counters and are easily seen. In the women's clothing department there are dresses, costumes, skirts, blouses, coats and many other things. In the men's clothing department you can choose suits, trousers, jackets, shirts, ties. In the knitwear department they sell sweaters, pullovers, woolen jackets, caps and gloves.

If you do your shopping in a self-service shop, then you go from counter to counter, choose and put into your basket what you want to buy. Спорт; развитие умения поиска специфической информации; развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

Ход работы: The text: Physical culture. Present Perfect.

I. Read and translate the text:

Physical culture.

Physical culture is the shortest and surest way of building up one's health. Many people go in for sports. That's one thing in which people of different nationalities are united. The main purpose of physical culture is not to produce champions but to develop strong and healthy people. Sport requires from a person quickness of reaction and endurance, strength, quick feet. Sport makes one more energetic and gives that recreation and change that is so necessary to keep us fit. Sport helps men to find a common language with people of all occupations, ages, interests, it develops international understanding and friendship, helps to strengthen peace and good neighbour relations among nations.

There are numerous sports to choose and some of them depend on the time of the year. Sports are not only a way of keeping fit and spending your free time but they are also a way of socialising with different people outside of work or school. There are a variety of sports that we can participate in today, for example, basketball, archery, swimming, table tennis, hockey, golf, badminton, squash; mountaineering, athletics (field and track events); water sports (water-skiing, canoeing) and horse racing.

Cricket and tennis are also very popular and traditional summer sports. There are winter kinds of sports such as skiing and biathlon. Many people like to watch the competitions on TV and try to find free time to spend a couple of hours in the fresh air, skiing or skating. Numerous recreation grounds and sports centers in our country give everyone the opportunity to try practically any sport they want to and to be taught how to play it properly as well.

Sports.

Sport plays a big role in our life. Many people do sport in our country. They want to stay healthy. Sport is a good mean of struggling with stress.

In my opinion sport is important for healthy free time. Sport also makes people strong and prepares a lot of joy.

Some people participate in sports, others prefer watching them on TV. It is known that walking for an hour is healthier than irregular participation in any active physical activities. To keep fit some people join special classes or take part in aerobics or yoga, do some kind of training in a gym. Others play football, badminton, volleyball, tennis.

Sport is probably as old as the humanity itself. All over the world people of different ages are very fond of sports and games. Firstly, sport helps people to become strong and to develop physically. Secondly, it makes them more organized and better disciplined in their daily activities. Also sport keeps your mind healthy. Sport helps people to keep in good health. We all need to exercise. Regular exercises gives you more energy. Exercises make you feel and look better. The best exercises are: walking, jogging or swimming, tennis, swimming, basketball, football, valley-ball. Among the sports popular in our country are football, basketball, swimming, volley-ball, ice hockey, tennis, gymnastics, figure skating. A person can choose sports and games for any season, for any taste.

It is known that healthy people live longer and their career is more successful. To look well you must follow some simple rules: don't smoke and take drugs, don't drink alcohol, don't eat too much chips and sweets, eat more vegetables and fruits, sleep well, do exercises.

A Healthy Lifestyle.

One of the most valuable things in our life is health but a lot of teenagers do not pay enough attention on leading a healthy lifestyle. However it is very important to take care of our bodies and everyone has to be concerned about it since childhood. The rules of healthy living are not very difficult to follow – the key feature is to understand that our bodies and minds do depend on the way we treat them. And we need to remember that looking after our health today means a better hope for tomorrow.

It is not a secret that our bodies and minds are closely connected and we can enjoy our life when we are healthy both physically and mentally. Being friendly and cheerful is one of the best promoters of health. And one more rule to remember is finding some time and attention for ourselves.

The first thing to mentioned is the diet we follow. Having a healthy well-balanced diet is one of the main features of avoiding the long list of modern diseases including obesity, diabetes, and hypertension. Our bodies need to get vitamins, minerals and nutrients regularly so the best way to feel and look good is eating enough fruit and vegetables and avoiding fast food.

The next important rule for being healthy is having enough exercise. There are so many ways to feel the pleasures of being active – sports, dancing, or just walking. Regular exercising is a great way to be healthy and to enjoy life. Smoking, alcohol and drug addictions can not only destroy our bodies but, unfortunately, can ruin all the hopes for the future.

At the Museum.

The town I live in is not very large and there are no big galleries and museums in it. But we have a good Natural History Museum in our town.

Last week I was on an excursion there. First we listened to a lecture on the history of our region which was very interesting. Then a guide showed us the exposition of the museum. We walked through its halls looking at different stands with exhibits. There were ancient vases and coins, dishes and bowls, tools and arms. The guide told us about the origin and the age of the exhibits and answered our questions. The girls asked questions about national costumes and dishes and the boys were interested in arms.

The next hall was even more interesting. There we saw stuffed animals and birds. It was a small zoo of the region nature. There was also an aquarium full of different fish, tortoises and shells. The collection of minerals was interesting, too.

I have learned very much from my visit to the museum.

Political system of Russia.

The Russian Federation is a Presidential (or a constitutional) republic. The President is the head of the state and is elected directly by the people. In fact he has much power, he controls all the three branches of power. The President can even dissolve the Duma if he doesn't agree with his suggestions three times running. The President has his administration, but it's not part of the Federal Government. The President is involved in the work of the legislative and executive branches.

The Federal Assembly represents the Legislative branch of power. It's made up of the two houses: the Federation Council and the State Duma, which make laws. The Federal Assembly is also called the Parliament, but it's not its official name. Both chambers are headed by chairmen sometimes called speakers. The Duma consists of 450 deputies (one half is elected personally by the population, and the other half consists of the deputies who are appointed by their parties after voting). The members of the Federation Council are elected on a different basis. There are two representatives of each subject of the RF (89 subjects). Every law to be adapted must be approved by the State Duma, the Council of Federation and signed by the President. The President can veto laws passed by the Federal Assembly, but it can pass laws over the President's veto a two-thirds majority. The Federal Government represents the executive branch of power. The President appoints its head, the Chairman of the Government, but the Dums must approve his appointment.

The juridical branch of power consists of the Constitutional Court, the Supreme Court and lower Courts. The responsibility of the Constitutional Court is to analyse the new laws to make sure they correspond to the laws of the state. The Constitutional Court has the right to declare actions of the President, the Federal Assembly and the Federal Government unconstitutional. The Supreme Court is the highest instance for civil and criminal cases.

The USA.

The USA occupies the central part of the North American continent. It borders on Canada in the north and Mexico in the south. It is washed by the Atlantic Ocean in the east, by the Pacific Ocean in the west and by the Gulf of Mexico in the south.

The present territory of the USA consists of three separate parts. The USA proper and Alaska are situated in North America. The Hawaii are situated in the central part of the Pacific Ocean.

The area of the country is about 9,400,000 km². Its population is about 256 million people.

No general statement can be made about the landscape of the USA. It is a country of mountains and prairies, valleys and deserts. About one half of the territory in the west is occupied by the Cordilleras. In the east there are the Appalachian Mountains. Between these great mountain chains central and large valleys lie.

