## Методические указания

по выполнению практических работ

по дисциплине «ИНОСТРАННЫЙ ЯЗЫК В ПРОФЕССИОНАЛЬНОЙ ДЕЯТЕЛЬНОСТИ»

для студентов направления подготовки/специальности

09.02.01 КОМПЬЮТЕРНЫЕ СИСТЕМЫ И КОМПЛЕКСЫ

Методические указания для практических работ по дисциплине «Иностранный язык в профессиональной деятельности» составлены в соответствии с требованиями ФГОС СПО. Предназначены для студентов, обучающихся по специальности: 09.02.01 Компьютерные системы и комплексы.

## **Пояснительная записка**

Настоящие методические указания предназначены для студентов колледжа, обучающихся по специальности 09.02.01 «Компьютерные системы и комплексы». Целью данных указаний является развитие у студентов навыков чтения и понимания англоязычного текста по профессиональной тематике, подготовка студентов к реферативному переводу иноязычного текста, закрепление тематической лексики, а также развитие навыков говорения на базе проблематики, представленной в текстах указаний.

Выполнение большей части упражнений связано с многократным анализом. Поэтому представляется целесообразным задавать подготовку такого рода упражнений на дом с последующей проверкой на занятии под руководством преподавателя. Множественность заданий позволяет, выполняя различные задачи, концентрируясь на разных элементах текста, понять и частично запомнить предлагаемую информацию. Многие упражнения могут выполняться как в устной, так и в письменной форме. Проблемные вопросы и темы для дискуссии, содержащиеся в послетекстовых упражнениях, предполагают использование информации, полученной из текста урока, и обеспечивают развитие у студентов навыков свободного говорения.

Исходя из того, что в ходе учебной деятельности студенты должны самостоятельно "добывать" знания, а не получать их в готовом виде, в рамках пособия предполагается самостоятельная работа студентов со словарями, энциклопедическими и справочными пособиями. Фиксация подлежащих усвоению значений осуществляется в специальных упражнениях.

Пособие предназначено для работы в группах студентов неязыковых вузов с целью повышения их лингвистической компетенции.

В результате освоения учебной дисциплины обучающийся должен **уметь**:

- общаться (устно и письменно) на иностранном языке на профессиональные и повседневные темы;
- переводить (со словарем) иностранные тексты профессиональной направленности;
- самостоятельно совершенствовать устную и письменную речь, пополнять словарный запас.

В результате освоения учебной дисциплины обучающийся должен **знать**:

- лексический (1200 - 1400 лексических единиц) и грамматический минимум, необходимый для чтения и перевода (со словарем) иностранных текстов профессиональной направленности.

### **Перечень формируемых компетенций.**

В результате освоения учебной дисциплины студент должен овладевать:

Общими компетенциями:

ОК 1. Понимать сущность и социальную значимость своей будущей профессии, проявлять к ней устойчивый интерес.

ОК 2. Организовывать собственную деятельность, выбирать типовые методы и способы выполнения профессиональных задач, оценивать их эффективность и качество.

ОК 3. Принимать решения в стандартных и нестандартных ситуациях и нести за них ответственность.

ОК 4. Осуществлять поиск и использование информации, необходимой для эффективного выполнения профессиональных задач, профессионального и личностного развития.

ОК 5. Использовать информационно-коммуникационные технологии в профессиональной деятельности.

ОК 6. Работать в коллективе и команде, эффективно общаться с коллегами, руководством, потребителями.

ОК 7. Брать на себя ответственность за работу членов команды (подчиненных), результат выполнения заданий.

ОК 8. Самостоятельно определять задачи профессионального и личностного развития, заниматься самообразованием, осознанно планировать повышение квалификации.

ОК 9. Ориентироваться в условиях частой смены технологий в профессиональной деятельности.

## **Раздел 1. Повседневная жизнь, быт, семья.**

### **Практическая работа №1**

#### **Тема 1.1. Я и моя семья**

**Цель работы:** Развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

**Ход работы:** Изучение нового лексического материала. Чтение и перевод текста.

#### **Текст 1. About Myself**

First of all let me introduce myself. My name is Taras.

I'm seventeen years old.

I'm at 11-th grade.

There are two more kids in the family besides me — my elder brother Oleg and my younger sister Marija.

Oleg is twenty-one, he attends a University, he will be a dentist.

Marija is only twelve, she is a schoolgirl.

I forgot to mention one more member of our family.

It's our favourite poodle Tim.

My parents are not old at all.

My Mum is forty, she works for a newspaper.

My Dad is forty-four, he is an engineer in computers.

My parents love their jobs very much.

I'm doing quite well at school.

My parents are proud of my marks.

I go in for sports. I play basket-ball.

In summer time I like yachting and windsurfing.

I take part in different basket-ball competitions.

In a year I shall finish my school and I have to decide what occupation to choose.

I have been studying English for seven years.

I want to be a military interpreter.

My grandparents are already retired.

They like gardening and spend all their time growing tomatoes, potatoes, onions, strawberries, raspberries.

#### **Questions:**

1. Do you go to school?
2. What grade are you at?
3. How old are your parents?
4. Are you the only child in the family?
5. Do you have a pet?
6. Are your grandparents still alive?
7. Do you go in for sports?
8. Do you like reading?

## **Текст 2 About My Family**

My family is not very big, just a typical family: Dad, Mom, me, my brother and sister and our cat.  
My Mummy is forty-one, she is a teacher of Spanish at the University.  
She is a born teacher.  
She has teaching abilities.  
My Dad is forty-two, he is a professional painter, he works for a design company.  
My parents both like their work very much.  
My elder sister Natasha is nineteen, she goes to the University, she wants to be a teacher of history.  
She is fond of reading books on history and fiction.  
My younger brother Igor is only six years old, he goes to the kindergarten.  
He is very funny, I like to spend my free time teaching him something.  
Igor likes to play with our cat.  
My grandparents are retired.  
They like gardening.  
They spend a lot of their time in the garden.  
They grow vegetables and fruits.  
We enjoy having fresh vegetables and green on our dinner table.  
I love my family very much.  
We always help each other.  
Everyone in my family is my best friend.

### Questions:

## Family and Relatives

### Relatives (= members of your family)

These are the most important relatives (also called **relations**):

|                                                    | <i>male</i>    | <i>female</i> |
|----------------------------------------------------|----------------|---------------|
| Your parents' parents                              | grandfather    | grandmother   |
| Your parents' brother and sister                   | uncle(s)       | aunt(s)       |
| Your aunt's/uncle's children                       | cousin(s)      | cousin(s)     |
| The father and mother of the person you marry      | father-in-law  | mother-in-law |
| The brother and sister of the person you marry     | brother-in-law | sister-in-law |
| Your brother's/sister's children                   | nephew(s)      | niece(s)      |
| The person you marry dies, so you are a ...        | widower        | widow         |
| Your mother or father remarries, so you have a ... | step-father    | step-mother   |

### Family background (= family history)

My grandfather was a market gardener in Ireland. He grew flowers, fruit and vegetables, and sold them in the market every day. He worked hard all his life, and when he died, his son (now my uncle) and daughter (my mother) **inherited** a large house and garden (= received this house and garden from my grandfather when he died). They carried on the business together until my mother met my father. They got married, moved to England, and I was born two years later. They didn't have any more children, so I am an **only child**.

## Family names

When you are born, your family gives you a **first name**, e.g. James, Kate, Sarah and Alex are common first names in Britain. Your **family name** (also called your **surname**) is the one that all the family share e.g. Smith, Brown, Jones, and O'Neill are common surnames in Britain. Some parents give their children a **middle name** (like a first name), but you do not usually say this name. Your **full name** is all the names you have, e.g. Sarah Jane Smith.

Write a composition about your family and prepare it for retelling.

## Практическая работа №2

### Тема 1.2. Местоимения

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

**Местоимение** - это часть речи, употребляемая в предложении вместо существительного или прилагательного, реже - наречия. Местоимение не называет лицо, признак или предмет, а лишь адресует нас к нему (уже упомянутому ранее): Ann asked Peter a question. He answered her. Анна задала Пете вопрос. Он ответил ей.

|                                                               | 3-е           | they они             | them их, им         | their их                     | theirs            | themselves                                 |

\* Абсолютная форма притяжательных местоимений переводится так же, как и основная, и употребляется вместо определяемого существительного во избежание повторения: This is her pen and this is mine. Это ее ручка, а это моя.

\*\* Возвратно-усилительные местоимения в зависимости от числа и рода переводятся: сам, сама, само (единственное число), сами, самих (множественное число), себя, себе (единственное и множественное число) и т. п.

**Практическая работа №3**

**Тема 1.3. Внешность, характер**

**Цель работы:** Изучение нового лексического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового лексического материала. Выполнение упражнений.

## Describing people's appearance

### General

*Positive:* beautiful is generally used to describe women; handsome is used to describe men; good-looking is used for both; pretty is another positive word to describe a woman (often a girl) meaning 'attractive and nice to look at'.

*Negative:* ugly is the most negative word to describe someone; plain is more polite.

### Height and build

tall and slim

medium height and build

short and fat

medium height and  
very muscular

*Note:* Another word for slim is thin, but slim has a more positive meaning, e.g. John is lovely and slim, but his brother is terribly thin. Skinny also has the same meaning but is very negative. It is not very polite to say someone is fat; **overweight** is more neutral and polite.

### Hair

straight

wavy

curly

### Special features

The man on the left has got very **pale skin** (= white skin). He also has **broad shoulders**, with a small scar at the top of his left arm. The other man has **dark skin**. He also has a **beard** and **moustache** and quite a **hairy chest** and a **tattoo**.

### Asking questions about a person's appearance

Q: What does she look like?

A: She's quite tall, with short fair hair.

Q: How tall is she?

A: About 1 metre 65.

Q: How much does she weigh?

A: I don't know and it may be rude to ask. Probably about 45 kilos.

## Exercises

Complete these sentences in a suitable way. (More than one answer may be possible.)

- 1 She's got blonde .....
- 2 He's got very pale .....
- 3 They've both got curly .....
- 4 I would say he was medium .....
- 5 Her brother has got very broad .....
- 6 She doesn't like men with hairy .....
- 7 Last time I saw him he had grown a .....
- 8 He's got very muscular .....
- 9 Both men were very good .....
- 10 All of them have got dark .....

Replace the underlined word in each sentence with a word which is either more suitable or more polite.

- 1 He told me he met a handsome girl in the disco last night.
- 2 She's beautiful but her younger sister is really quite ugly.
- 3 I think Peter is getting a bit fat, don't you?
- 4 Most people want to stay slim, but not as skinny as that girl over there.
- 5 I think she's hoping she'll meet a few beautiful men at the tennis club.

You want to know about the following:

- someone's general appearance
- their height
- their weight

What questions do you need to ask? Complete these questions.

- What .....?
- How .....?
- How much .....?

Now answer these questions.

- 1 How tall are you?
- 2 How would you describe your build?
- 3 How much do you weigh?
- 4 What kind of hair have you got?
- 5 What colour is it?
- 6 Would you like it to be different? If so, what would you like?
- 7 Do you think you have any special features?
- 8 Are there any special features you would like to have?
- 9 Do you like beards?
- 10 Can you think of a famous woman you would describe as beautiful, and a famous man you would describe as good-looking?

If possible, ask another person these questions.

## Describing character

Many positive words describing character have clear opposites with a negative meaning.

| <i>Positive</i>                       | <i>Negative</i>                                       |
|---------------------------------------|-------------------------------------------------------|
| warm and friendly                     | cold and unfriendly                                   |
| kind                                  | unkind                                                |
| nice, <u>pleasant</u>                 | horrible, unpleasant                                  |
| generous (= happy to give/share)      | mean (= never gives to others)                        |
| optimistic (= thinks positively)      | pessimistic (= thinks negatively)                     |
| <u>cheerful</u> (= happy and smiling) | miserable (= always seems unhappy)                    |
| relaxed and easy-going                | <u>tense</u> (= nervous; worries a lot; not calm)     |
| strong                                | weak                                                  |
| sensitive                             | insensitive (= does not think about others' feelings) |
| honest (= always tells the truth)     | dishonest                                             |

Jane is very tense at the moment because of her exams, but she's usually quite relaxed and easy-going about most things.

I think the weather influences me a lot: when it's sunny I feel more cheerful and optimistic; but when it's cold and raining I get very miserable.

He seemed a bit unfriendly at first, but now I've got to know him I realise he's very warm and kind.

The shop assistant told me that the dress I tried on looked better on people younger than me. I thought that was very insensitive of her, but at least she was being honest, I suppose.

## Character in action

People often talk about qualities of character that you may need in a work situation. Again, some of these words come in pairs of opposites: one positive and one negative.

| <i>Positive</i>                    | <i>Negative</i>                                                 |
|------------------------------------|-----------------------------------------------------------------|
| hard-working                       | lazy (= never does any work)                                    |
| punctual (=always on time)         | not very punctual; always late                                  |
| reliable                           | unreliable (= you cannot trust / depend on someone like this)   |
| clever, bright ( <i>informal</i> ) | stupid, thick ( <i>informal</i> )                               |
| flexible                           | inflexible (= a very fixed way of thinking; unable to change)   |
| ambitious                          | unambitious (= no desire to be successful and get a better job) |

Some pairs of opposites do not have a particularly positive or negative meaning:

He is very shy when you first meet him because he finds it difficult to talk to people and make conversation; but when he knows people quite well he's much more self-confident.

People often say the British are very reserved (= do not show their feelings), but when you get to know them they can be very emotional like anyone else.

## Exercises

Organise these words into pairs of opposites and put them in the columns below.

|       |          |          |            |         |              |
|-------|----------|----------|------------|---------|--------------|
| mean  | clever   | nice     | lazy       | relaxed | hard-working |
| tense | cheerful | generous | unpleasant | stupid  | miserable    |

What prefix forms the opposite of each of these words? (You need three different prefixes.)

|          |           |           |          |
|----------|-----------|-----------|----------|
| kind     | flexible  | friendly  | honest   |
| reliable | sensitive | ambitious | pleasant |

How would you describe the person in each of these descriptions?

- 1 He never bought me a drink all the time we were together.
- 2 I have to tell her what to do every minute of the working day. She wouldn't even open a window without someone's permission.
- 3 He often promises to do things but half the time he forgets.
- 4 She's always here on time.
- 5 I don't think he's done any work since he's been here.
- 6 She finds it difficult to meet people and talk to strangers.
- 7 He could work in any of the departments, and it doesn't matter to him if he's on his own or part of a team.
- 8 One of the great things about her is that she is so aware of what other people think or feel.
- 9 Bob, on the other hand, is the complete opposite. He is always making people angry or upset because he just doesn't consider their feelings.
- 10 The other thing about Bob is that he really wants to get the supervisor's job and then become boss for the whole department.

What nouns can be formed from these adjectives? Use a dictionary to help you.

*Example:* kind *kindness*

|           |            |           |        |
|-----------|------------|-----------|--------|
| punctual  | optimistic | reliable  | lazy   |
| confident | generous   | ambitious | stupid |
| sensitive | strong     | flexible  | shy    |

## Human feelings and actions

### Feelings

| <i>Noun</i>           | <i>Adjective(s)</i>                    |
|-----------------------|----------------------------------------|
| love (≠ hate)         | –                                      |
| happiness (≠ sadness) | happy (≠ sad)                          |
| anger                 | angry                                  |
| fear                  | afraid (of) / frightened (of)          |
| pride                 | proud (of)                             |
| jealousy              | jealous (of)                           |
| embarrassment         | embarrassed/embarrassing (see Unit 30) |

#### *Note:*

- Pride has different meanings, but the most common is the feeling of satisfaction you have because you (or people you are connected with) have done something well.  
He was very proud when his wife became the first President of the organisation.
- Jealousy is a feeling of anger and unhappiness you may have if (a) someone you love shows a lot of interest in others, or (b) if someone has something you want / don't have.  
a) My boyfriend gets very jealous when I talk to other boys.  
b) He's jealous of his brother because his brother is more intelligent and makes more money.
- A common adjective is upset, which means unhappy, sad, and even angry, because something unpleasant has happened, e.g. He was very upset when we didn't invite him.

### Exercises

What nouns can be formed from these adjectives?

angry    sad    happy    proud    jealous    embarrassed

Find the logical ending on the right for each of the sentence beginnings on the left.

- |                                |                                                           |
|--------------------------------|-----------------------------------------------------------|
| 1 He was very proud when       | a someone stole his money.                                |
| 2 He was very jealous when     | b his father appeared on TV with the Prime Minister.      |
| 3 He was very embarrassed when | c he heard that his aunt had died.                        |
| 4 He was very angry when       | d he saw those big dogs running towards him.              |
| 5 He was very sad when         | e he bought her a birthday present on the wrong day.      |
| 6 He was very frightened when  | f his best friend went out with the girl he really liked. |

Answer these questions. If possible, ask someone else the same questions.

- 1 Would you feel embarrassed or upset (or both) if you forgot your mother's birthday or your father's birthday?
- 2 Do you ever feel frightened in a car (as a passenger) because you are going very fast?
- 3 Do you get angry when other people want you to do things that you don't want to do?
- 4 If you made a stupid mistake in English, would you feel embarrassed?
- 5 Is there any one thing that you are very proud of?
- 6 Are there any common situations where you sometimes feel embarrassed?

**Ход работы:** Изучение нового лексического материала. Чтение и перевод текста.

Работа с текстом и выполнение лексических упражнений.

### 1. Прочитайте текст и переведите его на русский язык.

#### LIVING IN THE CITY AND IN THE COUNTRY

As you know, some people enjoy big city life, others prefer to live in the suburbs or even on a farm in the country.

The city is the place where all industrial, cultural and educational centres are situated. People live in cities because all necessary objects are nearby. For example, if you get sick, a hospital or a chemist's shop will be situated near your home in the city. Houses in the city are generally provided with modern conveniences such as electricity, running water, telephones

and all sorts of labour-saving devices. There are plenty of means of transport: buses, trolley buses, mini-buses, trams, taxi-cabs and the underground.

City dwellers have more means of broadening their cultural outlook than country people: day schools and evening courses, public and private libraries, societies and exhibitions. There are many places in the city where you can get a bite or a drink: restaurants, cafes, pizzerias, tearooms, fast-food restaurants, quick-service restaurants and food bars. Besides, in big cities you can find all kinds of entertainment such as playgrounds and football pitches, tennis and basketball courts, rinks, museums, cinemas, theatres, concert halls, clubs, parks, and what not. Many people like to spend their free time there because it helps them to relax and brings them a lot of pleasure. All in all, city life is full of bustle and variety and you never feel bored.

At first glance all that is really very comfortable, but nowadays in big cities there is a great amount of cars and factories. Big cities suffer from overpopulation, dirty air and water, the streets are noisy and full of traffic jams, and after a hard working day people cannot relax. In the country we can live in the midst of nature. Countryside houses are spread out and there is plenty of greenery. The beautiful surroundings with trees and shrubs are pleasing to our eyes. The air is fresh and cool, which is good for a healthy living. Country life is full of charms. The rippling rivers, the grazing cows and the chirping birds give us great pleasure in life. Moreover, country life is cheaper than town life. People living in the country seem to be good-natured and have a warm heart. They share any difficulties, happiness, sadness in order to overcome everything.

However, country people can't find a proper job with high income. There are no state supported farms any more. Now there are agricultural joint-stock companies and individual farming. Russian agriculture has undergone the process of economic changes. It is rather difficult to survive in the conditions of deep economic crisis, especially for individual farmers.

Thus, living in the country as well as that in the city has both advantages and disadvantages. Not without reason it is said that the grass is always greener on the other side of the fence. So, every person should live in the place where he or she feels comfortable and happy.

## **2. Ответьте на вопросы.**

- 1) Do people prefer living in the country or in the city?
- 2) Why do people live in cities?
- 3) What are houses in the city provided with?
- 4) What means of transport are there in the city?
- 5) How can city dwellers broaden their cultural outlook?
- 6) Where can people get a bite or a drink in the city?
- 7) What kinds of entertainment can people find in big cities?
- 8) What do big cities suffer from?

- 9) What is pleasing to our eyes in the countryside?
- 10) Why is country life good for a healthy living?
- 11) What are country people like?
- 12) What are the disadvantages of living in the country?
- 13) Do you find the English proverb “The grass is always greener on the other side of the fence” true to life?

**3. Дайте русские эквиваленты данным словам и выражениям.**

### **Seasons**

The year is divided into four seasons: winter, spring, summer, and autumn. Each season has its good and bad sides.

The weather in spring is generally mild but sometimes the days are really cold, especially in the beginning of the season. It is the time when everything awakes from its winter sleep.

Summer is the hottest season. It's time for holidays. People go to the seaside to sunbathe, to swim or to have a rest. In our country it usually gets hot in the end of June and July. Summer nights are short, but wonderful, the days are long.

Talking about autumn, I guess it isn't as nice as summertime. It's a season of winds and beautiful sunsets. The weather gets cooler and cooler. The leaves turn yellow and reddish and fall down to the ground and the birds migrate to warm countries.

A spell of sunny weather in September is called Indian summer or «Golden Autumn», In the end of November it sometimes snows. Though some people like autumn, because it is full of colours, but to my thinking it's a dull and rainy season.

Winter is the coldest time of the year. It is time of snow and frost. It is time of New Year and Christmas. In winter the temperature rarely can cross the point of ten or fifteen centigrade below freezing point in our country.

## **2. Ответьте на вопросы:**

*Note:* When it rains for a short period of time, we call it a **shower**, e.g. We had several showers yesterday afternoon.

When it is raining a lot we often say it's **pouring** or it's **pouring with rain**. This phrase is much more common than 'it's raining cats and dogs', which many students seem to learn.

## Temperature

People round the world have different ideas about temperature:

5°C (five degrees centigrade) is **freezing** for many Brazilians.

-10°C (minus ten degrees *or* ten degrees below zero) is very cold but quite normal in the mountains in Switzerland during the winter when it usually snows a lot.

30-35°C is **boiling** for England and very unusual, but it is very common in parts of Spain during the summer.

## Wind

The first word here is very gentle; the last is more than 100 km per hour and can be very dangerous.

a breeze      a wind      a strong wind      a gale      a hurricane

It was a hot day but there was a lovely breeze.

The wind blew my hat off.

The hurricane in Florida destroyed trees and buildings.

## Thunderstorms

A spell (= period) of very hot weather often ends with a **thunderstorm**. First it becomes very **humid** (= hot and wet), then you get **thunder and lightning**, and finally, very heavy **rain** (= it pours with rain). Afterwards, it is usually cooler and it feels fresher.

## Exercises

*True or false? If a sentence is false, write a true sentence about the weather conditions in the sentence.*

- 1 It often pours with rain in the desert.
- 2 It gets quite chilly in the desert in the evening.
- 3 Thunder makes a noise.
- 4 Lightning can kill people.
- 5 A shower is a gentle breeze.
- 6 A spell of hot weather may end in a thunderstorm.
- 7 If it is humid, the air will be very dry.
- 8 Below zero, water turns to ice.
- 9 Heavy rain means that it is pouring with rain.
- 10 When it's foggy you need sunglasses.

## Практическая работа №8

### Тема 2.2. Числительные

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

Именем **числительным** называется часть речи, которая обозначает количество или порядок предметов. Имена числительные делятся на *количественные* (Cardinal Numerals) и *порядковые* (Ordinal Numerals).

Количественные числительные обозначают количество предметов и отвечают на вопрос **how many?** *сколько?* Например: **one** один, **two** два, **three** три и т. д.

Порядковые числительные обозначают порядок предметов и отвечают на вопрос **which?** *который?* Например: **first** первый, **second** второй, **third** третий и т. д.

Числительные **hundred, thousand, million** не приобретают окончание **s** как показатель множественного числа, однако если эти слова выполняют функцию существительных, т. е. перед ними нет числительного, то во множественном числе добавляется **s**: hundreds of people *сотни людей*, thousands of words *тысячи слов*.

Порядковые числительные образуются от соответствующих количественных числительных путем прибавления суффикса *th*: *seven — seventh седьмой, twenty-four — twenty-fourth двадцать четвертый*.

### **Практическая работа №9**

Тема 2.3. Время. Мой распорядок дня

**Цель работы:** Изучение нового грамматического и лексического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического и лексического материала. Работа с текстом.

1. Прочитайте и запомните следующие правила обозначения времени в английском языке:

Спросить время по-английски можно так:

- What time is it? (Сколько времени?)

- Do you have the time? (Время / часы есть?)
- Could you please tell me the time? (Время не подскажете?)
- At what time? (Когда, во сколько?)

В английском языке время обычно измеряется по 12 часов, и к конкретному времени добавляется нужное пояснение:

- in the morning (утра)
- in the afternoon (дня)
- in the evening (вечера)
- in the night (ночи)

Также можно добавлять вот эти два сокращения:

a.m. — [ei em], ante meridiem, до полудня.

p.m. — [pi em], post meridiem, после полудня.

К целым часам (и только к ним) добавляется слово "o'clock", которое имеет значение "ровно". Например, можно сказать так:

It's 7 o'clock in the morning / It's 7 a.m. — "Сейчас 7 утра"

It's at 9 in the evening / It's at 9 p.m. — "Это в 9 вечера"

Если время неровное, с минутами, то нужно будет указать, куда эти минуты относятся.

Например, если 10 минут прошло после ровного часа, то так и говорится:

It's 10 minutes past 3 — 10 минут после трех, 10 минут четвертого.

Если же 20 минут осталось до ровного часа, то вместо "past/after" будет использоваться частица "to":

It's 20 minutes to 7 — 20 минут до семи, без двадцати семь.

Если минут 15 или 30, то используются слова "a quarter" и "half" (четверть и половина).

Однако, с половиной никогда не используется частица "to", не может быть "без половины 8", может быть только "половина после семи":

It's a quarter after one — четверть после часа, час пятнадцать.

It's a quarter to four — четверть до четырех, без пятнадцати 4.

It's half past six — половина после шести, 6:30.

Можно также ограничиться точными цифрами и указанием половины дня:

It's seven-thirty a.m. — 7:30 утра.

It's ten-forty-five p.m. — 10:45 вечера.

It's eight-twenty a.m. — 8:20 утра.

В случае, когда нужно указать некий период времени, используется предлог "in", который в данном случае переводится как "через":

I'll be back in an hour — Я вернусь через час.

Turn off the oven in 20 minutes — Выключи духовку через 20 минут.

