**WORKING PROGRAM OF THE DISCIPLINE (MODULE)**

Туристское ресурсоведение / Tourism Resource Studies

(ELECTRONIC DOCUMENT)

Direction of training / specialty: 43.03.02 Tourism / International tourism

Graduate qualification: bachelor

Mode of study: full-time

Curriculum: **2021**

Studied in 4 term

### 1. The purpose and objectives of the discipline

The program of the discipline «Туристское ресурсоведение / Tourism Resource Studies» is intended for undergraduate courses 43.03.02 «Tourism».

**The purpose** of discipline «Туристское ресурсоведение / Tourism Resource Studies» is:

- formation of the ability to find, analyze and process scientific and technical information in the field of tourism activities;
- formation of the ability to apply applied research methods in tourism.

**The objectives of the discipline** «Туристское ресурсоведение / Tourism Resource Studies» are:

- study of the theoretical foundations of tourist resource studies;
- study of natural, cultural, historical, socio-economic and information resources of tourism;
- study of the main tourist resources of the world.

### 2. The place of discipline in the structure of the educational program

The discipline belongs to the compulsory part of the disciplines. Its development takes place in the 4<sup>st</sup> term.

### 3. Relationship with previous disciplines

The content of the discipline «Туристское ресурсоведение / Tourism Resource Studies» is based on such disciplines as: «Geography of tourism», Exploratory (geographical) practice.

### 4. Relationship with subsequent disciplines

The discipline «Туристское ресурсоведение / Tourism Resource Studies» is a basic platform for further study of disciplines: «Ethnic geography and tourism», «Tourism regional studies », «Sustainable development of tourism», «Organization of outbound tourism».

### 5. List of planned learning outcomes for the discipline (module), correlated with the planned results of mastering the educational program

#### 5.1. Name of competences

| Code                                 | The wording:                                                                                                         |
|--------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| <b><u>Universal competencies</u></b> |                                                                                                                      |
| UC-1                                 | able to search, critically analyze and synthesize information, apply a systematic approach to solving assigned tasks |

#### 5.2. Knowledge, skills, and (or) experience of activities that characterize the stages of forming competences

| Planned learning outcomes for discipline (module), characterizing stages of forming competencies                                                                                                                             | Formed competences                                                                                                          | Code and name of the indicator of achievement of universal competence                                                                                                                                                       |

### Description of the rating scale

Within the framework of the rating system, students' progress in each discipline is assessed in the course of ongoing monitoring and intermediate certification.

#### Current control

| №                       | Type of activity of students | Terms of implementation | Amount of points |
|-------------------------|------------------------------|-------------------------|------------------|
| <b>4 term</b>           |                              |                         |                  |
| 1.                      | Interview on themes 1-3      | 5 week                  | 15               |
| 2.                      | Interview on themes 4-6      | 10 week                 | 20               |
| 3.                      | Interview on themes 7-9      | 15 week                 | 20               |
| <b>Total for 4 term</b> |                              |                         | <b>55</b>        |
| <b>Total</b>            |                              |                         | <b>55</b>        |

The maximum possible score for the entire current control is set equal to 55. The current control measure is considered «pass» if a student got not less than 60% of the established maximum score. Rating score applied to the student for the current control measure, passed by a student on control activities schedule, is defined as follows:

| Level of control task completion | Rating score |
|----------------------------------|--------------|
|----------------------------------|--------------|

|                |     |
|----------------|-----|
| Excellent      | 100 |
| Good           | 80  |
| Satisfactory   | 60  |
| Unsatisfactory | 0   |

### Interim assessment

The interim assessment in the form of exam provides compulsory examination procedure, and evaluated 40 scores out of 100. If the student's rating score for discipline at the end of the semester is 60, then the program automatically adds 32 bonus points and puts the mark "excellent". The affirmative exam answer of the student is assessed by the rating scores range from 20 to 40 ( $20 \leq \text{Exam} \leq 40$ ), less than 20 scores is «unsatisfactory».