The Rocky Mountains extend from Alaska through Canada and the USA to Mexico. Together with the Sierra Nevada Mountains in California they have snow-capped peaks and clear mountain lakes.

The Great Lakes are situated in the north-east of the country. They are Lake Ontario, Lake Huron, Lake Erie, Lake Superior, Lake Michigan. The largest rivers of the USA are the Mississippi, the Missouri, the Columbia, the Colorado, and the Yukon. American rivers have very expressive names: the Snake River, the Milk River, the Green River, the Sweetwater River, the White River.

The USA has rich deposits of coal, oil, iron, zinc, copper, silver, phosphate rock, natural gas, uranium and nonferrous metals. The country has one fourth of the world's coal deposits.

The British Isles lie in the north-west of Europe. They consist of two large islands, Great Britain and Ireland, and many smaller ones. Great Britain, the largest island in Europe, includes England, Scotland, and Wales. It is separated from Ireland by the Irish Sea, and from the Continent by the English Channel and the Straits of Dover. Great Britain and Northern Ireland form the United Kingdom (UK).

The surface of England and Ireland is flat, but the surface of Scotland and Wales is mountainous. The mountains are almost all in the western part. The highest mountain in the United Kingdom is Ben Nevis in Scotland (1343 m). The longest river is the Severn. It is in the south-west of England. The Thames is not so long as the Severn, it is shorter. The sea enters deeply into the land and has a great influence on the climate, which is damp but rather mild: the winter is not very cold and the summer is not very hot.

Over 57 million people live in the United Kingdom. Most of the people of Great Britain live in big towns and cities. The capital of the country is London. The main industrial centres are Sheffield and Birmingham where iron goods are made, Manchester, the cotton centre of England, and others.

The important ports of the country are London, Liverpool, Glasgow and others.

Political System of Great Britain.

The United Kingdom of Great Britain and Northern Ireland is a constitutional monarchy. It means that the sovereign reigns but does not rule.

Britain does not have a written constitution, but a set of laws.

Parliament is the most important authority in Britain. Technically Parliament is made up of three parts: the Monarch, the House of Lords; and the House of Commons. In reality the House of Commons is the only one of the three which has true power.

The monarch serves formally as head of state. But the monarch is expected to be politically neutral and should not make political decisions.

The present sovereign is Queen Elizabeth II. She was crowned in Westminster Abbey in 1953.

The House of Commons consists of Members of Parliament. There are 650 of them in the House of Commons. They are elected by secret ballot. General elections are held every five years. The country is divided into 650 constituencies. All citizens, aged 18 and registered in a constituency, have the right to vote. But voting is not compulsory in Britain. Only persons convicted of corrupt and certain mentally ill patients don't take part in voting.

There are few political parties in Britain thanks to the British electoral system. The main ones are: the Conservative Party, the Labour Party and the Liberal / Social Democratic Alliance.

Each political party puts up one candidate for each constituency. The one who wins the most votes is elected MP for that area.

The party which wins the most seats in Parliament forms the Government. Its leader becomes the Prime Minister. His first job is to choose his Cabinet. The Prime Minister usually takes policy decisions with the agreement of the Cabinet.

The functions of the House of Commons are legislation and scrutiny of government activities. The House of Commons is presided over by the Speaker. The Speaker is appointed by the Government.

The House of Lords comprises about 1,200 peers. It is presided by the Lord Chancellor. The House of Lords has no real power. It acts rather as an advisory council.

It's in the House of Commons that new bills are introduced and debated. If the majority of the members are in favour of a bill, it goes to the House of Lords to be debated. The House of Lords has the right to reject a new bill twice.

But after two rejections they are obliged to accept it. And finally a bill goes to the monarch to be signed. Only then it becomes law.

Parliament is responsible for British national policy. Local governments are responsible for organizing of education, police and many others.

Political System of the USA.

The United States of America is a federative republic. Since 1959 the Federation comprises 50 states.

The president is the head of the state and executive body. He is also the commander-in-chief of the army and Navy of the USA. The president and vice-president are elected for a term of four years.

All the legislative power is vested in Congress, which consists of the Senate and the House of Representatives. There are 100 senators and 435 members in the House of Representatives. Two Senators from each state are elected by popular vote for a term of six years, the Representatives are elected for two-year term. Both houses must approve the bill for it to become a law.

An essential role in the US political system is played by the Supreme Court, which may declare a law, passed by Congress, to be contradictory to the Constitution of the country. The various states have legislative and executive bodies of their own. Their structure, function and competence are determined by the Constitution of each state. There is an elected governor at the head of each state. States enjoy independence in their domestic affairs, including financial matters. However, state laws and actions of state authorities must not conflict with the Constitution of the USA.

The United States government allows its citizens to be free from internal control. Citizens are allowed to take part in any action that they wish to involve themselves in as long as it is not an illegal action. The government encourages and provides its citizens freedom in order to create maximum opportunity and wealth creation for the entire nation.

In Amendment I of the Bill of Rights, the United States government gives individuals the right of freedom of speech and prohibits the government to abridge the freedom to exercise this right. The ability of the United States citizens to express themselves freely without restriction allows entrepreneurs to have maximum opportunities which creates economic wealth. However, there are restrictions on speech, ratings on movies, parental advisories on music, and other forms of entertainment. These restrictions do in some way restrict free speech.

The police forces of the United States protect its citizens from crime and criminals quite effectively. However, the fairness of the police force on minorities is in constant question. The police forces use of racial profiling and questionable shootings of Hispanics and African Americans causes minorities to be fearful of their encounters with the police force. These types of racism and unequal treatment discourage the creation of businesses run by minorities which decreases wealth.

The United States dollar is the single currency used in the United States. The dollar is the only official currency used within the United States. The use of this helps to encourage commerce and creates economic opportunities wealth.

Places of Interest in Great Britain

Great Britain is rich in world-famous places. Certainly among them there are famous university cities Oxford and Cambridge, Shakespeare's birthplace — Stratford-upon-Avon, towns of Cardiff, Edinburgh and Glasgow.

Stratford-upon-Avon is a small town. Its chief points of interest are associated with Shakespeare, the greatest English poet and playwright. Shakespeare was buried in the church at Stratford on the banks of the Avon.

The Royal Shakespeare Theatre was opened in Stratford in 1932. Only Shakespeare's plays are performed here.

Those who come to Oxford certainly are interested in its university most of all. It was founded in the 12th century. But there is no "university" as such in Oxford. The component parts of the University of Oxford are the colleges. Each college is practically autonomous. But they do not stand in isolation, they are mixed together with houses, shops and offices.

Cardiff is the capital of Wales and its chief port. Cardiff is also a tourist centre. There are some places of interest there. Wales is sometimes called "the land of song". One of the Welsh traditions is festivals. Song festivals are very popular.

Edinburgh is a city where the historic past lives side by side with the present. Edinburgh Castle is the most famous building in the city.

Edinburgh is especially famous for its festivals. In summer there is the Edinburgh Festival. This is Britain's biggest arts festival.