The copies will be ready in a moment — Через минуту копии будут готовы.

2. Прочитайте и переведите следующие тексты. Ответьте на вопросы:

## **My Week-day**

I get up at a quarter to seven.

I jump out of bed, switch on the radio and do my morning exercises to the radio music.

Then I go to the bathroom, wash myself and clean my teeth with, a tooth-brush.

This does not take me much time, not more than ten or fifteen minutes.

Then I dress and sit down to table to have my breakfast.

I usually have a cup of tea or coffee, an egg and bread and butter.

After breakfast I go to the technical school.

As I live far away, I go by bus or by metro.

It takes me more time to go by bus.

If I have little time, I go by metro.

My lessons begin at 9 o'clock.

We have six lessons every day.

At a quarter to one we have a lunch hour.

As I cannot get home for lunch, I take it at the diningroom of our technical school.

For lunch I have meat or fish with potatoes and a cup of strong tea or coffee with a pie.

At ten minutes to three the lessons are over, and I go home.

When I get home from the technical school, I have dinner.

My dinner usually consists of three courses.

For the first course I have some soup, then some meat or fish.

For dessert I have stewed fruit or ice-cream.

After dinner I help my mother to wash up the dishes.

Then I do my lessons.

This usually takes me about two hours.

At eight or nine o'clock I have supper.

I have some salad, a slice of sausage and bread, sour milk or cereal.

In the evening I listen to the radio or watch TV.

If the programme is not interesting, I go to the cinema or to the theatre.

Sometimes, I go for a walk with my friends.

We talk about different things and usually have a good time.

At 11 o'clock I go to bed.

## **Questions:**

1. When do you get up?
2. What do you do in the bathroom?
3. What do you have for breakfast?
4. When do you get home after classes?
5. When do you go to bed?
6. What do you do after dinner?

7. What do you have for dessert?
8. What do you do in the evening?

### **Vocabulary:**

to wash up dishes — мыть посуду

slice — кусок, ломтик

sausage — колбаса

sour milk — кислое молоко

cereal — каша

### **My Week-day**

I am very busy on my week-days.

My week-days do not differ much one from another.

On week-days my working day begins early in the morning.

My school starts at 8 o'clock, so I have to get up at 7, to be ready in time.

I never wake up myself, my mother always wakes me up.

Sometimes I do my morning exercises, then I rush to the bathroom.

I clean my teeth, wash my face.

The cold water makes me feel not so sleepy.

Then I go back to my room, make the bed.

I switch on my radio, usually I listen to radio.

I put on my clothes, comb my hair, put a little make-ups.

By that time my breakfast is ready (my mother cooks it for me).

At a quarter to eight I grab my bag and rush to my school.

My school starts at 8 o'clock and I don't like to be late.  
Usually I have six or seven lessons a day, it lasts till 3 o'clock.  
After each lesson there is a break, so I can talk to my friends or eat my sandwich.  
When school is over I go home.  
First of all I need to walk my dog.  
Then I have my dinner and a little rest.  
The teachers give us a lot of homework, so I start doing it about 16.30 or 17.00.  
As a rule it takes me two or three hours to do my home assignments.  
My parents get home about six o'clock.  
We watch soapopera on TV, have supper together.  
We share all the news, I tell about the lessons and school.  
After it, I help my mother to do some work about the house — wash dishes, sweep the floor, clean the room.  
Twice a week in evenings I go play tennis.  
When I do not go to play tennis, I stay home and watch TV, listen to the music, read magazines.  
Sometimes my friends call me and we go for a walk.  
At eleven o'clock tired after a long working day I go to bed and fall asleep.

### **Questions:**

1. What time do you get up on your week-days?
2. Do you usually do your morning exercises?
3. Who cooks your breakfast?
4. What time do you leave your house to go to school?
5. How many lessons do you have a day?
6. Do you usually do your homework?
7. What do you do in the evening?
8. What time do you go to bed?

to differ — отличаться  
to wake up — просыпаться  
sleepy — сонный  
to switch on — включать  
to grab — хватать  
rush — мчаться  
sandwich — бутерброд  
to be over — заканчиваться  
rest — отдых

to sweep — подметать

to be tired — устать

### **My Day off**

When a school-girl I always envied those students who went to school five but not six days a week, as we did. So you may guess, I had the only day off — Sunday. On Sunday, I didn't have to hurry anywhere, that's why, I got up at nine or ten o'clock. I wasn't an early riser. I did my bed, washed myself and went to the kitchen. In the kitchen the table had already been laid and I always had something tasty on Sunday: fried potatoes, meat salad or my favourite applepies. After breakfast, if the weather was sunny, I usually didn't stay indoors, I went to see my friends. We often played volleyball or basket-ball in the yard and in winter if there was much snow out-of-doors we went skating and skiing in the woods. But sometimes the day happened to be rainy and gloomy. I preferred to be in watching TV, listening to music, reading books, speaking over the phone or just lying on the sofa idling away the time. Some of my classmates could watch all TV-programmes from morning till night, but I think it's rather boring, and I always felt sorry for those TV-addicts. It's much more interesting to play a game of chess with your grandfather, or help your mother about the house, or argue with your father about the latest events at home and abroad. In the evening, when all the family were together, we had some tea with a cake or biscuits, we listened to my younger sister playing the piano, sometimes we sang folk songs. Every Sunday, when I went to bed, I was thinking that the day had flashed past and the next week would bring new problems and their solution.

#### **Questions:**

1. What day was your day off?
2. When did you get up on Sunday?
3. Were you an early riser?
4. What did you have for breakfast on Sunday?
5. What did you do if the weather was sunny?
6. Did you like to stay indoors when the day was rainy and gloomy?
7. Do you think to watch TV from morning till night is rather boring?
8. What did you do in the evening?

#### **Vocabulary:**

to envy — завидовать

to guess — догадываться

I didn't have to hurry — мне не нужно было торопиться

an early riser — человек, поднимающийся рано  
to wash oneself — умываться  
to lay the table — накрывать на стол  
tasty — вкусный  
favourite — любимый  
pie — пирог  
to go skating and skiing — кататься на коньках и лыжах  
to happen — случаться  
gloomy — мрачный  
to speak over the phone — разговаривать по телефону  
boring — утомительный, скучный  
to feel sorry for smb. — жалеть кого-нибудь  
to feel — чувствовать  
TV-addicts — "телеманы"; люди, проводящие много времени перед телевизором  
to play a game of chess — сыграть партию в шахматы  
to argue — спорить

### **My Days off**

I go to school five days a week, so I have two days off — Saturday and Sunday (I'm lucky, because some other pupils have the only one day off). During the week I am very busy, so I like to have a rest on weekend. I am not an early riser and it is a rare Saturday or Sunday when I get up before 9 o'clock. I enjoy staying in bed, when I don't have to hurry anywhere. We have late breakfast at 10 and watch TV. Usually we have something tasty: meat salad, fried potatoes, chicken, cake or pie. If the weather is fine, I usually do not stay indoors, I and my dog go outside. Often we go to the park and play there. If the weather is rainy and gloomy, I stay at home and watch TV, listen to the music, read, the books. After dinner we go visit our grandparents or relatives, or just simply take a nap. Sometimes when my friends call me we go roller — blading near the Opera theatre I like roller — blading very much, I think it is a lot of fun. In the evenings I like to watch video and music programs. There is a big armchair in my room right beside the lamp with blue shade. If it is cold I like to sit there with cup of coffee and read. Sometimes I do something special on weekends: go to an art exhibition, to the theatre, to the concert. I always go to bed late on Sundays, and Monday morning is the nastiest thing through all the week. I like weekends very much, because I can rest and gain some energy for the next week.

### **Questions:**

1. How many day offs do you have?
2. When do you get up on Sunday?

3. What do you usually do during weekends?
4. What do you do if the weather is sunny?
5. Do you spend a lot of time with your friends?
6. Do you watch TV a lot?
7. What time do you go to bed?
8. Do you like weekends?

Vocabulary:

lucky — удачливый

early riser — человек, встающий рано

to enjoy — наслаждаться

to hurry — торопиться

tasty — вкусный

pie — пирог

gloomy — мрачный

relative — родственник

take a nap — вздремнуть

exhibition — выставка

nasty — противный

### Практическая работа №10

Тема 2.4. Прилагательные и наречия.

Степени сравнения прилагательных и наречий.

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

Прилагательные обозначают признаки предметов и отвечают на вопрос: какой?

A wide road. Широкая дорога. A tall tree. Высокое дерево. An interesting book.

Интересная книга.

Наречия отвечают на вопрос: как?

He speaks English well. Он говорит по-английски хорошо.

Прилагательные и наречия имеют три формы степеней сравнения: положительную (positive degree), сравнительную (comparative degree), превосходную (superlative degree).

Формы сравнительной и превосходной степеней образуются двумя способами:

**Способ 1.** Если прилагательное односложное, форма его сравнительной степени образуется при помощи суффикса -er, а форма превосходной степени – при помощи суффикса -est.

| Положительная степень | Сравнительная степень | Превосходная степень         |
|-----------------------|-----------------------|------------------------------|
| strong (сильный)      | stronger (сильнее)    | the strongest (сильнейший)   |
| cold (холодный)       | colder (холоднее)     | the coldest (самый холодный) |

Некоторые двусложные прилагательные оканчивающиеся на -y, -er, -ow образуют степени сравнения так же, как и односложные, с помощью суффиксов -er и -est.

easy (легкий) – easier (более легкий, легче) – the easiest (самый легкий, легчайший)

**Способ 2.** От двусложных прилагательных и прилагательных состоящих из трёх или более слогов, сравнительная степень образуется при помощи слова more (less), а превосходная степень – при помощи слова most (least)

famous (знаменитый) – more (less) famous (более (менее) знаменитый) – the most famous (самый знаменитый)

interesting (интересный) – more interesting (более интересный) – the most interesting (самый интересный)

**Запомните исключения при образовании степеней сравнения прилагательных:**

| Положительная степень           | Сравнительная степень                       | Превосходная степень                                        |
|---------------------------------|---------------------------------------------|-------------------------------------------------------------|
| good (хороший)<br>well (хорошо) | better (более хороший,<br>лучше)            | the best (самый хороший,<br>лучший)                         |
| bad (плохой)                    | worse (более плохой, хуже)                  | the worst (самый плохой,<br>худший)                         |
| little (маленький)              | less (меньше, меньший)                      | the least (самый маленький)                                 |
| much / many (много)             | more (больше)                               | most (больше всего, самый<br>большой)                       |
| far (далекий)<br>far (далеко)   | farther (более далекий)<br>further (дальше) | the farthest (самый далекий)<br>the furthest (дальше всего) |

Существительное, определяемое прилагательным в превосходной степени, всегда имеет определенный артикль.

В предложениях со степенями сравнения прилагательных и наречий используются следующие союзы: as ... as такой же ... как; not so ... as не такой ... как.

#### ***My Favourite Book (Gone with the Wind)***

I've recently read a book which has made a very deep impression on me. It's called *Gone with the Wind* and it makes really unforgettable reading. The author of the book is Margaret Mitchell. She was born in Atlanta, Georgia, into a family of the president of the Atlanta Historical Society. All the family were interested in American history and she grew up in an atmosphere of stories about the Civil War.

After graduating from college Margaret Mitchell worked for a time for the Atlanta Journal. In 1925 she got married. In the following ten years she put on paper all the stories she had heard about the Civil War. The result was *Gone with the Wind*. It was first published in 1936 and became the talking point of all America. In 1939 it was made into a highly successful film. Vivien Leigh and Clark Gable played the leading roles. Vivien Leigh won the Oscar. Everyone loved her high-spirited and beautiful heroine, Scarlett O'Hara.

The story is set around the time of the American Civil War (1861-65) when the Southern States went to war with the North to defend their way of life. It was a way of life in which rich gentry lived in large houses and owned huge areas of land, cultivated by black slaves. Scarlett O'Hara was born into one of these rich houses. When this way of life was destroyed and all her family's wealth taken away by the advancing Northerners, the spoiled, willful Scarlet had to grow up and use all her wit and intelligence — and beauty — to build a new life.

But *Gone with the Wind* is also about a love triangle. While Scarlett loves the quiet, gentlemanly Ashley Wilkes, the wild and decidedly ungentlemanly Rhett Butler is in love with her. After Ashley marries someone else, and after many adventures of her own, Scarlett does marry Rhett — but only for money.

The marriage is stormy and eventually Rhett walks out on her, but by that time Scarlett has realized that she loves him after all. Scarlett thinks of some way of getting him back, but we never know if she does.

Margaret Mitchell never wrote a sequel to answer this burning question.

***My Favourite Film (Titanic)***

As you know, the 3-hour-14-minute film "Titanic" is no mere disaster movie. It's an epic love story about a 17-year-old American aristocrat who is betrothed to a rich and hateful suitor but falls in love with a free-spirited artist, who won his third-class passage in a card game. It's "Romeo and Juliet" on a sinking ship and has become an international sensation. "Titanic" is also a movie about money and its evils. With fine irony, Cameron has spent more dollars than any other filmmaker to make a film that denounces the rich. The \$8,4 million costume budget alone would finance several independent movies. Production designer Peter Lamont copied the real Titanic down to the exact shade of green on the chairs in the smoking lounge. The sumptuous sets have made-to-order replicas of the china, the stained-glass windows — and since all of it was going to be destroyed, nothing could be rented. "To the best of our knowledge, there was no violation of historical truth", says Cameron. "We have a great responsibility. Whatever we make, will become the truth, the visual reality that a generation will accept", says Cameron. The special effects are in the service of the story. In the 80-minute sinking of the ship, you don't wonder what's real and what's computer-generated. What you feel is the horror of the experience, the depths of the folly that left this "unsinkable" ship so vulnerable to disaster. While the women and children are loaded into lifeboats (there were only enough for half the 2,200 passengers), the third-class passengers are locked. Cameron makes terrifying poetry out of chaos with images of the ship breaking in half, the deck rising perpendicular to the water as passengers bounce off the ship's giant propellers into the freezing ocean. But it is the love between the unhappy Rose and the sanguine, openhearted Jack that occupies stage center. Is it the great love story Cameron so desperately wanted to make? Not quite. Visually, his lovers are an odd match: next to DiCaprio's boyish beauty, Kate Winslet looks womanly. And once the disaster strikes, their individual fates become overwhelmed by the communal horror. Our hearts, at least, couldn't but break once these lovestruck kids were surrounded by floating frozen corpses. Cameron's strength is in painting canvases with broad strokes, and for 194 minutes beholds you in his grip. This is one grand entertainment — old-fashioned filmmaking brought up to date with the most spectacular technology available. Cameron says today that if he had known what it would take to bring his vision to the screen, he would have stopped before he started. But "regret" is not in the guy's vocabulary.

## Тема 2.7. Имя существительное.

### Множественное число существительных

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

**Имя существительное** – это знаменательная часть речи, обозначающая предмет в самом широком смысле. Например, существительные могут обозначать вещи (car, pen), живых существ (cat, human), места (Norway, mountain, Moscow), материалы (copper, cloth), процессы (life, laughter), состояния (rest, sleep), абстрактные понятия (beauty, evil) и качества (kindness, bravery).

Множественное число имен существительных образуется путем:

#### 1. Добавления окончания **-s** к существительному

|               |              |
|---------------|--------------|
| <i>a cat</i>  | <i>cats</i>  |
| <i>a sea</i>  | <i>seas</i>  |
| <i>a boy</i>  | <i>boys</i>  |
| <i>a book</i> | <i>books</i> |
| <i>a pen</i>  | <i>pens</i>  |
| <i>a girl</i> | <i>girls</i> |

#### 2. Добавления окончания **-s** к существительным, оканчивающимся на гласную + **y**

|               |          |                |
|---------------|----------|----------------|
| <i>turkey</i> | индюк    | <i>turkeys</i> |
| <i>monkey</i> | обезьяна | <i>monkeys</i> |
| <i>day</i>    | день     | <i>days.</i>   |

3. Замены **y** на **i** и добавления **-es** к существительным, оканчивающимся на согласную + **y**

|                  |          |                  |
|------------------|----------|------------------|
| <i>a fly</i>     | муха     | <i>flies</i>     |
| <i>a lady</i>    | леди     | <i>ladies</i>    |
| <i>a body</i>    | тело     | <i>bodies</i>    |
| <i>a country</i> | страна   | <i>countries</i> |
| <i>a company</i> | компания | <i>companies</i> |
| <i>a party</i>   | партия   | <i>parties</i>   |
| <i>a baby</i>    | младенец | <i>babies.</i>   |

4. Добавления окончания **-es** к существительным, оканчивающимся на **s, x, z, ch** and **sh**

|              |          |                 |
|--------------|----------|-----------------|
| <i>mass</i>  | масса    | <i>masses</i>   |
| <i>class</i> | класс    | <i>classes</i>  |
| <i>box</i>   | коробка  | <i>boxes</i>    |
| <i>buzz</i>  | звонок   | <i>buzzes</i>   |
| <i>watch</i> | часы     | <i>watches</i>  |
| <i>match</i> | спичка   | <i>matches</i>  |
| <i>dish</i>  | блюдо    | <i>dishes</i>   |
| <i>crash</i> | крушение | <i>crashes.</i> |

5. Замены **f** на **v** и добавления окончания **-es** к существительным, оканчивающимся на **f** и **fe**

|              |          |                |
|--------------|----------|----------------|
| <i>knife</i> | нож      | <i>knives</i>  |
| <i>wife</i>  | жена     | <i>wives</i>   |
| <i>life</i>  | жизнь    | <i>lives</i>   |
| <i>half</i>  | половина | <i>halves</i>  |
| <i>shelf</i> | полка    | <i>shelves</i> |
| <i>wolf</i>  | волк     | <i>wolves.</i> |

Но не всегда. *Исключениями* являются:

|               |           |                |
|---------------|-----------|----------------|
| <i>belief</i> | вера      | <i>beliefs</i> |
| <i>chief</i>  | шеф       | <i>chiefs</i>  |
| <i>chef</i>   | шеф-повар | <i>chefs</i>   |
| <i>cliff</i>  | утес      | <i>cliffs</i>  |
| <i>roof</i>   | крыша     | <i>roofs.</i>  |

6. Добавления **-s** или **-es** к существительному, оканчивающемуся на **o**

|               |           |                 |
|---------------|-----------|-----------------|
| <i>piano</i>  | пианино   | <i>pianos</i>   |
| <i>potato</i> | картофель | <i>potatoes</i> |
| <i>tomato</i> | помидор   | <i>tomatoes</i> |
| <i>hero</i>   | герой     | <i>heroes.</i>  |

Ряд существительных образуют множественное число **не по общим правилам**:

а) изменяется корневая гласная:

|                |         |              |         |
|----------------|---------|--------------|---------|
| <i>a man</i>   | мужчина | <i>men</i>   | мужчины |
| <i>a woman</i> | женщина | <i>women</i> | женщины |
| <i>a foot</i>  | нога    | <i>feet</i>  | ноги    |
| <i>a tooth</i> | зуб     | <i>teeth</i> | зубы    |
| <i>a goose</i> | гусь    | <i>geese</i> | гуси    |
| <i>a mouse</i> | мышь    | <i>mice</i>  | мыши.   |

б) добавляется окончание **-en**:

|                |         |                 |       |
|----------------|---------|-----------------|-------|
| <i>an ox</i>   | бык     | <i>oxen</i>     | быки  |
| <i>a child</i> | ребенок | <i>children</i> | дети. |

в) заимствуются формы единственного и множественного числа из латинского и греческого языков:

|                    |          |                            |          |
|--------------------|----------|----------------------------|----------|
| <i>a formula</i>   | формула  | <i>formulae (formulas)</i> | формула  |
| <i>a crisis</i>    | кризис   | <i>crises</i>              | кризисы  |
| <i>a criterion</i> | критерий | <i>criteria</i>            | критерии |
| <i>a bacterium</i> | бактерия | <i>bacteria</i>            | бактерии |
| <i>a datum</i>     | данное   | <i>data</i>                | данные   |
| <i>an index</i>    | индекс   | <i>indices</i>             | индексы. |

В английском языке есть существительные, которые имеют одну (общую) форму для единственного и множественного числа:

|                |        |              |         |
|----------------|--------|--------------|---------|
| <i>a deer</i>  | олень  | <i>deer</i>  | олени   |
| <i>a sheep</i> | овца   | <i>sheep</i> | овцы    |
| <i>a fish</i>  | рыба   | <i>fish</i>  | рыбы    |
| <i>a swine</i> | свинья | <i>swine</i> | свиньи  |
| <i>moose</i>   | лось   | <i>moose</i> | лоси    |
| <i>bison</i>   | бизон  | <i>bison</i> | бизоны. |

Некоторые существительные могут употребляться в форме только единственного либо множественного числа.

**Только в единственном числе употребляются слова:**

*money* — деньги

*sugar* — сахар

*hair* — волосы

*business* — дело

*information* — информация, сведения

*progress* — прогресс, успехи

**The Celik family (Istanbul, Turkey)** Melahat and her husband live with their three children and Melahat's mother. All meals are freshly prepared by Melahat, and she buys their food at an open-air market in Istanbul's Golden Horn district. She gets fresh fish and beef there, and it's a particularly good place to buy fruit and vegetables which are so important in their diet. In a typical week, Melahat buys a kilo of peppers and onions, two kilos each of carrots, aubergines, peas, olives and courgettes; five kilos of spinach, ten kilos of potatoes, six kilos of oranges and one of bananas. They eat large quantities of rice and bread – 25 loaves a week. They don't buy any frozen food, but they drink instant coffee and twelve cans of cola a week, plus orange juice, yoghurt drinks and eight bottles of beer.

**The Caven family (California, USA)** Regan and Craig Caven are a typical American family – two incomes, two cars, and two children, Trisha, 5 and Andrew, 3. As they both work, they shop at weekends, usually in supermarkets. They often have salads and there is always a lot of fresh fruit: two kilos each of apples and bananas, and one kilo each of oranges and grapes is typical in the weekly shopping. They eat fresh chicken and beef, but only buy fish (tuna) in cans. They spend a lot on drinks: 340 g of instant coffee, four litres of milk, two litres

each of apple and orange juice, five litres of bottled water and 25 diet colas, but no alcohol. During the week, frozen food is a large part of their diet – three and a half kilos of frozen prepared meals and a family-sized frozen pizza. It is only at weekends that the family makes time for home-cooked meals; pasta is very popular with the children.

**4. Ответьте на вопросы.**

- b. Which family eats more fresh food?
- c. Which family's food do you prefer? Why?
- d. What food do you usually buy?

**5. Прочитайте интервью с Элис и Викторией. Соотнесите вопросы 1-6 с ответами А-Е.**

- a. Is food a pleasure for you?
- b. What do you normally eat in a typical day?
- c. Do you ever cook?
- d. Do you ever eat “unhealthy” food? How do you feel about it?
- e. Are you trying to cut down on anything at the moment?
- f. Are people's diets in your country getting better or worse?

Alice is a lawyer from the United States

A I think people are trying to improve their diets, but they are doing it the

\_\_\_\_\_ wrong way by following diets like the Atkins diet. Personally, I don't think it's very healthy to cut out entire groups of food like carbohydrates.

B Not very often. I don't have the time or talent to cook full meals. I usually *heat up* a frozen meal or order a *takeaway*.

C Sometimes I get fast food for lunch. I have to admit that I love French fries. I feel terrible about it afterwards, but I don't do it very often.

D I usually have a bowl of cereal or toast for breakfast. For lunch I eat at a restaurant near my office. I prefer Japanese or Indian food. I usually eat rice with fish and vegetables, *soup* or *sushi*. I don't eat meat, but I eat a lot of fish. In the evening, I just have something light at home.

E\_\_\_\_\_ I am trying to cut down on the amount of *fat* I eat. I'm also trying to eat more *wholemeal* bread.

F Not really. I enjoy certain kinds of food, but most meals are just fuel to keep me going through the day.

Victoria is an IT consultant from France

A Yes, I cook every evening for my family. I often make soup or traditional

French dishes like “boeuf bourguignon”, which is a kind of beef and red wine *stew*, and then we have cheese and salad. It may seem a lot but we don’t eat big *portions*. What’s important for me is quality, not quantity.

B Yes, I’m trying to eat less chocolate.

C I think people’s diets are getting worse and worse. It’s quite strange because we have a lot of information now about how bad fast food is for you. I’m afraid it’s a problem in a lot of European countries.

D Not at home. I think most of the food I cook is healthy, but occasionally when I *eat out* I have something unhealthy, but it doesn’t worry me.

E Yes, definitely. For me good meals with the family make me happy!

F I’m quite traditional and I have three main meals a day. For breakfast, I like hot chocolate, and bread and butter with *honey* or jam. For lunch, I often eat in a restaurant with my colleagues. I usually have vegetables and meat or fish but I love pasta and rice too. In the afternoon, I have fruit with biscuits or a piece of chocolate. In the evening, I have a proper meal with my family.

***STREET FOOD AROUND THE WORLD: THE ORIGINAL FAST FOOD!***

**Belgium : Home of French Fries**

You can find French fried potatoes all over the world, but as Belgians will tell you, they, not the French, invented this popular street food, back in the seventeenth century. The Belgian city of Antwerp has the world's only French fries museum.

Crispy French fries, eaten from a paper cone with salt and plenty of mayonnaise are the Belgians' favourite snack. They are sold at special kiosks all over major towns. The secret of perfect French fries is that they are fried not once, but twice, in hot oil – the first time to cook the inside, and second time to give a perfect, golden outside.

**Morocco : Food as theatre**

Street food in the main square of Marrakesh, Morocco is like an exciting performance. As the sun sets at the end of the day, street sellers set up their charcoal grills and the air is filled with smoke and delicious smells of cooking. Crowds of locals and tourists sit on wooden benches and eat off paper plates, surrounded by the sights, smells and tastes of African culture: *harira*, for example, a rich soup made with lamb and spices. Or how about sheep's head or tiny boiled snails, served with a toothpick?

**Australia : Fancy a pie floater?**

Feeling hungry? No visit to South Australia is complete without trying the local speciality – a pie floater. They are traditionally sold at roadside kiosks, some of which stay open all

night. It consists of a meat pie floating (usually upside down) in a thick green pea soup. Finally, the pie is covered with plenty of bright red tomato ketchup. Enjoy!