### Rating Exam Rating Scale 5-point system

| Rating score for the discipline | Five-point rating |
|---------------------------------|-------------------|
| 35 – 40                         | Excellent         |
| 28 – 34                         | Good              |
| 20 – 27                         | Satisfactory      |

The final grade for the discipline studied in one semester is determined by the sum of the points scored for work during the semester, and the points obtained when passing the exam:

### Discipline Rating Scale 5-point rating

| Rating score for the discipline | Five-point rating |
|---------------------------------|-------------------|
| 88 – 100                        | Excellent         |
| 72 – 87                         | Good              |
| 53 – 71                         | Satisfactory      |
| <53                             | Unsatisfactory    |

## 8.3 Typical control tasks or other materials necessary for assessing the knowledge, skills, and (or) experience of activities that characterize the stages of forming competencies

### Questions to exam (4 term)

### Questions for checking the level of training

#### Basic level

#### To know:

1. Tourist and recreational resources.
2. Classification of tourist and recreational resources.
3. Approaches and methods for assessing the tourist and recreational potential of the territory.
4. Tourist and recreational nature management.
5. Cadastre of tourist and recreational resources of the territory.
6. Climatic resources.
7. Relief as a recreational resource.
8. Surface water resources.
9. Resources of mineral waters.
10. Resources of therapeutic mud.
11. Plant resources.
12. Resources of the animal world.
13. The structure of cultural and historical resources.

|                                   |                                                                                             |
|-----------------------------------|---------------------------------------------------------------------------------------------|
|                                   | 14. Material cultural and historical resources.                                             |
|                                   | 15. Spiritual cultural and historical resources.                                            |
|                                   | 16. Assessment of cultural and historical complexes.                                        |
|                                   | 17. Criteria for assessing cultural and educational resources for tourism purposes.         |
|                                   | 18. Objects of the World Cultural Heritage.                                                 |
| <b>To be able,<br/>to master:</b> | 19. Definition and classification of socio-economic resources of tourism.                   |
|                                   | 20. Infrastructure of tourism as the basis of socio-economic resources.                     |
|                                   | 21. Transport infrastructure in tourism.                                                    |
|                                   | 22. Infrastructure of water transport.                                                      |
|                                   | 23. The essence of information tourism resources.                                           |

#### **8.4 Methodological materials defining procedures for assessing knowledge, skills, and (or) experience of activities that characterize the stages of forming competences**

The procedure for conducting the **examination** is carried out in accordance with the Regulation on the conduct of the current monitoring of academic performance and intermediate certification of students on educational programs of higher education - bachelor's programs,

specialty programs, master's programs - in NCFU.

The exam ticket includes: 3 questions.

For preparation for the ticket is given: 30 minutes.

Current monitoring of students is carried out by teachers conducting practical classes in discipline, in the following forms: an interview.

Admission to **practical** classes takes place when there is a summary of the relevant lecture and a summary of independently studied literature on the topic. To the practical lesson, the student must prepare answers to questions, perform tasks on the topic of the lesson.

The student receives the maximum number of points if he actively participates in the work, owns the material, knows how to logically and clearly express thoughts, creatively approaches the solution of the main issues of the topic, shows the independence of thinking.

The reason for the decrease in the evaluation are:

- poor knowledge of the topic and basic terminology;
- inactivity of participation in group work;
- lack of the ability to apply theoretical knowledge to solve practical problems;
- untimely submission of work performed.

Criteria for evaluating the results of independent work are given in the Fund of assessment tools for discipline « Туристское ресурсоведение / Tourism Resource Studies ».