There is a prehistoric monument in Great Britain which is as interesting to the tourists as the Egyptian pyramids. This is Stonehenge. Stonehenge was built in order to calculate the annual calendar and seasons.

Customs and traditions.

Every nation has different customs and traditions, its own way of life.

In Europe there are people who have lived in the same house and been in the same job for 20, 30 or more years. That's not the American way of life. The Americans love change, they call it the spirit of adventure, a spirit that they think is more characteristic of America than of Europe. They like to move away, to change houses and jobs.

While the Englishman thinks it is ill mannered to ask private questions, the American doesn't feel that at all. He will tell you all about himself, his wife and family, and ask where you have come from, what your job is, how you like America and how long you are staying. The American prefers sociability. In his home he doesn't object to being seen by everyone — he actually likes it.

With this sociability goes overwhelming hospitality. A national Thanksgiving Day is perhaps the only holiday spent by the Americans at home. Table decorations follow a traditional pattern — a harvest of Indian corn, apples, oranges, walnuts and grapes. Flowers also bring the fall scene indoors. The centrepiece is the traditional roast turkey.

Still another American tradition concerns Halloween. Its origin dates back hundreds of years to the Druid festival. The Druid New Year began on November 1, marking the beginning of winter and the reign of the Lord of Death. The custom of telling ghost stories on Halloween comes from the Druids. On this occasion children usually wear ghost costumes or false faces. They also carve out rounded eyes in pumpkins and put burning candles inside them to make them visible from far away. In Texas, where the West begins, the biggest annual festival — the Fat Stock Show — is held. Its rodeo, held together with the stock show, is the biggest indoor rodeo on the earth. And, of course, no nation can exist without humour. As they themselves say, an American must have one wife, two cars, three children, four pets, five suits, six acres, seven credit cards — and is lucky to have eight cents in his pocket.

Michael Faraday.

There are electric motors in most household appliances, from cassette players to washing machines. The design of all these motors is based on the principles discovered more than 150 years ago by Michael Faraday, the greatest of all English experimental physicist. First learning about science from an encyclopedia, Faraday was lucky enough to become an apprentice to the noted English chemist Humphry Davy (1778-1829). Scientists at the time had just realized how to produce electricity, and were looking for ways of applying it. Faraday's discoveries were perfectly timed to exploit this new power.

Marie Curie.

Polish-born physicist Marie Curie and her French husband Pierre are famous for their work on radioactivity. They were inspired by the work of French physicist Henry Becquerel (1852-1908). Marie Curie was the first to use the term 'radioactive' for substances that have considerable electromagnetic activity. She also isolated two new radioactive elements, polonium and radium. After Pierre's she took over his job as professor of physics at the University of Paris, the first woman to teach there. She continued her research, looking for medical uses for radioactivity. She was awarded the Nobel Prize for physics in 1903 and for chemistry in 1911.

Isaac Newton.

The English physicist and mathematician Isaac Newton was one of the great scientists of all time. His theories revolutionized scientific thinking and laid the foundations of modern physics. His book 'Principia Mathematica' is one of the most important works in the history of modern science. Newton discovered the law of gravity, and developed the three laws of motion that are still in use today. He was the first person to split white light

into colors of the spectrum, and his research into light led him to design a reflecting telescope. Newton was also one of the pioneers of a new branch of mathematics called calculus.

Archimedes.

The Greek mathematician Archimedes was the father of geometry. He discovered the value of pi, which is the ratio of the circumference of a circle to its diameter. Pi is used to calculate the volume of cylinders and spheres. Archimedes then looked for ways of measuring the volume and mass of irregular objects. Eventually, he discovered the principle of displacement: that an object put wholly or partly into water loses weight equal to the weight of water it displaces. One method of lifting water is known as the Archimedes' screw because it is thought that he invented it.

Computers have entirely entered our life.

Some scientists say that without the computer the 21st century would be impossible. Computers today are running our factories, planning our cities, teaching our children and forecasting our future. The computer solves in seconds the problems a generation of mathematicians would need months or years to solve without its help. The degree to which computers will take over human functions may frighten some people and

astonish* others. Computers, like the telephone or electricity, have become a common thing of everyday life used by almost everybody. They have entered our home life. They help to make up a person's shopping list, remind someone of important appointments and anniversaries and answer the telephone. We often hear that the increasing flood of information will be one of the problems of the 21st century.

A computer may help to solve it too. In a computerized library of the future request for information will be answered instantly* and as fully as the user wants.

The invention of computers, calculating machines, capable of processing information, cardinally changed our life. The computer performs very simple actions, but its advantage is the speed it calculates at. In fact the computer performs hundreds of thousands of operations per second.

Computers are penetrating* all spheres of human activity, in many of them they have become indispensable,* They calculate orbits, guide spaceships and planes, calculate the targets* of economic development, play chess, help housewives to choose a menu.

Man and nature.

Ecology is a science which studies the relationship between all Forms of life on our planet with its environment. This word came from the Greek "oikos" which means "home". This idea of "home" includes the whole planet: it's population, the nature, animals, birds, fish, insects, all other living beings and even the atmosphere around our planet. Do all of them live a happy and healthy life in our Home nowadays? Unfortunately, it is not so. Indeed, many territories, water, basins, lakes, rivers, seas, oceans – and the atmosphere are polluted with all kinds of technological, agricultural, chemical, nuclear and other wastes. The intensive development of sciences, industry and

chemistry in the 20th century has made the pollution of our environment a global problem which should be solved by all means.

Besides, rapid growth of our population (there are about 6 billion people living on our planet now) needs more and more land, food, goods and modern conveniences for newly-born people. The production of them in large amounts will greatly increase the pollution of the environment. And what to say about the awful harm caused to our Home by nuclear tests, atom bombs and accidents at our atomic power stations? Isn't it high time to start solving this global problem and to make our life in our Home happy and healthy?

One of the invinental problems is land pollution. One of the environment problems is that we are making much garbage. When we throw something away it goes in a garbage can. Then all garbage is taken to a garbage dump or landfill. Most of our garbage is just buried. But now there is not enough room to bury it all. So what had people better do with litter? Sure! They must recycle it. Do you know that the energy saved from one recycled aluminum will operate a television set for 3 hours. And if you throw it out of the window, it will still litter the Earth up to 500 years later. When I was in Singapore I saw a poster which said «Singapore is the Garden City of Asia - Keep it clean and green. In Singapore there are rather strict laws behind it. Propping litter in public places is forbidden. You can be fined up to \$500. I think it's very reasonable. We must all strive for the clean environment.

In the atmosphere there is the ozone layer. It protects the Earth from the ultraviolet rays of the sun. But the ozone layer is destroyed by a stuff that aerosol sprays and refrigerators contain. People will have to take measures because the dangerous rays get through the atmosphere causing skin cancer and other diseases. Secondly farmers often spray chemicals on crops to protect them against pests. These chemicals are called pesticide. Scientists have found that these pesticides often end up in our food. They can cause health problems, especially for kids.

The planet Earth is mostly water. All life on the Earth – from the smallest bug to the biggest whale – depends on water. It's precious. Many rivers and lakes are poisoned too. Factories and plants produce a lot of waste and pour it into rivers.