### **Mexico : The food of the people**

It's lunchtime in Mexico City and everywhere people are queuing up for Mexico's favourite fast food *tacos*. They're soft corn pancakes served with a variety of fillings, such as chicken, beef or vegetables, and then covered with spicy sauce, lettuce and sour cream. "The best Mexican food is the food of the people," says Jose Iturriaga, who has written more than twenty books on Mexican food. And the city's best taco? "It's a taco made from cows' eyes," says Jose. "It's extraordinary".

### **Практическая работа №15**

Тема 2.9. Исчисляемые/неисчисляемые существительные

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

Исчисляемые существительные легко узнать. Они обозначают предметы, которые мы можем сосчитать. Например: ручка. Мы можем посчитать ручки. Их может быть одна, две, три или большее количество ручек. Вот некоторые примеры исчисляемых существительных:

|               |          |                 |         |
|---------------|----------|-----------------|---------|
| <i>dog</i>    | собака   | <i>bottle</i>   | бутылка |
| <i>cat</i>    | кот      | <i>box</i>      | коробка |
| <i>animal</i> | животное | <i>litre</i>    | литр    |
| <i>man</i>    | мужчина  | <i>coin</i>     | монета  |
| <i>person</i> | человек  | <i>dollar</i>   | доллар  |
| <i>cup</i>    | чашка    | <i>plate</i>    | тарелка |
| <i>fork</i>   | вилка    | <i>table</i>    | стол    |
| <i>chair</i>  | стул     | <i>suitcase</i> | чемодан |
| <i>bag</i>    | сумка    |                 |         |

Неисчисляемые существительные обозначают вещества, понятия и т. д., то есть то, что не может делиться на отдельные элементы. Мы не можем посчитать их. Например, мы не можем посчитать «молоко». Мы можем посчитать «бутылки молока» или «литры молока», но мы не можем непосредственно посчитать «молоко». Вот некоторые примеры неисчисляемых существительных:

|                    |            |                    |               |
|--------------------|------------|--------------------|---------------|
| <i>music</i>       | музыка     | <i>rice</i>        | рис           |
| <i>art</i>         | искусство  | <i>sugar</i>       | сахар         |
| <i>love</i>        | любовь     | <i>butter</i>      | масло         |
| <i>happiness</i>   | счастье    | <i>water</i>       | вода          |
| <i>advice</i>      | совет      | <i>air</i>         | воздух        |
| <i>information</i> | информация | <i>electricity</i> | электричество |
| <i>news</i>        | новости    | <i>gas</i>         | газ           |
| <i>furniture</i>   | мебель     | <i>money</i>       | деньги        |
| <i>luggage</i>     | багаж      | <i>currency</i>    | валюта        |

Неисчисляемые существительные обычно употребляются в единственном числе, поэтому используется глагол в единственном числе. Например:

*This news is very important.* — Эти новости очень важны.

*Your luggage looks heavy.* — Ваш багаж выглядит тяжелым.

С неисчисляемыми существительными обычно не используется неопределенный артикль *a/an*. Нельзя сказать «an information» или «a music». Но можно сказать:

*a piece of news*      новость

*a bottle of water*    бутылка воды

*a grain of rice*      зерно риса

Напитки (кофе, вода, чай) обычно неисчисляемые существительные. Но мы можем сказать (напр., в ресторане): *Two teas and one coffee, please.* — Два чая и один кофе, пожалуйста.

Much, many, little, a little, few, a few с исчисляемыми и неисчисляемыми существительными

В английском языке выделяют следующие местоименные прилагательные:

much, many - "много"

little, few - "мало"

**Much, little** определяют неисчисляемые существительные:

There is much snow in the street. На улице много снега

There is little sugar in my tea. В моём чае мало сахара.

**Many, few** - ставятся перед исчисляемыми существительными:

There are many spoons on the table, but there are few knives on it.

На столе много ложек, но мало ножей.

**Little, few в сочетании с неопределённым артиклем образуют устойчивые сочетания со следующими значениями:**

a few - "несколько"

a little - "немного"

A little - "немного" и a few - "несколько" употребляются в смысле "некоторое, хотя и небольшое количество", в то время как little и few - "мало" употребляются в смысле "недостаточно, почти нет".

I've got little time. У меня мало времени.

I've got a little time. У меня есть немного времени.

He has few friends. У него мало друзей.

He has a few friends. У него есть несколько друзей.

Наряду с местоименными прилагательными в значении "много" употребляются сочетания: a lot of, lots of, plenty of - как с исчисляемыми, так и с неисчисляемыми существительными, обозначающими явления природы (snow, rain), вещество (ink, water, salt), абстрактные понятия (love, beauty, inclination):

There are a lot of English books in my library. В моей библиотеке много английских книг.

There is a lot of rain this autumn. Этой осенью много дождей.

There are lots of roses in this garden. В этом саду много роз.

We have lots of snow this winter. Этой зимой много снега.

There are plenty of pictures in his studio. В его студии много картин.

We have plenty of time. У нас много времени.

### **The United Kingdom of Great Britain and Northern Ireland.**

The United Kingdom of Great Britain and Northern Ireland is situated on two large islands called the British Isles. The larger island is Great Britain, which consists of three parts: England, Scotland and Wales. The smaller island is Ireland and there are about five thousand small islands.

The country's shores are washed by the Atlantic Ocean, the North Sea and the Irish Sea. The English channel separate Great Britain from the continent.

The total area of the U.K. is 244.00 square kilometers with a population of 56 million. It is one of the most populated countries in the world. The average density of population is very high: about 220 people per square kilometer. The greater part of the population is urban. About 80 percent of people live in numerous towns and cities. More then seven million people live in London area. Very often the inhabitants of The United Kingdom and Northern Ireland are called English.

The surface of the British Isles varies very mach. There are many mountains in Scotland, Wales and northwest of England but they are not very high. Ben Nevis in Scotland is the highest mountain. The northern part of Scotland is mountainous and is called the Highlands. Scotland is also famous for its beautiful lakes, which are called Lochs.

The mountains in G.B. are not very high. There are many rivers in G.B., but they are not very long. The Themes is the deepest, the longest and the most important river in England.

The climate of G.B. is mild. It is not very cold in winter and hot in summer. The average temperature in January is about 5C above zero. February is the coldest month in the year. The summers are cool and rainy. July is the warmest month. There is much rain and flog in autumn and winter. October is the rainiest month in the year.

### ***The Union Jack***

This is the popular name given to the flag of Great Britain. Actually it is called the Union Flag and it is a mixture of several flags.

It all began in 1606 when Scotland was joined to England and Wales. The Scottish flag, St Andrew's Cross, blue with a white cross from corner to corner, was joined to the English Flag, St George's Cross, white with a red cross. The flag of St George can still be seen on churches in England.

Later, in 1801, when Ireland was joined to the Union, as it was called, the Irish Flag of St Patrick's Cross was added, white with a red cross from corner to corner.

In this way the English people got the Union Flag, which is red, white and blue. King James the Third (1566—1622) ordered that the Union Flag should be flown on the main mast of all British ships, except on ships of war. Here the flag was flown at the front of the ships, on what was called the bowsprit. The end of the bowsprit was called the Jack Star and so we get the name of Union Jack. A “jack”, by the way, is an old word for the sailor. The Union Jack is also on the flags of Australia and New Zealand.

### ***The British Parliament***

The British Parliament is the oldest in the world. It originated in the 12th century as Witenagemot, the body of wise councillors whom the King needed to consult pursuing his policy. The British Parliament consists of the House of Lords and the House of Commons and the Queen as its head. The House of Commons plays the major role in law-making. It consists of Members of Parliament (called MPs for short). Each of them represents an area in England, Scotland, Wales and Ireland. MPs are elected either at a general election or at a by-election following the death or retirement. Parliamentary elections are held every 5 years and it is the Prime Minister who decides on the exact day of the election. The minimum voting age is 18. And the voting is taken by secret ballot. The election campaign lasts about 3 weeks, The British parliamentary system depends on political parties. The party which wins the majority of seats forms the government and its leader usually becomes Prime Minister. The Prime Minister chooses about 20 MPs from his party to become the cabinet of ministers. Each minister is responsible for a particular area in the government. The second largest party becomes the official opposition with its own leader and "shadow cabinet". The leader of the opposition is a recognized post in the House of Commons. The parliament and the monarch have different roles in the government and they only meet together on symbolic occasions, such as coronation of a new monarch or the opening of the parliament. In reality, the House of Commons is the one of three which has true power. The House of Commons is made up of six hundred and fifty elected members, it is presided over by the speaker, a member acceptable to the whole house. MPs sit on two sides of the hall, one side for the governing party and the other for the opposition. The first 2 rows of seats are occupied by the leading members of both parties (called "front benches") the back benches belong to the rank-and-file MPs. Each session of the House of

Commons lasts for 160-175 days. Parliament has intervals during his work. MPs are paid for their parliamentary work and have to attend the sittings. As mention above, the House of Commons plays the major role in law making. The procedure is the following: a proposed law ("a bill") has to go through three stages in order to become an act of parliament, these are called "readings". The first reading is a formality and is simply the publication of the proposal. The second reading involves debate on the principles of the bill; it is examination by parliamentary committee. And the third reading is a report stage, when the work of the committee is reported on to the house. This is usually the most important

stage in the process. When the bill passes through the House of Commons, it is sent to the House of Lords for discussion, when the Lords agree it, the bill is taken to the Queen for royal assent, when the Queen signs the bill, it becomes act of the Parliament and the Law of the Land. The House of Lords has more than 1000 members, although only about 250 take an active part in the work in the house. Members of this Upper House are not elected, they sit there because of their rank, the chairman of the House of Lords is the Lord Chancellor. And he sits on a special seat, called "Woolsack" The members of the House of Lords debate the bill after it has been passed by the House of Commons. Some changes may be recommended and the agreement between the two houses is reached by negotiations.

### **London**

London dominates the life of Britain. And it is the greatest and nicest town in the world. Also, the nature of this city is very picturesque. There are a lot of sites and places of interest here. Many parks and theatres, museums and halls, which are always ready to surprise tourists and English with it's beauty and charm. There are about 40 theatres, several concert halls, many museums including the British Museum, and the best art galleries.

Speaking about parks we can always see many people here listening to others or just heaving their rest. Hide Park with its Speaker's Corner is also in London. Among other parks are Kensington Gardens, St. James Park. In the West End is Buckingham Palace, which is the Queen's Residence, and the Palace of Westminster the seat of Parliament. The best-known streets here are Whitehall with important Government offices, Downing Street, the London residence of Prime Minister and the place where cabinet meets, Fleet Street where most newspapers have their offices, Harley Street where the highest paid doctors live, and some others. There are many statues and monuments there. I think that the majority is devoted to the famous and outstanding people.

London Is situated upon both banks of the River Thames and it is one of the largest cities in the world. Speaking about the West end of London we mean it's center where famous parks and tropical places are situated. In Westminster Abbey begins and comes to an end royal destiny: in its walls the British monarchs are crowned, here they find their eternal rest. Besides Westminster Abbey is well known for the "poet's Conner". So... many others memorial boards are established. But the present tombs are far from being all mentioned to the poets.

Well it is safe to say that it is the most famous building in England. It is a fine Gothic building, which stands opposite the Houses of Parliament. It is the work of many hands and different ages and the oldest part of the building dates from the 8th century.

While speaking about a Tower I want to say that the Tower has been part of the capital's history for the past 600 years. The Tower of London is a very old building. It is more than 900 years old. English kings lived in it many years ago, but now it is a museum. People, who come to London, like to go to the Tower. It was a fortress, a royal palace and later a prison.

The White Tower, dating from 1078, contains a spectacular collection of arms. Now The Tower protects the Crown Jewels. The Imperial State Crown and the Crown of Queen Elizabeth both incorporate precious stones whose history goes back centuries. Ceremony is still part of the daily life within The Tower. Following a 700-year tradition, each night the Chief warder locks the gates and hands the keys to the Resident Governor.

And now we can talk about a Tower Bridge of London. London's best known and most distinctive bridge has straddled the Thames for a century. The twin draw-bridges, each weighing about 1,000 tons, have been raised more than half a million times since the bridge was built. It is a working tribute to Victorian engineering genius. The draw-bridges take just 90 seconds to rise. All the original machinery is still in place with just one concession to modern technology: electric motors now replace the steam engines. Between the massive gothic-style towers that rest on the river bed are walkways, giving superb views of the river and the Tower of London.

Now we can talk about BIG BEN!!

Big Ben is the name of the huge clock in one of the tall towers of the Houses of Parliament. People are allowed to get inside the Tower so that they can see the works of Big Ben. There is no lift and there are 340 steps up to Big Ben. The faces of the clock are very large.

The sound of Big Ben is well-known to all British people and the tower of Big Ben is often used as a symbol of Britain. The great bell got its name in 19th century after Sir Benjamin Hall. Big Ben is the voice of London; it shows an exact time since 1859.

Therefore there are many nice squares in London. Trafalgar Square is one of them and it is situated in the center of the West End. There you can see a statue of Lord Nelson named by Nelson's Column, which is situated in the middle of the square. Trafalgar Square commemorates Nelson's naval victory of 1805. It was laid out between 1829 and 1841. There is Nelson's column there, nearly 185 feet high topped by statue of Nelson 17 feet high. The fountains and friendly pigeons make Trafalgar Square a popular place for Londoner and tourists. The building of National Gallery - one of the world famous art museums is situated on the Trafalgar square too.

Now we can tell few words about Buckingham Palace. It has served as the official London residence of Britain's sovereigns since 1837. It evolved from a town house that was owned from the beginning of the eighteenth century by the Dukes of Buckingham. Today it is The Queen's official residence. Although in use for the many official events and receptions held by The Queen, areas of Buckingham Palace are opened to visitors on a regular basis. The State Rooms of the Palace are open to visitors during the Annual Summer Opening in August and September. They are lavishly furnished with some of the greatest treasures from the Royal Collection - paintings by Rembrandt, Rubens, Vermeer, Canaletto and Claude; sculpture by Canova and Chantrey some of the finest English and French furniture in the world.

Visits to Buckingham Palace can be combined with visits to The Queen's Gallery, which will reopen in the spring of 2002. The nearby Royal Mews is open throughout the year.

Well... it is safe to say that I have finished my story about the nicest city in the world, exactly London and about all its sights, beauties and places of interest of course. As for me I'd like to visit it again, to feel everything I felt before, spending there my free spring time and therefore I'd like to know English better and that's why I advise all of you to visit this irresistible city!

### **Exercises.**

### **Практическая работа №18**

Тема 3.2. Глагол to be. Оборот There is/There are

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

#### **Глагол to be в английском языке**

Значение глагола to be - "быть, находиться". В отличие от других английских глаголов, глагол to be спрягается (т.е. изменяется по лицам и числам).

В отличие от русского языка, в английском языке глагол-связка никогда не опускается, поскольку английское предложение имеет строго фиксированный порядок слов:

подлежащее (subject) + сказуемое (verb) + дополнение (object)

I am a doctor. Я врач. (Я есть врач.)

The weather is bad. Погода плохая.

They are from Paris. Они из Парижа.

Глагол to be не требует вспомогательного глагола для образования вопросительной или отрицательной формы.

Чтобы задать вопрос нужно поставить глагол to be перед подлежащим:

Am I happy? Is the book interesting? Is he our teacher?

Для образования отрицательной формы достаточно поставить отрицательную частицу not после глагола to be:

I am not happy. The book is not interesting. He is not our teacher.

**Спряжение глагола to be в настоящем времени Present Simple:**

|         |                          |          |

*There was a storm last night. Прошлой ночью была буря.*

Перевод предложений с этим оборотом начинается обычно с обстоятельства места.

Если подлежащее выражено существительным во множественном числе, то глагол to be после there ставится также во множественном числе.

*There are two lamps on the table. На столе (находятся) две лампы.*

При изменении времени изменяется форма глагола to be:

*There was a lamp on this table. На этом столе была лампа.*

*There were three cars in the yard. Во дворе было три машины.*

*There will be a crystal chandelier over this table. Над этим столом будет хрустальная люстра.*

Отрицательная форма образуется при помощи отрицания no, которое ставится после глагола to be перед существительным.

*There is no lamp on the table. На столе нет лампы.*

Если перед существительным стоит определение, выраженное местоимениями any, much и др., то после глагола to be ставится частица not.

*There is not any lamp on the table. На столе нет (никакой) лампы.*

*There is not much snow in the street. На улице не много снега.*

Вопросительная форма при употреблении глагола to be в Present Simple или Past Simple (или Present и Past Indefinite) образуется путем постановки глагола to be на первое место — перед there.

*Is there a lamp on the table? На столе есть лампа?*

При наличии сложной формы глагола (т.е. при наличии вспомогательных или модальных глаголов) вспомогательный или модальный глагол ставится перед there, а глагол to be — после there.

*Will there be an English lesson at 3 o'clock? Будет ли урок английского языка в три часа?*

При постановке вопроса к подлежащему с оборотом there is/there are употребляется вопросительное слово what, которое является подлежащим предложения. Глагол to be в этих случаях всегда употребляется в единственном числе, даже если вопрос ставится в отношении наличия нескольких предметов или явлений.

*What is there on the table? Что на столе?*

НО: В ответе на такой вопрос глагол to be употребляется во множественном числе, если констатируется факт наличия нескольких предметов или явлений.

*What is there on the table? Что на столе? There are some books. Несколько книг.*

Вопросы к другим членам предложения с этой конструкцией строятся по общему правилу.

Краткие ответы на вопрос, содержащий оборот there is/ there are, также строятся по общему правилу.

*Are there any books on the table? — На столе есть какие-либо книги? —*

*Yes, there are (some). Да, есть. (No, there aren't.) (Нет.)*

**Washington**

Washington, the capital of the United States of America, is situated on the Potomac River in the District of Columbia. The district is a piece of land ten miles square and it does not belong to any separate state but to all the states. The district is named in honour of Columbus, the discoverer of America. The capital owes much to the first President of the USA — George Washington. It was G. Washington, who chose the place for the District and laid in 1790 the corner-stone of the Capitol, where Congress sits. Washington is not the largest city in the USA. It has a population of 900 000 people. Washington is a one-industry town. That industry is government. It does not produce anything except very much scrap paper. Every day 25 railway cars leave Washington loaded with scrap paper. Washington has many historical places. The largest and tallest among the buildings is the Capitol with its great House of Representatives and the Senate chamber. There are no skyscrapers in Washington because no other building must be taller than the Capitol. The White House is the President's residence. All American presidents except George Washington (the White House was not yet built in his time), have lived in the White House. It was built in 1799. It is a two-storied, white building. Not far from the Capitol is the Washington Monument, which looks like a very big pencil. It rises 160 metres and is hollow inside. A special lift brings visitors to the top in 70 seconds from where they can enjoy a wonderful view of the whole city. The Jefferson Memorial was built in memory of the third President of the USA, Thomas Jefferson, who was also the author of the Declaration of Independence. The memorial is surrounded by cherry-trees. The Lincoln Memorial is devoted to the memory of the 16th President of the US, the author of the Emancipation Proclamation, which gave freedom to Negro slaves in America. On the other bank of the Potomac lies the Arlington National Cemetery where President Kennedy was buried. American soldiers and officers, who died in World Wars I and II are buried there too.

**Questions:**

1. What city is the capital of the USA?
2. Where is Washington situated?

3. To which state does the city of Washington belong?
4. In whose honour is the district of Columbia named?
5. Who was the first President of the USA?
6. Who chose the place for the District?
7. Is Washington the largest city in the USA?
8. What is the population of Washington?
9. What industries are situated in the city?
10. What do 25 railway cars leave Washington loaded with?
11. Why are there no sky-scrapers in Washington?
12. Where is the President's residence?
13. When was the White House built?
14. In whose memory was the Jefferson Memorial built?
15. Who is the author of the Declaration of Independence?
16. Which document gave freedom to Negro slaves in America?

#### **New York**

New York is the largest city in the USA and the biggest seaport. It is the business centre of the United States. New York is situated in the mouth of the Hudson river. In comparison with such ancient historical cities as, say, Rome, London, Moscow or Paris, New York is quite young. It was founded in 1613 by Dutch settlers. There are five districts in the city: Manhattan, the Bronx, Queens, Brooklyn and Richmond. Manhattan is the central and the oldest part of the city. It is the district of business and finance. It is here in Wall Street that many business offices, banks and the world famous New York stock exchange are situated. The New York stock exchange dominates business life of many countries. The total area of New York is 365 square miles or 900 square kilometres. Its population together with the population of its suburbs amounts to 16 million people. Among the inhabitants of New York one can meet people of almost all nationalities. They settled here during the immigration in the 19th and at the beginning of the 20th century. A traveller who visits New York for the first time wonders at the modern architecture. The Statue of Liberty, which is on Liberty Island, was a present from France in 1876 on the occasion of the 100th anniversary of

American independence. This statue and a few 18th and 19th century churches, hospitals, newspaper offices and other buildings are the only examples of "old" architecture in New York. Wherever your eyes travel, everywhere you can see sky-scrapers. New York, one of the USA leading manufacturing cities, is the home of great firms and banks. The most important branches of industry are those producing vehicles, glass, chemicals and all kinds of machinery. The city has very busy traffic. Its streets and highways are full of cars and buses. The mouth of the Hudson river makes an excellent harbour for numerous passengers and cargo ships from all over the world. Speaking about New York one can't but mention the outstanding role, the city plays, in the cultural life of the country. New York has many museums and art galleries which have collected works of art of many peoples and of all times. Many of them are on constant display in the Metropolitan Museum of Art, the Whitney Museum of Art. Most of the theatres and cinemas are in or near Broadway, the longest street and the biggest shopping district in New York. The Metropolitan and Modern Arts Museums attract many visitors.

### **San Francisco**

San Francisco is a special place, very different from most American cities. It lies on a small finger of land with the Pacific Ocean on one side and a huge harbour on the other. San Francisco's population is only about 700 000 but it is the biggest business center in the west of the USA. It is also America's most international city with newspapers in thirty different languages. The city is known as "the Paris of the West". Most people enjoy the climate in San Francisco. It's never too hot and never really cold. The sea winds are healthy and they make you hungry. And it's good to be hungry in San Francisco because the food is fabulous with more than 2600 restaurants serving food from all over the world. There are at least three small cities in San Francisco: "Little Italy", with its pizzerias and restaurants, "Chinatown" with wonderful shops and exciting food and "Japantown". And everywhere you go you will see boats out on the sea, smell fresh and salt and feel the sea wind on your face. If you live in San Francisco you get plenty of exercise, because it's a city of hills. Perhaps that's why the famous cablecars are so popular. And of course the views from the hills are spectacular.

#### **Questions:**

1. Where does San Francisco lie?
2. What is the population of this city?
3. Most people enjoy the climate in San Francisco, don't they?
4. How many small cities are there in San Francisco?
5. What is San Francisco famous for?

#### **Vocabulary:**

finger of land — участок земли  
harbour — гавань  
fabulous — потрясающий  
pizzeria — пиццерия  
cablecar — фуникулер  
spectacular — захватывающий

### **Практическая работа №20**

#### **Тема 3.4. Настоящее продолженное время**

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

### **Present Continuous - Настоящее продолженное время**

Времена группы Continuous указывают на процесс, действие, длящееся в определенный момент в прошлом, настоящем или будущем.

Время Present Continuous обычно указывает на процесс, длящийся непосредственно в момент речи. На это могут указывать контекст или такие слова, как now (сейчас), at the moment (в текущий момент) и т.п.:

*Sally is doing her homework at the moment.*

*Салли сейчас делает домашнее задание.*

*Dad and me are fishing now.*

*Мы с папой сейчас рыбачим.*

### **Образование Present Continuous**

Утвердительные предложения:

I am playing

He / she / it is playing

You are playing

We are playing

They are playing

Вопросительные предложения:

Am I playing?

Is he / she / it playing?

Are you playing?

Are we playing?

Are they playing?

Отрицательные предложения:

I am not playing

He / she / it is not playing

You are not playing

We are not playing

They are not playing

Для того, чтобы поставить глагол в форму времени Present Continuous, требуется вспомогательный глагол to be в настоящем времени и причастие настоящего времени (Participle I) смыслового глагола.

Примечание:

Личные местоимения и вспомогательный глагол часто сокращаются до I'm, he's, she's, it's, we're, you're, they're.

Причастие настоящего времени (Participle I) можно получить, прибавив к начальной форме значимого глагола окончание -ing:

jump – jumping, live – living

В вопросительном предложении вспомогательный глагол выносится на место перед подлежащим, а значимый глагол остается после него:

*Why are you laughing? Почему ты смеешься?*

*Are you using this dictionary? Вы используете этот словарь?*

В отрицательных предложениях за вспомогательным глаголом следует отрицательная частица not. Формы is и are при этом могут быть сокращены до isn't и aren't соответственно.