### **9. Methodical instructions for students to learn the discipline**

At the first stage it is necessary to study the working program of discipline in which the maintenance of the topics of a practical training, subjects and types of independent work are considered. By each type of independent work certain forms of the reporting are provided

For successful development of discipline, it is necessary to execute the following types of independent work, using the recommended information sources:

| №  | Types of independent work                         | The recommended information (sources) |            |            |                    |
|----|---------------------------------------------------|---------------------------------------|------------|------------|--------------------|
|    |                                                   | Basic                                 | Additional | Methodical | Internet Resources |
| 1. | Study of literature on themes № 1-9               | 1-3                                   | 1-2        | 1-2        | 1-3                |
| 2. | Preparation for practical classes on themes № 1-9 | 1-3                                   | 1-2        | 1-2        | 1-3                |

### **10. Educational, methodological and information support of the discipline**

#### **10.1. List of basic and additional literature necessary for mastering the discipline**

##### **10.1.1. List of main literature:**

1. Istomina, E. G. Domestic tourism and tourist resources of Russia: textbook / E. G. Istomina, M. G. Grishunkina; Grew up. state humanitarians, un-t. - 2nd ed., Rev. and add. - Moscow: Ros. state humanitarians, un-t, 2019.- 288 p.

2. Pogodin, V.L. Geography of tourism: textbook / V.L. Pogodin, I. G. Filippov; ed. E.I. Bogdanov. - Moscow: INFRA-M, 2021.- 256 p.

3. Tourism resource studies: Textbook for students. higher. study. institutions / Alexey Sergeevich Kuskov. - M.: Publishing Center "Academy", 2018. - 280 p.

##### **10.1.2 List of additional literature:**

1. Lysakova, L.A. Tourismus. Tourism: a tutorial / L. A. Lysakova, E. M. Karpova, E. N. Lesnaya. - 3rd ed., Erased. - Moscow: FLINT, 2020.- 145 p.

2. Isachenko, T.E. Tourism recreational resource studies: a textbook for secondary vocational education / T.E. Isachenko, A.V. Kosarev. - Moscow: Yurayt Publishing House, 2020.-- 268 p.

#### **10.2. List of educational and methodological support for independent work of students in discipline**

1. Methodical recommendations for the implementation of practical work in the discipline «Туристское ресурсоведение / Tourism Resource Studies» in the direction of training 43.03.02 Tourism

2. Methodical recommendations for students on the organization and conduct of independent work in the discipline «Туристское ресурсоведение / Tourism Resource Studies» for students in the direction of training 43.03.02 Tourism.

**10.3. The list of resources of the information and telecommunication network «Internet», necessary for mastering the discipline:**

1. <https://e.lanbook.com/> - Electronic library system Lan;
2. <http://biblioclub.ru/> - Electronic library system «University library on-line»;
3. <http://www.iprbookshop.ru/> - Electronic library system IPRbooks

**11. List of information technologies used in the implementation of the educational process for discipline, including a list of software and information reference systems:**

*Information Technologies:* not provided.

*Information Help Systems:* not provided.

***List of software and information reference systems:***

1. Basic software package Microsoft Office 2010. Paid license. Contract No. 01-ea / 13 dated February 25, 2013. End of support (updates) - 2020-10.

2. Operating system: Microsoft Windows Professional 7. Paid license. Contract No. 01-ea / 13 dated February 25, 2013. End of support (update) - 2023-01.

**12. Description of the material and technical base necessary for the implementation of the educational process in discipline:**

1) Classroom for lecture-type lessons - building 3, room No. 313, an auditorium equipped with specialized furniture and technical teaching aids, serving to present educational information to a large audience: a portable laptop, a portable projector, a flipchart. Teaching aids in the form of thematic presentations corresponding to the work programs of the disciplines.

2) An auditorium for conducting seminar-type classes (practical work), an auditorium for group and individual consultations, an auditorium for monitoring and intermediate certification - building 3, room. No. 313, an auditorium equipped with specialized furniture and technical teaching aids, serving to present educational information to a large audience: a portable laptop, a portable projector, a flipchart. Teaching aids in the form of thematic presentations corresponding to the work programs of the disciplines.