Nuclear power stations can go wrong and cause nuclear pollution. This happened in Windscale in Britain, in the USA and Chernobyl. Nuclear pollution cannot be seen, but its effects can be terrible. In such places the birds and animals leave their habitats and many plants die.

Today people are worried about the threat of nuclear power. Chernobyl disaster 1986 is the result of the explosion of a nuclear reactor has badly affected Belarus. About 18% of soil in the country are unfitted for farming and many districts are dangerous to live in. The nine million people living in effect areas have received the highest known exposure to radiation in the history of the atomic age. No people have ever before been continuously exposed to such levels of long-lived, man-made radiation.

But modern life is unimaginable without electricity and energy. It lights houses, buildings, streets, provides domestic and industrial heat and powers most equipment used in homes, offices and machinery in factories. At the moment 94% of the world energy comes from

fossil fuels. Coal fuels over 40% of electricity world life. There is enough for the next 300 years. But only enough gas and oil for the next 50. What happens then?

Science.

Science is a source of progress. It develops the world we live in. Our century is an epoch of great discoveries in science and engineering. It is epoch of scientific and technological revolution, when new ideas are being born and new discoveries, inventions are being made at an ever increasing rate. Today science has become the most important factor in the development of national economy in the whole world. Scientific progress serves the interests of society, helps to increase the well-being of people and develops public education. Computer technology plays the most important role in the progress of science. The ability of computers to solve many mathematical problems more effectively than man does, has given rise to new trends in mathematics. Computer science is a new field of study and research.

In recent years scientists of the world have achieved great success in the development of physics, chemistry, biology, and such astonishing, interesting science as psychology. But science may be turned both for peace and military purpose. It can take good forms and bad forms. With the help of scientific inventions politicians make weapons of mass destruction. But on the other hand researches help us in our life: at home, at work, at school and make the level of the country development higher.

That's why there are a lot of facts telling about a great amount of well-known scientists who had burned their works when they've understood the consequences of their inventions.

We are living in the modern world, full of computers, automatic devices, gadgets, cell phones and many other different interesting and useful things that technological progress has given us for usage. Although not even years have passed as we couldn't even dream about time when it would be enough just to tap on a screen and get connected with the other person on the different end of the world.

Science has given us possibility to fly into space and step on the moon, to start studying different parts of our galaxy and even farther. For example, what wonderful pictures of our galaxy and planets and stars surrounding Earth Hubble telescope has showed to us. Now we can develop further and maybe ever step on the other planets and even populate it.

Technology.

Technology has considerably made our life easier due to different discoveries. For example, nowadays we can travel with extremely high speed in different directions: many countries have high-speed trains which help us to feel comfortable all the way. Older people have different devices that have highly improved the level of their life, such as special cars for driving or hearing aid that helps them to no more feel useless in the society.

On the other hand all this computerized environment may damage us too. Our children spend more and more time playing computer games, texting their friends instead of meeting them in the streets, living more and more in their own virtual world. Girls try to compete whose cell phone or tablet is better and more modern, or who has more friends on Facebook.

Anyway technology has its advantages and disadvantages, but we cannot escape from progress, the development is inevitable. But our responsibility is to preserve ourselves as modern, just and peaceful civilization.

II. English grammar.

Participle 1 и participle 2

В английском языке есть две формы причастия. С одной стороны, они вроде похожи, с другой - несут абсолютно разную смысловую и грамматическую функцию.

Participle 1 и Participle 2 помогают сделать предложение информативным и логичным, оттеняя глагол-сказуемое, характеризуя подлежащее и позволяя отразить два действия.

Образование Participle 1

Participle 1 или **Present Participle** отражает длительность процесса, подчеркивая одновременность действия со сказуемым. Причастие настоящего времени образуется от глагола + окончание **-ing**:

write – writing (пишущий)

Особенности написания:

- краткая гласная: run – running;

— заканчивается на «е», а перед ней стоит согласная: take – taking, но: see – seeing; — to die, to lie, to tie (умирать, лежать, связывать) меняют “ie” на “y”: die – dying, lie – lying, tie – tying.

— заканчивается на l: travelling

Временные формы:

Present Participle 1 Active: working — одновременные действия в настоящем

Present Participle 1 Passive: being working — одновременные действия в настоящем + указывает воздействие на подлежащее

Perfect Participle 1 Active: having worked – предшествует действию сказуемого

Perfect Participle 1 Passive: having been worked — предшествует действию сказуемого и указывает, что подлежащее подвергалось воздействию

Функции Participle 1

В предложении причастие настоящего времени может выполнять следующие **функции**:

1. Как определение употребляется перед существительным или же после него.

The dancing girls are our students. – Танцующие девушки – наши студентки.

2. Если употребляется в функции **обстоятельства**, то переводится на русский с окончанием «а», «я» или «в» (спрашивая, приехав, держа). Может выражать обстоятельство времени, причины, образа действия и сравнения.

Arriving at the station he bought a newspaper. – Приехав на вокзал, он купил газету (время).

He was silent for a while, as if pausing for a reply. – Он немного помолчал, как будто выдерживая паузу для ответа (сравнение).

He was standing on the top of the mountains admiring the beautiful view. — Он стоял на вершине горы, наслаждаясь прекрасным видом (образа действия).

Having worked a little at this factory I understood everything. – Так как раньше я немного работал на этой фабрике, я все понимал (причины).

3. Как часть сказуемого.

The answer of the student is disappointing. – Ответ студента — разочаровывает.

Образование Participle 2

Participle 2 соответствует русской форме страдательного причастия: сломанная, написанная, прочитанная. Данная часть речи имеет только одну форму и используется для описания законченного действия. Другими словами можно сказать, что это результат, выраженный признаком или состоянием.

Broken leg – сломанная нога;

Locked door – закрытая дверь.

Past Participle образуется от **инфинитива без to + суффикс – ed**. Либо, если глагол неправильный, используется его 3-я форма – таблица Past Participle (3 колонка таблицы неправильных глаголов).

Open – opened (открытый);

Teach – taught;

Dress – dressed (одетый).

Употребление в предложении.

Как и любой член предложения, в английском языке причастие выполняет определенные **функции**. Так Participle 2 может быть обстоятельством, определением или частью сказуемого.

1. **Как определение** употребляется перед существительным. На русский переводится причастием прошедшего времени и описывает совершенное над предметом действие. Или эта часть речи может стоять после существительного и сопровождаться пояснительными словами:

It was a untidily written letter. – Это было неаккуратно написанное письмо.

A parcel sent from Paris will be in London in some days. – Псылка, отправленная сегодня из Парижа, будет в Лондоне через несколько дней.

Примечание: Предлог *by* помогает обозначить лицо или предмет, который совершил действие, выраженное Participle 2.

*A parcel sent from Paris **by my brother** will be in London in some days. — Псылка, отправленная братом сегодня из Парижа, будет в Лондоне через несколько дней.*

2. **Как обстоятельство** может характеризовать время, условия выражения действия, уступки или сравнение действий. Для выражения времени часто используются *when* и *while*, условия — *until*, *if*, уступки — *though*, *although*. Союзы используются не во всех предложениях, поэтому, чтобы определить функцию, необходимо понимать смысл фразы.