*Radio is not (isn't) working. Радио не работает.*

### **Случаи употребления Present Continuous**

- Указание на процесс, происходящий непосредственно в момент речи:

*The doctor is conducting an operation now.*

*Врач сейчас проводит операцию.*

- Действие длится ограниченный период времени:

*Robert is on vacation. He's hitchhiking.*

*Роберт в отпуске. Он путешествует автостопом.*

*She is staying in London for a couple of weeks.*

*Она будет в Лондоне пару недель.*

- Когда новое состояние контрастирует с предыдущим:

*Most women aren't staying home these days.*

*В наше время большинство женщин не сидит дома.*

- Когда что-либо меняется, растет или развивается:

*Your son is growing quickly.*

*Твой сын быстро растет.*

*Life is changing fast.*

*Жизнь быстро меняется.*

- Описание характерных свойств человека, часто с негативной окраской:

*Why are you always interrupting people?*

*Почему ты вечно перебиваешь людей?*

- Запланированное действие в будущем, часто с глаголами движения:

*We are landing in Heathrow in 20 minutes.*

*Мы приземляемся в Хитроу через 20 минут.*

Примечание:

Английские глаголы, связанные с восприятием (notice, hear, see, feel ...), эмоциями (love, hate, like ...), процессами умственной деятельности (think, believe, understand ...), владением (have, possess ...) не используются во временах группы Continuous, потому что они сами по себе обозначают процесс. Вместо них используется время Present Simple:

*I hear you, don't shout.*

*Я слышу тебя, не кричи.*

*I love pancakes.*

*Я люблю блинчики.*

#### **Australia. The Land of Blue Mountains**

The Great Barrier Reef on the coast of Queensland is a garden under the sea. There are 1,400 different kinds of fish, and more than 300 kinds of coral. Tropical fruit and flowers grow on the beautiful islands. It's not surprising that more holiday-makers come to Queensland every year. Tasmania, the island south of Australia, is small. It is the same size as England. It is also very different from the other states. There are no deserts in Tasmania. It often rains, both in winter and summer. Only a half of million people live in Tasmania, and a large part of the island is still covered with wild, beautiful wild forests. These forests are full of wonderful flowers and interesting animals. In the Northern Territory you will find the red heart of Australia. And it really is red, with red rocks, red sand, and red skies in the evening. Every year, thousands of tourists visit Ayers Rock and a strange group of huge red stones called "the Olgas". But these places are also holy to the Aborigines. They believe that the land itself has life. Sydney is the best known place in New South Wales. In fact, it's the best known place in Australia. But New South Wales has more than cities. There are, for example, the Blue Mountains. They are covered with forests of blue coloured eucalyptus trees. The air above the forest contains millions of microscopic drops of eucalyptus oil. When the sun shines, the air of the Blue Mountais is a real, beautiful blue. Less then a hundred years ago, there was nothing except sheep in Canberra. But then Australians decided to build a capital city. The Work began in 1913. Now, Canberra is an international city, full of diplomats and government offices. It's a beautiful place, with parks,lakes, big open streets and fine buildings. Australia is sometimes called "the lucky country". One reason is the wonderful riches under the earth: gold, silver, iron, coal and many precious metals. The Bass Strait, of the coast of Victoria, has been one of the country's biggest oil fields for many years. South Australia is the driest of all the states, but it does have Murrey River. The river brings greenness and life to the south-east corner. In the early of Australian history, the Murrey River was South Australia's main road. Before real roads and railways came, the river carried

people and goods from the east up into the country. Some towns on the Murray still keep the old river boats, and visitors can ride on them. There are two kinds of gold in Western Australia. First, there's real kind — the kind that comes out of the ground. Gold was found in Kalgoorlie in 1893, and the "Golden Mile" was for a time the most expensive piece of land in the world. Kalgoorlie still exports some gold, but the new gold of Western Australia is wheat. Big farms grow millions of tons of wheat every year, and wheat has become Australia's second biggest export.

Questions:

1. How many kinds of fish are there on the coast of Queensland?
2. What grows on the beautiful islands?
3. Where will you find the red heart of Australia?

### Sydney, Canberra, Adelaide and Brisbane

Sydney is a very big \_\_\_\_\_. It is the \_\_\_\_\_ and largest city in Australia. It is also the capital of \_\_\_\_\_ South Wales. Over three \_\_\_\_\_ people live in Sydney. The \_\_\_\_\_ Olympic Games in the \_\_\_\_\_ 2000 were in Sydney. Sydney is located in a beautiful \_\_\_\_\_ called Sydney Harbour. You can see the Sydney Opera House there. It was built in \_\_\_\_\_ and it looks like a big \_\_\_\_\_. Canberra is an \_\_\_\_\_ word. It means "meeting place". Canberra is the \_\_\_\_\_ of Australia. You can see the \_\_\_\_\_ House, the National Library, the National Gallery and the

Academy of Science there. \_\_\_\_\_ Adelaide is called the "City of \_\_\_\_\_" because there are a lot of churches there. There are also many nice buildings and \_\_\_\_\_ in Adelaide. Brisbane is a big city and a \_\_\_\_\_ in eastern Australia. Brisbane River flows through Brisbane. The city is situated on both \_\_\_\_\_ of the river. It is Australia's \_\_\_\_\_ river port.

### **The Animals of Australia**

There are many animals in Australia that you cannot see anywhere else. Did you know that? Of course, you did! I personally divide Australian animals into three categories: the good, the bad, the ugly. I think, it's reasonable. Talking of the good animals, we should mention kangaroos in the first place. There are many different types of kangaroo. The biggest are the great grey kangaroos. They are 213 centimetres tall and can run at 56 kilometres per hour. Some run from you then stop and stare. Though we have put kangaroos in the "Good" category, farmers might disagree. Wombats and koalas have many similarities and are probably related. Both have pockets inside their mouths to store food and neither has a tail. The number of koalas is getting smaller. This is partly because of fumes from bush fires. Rescue teams help the koalas by catching them, putting them on respirators, then returning them to their original location when they are better. Australia also has a lot of native marsupial mice that live in the desert. Many of these only come out at night. You know, there are many animals that are "unpopular" in Australia including spiders which are dangerous. You can find these in Sydney. If they are hungry, they will attack anything that moves. They have sharp teeth and poison. Luckily, there is an antidote if you can get to hospital quickly. There have been 12 deaths since 1927. Another animal with sharp teeth and a fatal bite is the shark. However, there are normally a lot of beach patrols and protective nets to stop these from eating you for breakfast. Other animals that are a problem for beach lovers are jellyfish. They look like bubbles of blue bubble gum and they have a painful sting therefore people do not swim when there are many in the water. Other "unpopular" animals include dingoes. These are a cross between wolves and dogs. They are unpopular because they eat farmers' animals. Now what about the ugly animals? A word that people often use to describe a cane toad is ugly! Other words include fat, noisy and disgusting. They are also as big as footballs! The Queensland Government brought cane toads to Australia to eat cane beetles. Unfortunately cane toads can't fly but cane beetles can. Now the toads are more of a problem than the beetles. Hundreds of thousands are born every year. The toads eat everything including rare Australian animals. The toads are also poisonous to eat. Animals that eat them die. Though they are unpopular animals, some people like them and keep them as pets or write songs about them. There are a number of types of crocodiles found in northern Australia, ranging from the potentially dangerous saltwater crocodiles to smaller, more shy,

harmless varieties. They have got snakes too although fears of the poisonous types are largely exaggerated. They are generally shy creatures, only too ready to avoid trouble. Thetaipan and the tiger are worth keeping away from. That is only a small selection of the creatures of the country. Others include penguins, turtles, seals and possums. In the dry areas, you can see an amazing variety of lizards; some grow to a very hefty size.

### Практическая работа №22

Тема 3.6. Простое настоящее время

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

## **Present Simple - простое настоящее время**

Время Present Simple обозначает действие в настоящем в широком смысле слова. Оно употребляется для обозначения обычных, регулярно повторяющихся или постоянных действий, например, когда мы говорим о чьих-либо привычках, режиме дня, расписании и т. д., т. е. Present Simple обозначает действия, которые происходят в настоящее время, но не привязаны именно к моменту речи.

### **Образование Present Simple**

Утвердительные предложения:

I play

He / she / it plays

You play

We play

They play

Вопросительные предложения:

Do I play?

Does he / she / it play?

Do you play?

Do we play?

Do they play?

Отрицательные предложения:

I do not play

He / she / it does not play

You do not play

We do not play

They do not play

Английский глагол во временной форме Present Simple почти всегда совпадает со своей начальной, то есть указанной в словаре, формой без частицы to. Лишь в 3-ем лице единственного числа к ней нужно прибавить окончание -s:

*I work – he works*

Если глагол оканчивается на -s, -ss, -sh, -ch, -x, -o, то к нему прибавляется окончание -es:

*I wish – he wishes*

К глаголам на -у с предшествующей согласной тоже прибавляется окончание -es, а -у заменяется на -i-:

*I try – he tries*

Если же глагол оканчивается на -у с предшествующей гласной, то -у сохраняется и добавляется только окончание -s:

*I play – he plays*

Для того, чтобы построить вопросительное предложение, перед подлежащим нужно поставить вспомогательный глагол. Время Present Simple используется без него, поэтому в этом случае добавляется вспомогательный глагол do (или does в 3 л. ед. ч.):

*Do you like rock? Тебе нравится рок?*

*Does he speak English? Он говорит по-английски?*

В отрицательных предложениях тоже используется вспомогательный глагол do/does, но не перед подлежащим, а перед глаголом. После него прибавляется отрицательная частица not. Do/does и not часто сокращаются до don't и doesn't соответственно:

*I do not like black coffee. Я не люблю черный кофе.*

*She doesn't smoke. Она не курит.*

### **Случаи употребления Present Simple**

- Регулярные, повторяющиеся действия:

*I often go to the park. Я часто хожу в парк.*

*They play tennis every weekend. Каждые выходные они играют в теннис.*

- Действие в настоящем в широком смысле слова:

*Jim studies French. Джим изучает французский.*

*We live in Boston. Мы живем в Бостоне.*

- Общеизвестные факты:

*The Earth goes round the Sun. Земля вращается вокруг солнца.*

*The Volga is the longest river in Europe. Волга – самая длинная река в Европе.*

- Перечисление последовательности действий:

*We analyse what our clients may need, develop a new product, produce a sample, improve it and sell it. Мы анализируем, что может понадобиться нашим клиентам, разрабатываем новый продукт, изготавливаем образец, дорабатываем его и продаем.*

- Некоторые случаи указания на будущее время (если имеется в виду некое расписание или план действий, а также в придаточных предложениях времени и условия):

*The airplane takes off at 2.30 p.m. Самолет взлетает в 14:30.*

*When you see a big green house, turn left. Когда вы увидите большой зеленый дом, поверните налево.*

#### **New Zealand**

New Zealand is an island country in the Southwest Pacific Ocean. It lies about 1 600 km southeast of Australia and about 10 500 km southwest of California. New Zealand belongs to a large island group called Polynesia. The country is situated on two main islands — the North Island and the South Island — and several dozen smaller islands. Most of the smaller islands are hundreds of kilometers from the main ones. Wellington is the capital of New Zealand and Auckland is the largest city. English is the official language of New Zealand and is spoken throughout the country. Many native people speak their own language, Maori, in addition to English. The country once belonged to the British empire. Today it is an independent member of the Commonwealth of Nations, an association of Britain and a number of its former colonies. New Zealand is a constitutional monarchy. The British Monarch, Queen Elizabeth II of the United Kingdom, is the monarch of New Zealand. She appoints a governor general to represent her, but the governor general has little power. The legislation, prime minister, and Cabinet run the national government. Britain gave New Zealand a constitution in 1852, when it was a British colony. But through the years the New

Zealand legislature has changed almost all its provisions. Today, the nation has no written constitution. The first people who settled in New Zealand were a brownskinned people called Maoris. They came from Polynesian islands located northeast of New Zealand. The country was discovered by Europeans in 1642, but they did not start to settle in the islands until the late 1700's. Today, most New Zealanders are descendants of the early European settlers. Maoris make up about 12% of the country's population. New Zealand has one of the highest standard of living in the world. For many years, the economy of the country depended largely on agriculture. Today agriculture, manufacturing, and service industries are all important to the economy. New Zealand's economy depends on trade with many countries - Australia, Britain, Japan and the United States.

### **New Zealand Way of Life**

New Zealand have a high standard of living. New Zealanders eat more butter and meat per person than do the people of any other country. The government's medical program provides excellent health care. About 70% of New Zealand people own their houses. Almost every family has a car. Most New Zealanders live in singlefamily houses with a small vegetable gardens. In the larger cities, some people live in highrise apartment buildings. Almost in every New Zealand home there are refrigerators, wash mashines, and other modern electrical appliances. But air conditioning and central heating are rare because the weather rarely becomes extremely hot or extremely cold. In summer, New Zealanders prefer to keep windows open. In winter, fireplaces or electric heater keep the homes warm. Although about fourfifths of New Zealand's population live in urban areas, cities are uncrowded. Traffic jams seldom occur, even in downtown areas. Large cities have excellent restaurants, milk bars, theatres, concert halls, and other places of entertainment. City life in New Zealand tends to be rathe\* quiet. However it is changing in larger cities, where international tourism is developing rapidly. Near a fifth of New Zealand's people live in rural areas — in some of them, small settlements are linked by good roads. But in other areas, rancher's nearest neighbours may live kilometers away. Some ranchers live almost in isolation. Nevertheless, most farms and ranches have electricity. Many farm families run their farms with little or no hired help.

### CANADA

Canada is an independent federative state. It is one of the most developed countries. Canada consists of ten provinces and two territories.

It is situated on the North American continent. The country is washed by the Pacific Ocean in the west, by the Atlantic Ocean in the east and by the Arctic Ocean and its seas in the north. About 2 percent of the Canadian territory is covered by glacier ice.

The eastern parts of the country are mainly valleys and plains. The western territories are occupied by the Cordilleras.

The main Canadian islands are Newfoundland, Victorian Island, Baffin Island and others. There are a lot of rivers and lakes in Canada. The largest rivers are the Nelson, the Ottawa, the Mackenzie and the Yukon.

In size Canada is the second in the world after Russia. Its area is almost 10 million km<sup>2</sup>. The capital of Canada is Ottawa, which is situated on the bank of the Ottawa River. It is famous for its beautiful parks. It is also known as the city of bridges.

The most developed industries are timber, mining, chemical, meat and milk and food industries. Canada grows wheat, barley, flax, potatoes, vegetables and fruit. Fishing is also one of the prosperous industries.

## Canada

Canada is the second largest country in the world. Only Russia has a greater land area. Canada is situated in North America. Canada is slightly larger than the United States, but has only about a tenth as many people. About 28 million people live in Canada. About 80% of the population live within 320 km of the southern border. Much of the rest of Canada is uninhabited or thinly populated because of severe natural conditions. Canada is a federation of 10 provinces and 2 territories. Canada is an independent nation. But according to the Constitution Act of 1982 British Monarch, Queen Elizabeth II of the United Kingdom is recognized as Queen of Canada. This symbolizes the country's strong ties to Britain. Canada was ruled by Britain completely until 1867, when Canada gained control of its domestic affairs. Britain governed Canada's foreign affairs until 1931, when Canada gained full independence. Canada's people are varied. About 57% of all Canadians have some English ancestry and about 32% have some French ancestry. Both English and French are official languages of the country. French Canadians, most of whom live in the provinces of Quebec, have kept the language and customs of their ancestors. Other large ethnic groups are German, Irish and Scottish people. Native people — American Indians and Eskimos — make up about 2% of the country's population. 77% of Canada's people live in cities or towns. Toronto and Montreal are the largest urban areas. Ottawa is the capital of the country. Today, maintaining a sense of community is one of the major problems in Canada because of differences among the provinces and territories. Many Canadians in western and eastern parts of the country feel that the federal government does not pay enough attention to their problems. 80% of Quebec's population are French Canadians. Many of them believe that their province should receive a special recognition in the Canadian constitution.

### Практическая работа №26

#### Тема 4.1. Простое прошедшее время

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

#### Past Simple - простое прошедшее время

Время Past Simple используется для обозначения действия, которое произошло в определенное время в прошлом и время совершения которого уже истекло. Для уточнения момента совершения действия в прошлом при использовании времени Past Simple обычно используются такие слова, как ***five days ago*** (пять дней назад), ***last year*** (в прошлом году), ***yesterday*** (вчера), ***in 1980*** (в 1980 году) и т.п.

##### Образование Past Simple

Утвердительные предложения:

I played

He / she / it played

You played

We played

They played

Вопросительные предложения:

Did I play?

Did he / she / it play?

Did you play?

Did we play?

Did they play?

Отрицательные предложения:

I did not play

He / she / it did not play

You did not play

We did not play

They did not play

Для того, чтобы поставить английский глагол во время Past Simple, нужно использовать его «вторую форму». Для большинства глаголов она образуется прибавлением окончания **-ed**:

examine – examined, enjoy – enjoyed, close – closed

Однако есть также достаточно большая группа неправильных английских глаголов, которые образуют форму прошедшего времени не по общим правилам, для них форму прошедшего времени нужно просто запомнить.

*We **saw** your dog two blocks from here.*

*Мы видели вашу собаку в двух кварталах отсюда.*

В вопросительном предложении перед подлежащим нужно использовать вспомогательный глагол **do** в прошедшем времени – **did**, а после подлежащего поставить основной, значимый глагол **в начальной форме**:

*Did you wash your hands? Ты помыл руки?*

*Did they sign the contract? Они подписали контракт?*

В отрицательных предложениях перед глаголом нужно поставить вспомогательный глагол **did** и отрицательную частицу **not**:

*We did not find our car. Мы не нашли свою машину.*

*I did not understand this question. Я не понял этот вопрос.*

### Случаи употребления Past Simple:

- Указание на простое действие в прошлом:

*I saw Jeremy in the bank. Я видел Джереми в банке.*

- Регулярные, повторяющиеся действия в прошлом:

*The old man often visited me. Старик часто меня навещал.*

*I noticed this charming shop girl each time I went to buy something.*

*Я замечал эту очаровательную продавщицу каждый раз, когда шел за покупками.*

- Перечисление последовательности действий в прошлом:

*I heard a strange sound, looked back, and saw a huge cat sitting on the table.*

*Я услышал странный звук, обернулся и увидел здорового кота, сидящего на столе.*

### Exercises

## **3. Перепишите следующий текст в прошедшем времени.**

Boris wakes up when it is already quite light. He looks at his watch. It is a quarter to seven. Quick! Boris jumps out of bed and runs to the bath-room. He has just time to take a cold shower and I drink a glass of tea with bread and butter. He is in a hurry to catch the eight o'clock train. At the railway station he meets three other boys from his group. They all have small backpacks and fishing-rods. In less than an hour they get off the train at a small station near a wood. They walk very quickly and soon find themselves on the shore of a large lake. The boys spend the whole day there fishing, boating and swimming. They return home late at night, tired but happy.

### CUSTOMS AND TRADITIONS IN THE USA AND GREAT BRITAIN

People all over the world like holidays very much. Halloween, St. Valentine's Day, Christmas, Thanksgiving, New Year's Day are modern holidays descended from the red-letter days, and seasonal celebrations. People have invented and reinvented them over the years. But why do we celebrate them? For the British and Americans any holiday is an opportunity for the whole family to get together. It is a very old, but still quite popular tradition to have a holiday dinner. People usually make particular meals for each holiday. Christmas pudding and Thanksgiving turkey, for example, are known all over the world. The British and Americans always congratulate their close friends and relatives on holidays. They usually send colourful cards, give presents. Many people decorate their homes. The most famous and the most favourite holiday is Christmas.

Christmas, or Christ Mass, is the day when we celebrate the birth of Jesus Christ. People celebrate it on the 25th of December. Christmas is the biggest holiday of the year and the one that many people – especially children – enjoy very much. The main tradition of this holiday is a Christmas tree. In Britain this tradition began in 1841. Queen Victoria's husband, Prince Albert, brought this German tradition (he was German) to Britain. A few years after, nearly every house in Britain had one. Traditionally people decorate their trees on Christmas Eve – that is December 24th. One more custom is connected with this winter holiday: every year the people of Norway give the city of London a present. They want to say "Thank you" for British help in World War II. It is a big Christmas tree and it stands in Trafalgar Square.

An older tradition is Christmas mistletoe. People put a piece of this green plant with its white berries over a door. Mistletoe brings good luck, people say.

Also, at Christmas British and American people kiss their friends and family under the mistletoe.

One more tradition is Christmas carols. Before Christmas, groups of singers go from house to house. They collect money and sing traditional Christmas songs or carols.

British and American children do not open their presents on December 24th. Some children hang a stocking at the end of their bed. Father Christmas brings their presents at night. Then they open them in the morning of the 25th. The presents are put into stockings or the larger ones are arranged around the Christmas tree. There is another name for Father Christmas in Britain and the USA – Santa Claus. That comes from the European name Saint Nicholas. In the traditional story he lives at the North Pole. But now he lives in big shops in towns and cities all over Britain. Then on Christmas Eve he visits every house with his reindeer. He climbs down the chimney and leaves lots of presents. Some people leave something for him, too.

The most important meal on December 25th is Christmas dinner. Nearly all Christmas food is traditional, but a lot of traditions are not very old. For example, there were no turkeys in Britain before 1800. And even in the nineteenth century, goose was the traditional meal at Christmas. But not now. A twentieth-century British Christmas dinner is roast turkey with carrots, potatoes, peas and Brussels sprouts. There are sausages and bacon, too. After the turkey, there is Christmas pudding. Crackers are also usual at Christmas dinner. These came to Britain from China in the nineteenth century. On Christmas Day at three o'clock in the afternoon, the Queen makes a speech on the radio and TV. It is ten minutes long. In this speech she talks to people of the United Kingdom and the Commonwealth about the past year. This speech is filmed a few weeks before Christmas and the Queen spends Christmas with her family at Windsor Castle near London. In the USA the President gives his message on TV.

The 25th of December is not the last day of this holiday. December 26th is Boxing Day. On this day boys from the shops in each town asked for money at Christmas. They went from house to house and took boxes made of wood with them. At each house people gave them money. This was a Christmas present. So the name of December 26th comes from those wooden boxes. Now Boxing Day is the real day for Christmas parties and visiting friends. All people like to watch their favourite sports on TV.

### **Holidays and festivals in Great Britain**

There are 8 holidays in Great Britain. On these days people do not go to work. They are: Christmas Day, Boxing day, New Year's Day, Good Friday, Easter, May Day, Spring Bank Holiday, Late Summer Bank Holiday.

Most of these holidays are of the religious origin. But nowadays they have lost their religious significance and are simply days on which people relax, visit their friends. All the public holidays, except New Year's Day, Christmas and Boxing Day, are movable. They don't fall on the same date each year.

Besides public holidays, there are other festivals, anniversaries, on which certain traditions are observed. But if they don't fall on Sunday, they're ordinary working days.

#### *New Year*

In England New Year is not as widely observed as Christmas. Some people just ignore it, but other celebrates it in one way or another.

At midnight people listen to the chiming of Big Ben and sing "Auld Lang Syne" (a song by Robert Burns "The days of long ago").

Another popular way to celebrate New Year is to go to a New Year dance.

The most famous celebration is round the statue of Eros in Piccadilly Circus. People sing, dance and welcome the New Year.

#### *May Day*

May Day - the first day of May - is associated more with ancient folklore than with the workers. In some villages the custom of dancing round the maypole (майское дерево) is acted out.

#### *Halloween*

Halloween is celebrated on 31<sup>st</sup> of October. This is the day before All Saint's Day in the Christian calendar and is associated with the supernatural. People hold fancy-dress parties (people dress up in witches and ghosts).

#### *Christmas*

Christmas day is observed on 25<sup>th</sup> of December. On Christmas Day many people go to church. On returning from church the family gather round the tree and open the parcels. Every one gets something.

Christmas meal is really traditional stuffed turkey, boiled ham, mashed potatoes to be followed by plum pudding, mince pies, tea or coffee and cakes.

People travel from all parts of the country to be at home for Christmas.

#### *St Valentine's Day*

St Valentine's day is celebrated on February, 14. Every St Valentine's day thousands of people travel to a small village on Scotland's border with England to get married.

On this day boys and girls, sweethearts, husbands and wives, friends and neighbors exchange greetings of affection and love. People send each other greeting cards, chocolate and flowers. Valentine's cards are very colorful, with a couple of human hearts on them.

#### *Easter*

Easter is a time when certain traditions are observed. In England presents traditionally take the form of an Easter egg. Easter eggs are usually made from chocolate.

Easter eggs always grace breakfast tables on Easter Day. Sometimes they are hidden about the houses for the children to find them.

## **Holidays in USA**

Americans share three national holidays with many countries: Easter Sunday, Christmas Day, and New Year's Day.

Easter, which falls on a spring Sunday that varies from year to year, celebrates the Christian belief in the resurrection of Jesus Christ. For Christians, Easter is a day of religious services

and the gathering of family. Many Americans follow old traditions of coloring hard-boiled eggs and giving children baskets of candy. On the next day, Easter Monday, the president of the United States holds an annual Easter egg hunt on the White House lawn for young children.

Christmas Day, December 25, is another Christian holiday; it marks the birth of the Christ Child. Decorating houses and yards with lights, putting up Christmas trees, giving gifts, and sending greeting cards have become traditions even for many non-Christian Americans.

New Year's Day, of course, is January 1. The celebration of this holiday begins the night before, when Americans gather to wish each other a happy and prosperous coming year.

### **Uniquely american holidays**

Eight other holidays are uniquely American (although some of them have counterparts in other nations). For most Americans, two of these stand out above the others as occasions to cherish national origins: Thanksgiving and the Fourth of July.

Thanksgiving Day is the fourth Thursday in November, but many Americans take a day of vacation on the following Friday to make a four-day weekend, during which they may travel long distances to visit family and friends. The holiday dates back to 1621, the year after the Puritans arrived in Massachusetts, determined to practice their dissenting religion without interference.

After a rough winter, in which about half of them died, they turned for help to neighboring Indians, who taught them how to plant corn and other crops. The next fall's bountiful harvest inspired the Pilgrims to give thanks by holding a feast. The Thanksgiving feast became a national tradition -- not only because so many other Americans have found prosperity but also because the Pilgrims' sacrifices for their freedom still captivate the imagination. To this day, Thanksgiving dinner almost always includes some of the foods served at the first feast: roast turkey, cranberry sauce, potatoes, pumpkin pie. Before the meal begins, families or friends usually pause to give thanks for their blessings, including the joy of being united for the occasion.

The Fourth of July, or Independence Day, honors the nation's birthday -- the signing of the Declaration of Independence on July 4, 1776. It is a day of picnics and patriotic parades, a night of concerts and fireworks. The flying of the American flag (which also occurs on Memorial Day and other holidays) is widespread. On July 4, 1976, the 200th anniversary of the Declaration of Independence was marked by grand festivals across the nation.

Besides Thanksgiving and the Fourth of July, there are six other uniquely American holidays.

**Martin Luther King Day:** The Rev. Martin Luther King, Jr., an African-American clergyman, is considered a great American because of his tireless efforts to win civil rights for all people through nonviolent means. Since his assassination in 1968, memorial services have marked

his birthday on January 15. In 1986, that day was replaced by the third Monday of January, which was declared a national holiday.

**Presidents' Day:** Until the mid-1970s, the February 22 birthday of George Washington, hero of the Revolutionary War and first president of the United States, was a national holiday. In addition, the February 12 birthday of Abraham Lincoln, the president during the Civil War, was a holiday in most states. The two days have been joined, and the holiday has been expanded to embrace all past presidents. It is celebrated on the third Monday in February.

**Memorial Day:** Celebrated on the fourth Monday of May, this holiday honors the dead. Although it originated in the aftermath of the Civil War, it has become a day on which the dead of all wars, and the dead generally, are remembered in special programs held in cemeteries, churches, and other public meeting places.

**Labor Day:** The first Monday of September, this holiday honors the nation's working people, typically with parades. For most Americans it marks the end of the summer vacation season, and for many students the opening of the school year.

**Columbus Day:** On October 12, 1492, Italian navigator Christopher Columbus landed in the New World. Although most other nations of the Americas observe this holiday on October 12, in the United States it takes place on the second Monday in October.

**Veterans Day:** Originally called Armistice Day, this holiday was established to honor Americans who had served in World War I. It falls on November 11, the day when that war ended in 1918, but it now honors veterans of all wars in which the United States has fought. Veterans' organizations hold parades, and the president customarily places a wreath on the Tomb of the Unknowns at Arlington National Cemetery, across the Potomac River from Washington, D.C.

#### **Тема 4.4. Простое будущее время**

**Цель работы:** Изучение нового грамматического материала, умение использовать полученные знания в разговорной речи;

**Ход работы:** Изучение нового грамматического материала. Выполнение упражнений.

### **Future Simple - простое будущее время**

Время Future Simple ссылается на действие, которое совершится в неопределенном или отдаленном будущем. Простое будущее время обычно используется с обстоятельствами: **tomorrow** (завтра), **next year** (в следующем году), **in five years** (через

пять лет), **in 2035** (в 2035 году) и т.п.

### **Образование Future Simple**

Утвердительные предложения:

I shall/will play

He / she / it will play

You will play

We shall/will play

They will play

Вопросительные предложения:

Shall/Will I play?

Will he / she / it play?

Will you play?

Shall/Will we play?

Will they play?

Отрицательные предложения:

I shall/will not play

He / she / it will not play

You will not play

We shall/will not play

They will not play

Для того, чтобы поставить глагол во временную форму Future Simple, нужно использовать его начальную форму и вспомогательный глагол shall (для первого лица) или will (второе и третье лицо). В устной речи shall и will чаще всего сокращаются до формы 'll, которая может использоваться во всех лицах.

Примечание:

В современном английском, особенно в устной речи, will стал использоваться и в первом лице:

*I will go to Shanghai next summer. Следующим летом я поеду в Шанхай.*

В вопросительном предложении вспомогательные глаголы shall или will ставятся перед подлежащим. Значимый глагол остается после подлежащего в своей начальной форме:

*Shall we go to the beach? Мы пойдём на пляж?*

*Will your boss agree with our conditions? Ваш босс согласится с нашими условиями?*

В отрицательных предложениях за вспомогательным глаголом следует отрицательная частица not. Вместе они могут быть сокращены до формы won't:

*Fred will not (won't) agree to help us. Фред не согласится нам помочь.*

### **Случаи употребления Future Simple:**

- Указание на простое действие в будущем:

*We'll return in 4 hours. Мы вернемся через 4 часа.*

*It will not be easy to convince him. Его будет нелегко убедить.*

- Описание будущего факта

*The exhibition will open in May. — Выставка откроется в мае.*

- Предположение или прогноз

*I think it will rain tomorrow. — Я думаю, завтра пойдет дождь.*

- Выражение намерения или решения, возникшее в момент речи

*I'm thirsty. I think I'll have a glass of juice. — Я хочу пить. Думаю, я выпью стакан сока.*

### **Конструкция going to**

Going to используется, чтобы выразить намерение, когда решение принято заранее:

*I'm going to make a cake tonight. — Сегодня вечером я буду делать торт.*

Going to в Future Simple также используется для предположений, когда есть признак того, что что-то произойдет:

*Look at those clouds. It's going to rain. — Посмотри на эти тучи. Собирается дождь.*

## **Exercises**

#### **British scientists and inventors**

Science has been a driving force behind the evolution of the modern world. British scientists have made immense contribution to the different fields including physics and

biology.

Isaac Newton is considered by many to be one of the most influential scientists of all time and a key figure in the scientific revolution. He developed the theory of colour, studied the speed of sound and formulated the laws of motion and universal gravitation (published in 1687), which dominated scientific view of the physical universe for the next three centuries.

The main discoveries of Michael Faraday (1791 -1867) include those of electromagnetic induction and electrolysis.

Charles Darwin introduced his revolutionary theory of evolution in his book 'On the Origin of Species' published in 1859. It changed the way the world look at the creation of life.

Many English inventors of the present and of the past literally changed our world. Steam engine constructed by a Scottish inventor and engineer James Watt (1736 - 1819) was fundamental to the changes brought by the Industrial Revolution in both his native Great Britain and the rest of the world. The first mechanical computer created by a mathematician and philosopher Charles Babbage (1791-1871) eventually led to more complex designs. But the computer we know today would not be possible without a pioneering British computer scientist Alan Turing. During the Second World War this mathematician and his team were successful in deciphering the German coding machine 'Enigma'. If Babbage is considered by some to be a «father of the computer», Turing is widely declared to be the father of theoretical computer science and artificial intelligence. And the author of undoubtedly one of the most revolutionary inventions of the 20th century - the World Wide Web (WWW), - is another British Computer Scientist Sir Tim Berners-Lee (born in 1955). In 2004, Berners-Lee was knighted by Queen Elizabeth II for his pioneering work.

Some of the discoveries and invention of these scientists have inspired some people to take up science as a career. The list of British scientist and their contribution towards science is a long one and embraces several centuries up to modern days.

### **Vocabulary:**

artificial intelligence - искусственный разум

contribution - вклад

dominate - господствовать, преобладать

driving force - движущая сила

eventually - в итоге, в конце концов, со временем

fundamental - основной, основополагающий

immense - огромный, необъятный

industrial revolution - промышленная революция

influential - влиятельный  
key figure - ведущая, ключевая фигура  
to knight - посвящать в рыцари  
laws of motion - законы движения  
literally - буквально  
pioneering - новаторский  
species - виды  
steam engine - паровой двигатель  
universal gravitation - всемирное тяготение  
undoubtedly - несомненно, бесспорно

1. Name the most famous British Scientists of 17th century, 18th century, 19th century, 20th and 21th century.
2. What important scientific discoveries were made by Isaac Newton?
3. Who discovered electromagnetic induction?
4. What is the name of the book where Charles Darwin described the theory of evolution?
5. How did the invention of steam engine changed the world?
6. Who is considered to be a «the father of a computer» and who is considered to be «the father of AI»?
7. What is Enigma?
8. Why was Tim Berners-Lee knighted?
9. Why did some inventions of British scientists «literary change the world»? Give examples

### **Margaret Thatcher**

Margaret Thatcher, Great Britain's first woman prime minister, was born in 1925. Thatcher served longer than any other British prime minister in the 20th century. She initiated social and economic changes in many aspects of Britain's postwar state. She was famous for her 'strong arm' policy.

Margaret Thatcher studied chemistry at Oxford and later became a lawyer. She was elected to Parliament as a Conservative in 1959. In 1970 she became Secretary of State for education and science. The Conservative party elected her its first woman leader in 1975. Thatcher led the Conservatives to an electoral victory in 1979 and became prime minister.

Thatcher tried to reduce the influence of the trade unions and fight inflation. Her economic policy rested on changes along free-market lines. She reduced government spending and taxes for higher-income individuals. In 1982, when Argentina invaded the Falkland Islands, a British colony, Britain started a war which was successful. Thatcher's government privatized

national industries, including British Gas and British Telecommunications. Her policies forced coal miners to return to work after a year on strike. In foreign affairs, Thatcher was an ally of President Ronald Reagan and opposed the Communist countries. She allowed the United States to station (1980) nuclear cruise missiles in Britain and to use its air bases to bomb Libya.

In 1987 Thatcher led the Conservatives to a third electoral victory. She proposed free-market changes to the national health and education systems and introduced a new tax to pay for local government. After that, she was criticized for having no compassion for the poor.

Thatcher refused to support a common European currency and integrated economic policies. She resigned as prime minister, and John Major became her successor. In 1992 Thatcher left the House of Commons and became Baroness Thatcher.

### Общий вопрос

Если на вопрос можно ответить «да» или «нет», то это общий вопрос. Общая схема для такого вопроса выглядит так:

*вспомогательный глагол + подлежащее + сказуемое + дополнение + остальные члены предложения.*

Do you play computer games? – Ты играешь в компьютерные игры?

Does she like ice-cream? – Она любит мороженое?

Не забывайте, что глаголы to be в настоящем и простом прошедшем времени не нужны никакие вспомогательные глаголы:

Are you at home? – Ты дома?

Was he at the cinema yesterday? – Он был вчера в театре?

### Специальный вопрос

Специальные вопросы задаются с целью выяснить какую-то конкретную, детальную информацию о предмете или явлении. Отличительной чертой специальных вопросов в английском языке является обязательное наличие вопросительных слов. Порядок слов

в таких вопросах такой же, как и в общем, только в начале необходимо поставить одно из вопросительных слов:

*вопросительное слово + вспомогательный глагол + подлежащее + сказуемое + дополнение + остальные члены предложения.*

Where are you going? – Куда ты идешь?

What do you want to read? – Что ты хочешь почитать?

When did you leave the house? – Когда ты ушел из дома?

### **Альтернативный вопрос**

Сама название этого типа вопроса подразумевает то, что в вопросе должен быть выбор между двумя вариантами. Такой вопрос можно задать к любому члену предложения. И самое главное – здесь всегда вы встретите союз *or* (или).

They finished writing the article at 5 p.m. – Они закончили писать статью в 5 вечера.

Did they finish writing the article in the morning or at night? – Они закончили писать статью утром или вечером?

Did they finish writing or reading the article? – Они закончили писать или читать статью?

### **Разделительный вопрос**

Порядок слов в таком вопросе прямой, как в обычном предложении. И только в конце такого предложения мы встретим вопрос, который называется *tag*. В переводе на русский язык вопрос звучит так: «не так ли?» / «не правда ли?» / «да?». Для того чтобы образовать *tag-question*, вспомогательный глагол и подлежащее нужно поставить в конец предложения.

Есть два способа образования такого вопроса в английском языке:

#### **1. Начало предложения утвердительное + краткий отрицательный вопрос.**

He reads a book, doesn't he? – Он читает книгу, не так ли?

His friend is German, isn't he? – Его друг немец, не так ли?

#### **2. Начало предложения отрицательное + краткий положительный вопрос.**

She doesn't go to the church, does she? – Она не ходит в церковь, не так ли?

He is not at the meeting, is he? – Он не на встрече, не так ли?

### **Вопрос к подлежащему**

Самый легкий для формирования вопрос. Вам нужно взять утвердительное предложение, убрать подлежащее и вместо него поставить *who* (кто) или *what* (что). Никакие вспомогательные глаголы не нужны. **НО!** Необходимо помнить, что в настоящем времени глагол в предложении будет иметь форму третьего лица единственного числа.

Who invites guests for the party? – Кто приглашает гостей на вечеринку?

What makes you feel upset? – Что заставляет тебя грустить?

What happened to us? – Что случилось с нами?

## **Exercises.**

Упражнение 1. Сформируйте общий вопрос.

1. John was busy yesterday evening. (today)
2. I prefer reading a book before going to bed. (watch TV)
3. I can play football very well. (volley-ball)
4. Spanish is spoken in Spain. (Latin America)

14. They will have lunch at home. (Where...?)
15. The film has just started. (What film...?)
16. I have been to the doctor. (Where...?)

Упражнение 3. Сформируйте специальный вопрос к подлежащему:

1. She was drinking cold water.
2. Our neighbor's children broke the window.
3. Lily hasn't answered the questions yet.
4. Sting is my favorite singer.
5. Jake is going to Turkey next Saturday.
6. My whole class visited the National Art Museum.
7. Molly takes dance classes.

8. Good results gave him hope for the future.

Упражнение 4. Поставьте правильный «хвостик» в разделительном вопросе:

1. She doesn't like watching TV, \_?
2. Her brother is older that she, \_?
3. He doesn't go to extra classes, \_?
4. You should tell your husband the truth, \_?
5. I was a good student, \_?
6. Dolphins are very kind animals, \_?
7. His performance was boring, \_?
8. She has read a very interesting book, \_?

Упражнение 5. Переведите предложения в форме альтернативного вопроса.

1. Ты любишь смотреть футбол или баскетбол?
2. Ты любишь смотреть фильмы или сериалы?
3. Твой кот серый или черный?
4. Ты чаще пишешь ручкой или карандашом?
5. Ты сегодня работаешь дома или в офисе?
6. Ты любишь больше печенье или шоколад?
7. Она ходила в театр с Джеком или с Кайлом?
8. Эта машина была произведена в Японии или в Германии?
9. Этот магазин открывается в 8 или в 9?
10. Она изучает английский или французский?

#### **The Beatles**

The Beatles to this day are one of the most famous and popular rock'n'roll groups in the world. The group shattered many sales records and had more than fifty top hit singles. The Beatles started a new era of music. Their music was unusual because most rock was strong beat with no melody, and they added melody to the rock. The Beatles also added strong and meaningful lyrics.

The group included George Harrison, John Lennon, Paul McCartney, and Richard Starkey (Ringo Starr). All of the Beatles were born and raised in Liverpool, England. John Lennon was the leader of the band, one of the two lead singers, the rhythm guitarist and a song writer. George Harrison was the lead guitarist. Paul McCartney was a song writer, one of the two lead singers, and a bassist. Ringo Starr played the drums.

The Beatles were discovered on November 9, 1961 by Brian Epstein, a manager of a record store in Liverpool. The Beatles' early music was influenced by singers Bob Dylan, Chuck Berry and Elvis Presley. Their first two songs were Love Me Do and Please, Please Me. After a while their own musical ideas started to emerge, and their music developed from naive and simple to sophisticated. The Beatles starred in two feature films, A Hard Day's Night, which earned 1.3 million dollars in its first week, and Help. They also had their own full length cartoon called Yellow Submarine.

In 1964 The Beatles came to New York City for the first time and were an instant success. A couple of weeks later after their New York appearance, the five best selling records were by The Beatles; they became world-famous. They introduced a new style in clothing and appearance, too. They wore their hair long and shaggy, and soon all over the world people started wearing the Beatles haircut. They were so popular that 'Beatlemania' emerged. In 1967 the Beatles directed a movie Magical Mystery Tour about themselves, in which they toured the English countryside in search of wonder, fun, and magic.

In 1970 the world-famous and world-loved Beatles separated. Thirty-five years later, in 2005, the American entertainment industry magazine Variety named them the most iconic entertainers of the 20th century.

### **Audrey Hepburn**

Audrey Hepburn (1929-1993) was an engaging screen actress who won an Academy Award in 1954 for her work in *Roman Holiday*. She also worked with the United Nations to alleviate the misery of the poor.

Peerless in her screen presence, actress Audrey Hepburn had huge brown eyes, a husky voice, and a dancer's gracefulness—qualities that seduced the entire moviegoing world. While Hepburn was never an actress with a wide range and had very little acting training, she was never boring. According to *People*, Humphrey Bogart once said of her style, "With Audrey it's kind of unpredictable. She's like a good tennis player—she varies her shots." Certainly every fan has chosen his or her favorite Hepburn moment; for some it's Hepburn's regal entrance in the denouement of *My Fair Lady*, with her towering hairdo and sweetly serious expression, while others may prefer her playful dance sequence in a book store in *Funny Face*. In any case, Hepburn's most successful movies capitalized on her childlike qualities, pairing her with an older actor whose character was eventually disarmed by her inestimable charm. Several years after she was chosen by Colette to star in the Broadway version of the French author's *Gigi*, Hepburn burst onto the Hollywood scene with 1953's *Roman Holiday*. Costarring Gregory Peck, the film tells the tale of a runaway princess who is shown around Rome by a reporter smitten with love for her. He nonetheless convinces her to resume her royal duties. The role landed Hepburn an Oscar at the tender young age of 24 for best actress. Full of adoration, Jay Cocks described the last scene of the film in *Time*, remarking that Peck's close up expressions of loss "would have been nonsense if Peck did not have something wonderful and irreplaceable to miss. He had Audrey Hepburn."

#### **WHAT IS A COMPUTER?**

The term computer is used to describe a device made up of a combination of electronic and electromechanical (part electronic and part mechanical) components. Computer has no intelligence by itself and is referred to as hardware. A computer system is a combination of five elements:

- Hardware
- Software
- People
- Procedures
- Data-information

When one computer system is set up to communicate with another computer system, connectivity becomes the sixth system element. In other words, the manner in which the various individual systems are connected — for example, by phone lines, microwave transmission, or satellite — is an element of the total computer system.

Software is the term used to describe the instructions that tell the hardware how to perform a task. Without software instructions, the hardware doesn't know what to do. People, however, are the most important component of the computer system: they create the computer software instructions and respond to the procedures that those instructions present.

The basic job of computer is processing information. Computers accept information in the form of instruction called a programme and characters called data to perform mathematical and logical operations, and then give the results. The data is raw material while information

is organized, processed, refined and useful for decision making. Computer is used to convert data into information.

## **II. Answer the questions:**

- 1) What does the term «computer» describe?
- 2) Is computer intelligent?
- 3) What are five components of computer system?
- 4) What is connectivity?
- 5) What is software? What's the difference between hardware and software?
- 6) Why people are the most important component of a computer system?
- 7) In what way terms «data» and «information» differ?
- 8) How does computer convert data into information?

Which of the listed above statements are true/false. Specify your answer using the text.

## **III. Exercise:**

- 1) Computer is made of electronic components so it is referred to as electronic device.
- 2) Computer has no intelligence until software is loaded.
- 3) There are five elements of computer system: hardware, software, people, diskettes and data.
- 4) The manner in which computers are connected is the connectivity.
- 5) Without software instructions hardware doesn't know what to do.  
пазым
- 6) The software is the most important component because it is made by people.
- 7) The user inputs data into computer to get information as an output.
- 8) Computer is used to help people in decision making process.

## **IV. Match the following:**

- 1)... doesn't come to life until it is connected to other parts of a system.
- 2)... is the term used to describe the instructions that tell the hardware how to perform a task.

3)... create the computer software instructions and respond to the procedures that those instructions present.

4)Information in the form of instruction is called a ...

5)The manner in which the various individual systems are connected is ...

6)... is organized, processed and useful for decision making.

7)The basic job of the computer is the ...

- a) programme
- b) information
- c) processing of information
- d) software
- e) connectivity
- f) computer
- g) people

#### **The history of the computers.**

When Charles Babbage, a professor of Mathematics at Cambridge University, invented the first calculating machine in 1812 he could not imagine the situation we find ourselves in today.

Nearly everything we do in the modern world is helped, or even controlled by the computers, the complicated descendants of his simple machine.

Computers are used and more often in the world today, for the simple reason that they are far more efficient than human beings. They have much better memories and they can store much information. No man alive can do 500,000 sums in one second, but a computer can. In fact computers can do many of the things we do, but faster and better. They can control machines in factories, predict tomorrow's weather, and even play chess, write poetry, or compose music.

Many people associate computers with the world of science and maths, but they are also a great help to scholars in other subjects, in history, literature and so on. In the library it is now possible for a scholar to find a book or article he needs very quickly, which, when a million or more new books are published each year, is quite an advantage. There is a system, controlled by a computer, of giving books a code number, reducing them in size by putting them on microfiche, and then storing 3,000 or more in a container no bigger than a washing machine. You tell the computer which subject you are interested in and it produces any microfiche you need in seconds. There are also systems to translate articles from foreign magazines by computer. So computers can help us in many ways.

## II. Answer the questions:

1. What types of computers do you know?
2. Which computer programs do you use?
3. What are the main components of a computer?
4. Where can we use a computer?

## III. Find the following words in the text:

## IV. Read and translate the text:

The Father of Computers" **Charles Babbage** who invented the 1st mechanical Computer.. in 1834 he dreamt of designing mechanical calculating machines."... I was sitting in the rooms of the Analytical Society, at Cambridge, my head leaning forward on the table in a kind of dreamy mood, with a table of logarithms lying open before me. Another member, coming into the room, and seeing me half asleep, called out, "Well, Babbage, what are you dreaming about?" to which I replied "I am thinking that all these tables" (pointing to the logarithms) "might be calculated by machinery. "

This machine used the decimal numbers system and was powered by cranking a handle. The British government first financed the project but then later cut off support. Babbage went on to design his much more general analytical engine but later returned and produced an improved design (his "Difference Engine No. 2") between 1834 and 1869. Meanwhile **Ada Lovelace** is credited as the "first Computer programmer" since she was writing programs - that is, manipulating symbols according to rules-for Babbages machine.

The history of computers starts out about 2000 years ago, at the birth of the abacus, a wooden rack holding two horizontal wires with beads strung on them. When these beads are moved around, according to **programming** rules memorized by the user, all regular arithmetic problems can be done. Another important invention around the same time was the Astrolabe,

used for navigation. Blaise Pascal is usually credited for building the first **digital** computer in 1642.

1. He(to be) abroad five years ago. 2. You (to be) in the Caucasus last year? 3. They (to leave) England when he (to be) still a child. 4. He (not yet to come) back. 5. He (to go) already? 6. When you (to see) him last? 7. I (not to see) him for ages. 8. His health (to improve) greatly since I (to see) him last. 9. Last night I (to feel) tired and (to go) to bed very early. 10. Where you (to spend) your holidays? 11. You ever (to spend) your holidays in the Crimea? 12. While travelling in the Crimea I (to meet) your friend. 13. I never (to visit) that place. 14. He (to visit) that place last year. 15. I just (to get) a letter from Tom. 16. You (to take) any photographs while travelling in the south?

**Exercise 2. Раскройте скобки, употребляя глаголы в *Present*или *PastSimple*,**

1. My friend (to know) Spanish very well. 2. Who (to ring) you up an hour ago? 3. He (to live) on the third floor. 4. It (to take) you long to find his house yesterday? 5. When your lessons (to be) over on Monday? 6. I (to have) dinner with my family yesterday. 7. Her friends (to be) ready at five o'clock. 8. One of her brothers (to make) a tour of Europe last summer. 9. Queen Elizabeth II (to be) born in 1926. She (to become) Queen of England in 1952. 10. You always (to get) up at seven o'clock? — No, sometimes I (to get) up at half past seven.

### **Exercise 3. Раскройте скобки, употребляя глаголы в *Present* или *Past Simple*.**

1. I (to go) to bed at ten o'clock every day. 2. I (to go) to bed at ten o'clock yesterday. 3. My brother (to wash) his face every morning. 4. Yesterday he (to wash) his face at a quarter past seven. 5. I (not to have) history lessons every day. 6. We (not to rest) yesterday. 7. My brother (not to drink) coffee yesterday. 8. My mother always (to take) a bus to get to work, but yesterday she (not to take) a bus. Yesterday she (to walk) to her office. 9. You (to talk) to the members of your family every day? - Yes, I..... But yesterday I (not to talk) to them: I (to be) very busy yesterday. 10. You (to come) home at six o'clock yesterday? - - No, I..... Yesterday I (to come) home from school at half past eight. I (to be) very tired. I (to have) dinner with my family. After dinner I (to be) very thirsty. I (to drink) two cups of tea. Then I (to rest). 11. Your sister (to go) to school every day? - - Yes, she ....

#### **The History of Computer Development.**

The rapidly advancing field of electronics led to construction of the first general-purpose electronic computer in 1946 at the University of Pennsylvania. It was Electronic Numerical Integrator And Computer or ENIAC, the device contained 18,000 vacuum tubes and had a speed of several hundred multiplications per minute. Its program was wired into the processor and had to be manually altered.

Later transistors appeared. The use of the transistor in computers began in the late 1950s. It marked the advent of smaller, faster elements than it was possible to create with the use of vacuum-tube machines. Because transistors use less power and have a much longer life, computers alone were improved a lot. They were called second-generation computers.

Components became smaller and the system became less expensive to build.

Modern digital computers are all conceptually similar, regardless of size and shape. Nevertheless, they can be divided into several categories on the basis of cost and performance.

The first one is the personal computer or microcomputer, a relatively low-cost machine, usually of desk-top size. Sometimes they are called laptops. They are small enough to fit in a briefcase. The second is the workstation, a microcomputer with enhanced graphics and communications capabilities that make it especially useful for office work. And the server computers, a large expensive machine with the capability of serving the needs of major business enterprises, government departments, scientific research establishments. The largest and fastest of these are called supercomputers.

A digital computer is not actually a single machine, in the sense that most people think of computers. Instead it is a system composed of five distinct elements: a central processing unit, input devices, memory storage devices, output devices and a communications network, called a «bus» that links all the elements of the system and connects the system itself to the external world.

Talking about a central processing unit or the heart of computer; I would like to add that there were several generations of microprocessors. The first generation was represented by processing unit Intel 8086. The second generation central processing unit was represented by processing unit Intel 80286, used in IBM PC AT 286. In the end of 80s such computer costs about 25-30 000 rubles in the former USSR. The third generation is represented by Intel 80386, used in IBM PC AT 386. The microprocessors of the fourth generation were used in computers IBM PC AT 486. There are also central processing units of the fifth generation, used in Intel Pentium 60 and Intel Pentium 66, central processing units of the sixth generation, used in computers Intel Pentium 75,90,100 and 133. Few years ago appeared central processing units of seventh and eighth generations.

Computer speeds are measured in gigahertz today. Recently, an optical central processing unit has been invented, which is capable of executing trillions discrete operations per second or it is as fast as the speed of light.

So, we are at the threshold of new computer era, when artificial intelligence could be invented. There are no questions with «if», the only question is «when». And time will show us either computers become our best friends or our evil enemies as it is shown in some movies.

### **Disjunctive/Tag Questions).**

Англичане их просто обожают. Забудьте сказки о сдержанных и чопорных жителях Туманного Альбиона. Они очень открыты и доброжелательны (чего, разумеется, ждут и от вас). Как-то будучи в Лондоне, я стояла на автобусной остановке. Утро выдалось мрачное, густой туман мелкими капельками покрывал всю одежду, лез за шиворот, как-будто сам хотел согреться. Пожилой мужчина куда -то торопился, а автобус, наверное, где-то застрял. Поговорить ему было не с кем (но обсудить ненастную погоду с утра для старичка было ритуалом, которому ни он, ни его предки не изменяли никогда), и он обратился ко мне с вопросом:

— It's a nasty day today, **isn't it?**

— **Yes, it is.** But it might change for the better in the afternoon, — ответила.

— I hope you **didn't forget** to take your umbrella, **did you?** — продолжал он.

— **No, I didn't.** I always carry it in my bag...

Вскоре подошел мой автобус и я уехала окультиваться в **The National Picture Gallery**.