*When called she refused to come. – Когда ее позвали, она отказалась прийти (время).
He will speak for hours until interrupted. – Он будет говорить вечность, пока его не перебьют(условие).*

«I have to go home», he repeated as if hypnotized. – «Я должен идти домой», он повторял, как загипнотизированный (сравнение).

3. Как именная часть сказуемого:

She looked worried. – Она выглядела обеспокоенной.

Though crushed, she wasn't broken. – Она не показывала этого ,хотя и была подавлена.(уступки)

Participle 1 и Participle 2 используется в причастных оборотах, которые имеют свои особенности.

Эта неличная глагольная форма совмещает в себе и свойства прилагательного, и наречия, и глагола. Такое уж оно многогранное — причастие в английском языке!

Technological progress.

People in contemporary world can hardly imagine their lives without machines. Every day either a new gadget is invented or an old one is improved. Different people appreciate new inventions differently. Some suppose that sophisticated gadgets are really useful and necessary, while others find them absolutely awful as they influence people badly. As for me, I am pretty sure that gadgets make people`s lives easier.

Firstly, they do all kinds of dirty and hard work, as cleaning. Secondly, devices can save a lot of time as well as storage space. For instance, a computer disk can contain the same amount of information as several thick books. So, machines help people in different spheres.

However, opponents of this point of view are definitely sure that gadgets affect people negatively. People are reluctant to work due to the influence of machines. People become lazy and disorganized. They just expect their latest gadgets to do everything instead of them. Moreover, according to scientists, a great number of widespread devices produce radiation that can cause serious health problems. Furthermore, more and more people are becoming addicted to their modern gadgets, for instance computers, TVs or mobile phones. So, they neglect their home obligations, work or school and spend all their spare time in front of a laptop screen or a TV-set.

In conclusion, I firmly believe that in spite of all drawbacks, gadgets have, their benefits are much more considerable, as they save people`s time and let them enjoy life.

Great Inventions

Television (1920s)

The invention that swept the world and changed leisure habits for countless millions was pioneered by Scottish-born electrical engineer John Logie Baird. It had been realised for some time that light could be converted into electrical impulses, making it possible to transmit such impulses over a distance and then reconvert them into light.

Motor Car (Late 19th Century)

With television, the car is probably the most widely used and most useful of all leisure-inspired inventions. German engineer Karl Benz produced the first petrol-driven car in 1885 and the British motor industry started in 1896. Henry Ford was the first to use assembly line production for his Model T car in 1908. Like them or hate them, cars have given people great freedom of travel.

Electricity

The name came from the Greek word for amber and was coined by Elizabeth I's physician William Gilbert who was among those who noticed that amber had the power to attract light objects after being rubbed. In the 19th century such great names as Michael Faraday, Humphry Davy, Alessandro Volta and Andre Marie Ampere all did vital work on electricity.

Photography (Early 19th Century)

Leonardo da Vinci had described the camera obscura photographic principle as early as 1515. But it was not until 1835 that Frenchman Louis Daguerre produced camera photography. The system was gradually refined over the years, to the joy of happy snappers and the despair of those who had to wade through friends' endless holiday pictures.

Telephone (1876)

Edinburgh-born scientist Alexander Graham Bell patented his invention of the telephone in 1876. The following year, the great American inventor Thomas Edison produced the first working telephone. With telephones soon becoming rapidly available, the days of letter-writing became numbered.

Computer (20th Century)

The computer has been another life-transforming invention. British mathematician Charles Babbage designed a form of computer in the mid-1830s, but it was not until more than a century later that theory was put into practice. Now, a whole generation has grown up with calculators, windows, icons, computer games and word processors, and the Internet and e-mail have transformed communication and information.

Aeroplane

The plane was the invention that helped shrink the world and brought distant lands within easy reach of ordinary people. The invention of the petrol engine made flight feasible and the American Wright brothers made the first flight in 1903.

I. English grammar.

Participle.

Еще одной неличной формой глагола в английском языке является причастие (Participle). Оно сочетает в себе признаки прилагательного, глагола и наречия. В английском языке нет такой части речи, как деепричастие. Поэтому английское причастие соответствует и причастию, и деепричастию в русском языке. Всего существует два причастия в английском языке: причастие настоящего времени (Participle I / Present Participle) и причастие прошедшего времени (Participle II / Past Participle). Поговорим о каждом из них отдельно.

Причастие настоящего времени – Participle I

Чтобы образовать это **причастие в английском языке**, необходимо добавить к основе глагола без частицы to окончание **-ing**. Если требуется отрицание, то частица not ставится перед причастием.

walking

knowing

smiling и т.д.

Это причастие в английском языке имеет следующие формы:

1. Indefinite Active (неопределенное в действительном залоге): asking – спрашивающий, спрашивая (вообще).
2. Indefinite Passive (неопределенное в страдательном залоге): being asked – спрашиваемый, будучи спрошен (вообще)
3. Perfect Active (совершенное в действительном залоге): having asked – спросив (ши) (уже)
4. Perfect Passive (совершенное в страдательном залоге): having been asked – (уже) был спрошен

У непереходных глаголов форм страдательного залога не существует. Это причастие в английском языке обозначает незаконченный процесс и в русском языке соответствует причастию настоящего времени и деепричастию несовершенного вида (речь идет о формах Indefinite). Если мы говорим о формах Perfect, то причастие английского языка будет соответствовать русскому деепричастию совершенного вида. Причастие группы Indefinite, как активного, так и пассивного залога, обозначает, что действие им выраженное происходит одновременно (в настоящем, прошедшем или будущем временах) с действием, выраженным смысловым глаголом-сказуемым. Причастие группы Perfect, как активного, так и пассивного залога, обозначает, что действие им выраженное предшествует действию, выраженным глаголом-сказуемым. Предшествование может относиться также к действию в настоящем, прошедшем или будущем временах.

Причастие настоящего времени в английском языке может выполнять в предложении несколько функций и быть:

1. Определением (как и русское причастие), которое стоит перед существительным или после него.

I saw her smiling face in the window. – Я увидел ее улыбающееся лицо в окне.

2. Обстоятельством (образа действия, причины, времени).

Knowing English perfectly he was able to watch genuine foreign movies. – Зная английский в совершенстве, он мог смотреть оригинальные иностранные фильмы.

Travelling around the world, he visited as much countries as he could. – Путешествуя вокруг света, он посетил как можно больше стран.

Whistling he closed the door. – Насвистывая, он закрыл дверь.

Причастие прошедшего времени – Participle II

Чтобы образовать это причастие в английском языке от правильных глаголов, необходимо к инфинитиву глагола без частицы to прибавить окончание -ed. У неправильных глаголов форма причастия II особая. Она указана в таблице неправильных глаголов и находится в третьей колонке.