Для того, чтобы вы также с легкостью могли употреблять эти вопросы в своей речи, нужно разобраться, что это за **ХВОСТИКИ** и с чем их едят.

### Правило 1

**Разделительный вопрос** состоит из двух частей, разделяемых запятой. В первой части, до запятой, находится повествовательное предложение (оно может быть как утвердительным, так и отрицательным), то есть порядок слов прямой: подлежащее — сказуемое. А во второй части, после запятой, стоит краткий вопрос общего типа. Он как раз и называется **TAG** — «**ХВОСТ**».

### Правило 2

«**Хвост**» состоит из вспомогательного или модального глагола (в утвердительной или отрицательной форме) и соответствующего местоимения и переводится на русский язык фразой «**не правда ли?**», «**не так ли?**»

### Правило 3

Если до запятой стоит утвердительное предложение, то вспомогательный глагол в «хвостике» употребляется в отрицательной форме с частицей **not**. И наоборот, если глагол в первой части стоит в отрицательной форме, то вспомогательный глагол в «хвостике» — в утвердительной. Я называю это правило «**принципом батарейки**»: **(+, -) или (-, +)**.

### Правило 4

**Разделительные вопросы** задают тогда, когда говорящий хочет получить подтверждение высказывания, содержащегося в первой части вопроса. Ответы даем краткие: **YES / NO**

### Правило 5

Интонация в **разделительных вопросах** движется следующим образом: первая часть (повествовательное предложение) произносится с понижающейся интонацией, а вторая часть (общий вопрос) — с повышающейся интонацией (помните? как будто взлетает самолет).

**Например,**

- Jane **is** keen on jazz music, **isn't** she? - Джейн увлекается джазовой музыкой, не правда ли?

**!** Если вспомогательный глагол в «хвостике» стоит в отрицательной форме, то она должна быть **всегда сокращенной**. Местоимение определяем по подлежащему: Jane — she. Ответ даем краткий: Yes, she is (если вы согласны с утверждением) или No, she isn't (если вы не согласны с утверждением).

- Jane often **listens** to jazz music, **doesn't** she? Yes, she does. / No, she doesn't. (Present Simple)
- Jane **listened** to jazz music **yesterday**, **didn't** she? Yes, she did. / No, she didn't. (Past Simple)

! Если в первой части разделительного вопроса сказуемое стоит в утвердительной форме в **Present Simple Tense** или **Past Simple Tense**, то есть в его составе отсутствует вспомогательный глагол, то в «хвостике» обязательно появится один из этих помощников **do/does/did**.

- Jane **has listened** to jazz music **today, hasn't she?** (Present Perfect) Yes, she has. / No, she hasn't.
- I am sure, Jane **will listen** to jazz music **tomorrow, won't she?** (Future Simple) (will not = won't, формы **willn't** не существует!) Yes, she will. / No, she won't.
- I **can** listen to jazz music with you, Jane, **can't I?** - Of course, you can. You **can** do it any time you like. (Modal verb)

! Как правило, трудности представляют разделительные вопросы с местоимением **I (Я)**. Все дело в том, что не существует сокращенной формы **amn't** (am not), а поэтому для первого лица единственного числа пользуемся (только в одном единственном случае) сокращенной формой **aren't**.

Например, I **am** late, **aren't I?**

I **am** fat, **aren't I?**

I **am** happy, **aren't I?**

I **am** cooking dinner, **aren't I?**

- Jane **doesn't** like playing computer games, **does she?** (- , +) — Джейн **не любит** играть в компьютерные игры, не правда ли? **No, she doesn't** (выражаем согласие: Да, не любит) и **Yes, she does** (выражаем несогласие: Нет, любит)
- Her brother **is not** fond of jazz music, **is he?** (- , +) — Ее брат не увлекается джазовой музыкой, не так ли? **No, he isn't** (выражаем согласие: Да, не увлекается) и **Yes, he is** (выражаем несогласие: Нет, он увлекается)

! Как видно из приведенных примеров, есть некоторое расхождение в употреблении **yes / no** в английском языке и **да / нет** в русском языке. Поэтому, чтобы мои ученики не запутались с ответами, я им предложила вспомнить одно математическое правило: **при умножении двух отрицательных чисел получаем положительный ответ**, то есть чтобы согласиться с отрицательным предложением, нужно дать отрицательный ответ.

Например, You **haven't** got a dog, have you? **No, I haven't.** (Да, у меня нет собаки)

Your grandmother **doesn't** live in London, does she? **No, she doesn't.** (Да, она не живет в Лондоне)

His brother **can't** play the guitar, can he? **No, he can't.** (Да, он не умеет играть на гитаре)

Your sister **is not** married, is she? **No, she isn't.** (Да, она не замужем).

### ALTERNATIVE QUESTION.

(Альтернативные вопросы).

Предполагают **выбор одного из двух** лиц / предметов / действий / качеств / признаков. Могут быть заданы к любому члену предложения. Выбор, обозначаемый словом **or** => **или** может вводиться как в общие, так и в специальные вопросы, при этом схемы «обоих типов вопросительных предложений остаются без изменений:

Do you **smoke or not**? — I do. / I do not. => — Вы курите или нет? — Курю. / Не курю.  
Are you **sleeping or reading**? — I'm reading. / I'm not sleeping. / Neither. => — Ты спишь или читаешь? — Я читаю. / Я не сплю. / Ни то, ни другое.

Is she **a student or a worker**? — Neither. => — Она учится или работает? — Ни то, ни другое.

When will you come: **tomorrow or the day after tomorrow**? => Когда ты придешь: завтра или послезавтра?

**Если альтернативный вопрос относится к подлежащему**, то подлежащих в предложении становится два, и оба ставятся с вспомогательным глаголом:

**Do you or does your brother** smoke these cigars? => Вы или ваш брат курите эти сигары? (можно: Who smokes these cigars: you or your brother? (— натакойвопросдаетсякраткийответ: My brother does. / I do. / Neither (of us does).

**Если альтернативный вопрос относится к определению подлежащего**, то порядок слов соответствует схеме, а выбор обозначается в конце вопроса:

Чьи дети сделали это: наши или их? => Whose children did it: **ours or theirs**?

Какие книги интереснее: эти или те? => Which books are more interesting: **these ones or those ones**?

### **HARDWARE.**

What is hardware? Webster's dictionary gives us the following definition of the hardware — the mechanical, magnetic, electronic, and electrical devices composing a computer system.

#### **Computers**

Computer hardware can be divided into four categories:

- 1) input hardware
- 2) processing hardware
- 3) storage hardware
- 4) output hardware.

#### **Input hardware:**

The purpose of the input hardware is to collect data and convert it into a form suitable for computer processing. The most common input device is a keyboard. It looks very much like a typewriter. The mouse is a hand held device connected to the computer by small cable. As the mouse is rolled across the mouse pad, the cursor moves across the screen. When the cursor reaches the desired location, the user usually pushes a button on the mouse once or twice to signal a menu selection or a command to the computer.

The light pen uses a light sensitive photoelectric cell to signal screen position to the computer. Another type of input hardware is optic-electronic scanner that is used to input graphics as well as typeset characters. Microphone and digital camera can be also used to input data into the computer.

#### **Processing hardware:**

The purpose of processing hardware is retrieve, interpret and direct the execution of software instructions provided to the computer. The most common components of processing hardware are the Central Processing Unit and main memory.

The Central Processing Unit (CPU) is the brain of the computer. It reads and interprets software instructions and coordinates the processing activities that must take place. The

design of the CPU affects the processing power and the speed of the computer, as well as the amount

of main memory it can use effectively. With a well- designed CPU in your computer, you can perform highly sophisticated tasks in a very short time.

Memory is the system of component of the computer in which information is stored. There are two types of computer memory: RAM and ROM.

RAM (random access memory) is the volatile computer memory, used for creating loading, and running programs and for manipulating and temporarily storing data;

ROM (read only memory) is nonvolatile, nonmodifiable computer memory, used to hold programmed instructions to the system.

The more memory you have in your computer, the more operations you can perform that is the faster it works.

#### Storage hardware

The purpose of storage hardware is to store computer instructions and data in a form that is relatively permanent and. Storage hardware serves the same basic functions as do office filing systems except that it stores data as electromagnetic signals. The most common ways of storing data are Hard disk (HDD), floppy disk and CD-ROM.

Hard disk is a rigid disk coated with magnetic material, for storing programs and relatively large amounts of data.

Floppy disk (diskette) — thin, usually flexible plastic disk coated with magnetic material, for storing computer data and programs. There are two formats for floppy disks: 5.25" and 3.5". 5.25" is not used in modern computer systems because of it relatively large size, flexibility and small capacity. 3.5" disks are formatted 1.44 megabytes and are widely used.

CD-ROM (compact disc read only memory) is a compact disc on which a large amount of digitized read-only data can be stored. CD-ROMs are very popular now because of the growing speed which CD-ROM drives can provide nowadays.

#### Output hardware:

The purpose of output hardware is to provide the user with the means to view information produced by the computer system. Information is output in either hardcopy or softcopy form. Hardcopy output can be held in your hand, such as paper with text (word or numbers) or graphics printed on it. Softcopy output is displayed on a monitor.

Monitor is a component with a display screen for viewing computer data, television programs, etc.

Printer is a computer output device that produces a paper copy of data or graphics.

Modem is an example of communication hardware — an electronic device that makes possible the transmission of data to or from computer via telephone or other communication lines.

Hardware comes in many configurations, depending on what the computer system is designed to do. Hardware can fill several floors of a large office building or can fit on your lap.

### **III. Answer the questions:**

1. What is the Webster's dictionary definition of the hardware?
2. What groups of hardware could be defined?
3. What is input hardware? What are the examples of input hardware?
4. What is a mouse designed for? What is a light pen?
5. What is processing hardware? What are the basic types of memory used in a PC?
6. Can a PC-user change the ROM? Who records the information in ROM?
7. What is storage hardware? What is CD-ROM used for? Can a user record his or her data on a CD? What kind of storage hardware can contain more information: CD-ROM, RAM or ROM?
8. What is modem used for? Can PC-user communicate with other people without a modem?

### **IV. Which of the listed below statements are true/false. Specify your answer using the text:**

1) Computer is an electronic device therefore hardware is a system of electronic devices.

2) The purpose of the input hardware is to collect data and convert it into a form suitable for computer processing.

3) Scanner is used to input graphics only.

4) The purpose of processing hardware is to retrieve, interpret and direct the execution of software instructions provided to the computer.

5) CPU reads and interprets software and prints the results on paper.

6) User is unable to change the contents of ROM.

7) 5.25" floppy disks are used more often because they are flexible and have more capacity than 3.5" disks.

5) Printer is a processing hardware because its purpose is to show the information produced by the system.

6) Modem is an electronic device that makes possible the transmission of data from one computer to another via telephone or other communication lines.

7) The purpose of storage hardware is to store computer instructions and data in a form that is relatively permanent and retrieve them when needed for processing.

### **V. Give definitions to the following:**

- 1) CPU
- 2) ROM
- 3) Floppy-disk
- 4) CD-ROM
- 5) Printer
- 6) Modem
- 7) Mainboard
- 8) Hard disk
- 9) Keyboard
- 10 Sound-card

**VI. Which of the following is Hardware:**

- 1) program
- 2) mouse
- 3) CPU
- 4) printer
- 5) modem
- 6) command
- 7) port
- 8) cursor or the pointer
- 9) keyboard
- 10) character

Match the following:

- 1) процессор
- 2) клавиатура
- 3) мышь
- 4) дискета
- 5) «винчестер»
- 6) модем
- 7) экран
- 8) ПЗУ
- 9) ОЗУ

- a) nonvolatile, nonmodifiable computer memory, used to hold programmed instructions to the system;
- b) the part of a television or computer on which a picture is formed or information is displayed;
- c) rigid disk coated with magnetic material, for storing computer programs and relatively large amounts of data;
- d) an electronic device that makes possible the transmission of data to or from computer via telephone or other communication lines;
- e) a set of keys, usually arranged in tiers, for operating a typewriter, computer terminal, or the like;
- f) volatile computer memory, used for creating, loading, and running programs and for manipulating and temporarily storing data; main memory;
- g) central processing unit: the key component of a computer system, containing the circuitry necessary to interpret and execute program instructions;
- h) a palm-sized device equipped with two or more buttons, used to point at and select items on a computer display screen and for controlling the cursor by means of analogous movement on a nearby surface;
- i) a thin, usually flexible plastic disk coated with magnetic material, for storing computer data and program.

## **VII. Questions for discussion:**

- 1) Without what parts computer is unable to work?
- 2) What is the most expensive part of the hardware?
- 3) What other hardware devices do you know? What are they for? How to use them?

### **Possessive case.**

Possessive/genitive case чаще всего выражает принадлежность (отсюда название possessive).

Притяжательный падеж образуется при помощи знака апострофа и буквы s ('s) или просто апострофа ('). Последний способ используется для существительных во множественном числе (pupils' work, cars' colour) и греческих заимствований, оканчивающихся на [ -iz ] (Xerxes' army, Socrates' wife).

Однако если форма множественного числа образована не по обычному правилу (men, children), то в притяжательном падеже к ней прибавляется 's: men's work, children's toys

Если существительное – составное, то 's прибавляется к последнему его элементу:

mother-in-law's advice, passer-by's surprise

Иногда 's может относиться к нескольким существительным или целой фразе:

Peter and Sally's kids; the girl I helped yesterday's face.

Дети Питера и Сэлли; лицо девушки, которой я вчера помог.

Нужно учесть, что притяжательный падеж одушевленных существительных в английском языке строится при помощи окончания 's, а для неодушевленных – при помощи предлога of:

Kevin's hat, income of the company

шляпаКевина, доходкомпании.

Однако среди неодушевленных существительных есть исключения, которые можно поставить в форму притяжательного падежа через 's:

- Существительные, обозначающие время и расстояние: today's newspaper, a mile's distance
- Названия стран и городов: Germany's industry, New York's streets
- Названия газет и организаций: the Guardian's article, Red Cross's volunteers
- Слова **nation, country, city, town**: country's treasures
- Слова **ship, car, boat**: ship's name, car's speed
- Слова **nature, water, ocean**: ocean's temperature, nature's beauty
- Названия месяцев и времени года: January's frosts, summer's days
- Названия планет: Saturn's rings
- Некоторые устойчивые выражения: at death's door, at arm's length, a hair's breadth, at a snail's pace и другие.

***Выражение падежей английских существительных при помощи предлогов***

Хотя в английском языке и насчитывается только два падежа, при помощи некоторых предлогов можно передать значение и других падежей.

Родительный падеж передается при помощи предлога of:

The beginning of the summer was cold.

Начало (чего?) лета было холодным.

The behavior of this new breed of mice is rather unusual.

Поведение (кого?) этой новой породы мышей довольно необычно.

Дательный падеж соответствует предлогу to:

I am going to John.

Я иду к (кому?) Джону.

We sold our house to a family from Canada.

Мы продали свой дом (кому?) семье из Канады.

Творительный падеж соответствует предлогу with, когда имеется в виду инструмент или предмет, которым выполняется действие:

I've killed two flies with a newspaper.

Я убил (чем?) газетой двух мух.

My sister can write with both her hands.

Моя сестра умеет писать (чем?) обеими руками.

Если в виду имеется действующее лицо или сила, то используется предлог by:

This machine can be operated only by a professional.

Это устройство может управляться только (кем?) профессионалом.

We suddenly saw a hat carried by the wind.

Вдруг мы увидели шляпку, несомую (чем?) ветром.

### **SOFTWARE.**

A computer to complete a job requires more than just the actual equipment or hardware we see and touch. It requires Software — programs for directing the operation of a computer or electronic data.

Software is the final computer system component. These computer programs instruct the hardware how to conduct processing. The computer is merely a general- purpose machine which requires specific software to perform a given task. Computers can input, calculate, compare, and output data as information. Software determines the order in which these operations are performed.

Programs usually fall in one of two categories: system software and applications software.

System software controls standard internal computer activities. An operating system, for example, is a collection of system programs that aid in the operation of a computer regardless of the application software being used. When a computer is first turned on, one of the system programmes is booted or loaded into the computers memory. This software contains information about memory capacity, the model of the processor, the disk drives to be used, and more. Once the system software is loaded, the applications software can be brought in.

System programmes are designed for the specific pieces of hardware. These programmes are called drivers and coordinate peripheral hardware and computer activities. User needs to install a specific driver in order to activate a peripheral device. For example, if you intend to buy a printer or a scanner you need to worry in advance about the driver programme which, though, commonly goes along with your device. By installing the driver you «teach» your mainboard to «understand» the newly attached part. However, in modern computer systems the drivers are usually installed in the operating system.

Applications software satisfies your specific need. The developers of application software rely mostly on marketing research strategies trying to do their best to attract more users

(buyers) to their software. As the productivity of the hardware has increased greatly in recent years, the programmers nowadays tend to include as much as possible in one programme to make software interface look more attractive to the user. These class of programmes is the most numerous and perspective from the marketing point of view.

Data communication within and between computers systems is handled by system software. Communications software transfers data from one computer system to another. These programmes usually provide users with data security and error checking along with physically transferring data between the two computer's memories. During the past five years the developing electronic network communication has stimulated more and more companies to produce various communication software, such as Web-Browsers for Internet.

### **III. Answer the questions:**

1. What is software?
2. In what two basic groups software (programmes) could be divided?
3. What is system software for?
4. What is an operating system — a system software or application software?
5. What is a «driver»?
6. What is application software?
7. What is application software used for?
8. What is the tendency in application software market in the recent years?
9. What is the application of the communication software?

### **IV. Which of the following is Software:**

1. Programme
2. Mouse
3. CPU
4. Word processor
5. Modem
6. Web-browser \*
7. Operating system
8. Scanner
9. Printer

**V. Which of the listed below statements are true/false. Specify your answer using the text:**

- 1) Computer programmes only instruct hardware how to handle data storage.
- 2) System software controls internal computer activities.
- 3) System software is very dependable on the type of application software being used.
- 4) The information about memory capacity, the model of the processor and disk drives are unavailable for system software.
- 5) The driver is a special device usually used by car drivers for Floppy-disk driving.
- 6) It is very reasonable to ask for a driver when you buy a new piece of hardware.
- 7) Software developers tend to make their products very small and with poor interface to save computer resources.
- 8) Communication software is in great demand now because of the new advances in communication technologies.
- 9) Application software is merely a general-purpose instrument.
- 10) Web-browsers is the class of software for electronic communication through the network.

**VI. Find English equivalents in the text:**

- 1) Программное обеспечение определяет порядок выполнения операций.
- 2) Прикладные программы выполняют поставленную вами конкретную задачу (удовлетворяют вашу потребность).
- 3) Этот класс программ — самый многочисленный и перспективный с точки зрения маркетинга.
- 4) Системные программы предназначены для конкретных устройств компьютерной системы.
- 5) Устанавливая драйвер, вы «учите» систему «понимать» вновь присоединенное устройство.
- 6) Когда компьютер впервые включается, одна из системных программ должна быть загружена в его память.
- 7) Развитие систем электронной коммуникации за последние пять лет стимулировало производство соответствующих программных продуктов возрастающим числом компаний-разработчиков.

**VII. Give definitions to the following:**

- 1) Software
- 2) Driver
- 3) Application software
- 4) Operating system
- 5) Communication software
- 6) Computer
- 7) Peripheral device
- 8) Operating system

Программное обеспечение.

**Цель работы:** Введение и закрепление новой лексики по теме: . Программное обеспечение; развитие умения поиска специфической информации; развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

**Ход работы:** Составление диалога-расспроса по теме. Выполнение упражнений по теме: Модальные глаголы.

**Dosomeexrcises:**

**Exercise 1.** Вставьте модальный глагол *can* или *could*. Раскройте скобки, употребляя требующуюся форму инфинитива:

1. ... you (to ask) my sister to help you? I am very busy today. 2. ... it (to be) seven o'clock now? 3. You ... not (to see) her at the party. She was at "home working at her English. 4. He ... not (to forget) your request: he is very attentive to people. 5. I should be very happy if you ... (to visit) us in the village. 6. I don't believe her, she ... not (to forget) to bring the book. She simply did not want to bring it. 7. He said he ... (to finish) the task by Monday.

**Exercise 2.** Переведите на английский язык, употребляя модальный глагол *can*:

1. Не может быть, что она опоздала на урок: она никогда не опаздывала. 2. Не может быть, что она перепутала улицы. 3. Не может быть, чтобы это была правда. 4. Неужели ты разорвал мою записку? 5. Не может быть, чтобы он был в парке сейчас. Уже поздно. 6. Не может быть, что она это написала. Я уверен, что это написал кто-то другой. 7. Неужели он хороший бегун? Он такой маленький. 8. Не может быть, что она уже окончила школу. 9. Не может быть, что он ученый. 10. Не может быть, что он бы л ученым.

**Exercise 3.** Дайте совет, используя модальный глагол *should* и слова, данные в скобках:

E.g. Her diction is not very good, (to read aloud) **She should read** aloud.

1. The boy is a little pale, (to play out-of-doors) 2. I am afraid you will miss that train, (to take a taxi) 3. There is no one in. (to try the room next door) 4. I have a slight irritation in my throat, (to smoke less) 5. TKs child doesn't want to eat soup, (not to give her sweets before dinner) 6. She makes a lot of spelling mistakes, (to copy passages out of a book) 7. The dog is afraid of him. (not to shout at the dog) 8. The students are unable to follow what I am saying, (not to speak so fast).

**Exercise 4.** Вставьте модальные глаголы *should* или *had to*. Раскройте скобки, употребляя требующуюся форму инфинитива:

1. I ... (to write) this composition yesterday, but I was too busy as I ... (to translate) a very long text from English. 2. Microsoft Company.

Paul Allen and Bill Gates founded the Company in 1975.

Microsoft is best-known American company involved in software production. Microsoft's wealth and power is growing up for years. It is a giant company. Microsoft's \$25 billion market value tops that of Ford, General Motors.

Some time ago, Microsoft dominated the PC market with its-MS-DOS operating system, the basic software that let the computer understand your commands and carry them out, appeared in the beginning of 80s. MS-DOS ran on 90 percent of the worlds IBM and IBM-clone computers. Then, Microsoft has extended that presence with releasing of Windows, which is probably the most important and popular operating system in the World. And now it dominates the market.

It has been calculated that Microsoft controls 80-85 % of the entire PC software industry. The company has hundreds of products and thousands of employees, making it one of the largest companies. Many of the company's shareholders are now millionaires and a few including Bill Gates and Paul Allen are billionaires. Microsoft is no doubt the fastest growing company in the PC software industry.

### Internet Technologies.

Millions of people around the world use the Internet to search for and retrieve information on all sorts of topics in a wide variety of areas including the arts, business, government, humanities, news, politics and recreation. People communicate through electronic mail (e-mail), discussion groups, chat channels and other means of informational exchange. They share information and make commercial and business transactions. All this activity is possible because tens of thousands of networks are connected to the Internet and exchange information in the same basic ways.

The World Wide Web (WWW) is a part of the Internet. But it's not a collection of networks. Rather, it is information that is connected or linked together like a web. You access this information through one interface or tool called a Web browser. The number of resources

and services that are part of the World Wide Web is growing extremely fast. In 1996 there were more than 20 million users of the WWW, and more than half the information that is transferred across the Internet is accessed through the WWW. By using a computer terminal (hardware) connected to a network that is a part of the Internet, and by using a programme (software) to browse or retrieve information that is a part of the World Wide Web, the people connected to the Internet and World Wide Web through the local providers have access to a variety of information. Each browser provides a graphical interface. You move from place to place, from site to site on the Web by using a mouse to click on a portion of text, icon or region of a map. These items are called hyperlinks or links. Each link you select represents a document, an image, a video clip or an audio file somewhere on the Internet. The user doesn't need to know where it is, the browser follows the link.

All sorts of things are available on the WWW. One can use Internet for recreational purposes. Many TV and radio stations broadcast live on the WWW. Essentially, if something

can be put into digital format and stored in a computer, then it's available on the WWW. You can even visit museums, gardens and cities throughout the world, learn foreign languages and meet new friends. And, of course, you can play computer games through WWW, competing with partners from other countries and continents.

Just a little bit of exploring the World Wide Web will show you what a lot of use and fun it is variety разнообразие, спектр recreation развлечение.

#### **APPLICATION OF COMPUTERS.**

1. At present a great deal of the work force of most countries is engaged in creating, processing, storing, communicating and just working with information. Computers have become commonplace in homes, offices, stores, schools, research institutes, plants.

The use of computers in business, industry and communication services is widespread today. Computer-controlled robots are able to improve the quality of manufactured products and to increase the productivity of industry. Computers can control the work of power stations, plants and docks. They help in making different decisions and in management of economy.

The work of banks depends upon computer terminals for millions of daily operations. Without these terminals, records of deposits and withdrawals would be difficult to maintain, and it would be impossible to make inquiries about the current status of customer accounts.

Computers form a part of many military systems including communication and fire control. They are applied for automatic piloting and automatic navigation. Space exploration depends on computers for guidance, on-board environment and research.

2. Computers find application in astronomy and upper atmosphere research. Weather forecasting, library information services can benefit from computers too.

It is interesting to note that computers are widely used in medicine. They became valuable medical diagnostic tools. Computers are used for optical scanning and image processing, ranging from pattern recognition to image processing. Technicians can operate computer tomography scanners which combine x-rays with computer technology to give sectional views of the body of patients. The views then can be combined into a single image shown on the screen.

It should be noticed that learning on a computer can be fun. Students spend more time with computer-aided instruction performing the assigned task, as compared with conventional classroom.

At last air traffic control is impossible without computer application. It fully depends upon computer-generated information.

Many other uses of computers that we cannot imagine at present will become commonplace in the transition from an industrial to post industrial, or information society.

### **Text.**

A computer is a machine with an intricate network of electronic circuits that operate switches or magnetize tiny metal cores. The switches, like the cores, are capable of being in one or two possible states, that is, on or off; magnetized or demagnetized. The machine is capable of storing and manipulating numbers, letters, and characters (symbols).

The basic idea of a computer is that we can make the machine do what we want by inputting signals that turn certain switches on and turn others off, or magnetize or do not magnetize the cores.

The basic job of computers is processing of information. For this reason computers can be defined as devices which accept information in the form of instructions, called a program, and characters, called data, perform mathematical and / or logical operations on the information, and then supply results of these operations. The program, or part of it, which tells the computers what to do and the data, which provide the information needed to solve the problem, are kept inside the computer in a place called memory.

It is considered that computers have many remarkable powers. However most computers, whether large or small, have three basic capabilities.

First, computers have circuits for performing arithmetic operations, such as: addition, subtraction, division, multiplication and exponentiation.

Second, computers have a means of communicating with the user. After all, if we couldn't feed information in and get results back, these machines wouldn't be of much use. Some of the most common methods of inputting information are to use terminals,

diskettes, disks and magnetic tapes. The computer's input device (a disk drive or tape drive) reads the information into the computer. For outputting information two common devices used are: a printer, printing the new information on paper, and a cathode-ray-tube display, which shows the results on a TV-like screen.

Third, computers have circuits which can make decisions. The kinds of decisions which computer circuits can make are not of the type: "Who would win the war between two countries?" or "Who is the richest person in the world?" Unfortunately, the computer can only decide three things, namely: Is one number less than another? Are two numbers equal? and, Is one number greater than another?

## II. Answer the questions:

1. What is a computer?
2. What are the two possible states of the switches?
3. What are the main functions of a computer?
4. In what way can we make the computer do what we want?
5. What is the basic task of a computer?
6. In what form does a computer accept information?
7. What is a program?
8. What are data?
9. What is memory?
10. What three basic capabilities have computers?

Сложная сеть электронных цепей; управлять (приводить в действие) переключателями; возможные состояния; хранить (запоминать) числа; обрабатывать символы; посредством ввода сигналов; включать; выключать; размагничивать сердечники; обработка информации; информация в виде команд; символы, называемые данными; выполнять математические операции; выдавать результаты; обеспечивать необходимую информацию; иметь замечательные возможности; основные свойства; сложение, вычитание, деление, умножение;

## Participle 1 или Present Participle.

**Participle 1 или Present Participle** отражает длительность процесса, подчеркивая одновременность действия со сказуемым. Причастие настоящего времени образуется от глагола + окончание **-ing**:

write - writing (пишущий)

Особенности написания:

- краткая гласная: run - running;

--заканчивается на "е", а перед ней стоит гласная: take - taking, но see -- seeing; - to die, to lie, to tie (умирать, лежать, связывать) меняют "ie" на "y": die - dying, lie - lying, tie - tying.

- заканчивается на l: travelling

Временные формы:

Present Participle I Active: working - одновременные действия в настоящем

Present Participle I Passive: being working - одновременные действия в настоящем + указывает воздействие на подлежащее

Perfect Participle I Active: having worked - предшествует действию сказуемого

Perfect Participle I Passive: having been worked - предшествует действию сказуемого и указывает, что подлежащее подвергалось воздействию.

### **Функции Participle 1.**

В предложении причастие настоящего времени может выполнять следующие **функции**:

1. Как определение употребляется перед существительным или же после него.

The dancing girls are our students. – Танцующие девушки – наши студентки.

2. Если употребляется в функции **обстоятельства**, то переводится на русский с окончанием «а», «я» или «в» (спрашивая, приехав, держа). Может выражать обстоятельство времени, причины, образа действия и сравнения.

Arriving at the station he bought a newspaper. – Приехав на вокзал, он купил газету (время).

He was silent for a while, as if pausing for a reply. – Он немного помолчал, как будто выдерживая паузу для ответа (сравнение).

He was standing on the top of the mountains admiring the beautiful view. —

Он стоял на вершине горы, наслаждаясь прекрасным видом (образа действия).

Having worked a little at this factory I understood everything. – Так как раньше я немного работал на этой фабрике, я все понимал (причины).

3. Как часть сказуемого.

The answer of the student is disappointing. – Ответ студента — разочаровывает.

### **Text.**

Computer is an electronic device that can receive a program (a set of instructions) and then carry out this program by calculating numerical information.

The modern world of high technology is possible mainly due to the development of the computer. Computers have opened up a new era in manufacturing by means of automation, and they have enhanced modern communication systems.

Personal computers

Personal computers are also called microcomputers or home computer. The most compact are called laptops. They are portable and work on built-in batteries.

Personal computers are designed for use at homes, schools, and offices. At home they can be used for home management (balancing the family finances, for example) and for playing computer games, watching films or listening to music. Schoolchildren can use computers for doing their homework and many schools now have computers for independent learning and computer- literacy studies. In the office personal computers may be used for word processing, bookkeeping, storage and handling of necessary information.

Personal computers were made possible by two technical innovations in the field of microelectronics: the integrated circuit, or IC, which was developed in 1959 and the microprocessor that first appeared in 1971.

### **Answer the questions:**

1. What is Computer?
2. Computers have enhanced modern communication systems, haven't they?
3. What are Personal computers called?
4. What are they be used for?

##### **New developments in electronics.**

The IC permitted the miniaturization of computer-memory circuits, and the microprocessor reduced the size of a computer's CPU to the size of a single silicon chip.

Because a CPU calculates, performs logical operations, contains operating instructions, and manages data flows, a complete microcomputer as a separate system was designed and developed in 1974.

In 1981, IBM Company offered its own microcomputer model, the IBM PC that became a necessary tool for almost every business. The PC's use of a 16-bit microprocessor initiated the development of faster and more powerful personal computers, and its use of an operating system that was available to all other computer makers led to a standardisation of the industry.

In the mid-1980s, a number of other developments were especially important for the growth of personal computers. One of these was the introduction of a powerful 32-bit CPU capable of running advanced operating systems at high speeds.

Another innovation was the use of conventional operating systems, such as UNIX, OS/2 and Windows. The Apple Macintosh computers were the first to allow the user to select icons — graphic symbols of computer functions — from a display screen instead of typing commands. New voice-controlled systems are now available, and users are able to use the words and syntax of spoken language to operate their personal computers.

##### **Participle II.**

Причастие II (**Participle II**) - неличная форма глагола (III основная форма глагола), имеет одну неизменяемую форму со страдательным значением и обозначает

действие, которое испытывает на себе лицо или предмет. Оно соответствует в русском языке причастию страдательного залога.

Причастие II правильных глаголов имеет ту же форму, что и **Past Indefinite**, и образуется при помощи прибавления суффикса **-ed** к основе глагола **to ask - asked, to help - helped**.

Подобно причастию I, причастие II обладает свойствами глагола, прилагательного и наречия. Как и глагол, оно обозначает действие. Время действия, обозначаемое причастием II, определяется временем действия глагола-сказуемого или контекстом.

**The book discussed yesterday was interesting.** Книга, *обсуждавшаяся* вчера, была интересной.

**The books discussed at the lessons are always interesting.** Книги, *обсуждаемые* на уроках, всегда интересны.

### **Функции причастия II**

В предложении причастие II может быть:

#### **а. Определением.**

**Lost time is never found again.** Потерянное время никогда не вернёшь (дословно - не найти).

**A written letter lay on the table.** Написанное письмо лежало на столе.

**They are reconstructing the house built in the 18<sup>th</sup> century.** Они реставрируют здание, *построенное* в 18 веке.

#### **б. Обстоятельством.** Перед причастием II в функции обстоятельства могут стоять союзы *if, unless, when*. В таком случае английское причастие переводится обстоятельственным придаточным предложением, в котором подлежащее то же, что и в главном предложении.

**If built of the local stone, the road will serve for years.** *Если построить дорогу (Если дорога построена)* из местного камня, она будет служить долгие годы.

#### **Application of electronics system.**

Electronic engineering deals with the research, design and application of circuits and devices used in the transmission and processing of information.

The revolution in electronics is the trend towards integrating electronic devices on a single tiny chip of silicon or some other semiconductive material. Much of the research in electronics is directed towards creating even smaller chips, faster switching of components, and three-dimensional integrated circuits.

This branch of engineering is concerned with the design and construction of nuclear reactors. In addition to designing nuclear reactors that yield specified amounts of power, nuclear engineers develop the special materials necessary to withstand the high temperatures and radioactivity. Nuclear engineers also develop methods to shield people from the harmful radiation produced by nuclear reactors.

Tim Berners-Lee (born 1955) invented the World Wide Web. His first version of the Web was a program named “Enquire”. At the time, Berners-Lee was working at CERN, the European Particle Physics Laboratory located in Geneva, Switzerland. He invented the system as a way of sharing scientific data (and other information) around the world, using the Internet, a world-wide network of computers and hypertext documents. He wrote the language HTML (HyperText Mark-up Language), the basic language for the Web, and devised URL’s (universal resource locators) to designate the location of each web page. HTTP (HyperText Transfer Protocol) was his set of rules for linking to pages on the Web. After he wrote the first browser in 1990, the World Wide Web was up and going. Its growth was (and still is) phenomenal, and has changed the world, making information more accessible than ever before in history.

#### **The Types of Personal Computers.**

A personal computer (PC) is any general-purpose computer whose size, capabilities, and original sales price make it useful for individuals and which is operated by an end user.

A personal computer may be a desktop computer, a laptop, tablet PC or a handheld PC (also called palmtop). The most common microprocessors in personal computers are x86-compatible CPUs. Software applications for personal computers include word processing, spreadsheets, databases, Web browsers and e-mail clients, games, and special-purpose software. Modern personal computers often have high-speed connection to the Internet.

A PC may be used at home, or may be found in an office. Personal computers can be connected to a local area network (LAN) either by a cable or wirelessly.

**Workstation.** A workstation is a high-end personal computer designed for technical or scientific applications. Desktop computers come in a variety of styles ranging from large vertical tower cases to small form factor models that can be tucked behind an LCD monitor. Most modern desktop computers have separate screens and keyboards.

**Single unit** is a subtype of desktop computers, which combine the monitor and case of the computer within a single unit. The monitor almost always utilizes a touchscreen as

an optional method of user input; however detached keyboards and mice are normally still included. The inner components of the PC are often located directly behind the monitor.

Personal computers (PC) are small, relatively inexpensive computers for an individual user. Their price can be from a few hundred dollars to thousands of dollars. All are based on the microprocessor technology that enables manufacturers to put an entire CPU on one chip. Personal computers are used in business for word processing, accounting, desktop publishing. At home, the most popular use for personal computers is for playing games.

Personal computers first appeared in the late 1970s. One of the first and most popular personal computers was the Apple II, made in 1977 by Apple Computer. Then, in 1981, IBM (International Business Machines) made its first personal computer, known as the IBM PC. The IBM PC quickly became the most popular personal computer.

### **Much и Many.**

Наречия **Much** и **Many** используются, главным образом, в вопросительных и отрицательных предложениях в значении "много". Существуют также и синонимы этих наречий – **a lot of, lots of, a great deal of, large amounts of**, и т.д., в зависимости от контекста.

#### **Вопросительные предложения**

**How much (how much = сколько) ... + неисчисляемые существительные**

Например:

How **much** sugar do you take in your coffee?

*Сколько сахара ты кладешь в кофе?*

How **much** money do you want for this?

*Сколько (денег) ты за это хочешь?*

Do you have **much** work to do?

*У тебя много работы?*

**How many (how many = сколько) ... + исчисляемые существительные**

Например:

How **many** students are there in each class?

*Сколько учеников в каждом классе?*

How **many** people are you expecting?

*Сколько человек ты ожидаешь?*

#### **Отрицательные предложения.**

В отрицательных предложениях конструкции **Not Much** и **Not Many** обычно переводятся как "мало", "немного".

Например:

He doesn't earn **much** money (*существительное money - неисчисляемое*).

Он зарабатывает *мало (= немного)* денег.

Not **many** people have heard of her (*существительное people - исчисляемое*).

*Немногие* о ней слышали.

Barbara doesn't have **many** friends.  
У Барбары *мало* (= не много) друзей.

##### **Computer and crime.**

As our technology has greatly advanced over the past 50 years, our businesses, people, and its governments have been greatly affected by this new technology. With the vast capabilities of computers, the Internet, storage capability, and the manipulation of data, today's world has been changed forever. Although the benefits greatly outweigh the disadvantages, unless we take a more serious look at this new technology, more people will be hurt, from businesses, families, individuals, and most importantly, our children.

Even as new technology has created more uses for its users, firewalls, password protections, and new programs to safeguard our children when viewing the Internet, our vulnerability increases with our perceived values and reliance on this new technology. There are new increased opportunities for the deviant individual than was ever thought of.

Computer crime started almost 40 years ago with what was called a hacker. Since that time computer crime has been expanded to include espionage both industrial and governmental, security risks, white-collar crime to include disgruntled employees who "fix" a program, or delete certain files from certain programs, and from embezzlement. Due to the advance technology of computers, including advances that are old before they are placed on the market, certain criminal enterprises find as many ways that they can use these technologies to advance themselves either for financial gain, child pornography.

##### **The Types of Personal Computers.**

**Nettop** is a subtype of desktop, introduced by Intel in February 2008 to describe low-cost, lean-function, desktop computers. This type features the new Intel Atom processor which enables it to consume less power and to be built into small enclosures.

**Laptop** (notebook) is a small personal computer designed for portability. Laptops contain high capacity batteries that can power the device for extensive periods of time. One main drawback of the laptop is that little can be done to upgrade the overall computer from its original design. Some devices can be attached externally through ports (including via USB).

**Netbooks** are a rapidly evolving category of small, light and inexpensive laptop computers suited for general computing and accessing web-based applications and optimized for low weight and low cost. In the short period since their appearance in late 2007, netbooks have grown in size and features, now converging with new smaller, lighter notebooks.

### **Computer Security.**

**Computer security** is a branch of computer technology known as information security as applied to computers and networks. The objective of computer security includes protection of information and property from theft, corruption, or natural disaster, while allowing the information and property to remain accessible and productive to its intended users. The term computer system security means the collective processes and mechanisms by which sensitive and valuable information and services are protected from publication, tampering or collapse by unauthorized activities or untrustworthy individuals and unplanned events respectively. The strategies and methodologies of computer security often differ from most other computer technologies because of its somewhat elusive objective of preventing unwanted computer behavior instead of enabling wanted computer behavior.

The aviation industry is especially important when analyzing computer security because the involved risks include human life, expensive equipment, cargo, and transportation infrastructure. Security can be compromised by hardware and software malpractice, human error, and faulty operating environments. Threats that exploit computer vulnerabilities can stem from sabotage, espionage, industrial competition, terrorist attack, mechanical malfunction, and human error.

##### **Virtual Reality.**

Not long ago computers were considered an amazing invention. Today they form part of our everyday life. The latest thing today is Virtual Reality. A Virtual Reality system can transport the user to exotic locations such as a beach in Hawaii or the inside of the human body.

The Virtual Reality system is still in the early stages of its development. At the moment it is necessary to put a large helmet on your head to see the simulated world and you have to wear a special glove on your hand in order to manipulate the objects you see there. Lenses and two miniature display screens inside the helmet create the illusion that the screen surrounds you on every side.

You can "look behind" computer— generated objects, pick them up and examine them, walk around and see things from a different angle. Already today Virtual Reality is used in medicine. In hospitals, surgeons could plan operations by first "travelling" through the brain, heart or lungs without damaging the body. It is also used in police training schools. In schools pupils could explore the Great Pyramid or study molecules from the inside. Developers of Virtual Reality say its potential is powerful.

The word which comes closest to describing Virtual Reality is "simulator." Virtual Reality technology resembles the flight simulators that are used to train pilots.

The word which comes closest to describing Virtual Reality is «simulator». Virtual Reality technology resembles the flight simulators that are used to train pilots. But of course there are dangers as well as benefits. In the wrong hands Virtual Reality can be used for power fantasies and pornography.

**IT Revolution.**

One of the best and worst parts of IT is that it's always changing. Day to day, week to week, the only constants are help desk calls from clueless users and, well, change. As time wears on, though, we might even see a shift in the clueless user department -- we are well into the time where "I'm not a computer person" holds no water. However glacial this progress may seem, users are getting savvier. But I digress.

If you look at the struggles IT has gone through in the past few decades, you can see several clearly defined eras, each shorter than the last. Coming through to today, eras seem to be measured in mere months, not years.

In the 1970s through the early 1990s we had the era of the mainframe, with S/390s and AS400s running everything, and TN3270 green screens the predominate interface with computers. The 1980s saw the appearance of disruptive PC technology, which would obviously blossom into a wholesale global revolution by the mid-1990s, then combine with the Internet to fuel the single largest and fastest change to civilization in history.

In IT, we rode this wave of cataclysmic upheaval, building all the necessary parts along the way. Moving through the early 2000s, we were still refining and exploring this new world, making all kinds of questionable decisions as we charted a course through unknown waters.

Then the mobile revolution was upon us in the form of the first iPhone and all the subsequent fallout from there. I watched a 75-year-old man fiddling with his iPhone 5 the other day, pulling it out of his pocket and checking his text messages as if he'd been doing that since he was a teenager.

But in IT, we are actually seeing a bit of stasis. I don't mean that the IT world isn't moving at the speed of light -- it is -- but the technologies we use in our corporate data centers have

progressed to the point where we can leave them be for the foreseeable future without worry that they will cause blocking problems in other areas of the infrastructure.

### **Computers: new addiction?**

Computer addiction is a relatively new term used to describe a dependency on one's computer. It is not limited to personal computers, but covers video games and the Internet as well. This addiction has already been given a label by psychologists: Internet addiction disorder (IAD).

People can grow addicted to a variety of substances, and there is usually a substantial amount of help available to treat them. Alcohol, drugs, and sex have all been known to bring out the addictive personality trait in some people, but other forms of addictive behavior, such as exercise, watching television, or spending too much time on a computer, have only recently been recognized. Computer addiction, like any addiction, can creep up on a person without him being aware of it. Talk shows are full of people whose relationships have been torn apart by one partner's addiction. Spending hours chatting online, surfing the web, or playing computer games can cause relationships to deteriorate as other parts of a person's life are neglected.

This newly named addiction has gained much press attention recently, as children have also been affected. A recent research study showed that some children experience rage when they are forbidden to play computer games. The results are temper tantrums and behavioral traits similar to those of an addict going cold turkey.

Computers can help children with their studies. Computers can develop a child's creative abilities and expose them to the vast and fascinating world. However, this should be under one condition: that parents and their children use the computer together and that parents help their kids to find websites about animals, nature, technology and any subject that the child may be interested in. Children should be able to play on the computer for 2 hours every day. I should have the right not to be disturbed when I am playing on the computer.

As we can see, the computer has become an essential part of children's lives. How big a part this is, is very much dependent on us, the parents.

Parents must show their children that they can draw, play, write letters, find friends and interesting information through the computer. With the help of their parents, children can create their own sites and take part in different competitions. Parents must familiarise themselves with computer games and forbid any games that involve shooting and killing. They must also teach their children to be safe when working on the computer so that they do not ruin their eyesight or hurt their backs from a bad posture. If parents show their children that the computer can be a source of help and wisdom, then it will be beneficial to them.

In contrast, computers can take over a child's life and become a substitute for reality. They can teach them cruel things, feed them harmful information and expose them to a world of

violence and terror.

The computer can be a kind helper for our children or a terrifying monster that destroys their lives. What it turns out to be is dependent on us, the parents, who can influence the ways in which our children use the computer.

#### Famous Computer Corporations.

Personal computers are now commonplace in most homes throughout the world, and are relied on heavily by both individuals and businesses. The invention of the computer is relatively new, emerging into our lives relatively late in the 20th century.

The microprocessor revolutionised electronics as we know it, a small silicon chip which can process thousands of simultaneous calculations, and replace the need for thousands of

independent transistors. Developed by Ted Hoff, in California, part of the Intel Corporation, the microprocessor opened up new opportunities for machines, as the processor itself was capable of handling large flows of data, performing logical calculations and almost behaving with intelligence.

The first desktop computer system was manufactured for person use in 1974, courtesy of Micro Instrumentation Telemetry Systems (MITS). The computer was termed Altair, and retailed for as little as \$400. The popularity of the Altair soared to unimaginable heights, everyone appearing keen to sample this new machine. This sparked a whole host of computers being developed by other companies, or by young ambitious entrepreneurs. The first well known and reputable company to produce their own computer was Tandy Corporation, which launched its own model in 1977.

A couple of engineers, Stephen Wozniack and Steven Jobs, then began their own business venture which would become known as Apple Computers. The pair manufactured the Apple I, which was a homemade microprocessor, from Jobs' parents' garage of all places. The Apple I was then marketed to the public and was later sold to electronics enthusiasts and hobbyists. This led to the creation of Apple Computer, Inc., and in April, 1977, the Apple II was launched, the world's first personal computer system. The system was designed exclusively by the Apple team and included a keyboard and most notably colour graphics. The Apple II retailed at \$1290.

Apple introduced brand new features to its computer system, expandable memory, disk-drive systems, improved data storage, and the aforementioned colour graphics. Apple Computers became the fastest growing business in American business history, with rival companies being set up as a result of Apple's huge success.

**Answer the questions:**

1. What are personal computers now?
2. What was manufactured in 1974?
3. What did Tandy Corporation launch in 1977?
4. What were Stephen Wozniack and Steven Jobs?
5. What did Stephen Wozniack and Steven Jobs begin their own business venture?
6. They would become known as Apple Computers, wouldn't they?
7. Computers became the fastest growing business in American business history, didn't they?

#### **Text.**

Windows 98 is an operational system with an easy interface based on the expanding windows principle which uses icons to graphically represent files and their types. Windows 98 is the enhanced version of Windows 95.

Windows 98 makes the way you and your computer interact easy. Most everyday tasks are now easier to accomplish than ever before. For example, the second mouse button has become a powerful weapon. The old Windows 3.0 Programme Manager and File Manager have been replaced. The desktop tools that replace them are very like those found on a Macintosh. For example, there is a Recycle Bin that makes it easier to recover accidentally deleted files.

Your computer probably will crash and buzz less running Windows 98 than it did with Windows 3.1 and 3.0 or even DOS. Most memory related problems have been removed. Built-in networking features make it easy to reliably share files with co-workers across the room or across the world. Still you can run DOS programmes and older Windows applications but most users will probably want to spend most of their time using Windows 98 applications instead.

Microsoft says that it is moving forward to the time when we'll all think more about our data and less about the specific name-brand programmes used to create them.

Window 98 plug-and-play capability makes it easy to upgrade your computer hardware. And portable computer users will like what Microsoft has done to make their lives calmer.

A new Windows shortcuts capability makes it easy to reach frequently used files and other necessities. A new

Find feature helps you to locate and examine the contents of files, in a flash.

Most of this is accomplished without sacrificing performance. In fact, many things (like printing) usually happen faster now, due to 32-bit support and other Windows 98 advancements.

### **Answer the questions:**

- 1) What is Windows 98?
- 2) What new principles are used in Windows 98?
- 3) What is a Recycle Bin feature?
- 4) What problems has Windows 98 solved?
- 5) Is it possible to run old DOS programmes under Windows 98?
- 6) What is a «plug-n-play» capability?
- 7) What is a «shortcut» capability?
- 8) What is a «Find» feature?
- 9) Why many things work faster now with Windows 95?

**Find the equivalents in the text:**

- 1) Ваш компьютер, вероятно, будет давать меньше сбоев с Windows 98, чем с более ранними версиями и даже ДОС.
- 2) Корпорация Майкрософт заявляет, что она делает все для того, чтобы приблизить время, когда мы все будем думать больше о наших данных, чем о конкретных «фирменных» программах, которые используются для создания этих данных.
- 3) Новая функция поиска позволяет обнаружить местоположение и исследовать содержимое файла в мгновение ока.
- 4) Большинство этих функций достигнуто в ущерб производительности.
- 5) DOS, каким мы его знаем, так хорошо запрятан, что вы редко думаете о его использовании.
- 6) В Windows 98 существует инструмент Recycle Bin, который позволяет легко восстанавливать случайно удаленные файлы.
- 7) Инструменты Рабочего Стола (Desktop) очень схожи с инструментами Макинтоша.
- 8) Вторая кнопка мыши стала мощным оружием.

**Ход работы:** Составление диалога по теме. Выполнение упражнений по теме: Причастие I. Причастие II.

### **Причастие**

### **(Participle)**

#### **Причастие настоящего времени (Participle I)**

Причастие I (причастие настоящего времени), образованное при помощи окончания-**ing**, имеет активную и страдательную формы: **несовершенный вид, совершенный вид;**

#### **Active**

**активная**

**asking**

**having asked**

**Passive**

**страдательная**

**being asked**

**having been asked**

Причастие I употребляется в функции:

### **1. Определения:**

The man sitting at the table is our teacher. Человек, сидящий за столом — наш учитель.

The houses being built in our town are not very high. Дома, строящиеся в нашем городе, невысоки.

### **2.Обстоятельства:**

Going home I met an old friend. Идя домой, я встретил старого друга.

Having finished work I went home. Закончив работу, я пошел домой.

## **Причастие прошедшего времени Причастие II (Participle II)**

**Причастие II** (причастие прошедшего времени) всегда пассивно. Образуется оно прибавлением суффикса **-ed** к основе правильного глагола или путем чередования звуков в корне неправильного глагола. Причастие **II** употребляется в функции:

### **1. Определения:**

The book translated from English is very interesting. Книга, переведенная с английского языка, интересная.

### **2. Обстоятельства (причины и времени):**

Given the task he began to work. Когда ему дали задание, он начал работать.

If mailed, a bank transfer is known as a mail transfer. Если банковский перевод отправляется почтой, он известен как почтовый перевод.

Если перед причастием прошедшего времени в функции обстоятельства стоят союзы **if, when**, то оно переводится на русский язык обстоятельственным придаточным предложением.

Если причастия настоящего и прошедшего времени стоят перед определяемыми существительными, то они, утрачивая в значительной степени свое отглагольное значение, выражают качество и приближаются по значению к обычному прилагательному: a collecting bank — инкассирующий банк sold goods — проданный товар

Если причастия настоящего и прошедшего времени стоят после определяемого существительного, то они не выражают качества, а имеют лишь глагольное значение. Такие причастия могут быть заменены определительным придаточным предложением:

all parties concerned — все заинтересованные стороны (все стороны, которых это касается)

instructions received — полученные инструкции (инструкции, которые были получены).