Faded – завявший (цветок), bought — купленный

Это причастие отражает законченный процесс, а на русский язык мы его переводим страдательным причастием совершенного или несовершенного вида. В основном в этом причастии в английском языке представлено действие, которое предшествует действию, выраженному глаголом-сказуемым.

Причастие прошедшего времени в английском языке может выполнять в предложении следующие функции:

1. Определения

Broken leg – сломанная нога

Lost time – потерянное время

2. Обстоятельства (часто с предшествующими союзами when, if, unless)

When asked important questions, he frowned and answered silly things. – Когда ему задавали важные вопросы, он хмурился и говорил какую-то ерунду.

Из формулировки определения причастия в английском языке (и Participle I, и Participle II) следует, что оно совмещает в себе свойства прилагательного, наречия и глагола. Как и прилагательное, оно может быть в предложении определением к существительному (аналог – русское причастие). Примеры были указаны выше. Как наречие, оно может быть в предложении обстоятельством, как в представленных примерах (аналог – русское деепричастие). А как глагол, оно может иметь прямое дополнение и определяться наречием.

Entering the hotel, he noticed the new receptionist. – Входя в гостиницу, он заметил нового администратора.

Entered the building, he headed for the main office. – Зайдя в здание, он направился к главному офису.

Seriously injured he continued running. – Серьезно раненый он продолжал бежать

Machine-tools.

Machine-tools are used to shape metals and other materials. The material to be shaped is called the workpiece. Most machine-tools are now electrically driven. Machine-tools with electrical drive are faster and more accurate than hand tools: they were an important element in the development of mass-production processes, as they allowed individual parts to be made in large numbers so as to be interchangeable. All machine-tools have facilities for holding both the workpiece and the tool, and for accurately controlling the movement of the cutting tool relatively to the workpiece. Most machining operations generate large amounts of heat, and cooling fluids (usually a mixture of water and oils) must be used for cooling and lubrication. Machine-tools usually work materials mechanically but other machining, spark erosion to machine very hard materials to any shape by means of a continuous high-voltage spark (discharge) between an electrode and a workpiece. Other machining methods include drilling using ultrasound, and cutting by means of a laser beam. Numerical control of machine-tools and flexible manufacturing systems have made it possible for complete systems of machine-tools to be used flexibly for the manufacture of a range of products.

«LATHE»

Lathe is still the most important machine-tool. It produces parts of circular cross-section by turning the workpiece on its axis and cutting its surface with a sharp stationary tool. The tool may be moved sideways to produce a cylindrical part and moved towards the workpiece to control the depth of cut. Nowadays all lathes are power-driven by electric motors. That allows continuous rotation of the workpiece at a variety of speeds. The modern lathe is driven by means of a headstock supporting a hollow spindle on accurate bearings and carrying either a chuck or a faceplate, to which the workpiece is clamped. The movement of the tool, both along the lathe bed and at right angle to it, can be accurately controlled, so enabling a part to be machined to close tolerances. Modern lathes are often under numerical control.

Answer the questions:

1. What are machine-tools used for?
2. How are most machine-tools driven nowadays?
3. What facilities have all machine-tools?
4. How are the cutting tool and the workpiece cooled during machining?

5. What other machining methods have been developed lately?
6. What systems are used now for the manufacture of a range of products without the use of manual labor?
7. What parts can be made with lathes?
8. How can the cutting tool be moved on a lathe?
9. How is the workpiece clamped in a lathe?
10. Can we change the speeds of workpiece rotation in a lathe?
11. What is numerical control of machine tools used for?

Модальные глаголы и их эквиваленты.

Модальные глаголы не выражают действие, а только отношение лица (подлежащего) к действию. Само действие выражается инфинитивом смыслового глагола, следующим за модальным глаголом без частицы "to".

Модальные глаголы иногда называются недостаточными, т.к. они имеют единую форму для всех лиц единственного и множественного числа и не имеют всех временных форм (т.е. они не спрягаются) и повелительного наклонения.

Вопросительная и отрицательная формы предложений, с модальными глаголами строятся по правилу глагола "to be".

1. Модальный глагол **May (might** - в прошедшем времени) выражает предположение, просьбу, сомнение:

May I come in?

Можно мне войти?

He may know her address.

Он, возможно, знает ее адрес.

He said you might take the book.

Он сказал, что вы можете взять книгу.

Эквивалентом модального глагола **may** является **to be allowed to**. Употребляется в любом времени, а в будущем только оно и употребляется:

When will you be allowed to see him?

Когда ты сможешь увидеть его

2. Модальный глагол **Can (could** - в прошедшем времени) выражает умственную или физическую возможность

The girl can read already.

Девочка уже умеет читать.

Can I help you?

Я могу Вам помочь?

We couldn't speak English last year.

В прошлом году мы не умели говорить по-английски.

Эквивалентом модального глагола **Can** явл **to be able to**. Может употребляться в любом времени вместо **can**, а в будущем времени только оно и употребляется:

I had some free time yesterday, and was able to go to my friend.

Вчера у меня было немного свободного времени и я смог навестить друга.

Модальный глагол **must** выражает необходимость, долженствование, моральную обязанность, приказ (в отрицательных предложениях - запрет):

All children must go to school.

Все дети должны ходить в школу.

You mustn't play with matches.

Нельзя играть со спичками.

Для выражения долженствования в прошедшем и будущем, как правило, вместо **must** употребляется его эквивалент **to have to** со смысловым оттенком "**вынужден в силу обстоятельств**":

I had to go there.

Я должен был (мне пришлось) пойти туда.

I shall have to do it.

Я должен буду (мне придется) это сделать.

Should и **would**, кроме употребления в качестве вспомогательных глаголов, выполняют функции модальных глаголов.

Should в качестве модального глагола выражает рекомендацию, совет (переводится - **должен бы, следовало бы**):

You should be more careful.

Вам следует быть осторожнее.

Would в качестве модального глагола выражает просьбу, намерение, желание, повторность действия в прошлом:

Would you wait for me for five minutes?

Не подождете ли вы меня пять минут?

Ought to является эквивалентом для выражения долженствования наравне с модальным глаголом **should**.

Рассматриваем употребление модальных глаголов: **must, have to, need, ought**.

«MILLING MACHINE».

In a milling machine the cutter (фреза) is a circular device with a series of cutting edges on its circumference. The workpiece is held on a table that controls the feed against the cutter. The table has three possible movements: longitudinal, horizontal, and vertical; in some cases it can also rotate. Milling machines are the most versatile of all machine tools. Flat or contoured surfaces may be machined with excellent finish and accuracy. Angles, slots, gear teeth and cuts can be made by using various shapes of cutters.

Drilling and Boring Machines

To drill a hole usually hole-making machine-tools are used. They can drill a hole according to some specification, they can enlarge it, or they can cut threads for a screw or to create an accurate size or a smooth finish of a hole.

Drilling machines (сверлильные станки) are different in size and function, from portable drills to radial drilling machines, multispindle units, automatic production machines, and deep-hole-drilling machines.

Boring (расточка) is a process that enlarges holes previously drilled, usually with a rotating single-point cutter held on a boring bar and fed against a stationary workpiece.