### **Exercise 1. Переведите на русский язык, обращая внимание на Participle I, Participle II:**

**Read and translate the text:**

To discuss:

- **why computers have become an important part of our everyday lives**
- **how computers can help you to study**
- **why some people are against computers**
- **whether computers will replace printed books in the future, why**

There is no doubt that computers have become an important part of our everyday life. To begin with, we can do almost everything with the help of the computer. It's much easier to edit and print documents using a PC. Besides, the World Wide Web allows us to access the latest information very quickly. What is more, if you want to travel abroad you can find on the Internet the information about the country and its hotels. You can even buy things sitting at home and using your computer. Interaction with the world is another advantage of a computer. You can chat on-line and make new friends with people from all over the world. Besides, it's a chance to practise your English. And if you want to send a letter, clicking the mouse will be much more convenient than buying a stamp and an envelope and finding time to make a trip to the post office.

If we want to have a prestigious job, we must know how to work on computers. That's why computers have become the main part of school education. As for me, I have computer classes at my school, where I study computer science. More than that, computers help me to do my homework. When I have to make a report for my Biology class or to write a composition, the first place I look for the Internet. Besides, there are a lot of educational programmes that can be really useful in my work, for example, in learning English.

However, many people think that students who rely on computers to do all their work are being cheated out of mind-expanding experience. I can't agree with them because our home tasks are more complex today, that's why the way we work out problems and find solutions must become easier. Another reason why people are against computers is computer addiction. A lot of people find virtual reality more attractive than their everyday lives and this makes them neglect school work and their everyday responsibilities. More than that, if we spend a lot of time working with computer, our eyesight gets worse. Fortunately, new technology makes it possible to eliminate the bad effect of computer on people's health and if we learn how to control our computer use, then computers will become an integral part of our lives.

Thinking about if computers can replace printed books in the future, I don't believe that it will happen, as printed books have certain advantages over electronic media. First of all, they are cheaper and easier to use. Secondly, printed books don't need electricity and you can take

a book with you wherever you like, even to bed. What's more, a printed book is better for human eyes than a computer screen. Finally, not all books can be found on-line. So I think that printed books will coexist with computers and will always be a part of human culture. New technology has introduced great changes in our daily lives, but books on-line can never compete, in my opinion, with human's personal relationship with printed books.

### Questions:

1. What do you think about the future of computers?
2. What do you think about computerized education?
3. Do computers save our time?
4. Are computers really dangerous? Why?
5. How often do you play computer games?
6. What is your attitude towards computer addiction?
7. How can we help computer addicts?

**What do you think about the future of books and computers?** Ss'possible ideas:

- 1) Computers will replace books.
- 2) Paper books will always exist.

#### Компьютеризация в образовании.

**Цель работы:** Введение и закрепление новой лексики по теме: Компьютеризация в образовании; развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

**Ход работы:** Составление диалога по теме. Выполнение упражнений по теме: Причастие I. Причастие II.

#### **Dosome exercises:**

##### **Exercise 1. Переведите на русский язык, обращая внимание на причастия:**

1. Everybody looked at the dancing girl. 2. The little plump woman standing at the window is my grandmother. 3. The man playing the piano is Kate's uncle. 4. Entering the room, she turned on the light. 5. Coming to the theatre, she saw that the performance had already begun. 6. Looking out of the window, he saw his mother watering the flowers. 7. Hearing the sounds of music we stopped talking 8. She went into the room, leaving the door open.

##### **Exercise 2. Переведите на русский язык, обращая внимание на Past Participle:**

1. My sister likes boiled eggs. 2. We stopped before a shut door. 3. Tied to the tree, the goat could not run away. 4. They saw overturned tables and chairs and pieces of broken glass all over the room. 5. This is a church built many years ago. 6. The books written by Dickens give us a realistic picture of the 19th century England. 7. She put a plate of fried fish in front of me. 8. The coat bought last year is too small for me now. 9. Nobody saw the things kept in that box.

*Сравните употребление: Participle I ("ing"-форма); Participle II (III форма глагола);*

##### **Exercise 3. Раскройте скобки, употребляя глаголы в Present Participle или Perfect Participle:**

1. (to do) his homework, he was thinking hard. 2. (to do) his homework, he went for a walk. 3. (to sell) fruit, he looked back from time to time, hoping to see his friends. 4. (to sell) all the fruit, he went to see his friends. 5. (to eat) all the potatoes, she drank a cup of tea. 6. (to drink) tea, she scalded her lips. 7. (to run) in the yard, I fell and hurt my knee. 8. (to look) through some magazines, I came across an interesting article about UFOs. 9. (to write) out and (to learn) all the new words, he was able to translate the text easily. 10. (to live) in the south of our country, he cannot enjoy the beauty of St. Petersburg's White Nights in summer. 11. (to talk) to her neighbour in the street, she did not notice how a thief stole her money. 12. (to read) the story, she closed the book and put it on the shelf. 13. (to buy) some juice and cakes, we went home. 14. (to sit) near the fire, he felt very warm.

##### **Exercise 4. Раскройте скобки, употребляя требующуюся форму причастия:**

1. (to translate) by a good specialist, the story 'preserved all the sparkling humour of the original. 2. (to approve) by the critics, the young author's story was accepted by a thick magazine. 3. (to wait) for some time in the hall, he was invited into the drawing-room. 4. (to wait) in the hall, he thought over the problem he was planning to discuss with the old lady. 5. They reached the oasis at last, (to walk) across the endless desert the whole day. 6. (to lie) down on the soft couch, the exhausted child fell asleep at once. 7. She went to work, (to leave) the child with the nurse. 8. (to phone) the agency, he left (to say) he would be back in two hours. 9. (to write) in very bad handwriting, the letter was difficult to read. 10. (to write) his first book, he could not help worrying about the reaction of the critics. 11. (to spend) twenty years abroad, he was happy to be coming home. 12. (to be) so far away from home, he still felt himself part of the family. 13. She looked at the enormous bunch of roses with a happy smile, never (to give) such a wonderful present. 14. (not to wish) to discuss that difficult and painful problem, he changed the conversation.

##### **Storing information.**

I have a little experience with Siemens programming and am now starting a larger project. I am writing a program that will accept a barcode scan a part and its assemblies and will be stored in a datablock. Information that will be taken in is the Part #, Model #, Assembly #, test pass, and time stamp.

These parts will go through 3 small stations and then be scanned at the last station. Parts will not always be in sequence and the order will drastically change from station 1 to station 3. Then in station 3 the part will be scanned and the datablock will have to be called to look up the serial number and confirm if it passed all test.

I have experience creating the blocks and will create a separate datablock for each set of data information. I do not have much experience linking them or searching the data block at station 3 to match the serial codes and look up if it passed or not. I was wondering has any tips or examples to help me get started in the right direction.

Should I create a separate data block for each parameter and then create a master with the parameters all linked to the serial code? (The test will be done at separate stations so the tank will be scanned at each station and a new parameter added).

What is the best approach to look for the scanned part in the data block. Could I create a pointer that gets incremented comparing each serial number stored in the datablock to the scanned part at the station?

**Цель работы:** Введение и закрепление новой лексики по теме: Сохранение информации; развитие умения говорить на основе прочитанного, формирование лексических и грамматических навыков чтения и говорения;

**Ход работы:** Выполнение после текстовых упражнений. Выполнение упражнений по теме: Герундий.

#### Do some exercises:

**Exercise 1.** Поставь глагол в нужной форме — инфинитив или герундий.

**Иногда подойдет любая форма:**

**Пример:** Please remember to post (post) this letter.

John intends to buy (or buying) (buy) a house.

1. A: You lent me some money a few months ago.  
B: Did I? That's strange. I don't remember \_\_\_\_\_ (lend) you any money.
2. We tried \_\_\_\_\_ (put) the fire out but we were unsuccessful. We had to call the fire-brigade.
3. When you see Tom, remember \_\_\_\_\_ (give) him my regards, won't you?
4. What do you intend \_\_\_\_\_ (do) about this problem?
5. Someone must have taken my bag. I clearly remember \_\_\_\_\_ (leave) it by the window and now it has gone.
6. When she saw what had happened, she began \_\_\_\_\_ (laugh) loudly.
7. Sue needed some money. She tried \_\_\_\_\_ (ask) Gerry but he couldn't help her.
8. He tried \_\_\_\_\_ (reach) the shelf but he wasn't tall enough.
9. "Did you remember \_\_\_\_\_ (phone) Ann?" "Oh no, I completely forgot."
10. I asked them to quiet but they continued \_\_\_\_\_ (make) a lot of noise.

**Exercise 2.** Переведите на русский язык, обращая внимание на герундий:

1. Have you finished writing?
2. Taking a cold shower in the morning is very useful.
3. I like skiing, but my sister prefers skating.
4. She likes sitting in the sun.
5. It looks like raining.
- 6.

My watch wants repairing. 7. Thank you for coming. 8. I had no hope of getting an answer before the end of the month. 9. I had the pleasure of dancing with her the whole evening. 10. Let's go boating. 11. He talked without stopping. 12. Some people can walk all day without feeling tired. 13. Living in little stuffy rooms means breathing poisonous air. 14. Iron is found by digging in the earth. 15. There are two ways of getting sugar: one from beet and the other from sugar-cane. 16. Jane Eyre was fond of reading. 17. Miss Trotwood was in the habit of asking Mr. Dick his opinion.

**Exercise 3. Переведите на русский язык, обращая внимание на разные формы герундия:**

1. Watching football matches may be exciting enough, but of course it is more exciting playing football. 2. She stopped coming to see us, and I wondered what had happened to her. 3. Can you remember having seen the man before? 4. She was terrified of having to speak to anybody, and even more, of being spoken to. 5. He was on the point of leaving the club, as the porter stopped him. 6. After being corrected by the teacher, the students' papers were returned to them. 7. I wondered at my mother's having allowed the journey. 8. I understand perfectly your wishing to start the work at once. 9. Everybody will discuss the event, there is no preventing it. 10. At last he broke the silence by inviting everybody to walk into the dining-room. 11. On being told the news she turned pale. 12. The place is worth visiting.

**Exercise 4. Запомните следующие глаголы и выражения, требующие после себя герундия:**

to avoid, to burst out, cannot help, to deny, to enjoy, to excuse, to finish, to forgive, to give up, to go on, to keep (on), to mind, to postpone, to put off, to stop

**Exercise 5. Переведите на английский язык, употребляя герундий:**

1. Наконец они перестали смеяться. 2. Она отрицала, что украла деньги. 3. Давайте отложим поездку на дачу до следующей субботы. 4. Простите, что я потерял вашу ручку. 5. Когда она кончит писать сочинение? 6. Я не возражаю против того, чтобы остаться дома и поработать над моим переводом. 7. Перестаньте дрожать. Избегайте показывать этим людям, что вы их боитесь. 8. Я не могу не беспокоиться о них: они перестали писать. 9. Я не отрицаю, что видел их в тот вечер. 10. Он не возражал против того, чтобы его осмотрели: он перестал притворяться, что здоров. 11. Он не может меня простить за то, что я порвал его сумку. 12. Перестаньте разговаривать. 13. Мы закончили работу над этой проблемой. 14. Продолжайте петь. 15. #### **Internet – pros and cons.**

##### **Advantages.**

First of all, Internet provides access to a lot of information. Some of them are very useful in your job other helps in your hobby. Searching the net with Google, you can find everything you want. You can also do shopping using Internet. Of course it has no sense to buying a roll, but if you need something inaccessible, you will be able to buy it in Internet shop. You need only to select what you want, fill in some forms and click OK. In a few days you will get what you have ordered directly to your home, without going anywhere. You can pay with your credit card, pay postman when you get the package, or transfer money from your bank account. Nowadays almost every bigger bank offers transferring money with Internet. It is more faster then going to the bank and filling blankets. Transferring money in traditional way takes about a day, using Internet you can do this in few seconds even in Saturday and Sunday evenings. What's more Internet banks give you insurance against unauthorized transaction.

Next advantage of Internet is using e-mail and instant messages. Internet mails get in a few seconds in their destinations. It is very important when you want to send something for example to Australia. Of course you can send not only texts. You can email whatever you want, movies, photos, songs, computer programs etc. Costs are very important advantage of emails. Sending an email is much cheaper then phoning, or sending normal letters. In fact, Internet has replaced mobiles and faxes because it's cheaper and with more options. Actually, innovations are going on to make it faster, more reliable. Moreover we can explore other cultures of different countries and make friends from all over the world. So Internet turns the world into a global village.

Entertainment is another popular reason why many people prefer to surf the Internet. Downloading games, visiting chat rooms or just surfing the Web are some of the uses people have discovered. There are numerous games that may be downloaded from the Internet for free. When people surf the Web, there are numerous things that can be found. Music, hobbies, news and more can be found and shared on the Internet

As a student or a pupil, we always deal with the Internet. We search for information from Internet to complete our assignment. It is faster and save a lot of our time. Moreover, we can

exchange and share information by sending what we have found to our friends through e-mail.

### **Disadvantages.**

What are disadvantages of using Internet? There are many reasons why the Internet is so controversial.

Information is probably the biggest advantage internet is offering. You can almost find any type of data on almost any kind of subject that you are looking for. Students and children are among the top users who surf the Internet for research.

However, here there is a danger. The problem with the Internet today is the fact that anyone can access just about anything they want to from it. For example, pornography is a big issue because children are accessing adult content so easily without anyone having to know about it and that has bad effects on the behavior of the children.

The Internet has had security problems since it's earliest days . Virus is a main threat of computer's security. Computers attached to internet are more vulnerable to virus attacks and they can end up into crashing the whole hard disk. Internet security

Internet addiction. Many people and especially the young spend a lot of their time surfing the net. It become sometimes an addiction that many people neglect their studies or work to spend many hours chatting .In fact a lot of teenagers are obsessed by chat websites like facebook and they waste their time on it.

Electronic messages sent over the Internet can be easily snooped and tracked, revealing who is talking to whom and what they are talking about. If you use the Internet, your personal information such as your name, address, credit card, bank details and other information can be accessed by culprits. If you use a credit card or internet banking for online shopping, then your details can also be 'stolen'.

To summarise, Internet is an indispensable tool nowadays as it connect people, entertain them and provide them with information of the latest news but it still have its inconvenients such as addiction, security problems and pornography .

**Means and methods for the information protection in the global network Internet.**

Nowadays the simple approaches to the protection system organization are the most widespread, such as the systems for protection from the unauthorized users' access. These systems are rather reliable however they do not offer the required flexibility. They are based

on the various tools for protection assurance, for example, the tools that permit the data transfer only to those users who possess the certain addresses of network protocol IP, tools that deny the direct users access to the INTERNET resources and local networks. The shortcomings of this approach consist in narrowness of the solved problem: to prevent access of the unauthorized users to the various local networks. The similar protection is used for access prevention of the certain users of the local network (for example, corporate network of the enterprise) to the all INTERNET resources, except for electronic mail. The principle of this protection method is the following: the protection of the local information and decreasing of external channels traffic. However users and providers of the INTERNET services are more concerned in maintaining of general safety of network, in particular, the confidentiality of the information of the sender and receiver, and the absolute reliance is necessary for the providers and users that on the other end of the communication channel is the legal user.

### **Translate into English:**

1. Термин «угроза» обозначает события, которые могут иметь неблагоприятные последствия.
2. Управление информационными рисками – сложный процесс, требующий постоянного анализа рисков.
3. Вопросы безопасности должны быть неотъемлемой частью разработки компьютерных приложений.
4. Хорошо спланированная и выполненная оценка риска должна эффективно определять и измерять последствия широкого спектра угроз.
5. Количественная и качественная метрические схемы, применяемые для измерения элементов риска, были впервые разработаны Национальным бюро стандартов.

Means and methods for the information protection in the global network Internet.

The information protection in the global network internet.

The global network INTERNET takes a significant place in a life of the modern society. Nowadays the INTERNET covers many spheres of activities, in particular, such branches as information technologies, commercial operations, information interchange, bank business, education etc. The access of organization to the global network INTERNET essentially increases its functioning effectiveness and opens a set of new opportunities. On the other hand, the organization should provide the creation of information resources protecting system to prevent an access of unauthorized users, who may use, modify or destroy important information. Regardless of its specifics, the information protecting system for global networks is part of general security complex that directed on information safety assurance. The information protection is the complex of means directed on information safety assuring. In practice it should include maintenance of integrity, availability, confidentiality of the information and resources used for data input, saving, processing and transfer. The complex character of this problem emphasizes that for its solution the combination of legislative, organizational and software-hardware measures should be realized.

The main threats to the information safety in the INTERNET.

The unauthorized access (UAA) in the INTERNET can be performed, in particular, using the following actions:

- penetration into network with the purpose of reading the confidential information;
- penetration into network with the purpose of updating or destroying the existing information;
- embedding of the programs - viruses, which will disorganize the network functions or perform the all the above mentioned actions;
- destroying of the INTERNET-servers functioning or local computers connected to the INTERNET.

All these actions can be realized separately or in any combination.

Let's list some examples of the unauthorized intrusions in the INTERNET: smart attacks of the INTERNET-viruses, the Trojan programs that assemble the secured information from WEB-pages, destroy the servers functioning etc.

The protection from unauthorized access in the INTERNET.

Every information protecting mean is directed to the certain type of safety threats, and realizes the protection against specific types of the unauthorized access. There are program and hardware protecting tools.

The software protecting tools are program complexes intended to reveal and to prevent the possible UAA threats. The examples of software protection tools are: firewalls, cryptographic program means, authenticating means, means for the vulnerable network components definition and protection.

The hardware tools are the set of hardware means intended to the data enciphering and to the protection from viruses. The examples of hardware tools are: cryptographic electronic boards and hardware complexes-anti-viruses.

### **Answer the questions.**

What types of information threats in Internet do you know?

What are the most widespread means for information protection?

What are the demerits of using Internet?

Do some exercises:

### **Exercise 1. Translate into Russian:**

1. Part 2 of the CC, security functional requirements, establishes a set of functional components as a standard way of expressing the functional requirements for TOEs.
2. Unauthorised access to the database can be carried out in a form of passive attacks (e.g. monitoring of network).
3. As time went on more and more cultures were finding situations where cryptography was a necessary part of the transaction.
4. This protection profile specifies security requirements for database management systems and organizations where there are requirements for protection of the confidentiality, integrity and availability of information stored in the database.

### **Exercise 2. Give definitions of the following terms:**

Availability, hill climbing algorithm, plaintext, optional authentication of the client, reduce risk, semagram, ciphertext-only solution.

##### **Intranet Security.**

Intranets: An Emerging Business Resource. Intranets are revolutionizing the way organizations function. Internal Web servers have moved from being a repository for simple shared content to encompassing applications that interact with legacy systems. Unfortunately, these advantages also bring critical risks if the intranet is not properly secured. CTR's new report, Intranet Security, is designed to help information systems (IS) managers and other information security personnel work together to build secure corporate intranets. The report discusses the misconception that intranets are intrinsically more secure than Internet applications and explains why businesses must evaluate their risk level before implementing a security policy. Specific security tools and the future of intranets are also examined in detail.

Intranet Security: Internal and External Risks. CTR's Intranet Security report evaluates the internal and external risks related to intranets, including: data theft, viruses, Web server vandalism, client security, and reusable passwords. Reusable passwords act as the doorway for intruders in 72% of attacks. The report addresses the need for strong authentication methods, such as one-time passwords (OTP) and digital certificates. The report also explores the risks associated with providing remote intranet access. Virtual private networks (VPN's)

provide a means to securely connect remote offices to the intranet. The technology behind VPN's is examined, as well as the cost of providing access using VPN's versus leased lines. Because intranets are typically open to the entire company, the majority of security breaches are committed internally. The report discusses this issue and offers valuable information on how to protect your organization against internal security breaches.

**Intranet Security Solutions.** Intranet Security offers an in-depth discussion of available intranet security products and technologies. Perhaps the most well-known measure for securing intranets is the use of firewalls. The report compares the different types of firewall products, describes the capabilities and limitations of firewalls, and offers a set of guidelines for successfully operating firewalls. Another key technology for securing intranets is encryption. The report assesses the need for encryption and offers an overview of important encryption concepts and technologies such as public key encryption, digital signatures, and the Secure Sockets Layer (SSL).

**Developing an Intranet Security Policy.** Developing an intranet security policy is the most important measure that organizations can take to improve their security. While existing security policies may address computing and network issues, intranet policies must cover such areas as intranet publishing guidelines and employee use of the Internet. CTR's new report provides specific steps for putting together an effective intranet security policy, including conducting a corporate audit, monitoring computer and Internet use, and educating intranet users. Information on how to respond to security incidents and advice on hiring security staff is also included.

**Future Trends in Intranet Security.** Intranet Security includes a discussion of trends in the intranet security market, including all-in-one solutions, increased use of security outsourcing, and predictions that intranet security breaches will increase in the short-term as many organizations are reactive rather than proactive in implementing intranet security. One important, and very popular, trend in corporate intranets involves making intranets available to third parties. Extended intranets, called extranets, allow customers and business partners' access to the intranet. This connection enables the use of technologies such as E-commerce. Intranets offer strategic advantages to businesses by creating a centralized knowledge base, enabling collaboration, and providing a standard interface to information across all hardware platforms. As intranets grow into trusted resources, relied on by employees and customers alike, the need to protect them becomes paramount. This new report from CTR includes the tools and information necessary to help ensure the protection and success of your corporate intranet.

### **III. Answer the questions.**

1. What is the role of Intranets as business resource?

2. What is the risk of Intranet Security?

3. What are the ways and perspectives of developing an Intranet Security Policy?

What do these terms and words combinations mean?

Repository, misconception, implement a security policy, reusable password, one-time password, remote intranet access, security breach, security outsourcing, internal risk, external risk, data theft, digital certificate, digital signature, Secure Sockets Layer, intranet publishing guideline, reactive, proactive, variable-size input, fixed-size string, collision-free.

**Exercise 1.** Give English equivalents of the following words and word combinations:

Взаимодействовать, защищать надлежащим образом, подробно рассматриваться, карта информации, обеспечивать, ряд инструкций, реагировать на что-либо, прогноз, доступный.

**Exercise 2.** Give Russian equivalents of the following words and word combinations:

Variable-size input, hash value, additional property, collision-free, infeasible, concisely, digital time stamping.

#### **Exercise 3. Translate into Russian:**

VPN can be a cost effective and secure way for corporations to provide users access to the corporate network and for remote networks to communicate with each other across the Internet. VPN connections are more cost-effective than dedicated private lines. Usually a VPN involves 2 parts: the protected or "inside" network, which provides physical and administrative security to protect the transmission; and a less trustworthy, "outside" network or segment (usually through the Internet). Generally, a firewall sits between a remote user's workstation or client and the host network or server. As the user's client establishes the communication with the firewall, the client may pass authentication data to an authentication service inside the perimeter. A known trusted person, sometimes only when using trusted

devices, can be provided with appropriate security privileges to access resources not available to general users.

##### **Computer Slang.**

Internet acronyms, text message jargon, abbreviations, initialisms, cyberslang, leetspeak, SMS code, textese

With hundreds of millions of people texting regularly, it's no wonder you've seen this cryptic looking code! Commonly used wherever people get online -- including IMing, SMSing, cell phones, Blackberries, PDA's, Web sites, games, newsgroup postings, in chat rooms, on blogs, or on social media -- these abbreviations are used by people around the world to

communicate with each other. NetLingo is also tracking a global list of worldwide text terms and international online jargon!

Acronyms have always been an integral part of computer culture, and they have since spawned a new language on the Internet. Commonly thought of as a series of letters that make up a 'word' there is a distinction between acronyms and shorthand. The actual definition of an acronym and text shorthand is here.

Internet slang words develop from common phrases that users simplify to be able to type faster (Shorthand). However, in games, new game players may try to emulate this, and unintentionally emphasize their own lack of knowledge through misuse of the terms and poor spelling. As a result, several internet slang abbreviations and spellings are most often used ironically. Players may use intentionally poor grammar and an excessive amount of leet (also written as 1337) speak to ridicule or satirize new players. An example would be "pwned" (owned) or "il ttyl, but that was funny 2 where i had 2 lmfao". "ttyl" stands for "talk to you later".[...]

A postscript, abbreviated P.S., is writing added after the main body of a letter (or other body of writing). The term comes from the Latin post scriptum, an expression meaning "after writing"[1][2] (which may be interpreted in the sense of "that which comes after the writing").

A postscript may be a sentence, a paragraph, or occasionally many paragraphs added, often hastily and incidentally, after the signature of a letter or (sometimes) the main body of an essay or book. In a book or essay, a more carefully-composed addition (e.g., for a second edition) is called an afterword. An afterword, not usually called a postscript, is written in response to critical remarks on the first edition. The word "postscript" has, poetically, been used to refer to any sort of addendum to some main work, even if not attached to a main work, as in Søren Kierkegaard's book titled Concluding Unscientific Postscript.

Security inside the corporate network.

Corporate security is an important issue for every company, no matter how large or small. However, the nature and focus of corporate security have changed dramatically in the last 10 years. Most current businesses use digital technologies, computers, e-commerce solutions, wireless devices and other recent innovations to run more efficiently. The focus of corporate security is changing to include these new ways of doing business, and so has the budgets of security departments and agencies. In fact, billions of dollars are spent each year on electronic corporate security solutions intended to fight off hacker attacks.

Privacy issues with social networking sites can be seen from many points of view. Some people will argue that it[clarification needed] is only part of the process of globalization and the growth of knowledge, while others will continue to believe that it[clarification needed] is the right of any citizen, and will never change your views and viewpoint about their privacy. With the growing popularity of social networks, many users gave up his personal life in order to join these networks.

Privacy, social media issues to start with social networking sites; they have historically been persistent issues with many other types of social media, such as text messaging, instant messaging and computer-supported cooperative work.[citation needed]

Oscar Gandy in 1993 argued that in the era of digital media, I have no personal life.

He stated that “identifying sort is an antidemocratic system of control that cannot be transformed because it can serve no purpose other than that for which it was designed — the rationalization and control of human existence.” Gandhi demanded the establishment of an authority that can ensure the survival of privacy.

From a policy perspective, according to Schement and Curtis (1994),[34] privacy is seen “as a protection from intrusion by the government”. According to Garfinkel (2000) “privacy is not only about how to hide things. It's about self-confidence, autonomy and integrity.”

An approach to analysis of humor is classification of **jokes**. A further step is an attempt to generate jokes basing on the rules that underlie classification.

Simple prototypes for computer pun generation were reported in the early 1990s, based on a natural language generator program, VINCI. Some examples produced by JAPE are:

Q: What is the difference between leaves and a car?

A: One you brush and rake, the other you rush and brake.

Q: What do you call a strange market?

A: A bizarre bazaar.