Shapers and Planers

The shaper (поперечно-строгальный станок) is used mainly to produce different flat surfaces. The tool slides against the stationary workpiece and cuts on one stroke, returns to its starting position, and then cuts on the next stroke after a slight lateral displacement. In general, the shaper can make any surface having straight-line elements. It uses only one cutting-tool and is relatively slow, because the return stroke is idle. That is why the shaper is seldom found on a mass production line. It is, however, valuable for tool production and for workshops where flexibility is important and relative slowness is unimportant.

The planer (продольно-строгальный станок) is the largest of the reciprocating machine tools. It differs from the shaper, which moves a tool past a fixed workpiece because the planer moves the workpiece to expose a new section to the tool. Like the shaper, the planer is intended to produce vertical, horizontal, or diagonal cuts. It is also possible to mount several tools at one time in any or all tool holders of a planer to execute multiple simultaneous cuts.

Grinders

Grinders (шлифовальные станки) remove metal by a rotating abrasive wheel. The wheel is composed of many small grains of abrasive, bonded together, with each grain acting as a miniature cutting tool. The process gives very smooth and accurate finishes. Only a small amount of material is removed at each pass of the wheel, so grinding machines require fine wheel regulation. The pressure of the wheel against the workpiece is usually very light, so that grinding can be carried out on fragile materials that cannot be machined by other conventional devices.

Answer the questions:

8. Describe the work of a shaper (planer).
9. What must be done to execute multiple simultaneous cuts on a planer?
10. What is the working tool in a grinder?
11. Can we obtain a very smooth surface after grinding and why?

Computer.

Computer is an electronic device that can receive a program (a set of instructions) and then carry out this program by calculating numerical information.

The modern world of high technology is possible mainly due to the development of the computer. Computers have opened up a new era in manufacturing by means of automation, and they have enhanced modern communication systems.

Personal computers

Personal computers are also called microcomputers or home computer. The most compact are called laptops. They are portable and work on built-in batteries.

Personal computers are designed for use at homes, schools, and offices. At home they can be used for home management (balancing the family finances, for example) and for playing computer games, watching films or listening to music. Schoolchildren can use computers for doing their homework and many schools now have computers for independent learning and computer-literacy studies. In the office personal computers may be used for word processing, bookkeeping, storage and handling of necessary information.

Personal computers were made possible by two technical innovations in the field of microelectronics: the integrated circuit, or IC, which was developed in 1959 and the microprocessor that first appeared in 1971. The

318 I Английский для технических вузов

1C permitted the miniaturization of computer-memory circuits, and the microprocessor reduced the size of a computer's CPU to the size of a single silicon chip.

Because a CPU calculates, performs logical operations, contains operating instructions, and manages data flows, a complete microcomputer as a separate system was designed and developed in 1974.

In 1981, IBM Company offered its own microcomputer model, the IBM PC that became a necessary tool for almost every business. The PC's use of a 16-bit microprocessor initiated the development of faster and more powerful personal computers, and its use of an operating system that was available to all other computer makers led to a standardisation of the industry.

In the mid-1980s, a number of other developments were especially important for the growth of personal computers. One of these was the introduction of a powerful 32-bit CPU capable of running advanced operating systems at high speeds.

Another innovation was the use of conventional operating systems, such as UNIX, OS/2 and Windows. The Apple Macintosh computers were the first to allow the user to

selecticons — graphic symbols of computer functions — from a display screen instead of typing commands. New voice-controlled systems are now available, and users are able to use the words and syntax of spoken language to operate their personal computers.

Computer.

Computers have drastically changed everyone's lives. Several decades ago people haven't even known anything about these electronic devices, whereas nowadays even a small child can operate this machine. Almost all modern technology depends on computers, which are used for data storage: files, secret information, bank transactions and else.

Computer technology belongs to the fastest-growing industry. Computers of different types and sizes are used by modern society. It is interesting that the first computer was the size of a minibus and weighed almost a ton. Where as now it can be a small chip the size of a pin. And computer technology is not standing still, it's rapidly progressing. Soon we might have the computers which will be built-in our glasses, earrings, and other objects.

Perhaps, the next generation of computers will have the ability to talk and think just as people do. Many people find computers dangerous and time-consuming. On the other hand, computers are very fast and they seldom make mistakes. They save lots of time, and besides all the necessary information can be found on Internet.

So, instead of going to the libraries or other institutions, we can simply surf the worldwide web. Another advantage is the instant possibility to send letters, whereas some time ago we had to wait for weeks and months to have them delivered. Moreover, with the help of computers and Internet, shopping has become much easier. Firstly, we can find what we exactly want, secondly we can choose the affordable price, and thirdly, we can have the chose items delivered.

After all, computers have become the most useful tool in everyone's homes nowadays and they have certainly changed our lives for the better.

Inventions.

Over the years scientists have invented a great number of things, which we now use in everyday life, for example, computers, printing machines, telephones, radio, television, automobiles, photography, electricity, steam engine, planes etc. One of the most useful and handy devices today is the computer.

It is a comparatively new invention, which came into use in the 20th century. However, the form of computer was designed already in the mid- 1830s by the British mathematician Charles Babbage. Today, people simply can't imagine their lives without computers. There is a whole generation which has grown up with calculators, computer games, word processor, Internet and else. Another vital device is the TV.

This invention has truly changed the leisure habits of millions of people worldwide. Television was pioneered in the 1920s by Scottish electrical engineer John Logie Baird. He was the first to realize that light could be converted into electrical impulses, which are then transmitted over a distance.

Electricity, perhaps, is even more important. We wouldn't be able to use computers and TVs without it. The invention of electricity dates back to the 19th century and is connected with such renowned names as Michael Faraday, Alessandro Volta, Humphry Davy and Andre Marie Ampere. For the invention of telephones we should be grateful to Alexander Graham Bell. He is an Edinburgh-born scientist who patented the invention of telephone in 1876. A year later a great American scientist Thomas Edison produced the first working telephone.

The invention of different types of transport has also changed the world, for example, airplanes and motor cars. Planes have brought distant lands within easy reach of ordinary people. American-born Wright brothers were the first to make the flight in 1903. The first petrol-driven car was produced in 1885 by the German engineer Carl Benz. Whether we like them or not, cars have given people great freedom of travel.

«DIES».

Dies are tools used for the shaping solid materials, especially those employed in the pressworking of cold metals.

In presswork, dies are used in pairs. The smaller die, or punch, fits inside the larger die, called the matrix or, simply, the die. The metal to be formed, usually a sheet, is placed

over the matrix on the press. The punch is mounted on the press and moves down by hydraulic or mechanical force.

A number of different forms of dies are employed for different operations. The simplest are piercing dies (пробивной штамп), used for punching holes. Bending and folding dies are designed to make single or compound bends. A combination die is designed to perform more than one of the above operations in one stroke of the press. A progressive die permits successive forming operations with the same die.

In coining, metal is forced to flow into two matching dies, each of which bears an engraved design.

Wiredrawing Dies

In the manufacture of wire, a drawplate (волочильная доска) is usually employed. This tool is a metal plate containing a number of holes, successively less in diameter and known as wire dies. A piece of metal is pulled through the largest die to make a coarse wire. This wire is then drawn through the smaller hole, and then the next, until the wire is reduced to the desired measurement. Wiredrawing dies are made from extremely hard materials, such as tungsten carbide or diamonds.

Thread-Cutting Dies

For cutting threads on bolts or on the outside of pipes, a thread-cutting die (резьбонарезная плашка) is used. It is usually made of hardened steel in the form of a round plate with a hole in the centre. The hole has a thread. To cut an outside thread, the die is lubricated with oil and simply screwed onto an unthreaded bolt or piece of pipe, the same way a nut is screwed onto a bolt. The corresponding tool for cutting an inside thread, such as that inside a nut, is called a tap (метчик).

СОСЛАГАТЕЛЬНОЕ НАКЛОНЕНИЕ (THE SUBJUNCTIVE MOOD)

1. Сослагательное наклонение указывает на то, что действие или состояние рассматривается

не как реальное, а как предполагаемое, желательное, возможное и т.д.

В русском языке сослагательное наклонение чаще всего выражается сочетанием глагола в прошедшем времени с частицей бы и эта форма может выражать нереальное действие, относящееся к настоящему, прошедшему и будущему времени:

Если бы я знал об этом, я бы пришел к вам.

В английском языке имеется несколько форм сослагательного наклонения:

простые и аналитические, неперфектные и перфектные, формы действительного и страдательного залогов.

2. Синтетические (простые) неперфектные формы сослагательного наклонения совпадают с формами либо инфинитива без частицы to либо с формами прошедшего неопределенного времени:

It is necessary that you **do** this exercise in written form.

Необходимо, чтобы вы сделали это упражнение в письменной форме.

If only I **knew** him!

Если бы я только знала его!

Синтетической неперфектной формой глагола to be в сослагательном наклонении являются формы be и were для всех лиц единственного и множественного числа:

I wish she **were** here now.

Я хочу, чтобы она сейчас была здесь. (Как жаль, что ее нет здесь.)

3. Аналитические неперфектные формы сослагательного наклонения представляют собой сочетание глаголов should (для 1-го лица единственного и множественного числа) или would (для 2-го и 3-го лица единственного и множественного числа) с простым инфинитивом без частицы to:

If he informed us of his arrival, we **should meet** him.

Если бы он известил нас о своем приезде, мы бы встретили его.

4. Синтетические перфектные формы сослагательного наклонения совпадают с формами прошедшего совершенного времени:

If I **had found** that book anywhere!

Если бы я где-нибудь нашел эту книгу!

5. Аналитические перфектные формы сослагательного наклонения представляют собой

сочетание глаголов should (для 1-го лица единственного и множественного числа) или would (для 2-го и 3-го лица единственного и множественного числа) с перфектным инфинитивом без частицы to:

If he had met us, he **would have gone** to the country with us.

Если бы он встретил нас, он бы поехал с нами за город.

6. Неперфектные (синтетические и аналитические) формы сослагательного наклонения употребляются для выражения желательности, предположения, возможности, т.е. нереального действия, относящегося к настоящему или будущему времени:

If I **had** time, I **should buy** a ticket for this film.

Если бы у меня было время, я бы купил билет на этот фильм.

Перфектные (синтетические и аналитические) формы сослагательного наклонения употребляются для выражения нереального действия, относящегося к прошлому,

то есть для выражения действия, осуществление которого практически невозможно:

I should have read this book if I **had got** it a week ago.

Я бы прочитал эту книгу, если бы я достал ее неделю назад.

Употребление форм сослагательного наклонения

7. Синтетические формы (неперфектные и перфектные) сослагательного наклонения, т. е. формы, совпадающие с формами прошедшего неопределенного или прошедшего совершенного времени, употребляются, главным образом, в следующих случаях:

Если бы они так много знали о нем, они бы знали также и о Джессе.

б) в придаточном предложении образа действия, вводимом союзами as if или as though как будто бы:

She looked at me **as if she didn't know me**.

Она посмотрела на меня так, как будто бы не знала меня.

в) в придаточном дополнительном предложении после глагола wish (для выражения сожаления):

I wished they **hadn't showed up at all**.

Мне бы хотелось, чтобы они совсем не появлялись. (Как жаль, что они появились).

8. Аналитические формы (неперфектные и перфектные) сослагательного наклонения, т. е. формы, выраженные сочетанием глаголов should или would с простым или перфектным инфинитивом, употребляются, главным образом, в следующих случаях:

8.1. В простом предложении:

It **would be** a great pleasure to help her.

Было бы большим удовольствием помогать ей.

8.2. В главном предложении сложноподчиненных предложений с различными придаточными:

а) с придаточным «нереального условия»:

Students would have no need to "walk the hospitals" if they had me.

Студентам не нужно было бы проходить практику в больницах, если бы у них был я.

б) с придаточным уступительным, вводимым союзом even if или even though даже если:

If he even talked to the others, **he would be misunderstood**.

Даже если бы он заговорил с другими, его бы поняли неправильно.

8.3. В придаточном дополнительном предложении после глаголов, выражающих чувство (таких, как to fear, to think, to believe, to wish и др.)

He wished **they wouldn't follow him like a lot of sheep**.

Ему не хотелось, чтобы они шли за ним как стадо баранов.

9. Аналитические формы сослагательного наклонения, выраженные сочетанием глагола **should** для всех лиц единственного и множественного числа с простым или перфектным инфинитивом, а также простые формы сослагательного наклонения, выраженные простым инфинитивом без частицы **to**, употребляются, главным образом, в следующих случаях:

9.1. В придаточном дополнительном предложении, вводимом союзом **that** чтобы, после безличных оборотов типа: **it is essential** важно, **it is important** важно, **it is necessary** необходимо, **it is desirable** желательно и т.д., а также после глаголов и словосочетаний, выражающих необходимость, рекомендацию, решение, приказание и т.д.:

Пусть вам сопутствует успех!

God **bless** you!

Да благословит вас Бог!

Be it as it may!

Будь, что будет!

12. Сослагательное наклонение может быть выражено также при помощи модальных глаголов **can**, **may** в сочетании с простым или перфектным инфинитивом смыслового глагола. В сослагательном наклонении чаще употребляются формы **could**, **might**.

Модальные глаголы в сослагательном наклонении сохраняют свое лексическое значение и переводятся на русский язык словами мог бы, смог бы, а смысловой глагол переводится на русский язык неопределенной формой:

I mean something like that **could kill** you.

Я думаю, что что-либо подобное могло бы вас убить.

Модальные глаголы **could**, **might** в сослагательном наклонении + перфектный инфинитив выражают действие, которое могло бы произойти, но не произошло:

But at least you **could have told** me we had lost an engine.

Но, по крайней мере, вы могли бы сказать мне, что мы потеряли машину.

Модальные глаголы в сослагательном наклонении употребляются как в простых, так и в придаточных условных предложениях для выражения сожаления о несостоявшемся действии, в восклицательных предложениях, выражающих пожелание, а также в вопросительных предложениях для выражения вежливой просьбы:
