#### You are a Student Now

College life is a thing which you can hardly forget. This is the time when you become an adult, a more sensible person with the sober views on life.

First of all, to pass entrance exams and enter the university is a real challenge for a young person. It takes a lot of time, knowledge, patience and nerves. Besides, there is an avalanche of work expects you. A student ought to get accustomed to a new timetable, new subjects which are much more complicated than at school. Very often it is difficult to cope with the work load of college or university. You have to be a serious, attentive and responsible person concentrated on studying. Some new students soon understand that studying at university is hard work which takes a lot of time and strength, so they immediately start missing classes. This is not so good for them, because it is so difficult to catch up with the programme later. Besides, such students usually have a great number of debts before the beginning of examination session.

Another point is the relationships within a group and between students and teachers. It is not a secret that relationships play an important role in student's life. You spend a lot of time at the university communicating with your group mates and trying to make a contact with other students. It is wonderful if you find a like-minded person who can become a real friend for all 5 or 6 years of studying or you just meet interesting people who are easy in communication. Sometimes an opposite thing may happen. When you see your group mates for the first time, it may seem to you that they have nothing in common with you. Then the atmosphere within the group is just unbearable. Things get worse and it becomes difficult to find even a topic for conversation. Different things happen during your college life. Anyway, it is extremely important to have good relationships with your group mates and teachers and to show the best qualities and features of character.

In conclusion, it should be mentioned that students come across a lot of events during their studying in college or university. Some of them may disappoint you, some bring a lot of joy and even make you feel happy. That is why a lot of people say that their college or university years were the greatest and the happiest time in their life. They also say, that if they could go back in time, they would have taken a music band and joined choir, learned harder another language besides the English language, and improve the relationships between teachers who they have no special liking. They got in love for the first time in university, they went to party, got lots of joy and positive emotions, got in different competitions, and etc., but anyway, they think that the college life is the happiest time in their life.

I am a student too, and I think that my university life I can hardly forget. For me, it is time when I become an adult, a more sensible person with the sober views on life. Also I think that never forget to study and you can be a student for all the time.

#### NB:

В английском языке прилагательные не склоняются, то есть не изменяются по падежам, лицам и числам. Понять, в каком числе или лице стоит прилагательное, можно по форме глагола и существительного, с которыми прилагательное связанно в предложении:

Cp.:

**She is well.** – Она здорова.

We are well. – Мы здоровы

Английские прилагательные часто переводятся на русский язык наречиями – частями речи, используемыми, как правило, в функции обстоятельства:

Так, приложение **It is nice** (буквально: *Он есть хороший*, *это есть хорошее*) переводится *Это хорошо*, *мило* (наречие). При построении английских приложений необходимо учитывать эту особенность нашего родного языка и не использовать наречия вместо прилагательных (кроме особо оговариваемых случаев).

Способ 1. Односложные прилагательные и наречия образуют степени сравнения с помощью суффиксов -er и -est : long – longer - the longest

Little (мало) – less – the least

Much, many (много) – more – the most

#### 4. Модальные глаголы и их заменители

Особое место среди управляющих глаголов занимают так называемые модальные глаголы, глаголы «отношения». Главные из них:

Can [kæn] мочь, иметь физическую (умственную) способность делать что-либо;

**Must** [m $\Lambda$ st] должен (быть обязанным что-либо делать);

Мау [mei] мочь в результате полученного разрешения.

#### NB:

После этих модальных глаголов инфинитив используется без частицы to:

I can speak English. – Я могу (умею) говорить по-английски.

**I must go.** − Я должен идти. **You may come.** − Ты можешь идти.

Модальные глаголы не имеют форм во всех временах, они употребляются только в Present Indefinite (can, may, must) и в Past Indefinite(could, might). Для выражения других временных форм используются заменители.

#### I. Read and translate the text: Hobbies

A hobby is something you like doing in your free time, such as reading, listening to music, making something, growing, collecting different things, etc. Different people like doing different things, so we can say that people have different hobbies. "Tastes differ," the proverb.

My friends are fond of collecting different things: dolls, postcards, coins and stamps. My friend Ann started collecting dolls when her aunt gave her a china doll. It's the oldest one she has in her collection. It was made in France a hundred years ago. Her other dolls are modern. She has twenty-one in her collection. They are different: re made of plastic, wood and cloth. The smallest one is 1 cm tall. The most beautiful are from Germany and Britain, and they are d in regional costumes. She also has a lovely wooden one from Russia. My friend is proud of her collection. She likes to show all her dolls to her friends and to tell interesting things about them.

My other friend has hundreds of postcards and they are all fascinating. At first he started collecting all sorts, from all over the world. That was too complicated, so now he collects local ones. They describe the history of our city during the last hundred years.

One of my classmates collects coins because he likes the history they record. He has a special catalogue where he writes everything he knows about his coins. It's a very interesting hobby.

My brother is fond of collecting stamps. And I think they're the best things to collect. Collectors usually have a theme: stamps from one country, stamps about space, animals, ships, etc. My brother's theme is famous people. He has a special notebook where he writes down everything he knows about famous people from his collection. Of course, collecting can cost you a lot of money if you buy an old thing. But my friends swap with one another. As for me, I am fond of collecting books. So my hobby is reading. My theme is historical books. And History is my favourite subject at school. I have two hundred books in my collection. It's a family hobby and all in all there are two thousand books in our family collection. I'm very proud of my collection and my family.

#### II. Grammar forms:

# **Present Simple.**

We use the Present Simple to talk about repeated actions or events, permanent states or things which are always true. We use the present simple to talk about things which are repeated every day, every week, every year.

**Examples:** I usually get up at seven o'clock. During the week I have swimming practice on Mondays, I do taekwondo on Tuesdays and tennis on Thursdays. We always go on holiday in the summer.

We often use adverbs of frequency **sometimes**, **often**, **usually** or other time expressions like **on Mondays**, **twice a week** or **in the summer**.

Permanent states are situations or feelings which are temporary.

**Examples:** I <u>like</u> him a lot. Sophie <u>works</u> as a travel writer. They <u>live</u> in London.

We also use the present simple for general facts, for example when talking about science or geography.

**Examples:** Thailand <u>is</u> really hot at this time of year. Snakes <u>live</u> on the ground, in trees and in water.

The main thing is that the third person singular forms end in -s, -es. That is for he, she, it.

**Examples:** He watches black and white films at his cinema club on Wednesdays. He thinks chess is a sport.

The other forms don't end in -s, -es.

**Examples:** I watch TV a lot. We think Coldplay are boring.

What about questions and negatives?

For most verbs we use the present simple of the verb do / does + subject + infinitive without to to form questions.

Examples: Do you see him on Wednesdays then? Does Jack like sports?

For negatives we use the subject + do / does + not + infinitive without to.

**Examples:** Daisy and Jack don't go out together much at the weekend. I don't think Coldplay are boring.

To go back to the idea of permanent and temporary things, what about this sentence: Is your mum in Thailand this week? Isn't that temporary?

That is a very good point. Normally we use the present simple for permanent states, and the present continuous for temporary states, but some verbs are thought of as State Verbs and they are not usually used in the continuous form.

And the verb **to be** is one of those verbs? So even though staying in Thailand is temporary, we use the present simple with the verb **to be**.

**Example:** How is Daisy? Is she with you?

But that isn't the question form you just told me about. Where is the verb **do?** We use **do** in questions'.

The verb **to be** is different and so are modal verbs like **can**. We shall look at the verb to be separately because it is different and very common.

What are the other state verbs?

We shall look at those when we look at the Present Continuous. Any more questions?

**Example:** The train leaves at five in the morning. Isn't that talking about an event in the future? But it is also a repeated event. This is sometimes called the "timetable future".

**Example:** I have a maths in a minute, so I have to go.

#### **Exercises:**

## Write sentences. Use the present simple or the present continuous.

- 1. It/not rain/every day.
- 2. She/speak English/at the moment.
- 3. She/study English/ twice a week.
- 4. I/not watch TV/ at the moment.
- 5. He/hardly ever/ listen to the radio.

Complete the questions. Use the present simple or the present continuous.

- 1. ...(your mum/work) today?
- 2. How often ... (yon/play) football?
- 3. ...(your classmates/write) now?
- 4. When ... (yon/usually do) your homework?
- 5. ...(your teacher/talk) at the moment?
- 6. ...(you/always speak) English in class?

One of my favourite singers is Mika. I listen (often / often listen) to his songs when I ('re / 'm) feeling stressed. Mika (was / were) born in Lebanon in 1983, but now he (live / lives) in London. When Mika was young, (was / there was) a war in Lebanon and his family moved to England. Mika (wasn't / weren't) happy at school because he was very shy. Later, he (was/there was) a student at the Royal College of Music. Before he was a pop star, Mika was an opera singer! Not he (makes/'s making) a new CD.

#### **Present Continuous**

#### **FORM**

Present Continuous = [am/is/are + present participle]

Examples: You **are watching** TV.

Are you watching TV? You are not watching TV.

Complete List of Present Continuous Forms

**USE 1 Now** 

Use the Present Continuous with <u>Normal Verbs</u> to express the idea that something is happening now, at this very moment. It can also be used to show that something is not happening now.

Examples: You are learning English now.

You are not swimming now.

Are you sleeping?

I am sitting.

I am not standing.

Is he sitting or standing?

They are reading their books.

They are not watching television.

What are you doing?

Why aren't you doing your homework?

### **USE 2 Longer Actions in Progress Now**

In English, "now" can mean: **this second, today, this month, this year, this century, and so on**. Sometimes, we use the Present Continuous to say that we are in the process of doing a longer action which is in progress; however, we might not be doing it at this exact second.

Examples: (All of these sentences can be said while eating dinner in a restaurant.)

- I am studying to become a doctor.
- I am not studying to become a dentist.
- I am reading the book *Tom Sawyer*.
- I am not reading any books right now.
- Are you working on any special projects at work?
- **Aren't** you **teaching** at the university now?

**USE 3 Near Future** 

Sometimes, speakers use the Present Continuous to indicate that something will or will not happen in the near future.

#### Examples:

- I am meeting some friends after work.
- I am not going to the party tonight.
- Is he visiting his parents next weekend?
- **Isn't** he **coming** with us tonight?

**USE 4 Repetition and Irritation with "Always"** 

The Present Continuous with words such as "always" or "constantly" expresses the idea that something irritating or shocking often happens. Notice that the meaning is like <u>Simple Present</u>, but with negative emotion. Remember to put the words "always" or "constantly" between "be" and "verb+ing."

#### Examples:

- She is always coming to class late.
- He is constantly talking. I wish he would shut up.
- I don't like them because they are always complaining.

#### **REMEMBER Non-Continuous Verbs/ Mixed Verbs**

It is important to remember that <u>Non-Continuous Verbs</u> cannot be used in any continuous tenses. Also, certain non-continuous meanings for <u>Mixed Verbs</u> cannot be used in continuous tenses. Instead of using Present Continuous with these verbs, you must use <u>Simple Present</u>. Examples:

- She is loving this chocolate ice cream. *Not Correct*
- She loves this chocolate ice cream. Correct

#### **Exercises:**

Write the words to fill the gaps. Put the verb in the present continuous tense:

- 1. I'm really busy I  $\_$  (study) for the exam.
- 2. Right now we \_\_\_\_\_ (ride) camels!
- 3. They said they \_\_\_\_\_ (have) a great time.
- 4. Daisy \_\_\_\_\_ (download) an album.
- 5. What \_\_\_\_\_ (you do) at the moment?
- 6. They (wait) for me in the café.

Специальный вопрос используется, чтобы узнать какие-либо детали, подробности чеголибо. Специальные вопросы начинаются с вопросительного слова или группы слов, которые указывают, к какому члену предложения относится вопрос.

Например:

Разделительные вопросы в английском языке

Разделительные вопросы известны также как вопросы с "хвостиком", или хвостатые вопросы. Данные вопросы - в основной части утвердительные (или отрицательные) предложения, к которым присоединяется "хвостик", состоящий из вспомогательного глагола, отрицания (если его не было в основной части) и подлежащего, выраженного, как правило, местоимением. Интонация зависит от того, какой ответ ожидается, и насколько говорящий уверен в истинности своего высказывания. Вопросы с "хвостиком" употребляются в том случае, когда говорящий ожидает от собеседника подтверждения высказанной мысли. В русском языке вопросам с "хвостиками" соответствуют вопросительные обороты "не правда ли?", "не так ли?" или усилительная частица "ведь" в составе вопросительного предложения.

Например:

They have just arrived, **haven't they**?

Они только что прибыли, не так ли?

He wasn't serious, was he?

Он ведь не серьезно?

Our team will win this match, won't it?

Наша команда выиграет этот матч, не правда ли?

# Tema1.3. Условия проживания в городской и сельской местности

Занятие №8

# Особенности проживания в городе. Инфраструктура. Мой дом/квартира. оборот there is/are;

неопределенные местоимения some/any/one и их производные;

## 1.Жизнь в деревне (Life In The Countryside)

I have always wanted to spend more time in the countryside. My family and I live in the suburbs of a big city. My grandparents live in the village not far from us. We often visit them and in summertime I can stay there for a month or two. I enjoy being in the countryside more than in the city. My grandparents own a small country house at the edge of the forest. There is a spacious garden and a chicken coop behind the house. Life in the city is boring for me. It consists of school and several friends. Whereas in the country I can swim in the local lake, pick berries and mushrooms, help my grandparents with the garden, go for a walk in the woods, read a book under the shed, go camping with friends and do many other interesting activities. I think that life in the village is fantastic! I really enjoy spending my weekends and holidays there. If I grow up I'd like to have a house in the countryside instead of a city flat. I prefer old-fashioned, wooden houses with traditional Russian ornaments in it. I'd like to plant many fruit trees and colourful flowers around my house. If there is a river or a pond nearby, it would be perfect. I like swimming and sunbathing in summer. To make my life complete there, I need some pets. Most of all I like cats and dogs but I can also keep a dozen of chickens in the village. They will supply me with fresh eggs every day. The best thing about living in the countryside is the fresh air and relaxing atmosphere

# Жизнь в городе (Living in The City)

Living in the city has both advantages and disadvantages. From one hand, it is always easier to find a good job or to visit interesting places and exhibitions. There is also a good choice of public transport. From the other hand, the noise and pollution level in big cities is really high. As for me, I quickly become tired of it. I live in Krasnodar with my family. It's the biggest city in Krasnodar region and its capital. It is also the cultural, political and social centre of the region. I should say that the city is really beautiful and many people from smaller towns and villages come to work and study here. What they like about the city is that there are lots of interesting things to do and places to see. They also like job and study opportunities. There are lots of good universities and large companies in Krasnodar. There are also many ways to spend the weekends, for example, visiting a museum, going to the cinema or theatre, shopping, eating in good restaurants, going to concerts, etc. If people want to relax they go to parks for a walk or to read a book. In general, the city offers various opportunities and you never get bored. However, there are some disadvantages as well. Sometimes it's difficult to find a cheap apartment, so living in a city becomes very expensive. The roads are full of cars which pollute the air and the traffic is really heavy on weekdays. Public transport is also over-crowded. That's why many people leave the city at weekends. They try to relax in the countryside, where the air is much fresher and there isn't any noise from cars. We also go away each Saturday and Sunday to visit my grandparents.

### Вопросы:

- 1. What is the difference of living in countryside and city?

- 3. What is the best thing about living in the countryside?
- 4. Does life in the city expensive?
- 5. What do you choose?

### There is / There are

Зная различные предлоги, мы способны сказать на английском, где расположены объекты по отношению друг к другу:

The table is in the room – Стол находится в комнате The book is on the table – Книга лежит на столе The dog is under the chair – Собака под стулом

Во всех этих предложениях мы говорим о местонахождении конкретных, уже известных нам предметов. Поэтому обязательно ставим определённый артикль перед словами: the table, the book, the dog.

Так мы говорим только тогда, когда предмет уже нам известен, и мы уточняем, где он находится. Однако если мы будем говорить о местонахождении какого-то неопределённого, неизвестного нам объекта, например:

В комнате есть стол (какой-то стол, первый раз его видим) На столе лежит (какая-то) книга

– в этом случае так сказать мы уже не можем. Здесь мы должны использовать другой порядок слов и специальную конструкцию, с которой мы сейчас познакомимся.

Important: В английском языке важно различать, о каком предмете мы говорим – определенном или неопределённом.

Если речь идёт о расположении в каком-то месте неопределённого предмета, то нужно использовать конструкцию  $There\ is-$  есть, имеется.

Предложения с there is будут выглядеть следующим образом:

<u>There is</u> a table in the room – B комнате имеется (какой-то) стол; There is a dog under the chair –  $\Pi$ од стулом сидит какая-то собака;

Обрати внимание на порядок слов и на артикли перед существительными. Предметы, о местоположении которых мы говорим (<u>a</u> table, <u>a</u>dog) будут обязательно идти с неопределённым артиклем а.

Не говори: There is the table in the room

Вот ещё примеры:

There is a cupboard in the classroom – В классе есть шкаф There is a flower near the lamp – Около лампы находится цветок There is a clock above the door – Над дверью находятся часы There is a shovel in the garden – В саду есть лопата

Сравни два предложения и найди в них отличия:

There is a cup under the bed – The cup is under the bed

Под кроватью есть кружка – Кружка находится под кроватью

В первом случае мы обнаруживаем какую-то кружку под кроватью. Мы не знали, что там стоит какая-то кружка и говорим о её существовании. Во втором случае кружка уже известна нам, это конкретная кружка, но мы не знали, где она находится.

Не путай эти два предложения. Старайся задумываться, о конкретном или неконкретном объект те ты говоришь.

Попробуй самостоятельно сказать:

В комнате есть стул

В сумке лежит телефон

На кровати лежит футболка

Под диваном есть мяч

Не забывай о неисчисляемых существительных, которые всегда стоят в единственном числе, и перед которыми не ставится артикль а. Эта тема также разбиралась в прошлом уроке. При использовании неисчисляемых существительных правила остаются те же, только отсутствует неопределённый артикль а:

There is milk in the fridge – В холодильнике есть молоко

There is water on the floor – На полу вода

There is snow in the street – На улице лежит снег

У конструкции There is существует также форма множественного числа – **There are**.

Её мы используем, когда говорим о том, что где-то имеется несколько предметов:

There are cars in the street – На улице есть машины

There are flowers in the garden – В саду есть цветы

There are girls in the park – В парке есть девушки

There are beautiful beaches in California – В Калифорнии есть красивые пляжи

## Questions. Вопросы

Теперь давай посмотрим, как правильно задать вопросы с конструкцией **there is**. Для этого мы, как обычно, должны поставить глагол **is** на первое место, то есть просто поменять **there** и **is** местами:

Is there a window in the room? – В комнате есть окно? Is there a dog under the chair? – Под стулом есть собака?

C there are просисходит абсолютно то же самое:

Are there cars in the street? – На улице есть машины? Are there girls in the park? – В парке есть девушки?

## Скажите по-английски следующие фразы:

- 2. Под стулом есть собака?
- 3. В гараже есть машина?
- 4. На столе есть книги?
- 5. Около лампы есть цветы?
- 6. В Англии есть пляжи?

На такие вопросы очень часто дают краткий ответ:

Yes, there is	Yes, there are
No, there isn't	No, there aren't

Examples:

Is there a parking near the house? – Рядом с домом есть парковка? Yes, there is – Да, есть

Is there a river in the town? – Есть ли речка в городе? No, there isn't – Het, нету

Are there pencils in the bag? – Есть ли карандаши в сумке?

No, there aren't – Heт, нету

We have all modern conveniences, such as central heating, electricity, gas, hot and cold running water and a telephone.

There are three rooms, a kitchen, a bathroom and a hall in our flat. There is also a balcony and we can enjoy a lovely view of the river. Going along the hall, you will enter a **living room** and we use it as a dining room and as a sitting room. In the middle of the room there is a large table and six chairs round it. On the left side there is a **sofa**, two **armchairs** and a **coffee table** between them.

There are many plants on the windowsill. Opposite the window there is a wall unit with lots of books. Also there is a big TV set in front of the sofa. There is also an electric fire in our sitting room.

We like the living room best of all, because in the evenings we gather there to have tea, watch TV, talk and just relax and rest. Next to the living-room you can find my **room**. My room is the smallest room in our flat, but it is very cosy and light. There is a bed, a wardrobe, a desk, an armchair and several bookshelves in my room. There is a fluffy carpet on the floor. # Описание колледжа: здание, обстановка, условия обучения, техника, оборудование. Описание кабинета иностранного языка.

#### My college.

My college is not the oldest school in the town. But we know that its history began in difficult times after the Great Patriotic War. Our country needed in new houses and buildings. That's why our country needed in good specialists. My college was founded in 1947 as a technical school. It was a two-stored building. There were classrooms on the first floor and on the second floor.

Today our college is a modern educational institution. It is very cosy and spacious. There is a large and light hall, a sport gym, a training room with sport heavy equipment on the ground floor. Many subject classrooms, a rich library and a reading hall are situated on the first floor. We can find any book or any magazine we need there. Our college is well-equipped and uses computing training system in educational process: we have three computer classes. They are usually opened for students and teachers. All classrooms are large and light and have modern equipment: TV-sets, players, notebooks, interactive boards.

Opposite the college it is a club and a canteen. During the lunch-break we go there to have dinner. Besides our college has workshops, laboratories and so on. I think all conditions are given to study and to achieve good results.

There are day-time departments. The academic session lasts 10 months. Our studies begin at 8 o'clock. Usually we have three or four double-periods a day. Every day we attend lectures and have practice. We have a lunch break at 11 o'clock. Our college trains specialists in many branches of knowledge. There are four departments in it: Building department, Technical department, machines and equipment, Landscape design and architecture. The aim of our education is primarily to prepare the students for a job. The senior pupils study various subjects there: mathematics, physics, chemistry, programming, biology, computer science, English and other educational subjects. Students are taught more technical subjects. After college we can work as technicians. We like to repair machines and want to modernize the equipment. We can work in the different plants and factories. We believe our future work will be useful and necessary for people.

There are about 78 teachers in the college. A good teacher ought to know how to organize class work in more efficient and right way, is able to maintain discipline and order, using a lot of different materials, equipment and teaching methods and attempts, and spend time obtaining of knowledge at an occasion with entertainment. They are clever, high-educated, experienced. They are always friendly and helpful to his or her colleagues, and that is as well important keeps in contact with the parents of his or her students and lets them participate in the life of the college. All the teachers are sociable, attentive, helpful to the students.

Our curator's name is.... He (she) is a very kind man (woman), patient and open. He (she) is always ready to help us, to give us a necessary advice. Sometimes he (she) scolds the student who misses the classes or gets bad marks, but he (she) does it in tactful form. He (she) teaches mechanics and drawing. We often do practical works at his (her) lessons, he (she) gives us to know compound parts of motors and their functioning (operation). We learn much new and interesting materials at mechanics and drawing because ..... explains patiently the new material. We like our curator and respect him (her) for his (her) fairness, strong will, intellect, and modesty." The students of our college are the best in the town. There are about 600 students in day-time department. Many of them live with their parents, others - in the hostel. Our students are from 15 till 20 years old. Many of them try to study well to get a scholarship.

Our students have no time to be bored. They carry out research work every year! They don't only study successfully but take an active part in non-academic activities! Our group consists of 20 students. We are clever, well-read, hard-working, strong and sportive. We are the first-year students. Many things were very new and unusual for us but we adopted the conditions very quickly, the study gives us pleasure and we try to make good progress, because we want to be good specialists.

Our students do not only study but take an active part in non-academic activity.

The college has its own traditions and customs. Every year on the First of September the teaching staff organizes Day of Knowledge. The teachers meet the students and conduct homeroom class. It is the beginning the course of study. We celebrate a holiday "Devoting into the First-Year students.

No one in our family goes shopping as often as my mother does. She keeps house, so she knows better than anyone of us what we are running short of.

From time to time my father goes and does some shopping too. Most often he goes for fruits, vegetables, fresh greens or fish to the district's market. Usually, he has a shopping list written by my mother with him.

The prices in our district's market are generally lower than in the state-owned or private shops, but the quality of goods is not always better. If the price doesn't suit you, you can argue about it with the seller and ask for a cut.

My duty is to buy bread for the family. So each time we are running out of bread, I take a shopping bag and money and hurry to the nearest bakery.

When we want to buy food we go the food store, where you can find almost everything you want, or to some specialised provision shops.

The grocer sells a variety of foodstuffs, such as flour, butter, eggs, biscuits, jams and jellies, cheese, sugar, spice, tinned and frozen foods.

The florist sells flowers and plants.

We go to the fishmonger for fish.

# 2. Артикли: нулевой, неопределенный, определенный

1. When your clothes become old and worn out or small, you go to a department store which consists of different departments: ready-made clothes, fabrics, shoes, sport goods, toys, china and glass, electric appliances, hi-fi equipment, cameras, records, etc. You can buy everything you need there. Things for sale are on the counters and are easily seen. In the women's clothing department there are dresses, costumes, skirts, blouses, coats and many other things. In the men's clothing department you can choose suits, trousers, jackets, shirts, ties. In the knitwear department they sell sweaters, pullovers, woolen jackets, caps and gloves.

If you do your shopping in a self-service shop, then you go from counter to counter, choose and put into your basket what you want to buy. At the checkout counter the prices of your purchases are added up. In a small shop the shop assistant helps the customer who then pays the money to the cashier.

All the things are on the counters and in the shop windows so the customers can choose what they want. At the stationery we buy paper, ink, pens, ball-pens, pencils, erasers and felt-tip pens.

Физическая культура и спорт.

# Physical culture.

Physical culture is the shortest and surest way of building up one's health. Many people go in for sports. That's one thing in which people of different nationalities are united. The main purpose of physical culture is not to produce champions but to develop strong and healthy people. Sport requires from a person quickness of reaction and endurance, strength, quick feet. Sport makes one more energetic and gives that recreation and change that is so necessary to keep us fit. Sport helps men to find a common language with people of all occupations, ages, interests, it develops international understanding and friendship, helps to strengthen peace and good neighbour relations among nations.

There are numerous sports to choose and some of them depend on the time of the year. Sport is not only a way of keeping fit and spending your free time but it is also a way of socialising with different people. There are a variety of sports that we can participate in today, for example, basketball, archery, swimming, table tennis, hockey, golf, badminton, squash; mountaineering, athletics (field and track events); water sports (water-skiing, canoeing) and horse racing.

*Cricket and tennis* are also very popular and traditional summer sports. There are winter kinds of sports such as *skiing and biathlon*. Many people like to watch the competitions on TV and try to find free time to spend a couple of hours in the fresh air, skiing or skating. Numerous recreation grounds and sports centers in our country give everyone the opportunity to try practically any sport they want to and to be taught how to play it properly as well.

# Sports.

Sport plays a big role in our life. Many people do sport in our country. They want to stay healthy. Sport is a good mean of struggling with stress.

In my opinion sport is important for healthy free time. Sport also makes people strong and prepares a lot of joy.

Some people participate in sports, others prefer watching them on TV. It is known that walking for an hour is healthier than irregular participation in any physical activities. To keep fit some people join special classes or take part in *aerobics or yoga*, do some kind of training in a gym. Others play football, badminton, volleyball, tennis.

Sport is probably as old as the humanity itself. All over the world people of different ages are very fond of sports and games. Firstly, sport helps people to become strong and to develop physically. Secondly, it makes them more organized and better disciplined in their daily activities. Also sport keeps your mind healthy. Sport helps people to keep in good health. We all need to exercise. Regular exercises give you more energy. Exercises make you feel and look better. The best exercises are: walking, *jogging* or swimming, tennis, basketball, football, volleyball. Among the sports popular in our country are football, basketball, swimming, volleyball, ice hockey, tennis, gymnastics, figure skating. A person can choose sports and games for any season, for any taste.

And now a few words about our physical training lessons. In winter our physical training lessons are held out-of-doors. We go skiing or skating. When it is cold outside P.T. lessons are held indoors, in our gymnasium. We play different team-games such as basketball or volleyball. Besides we have some training in gymnastics.

In autumn and in spring, when the weather is warm we have P.T. lessons at our stadium. My college has a sports day once a year in early autumn. On this day we have no lessons. All the competitors change into their sports clothes, the spectators find their seats round the track ready to cheer. All the events take place at the same time. This day is a great success every year. Even if the weather is not warm, we enjoy ourselves just the same.

#### Food

Food is an essential part of our daily life. One famous English saying goes "We are what we eat", and it's true. The food we eat can influence our body and our mind. It contains nutrients, such as proteins, vitamins, minerals, fats, carbohydrates. Different products contain different nutrients. For example, we can get lots of vitamins eating fruit and vegetables. As for me, I like salads very much but I don't like meat products. The food we choose to eat depends on many factors. First and the most important is the taste. If we like the taste of the product, we often eat it. The second factor is its nutritional value. If the product is healthy and useful for our body, we should add it to our ration. Other factors include culture and religion. Advertising also influences our choices a lot. When we see colourful ads on TV, we decide to try the product. For some people food is just a fuel for energy. For me, it's a pleasure. I like almost everything, except meat products and spinach. My usual day includes three or four meals. For breakfast, I prefer a cup of tea with a cheese and ham sandwich. Sometimes I eat cereal with milk and drink a glass of orange juice. For lunch, I prefer salads from fresh vegetables and a soup. At about 5pm I have a cup of coffee with shortcake. For dinner, I like pasta or rice with vegetables. Sometimes I eat French fries and hamburgers but I know that it contains a lot of fat. That's why I try to cut down on fast food. I also try to it less sugar and salt.

My Family's Meals

My family isn't large. It consists of four members. But each member of owe family has his own tastes and interests. For example, my brother is fond of sports. So early in the morning he goes jogging.

That's why he has nothing to eat before it, because it would be bad for him to eat before exercises. But when he comes back, he has a shower and is more than ready for breakfast. He always needs a cup of coffee to really wake him up. His breakfast usually consists of a bowl of cereal with milk and sugar. This he follows by toasts and juice. My father eats the same as my brother

My mother has a lighter breakfast of just yoghurt and a grapefruit. As for me, a cup of tea is enough for breakfast. And my mother sometimes scolds me for it, because it's important to have a really goods breakfast.

We don't have our main meal at lunch time. My father takes sandwiches with him to work. To be healthy, he also eats fruit. My mother is able to be more varied in her lunches, because she is a housewife. It means that she can prepare what she likes.

Her favourite dish is roast meat. As she likes to bake, there is always something tasty at home. Our evening meal is usually eaten at 7 o'clock. The main course is often meat with vegetables. Sometimes we eat pizza or pasta with delicious sauce.

We try to eat our main meal together. In our busy lives it is the one time of day when we sit down and have a good talk.

#### **Questions:**

- 1. Is your family large?
- 2. What do your family have for breakfast?
- 3. Do you have your main meal together?
- 4. When do you have your main meal?
- 5. What do you have for supper?

#### Vocabulary:

jogging — бег трусцой cereal — овсянка to scold — ругать roast meat — жареное мясо to boil – варить to cut – резать, рубить

# STREET FOOD AROUND THE WORLD: THE ORIGINAL FAST FOOD! Belgium: Home of French Fries

You can find French fried potatoes all over the world, but as Belgians will tell you, they, not the French, invented this popular street food, back in the seventeenth century. The Belgian city of Antwerp has the world's only French fries museum.

Crispy French fries, eaten from a paper cone with salt and plenty of mayonnaise are the Belgians' favourite snack. They are sold at special kiosks all over major towns. The secret of perfect French fries is that they are fried not once, but twice, in hot oil – the first time to cook the inside, and second time to give a perfect, golden outside.

Morocco: Food as theatre

Street food in the main square of Marrakesh, Morocco is like an exciting performance. As the sun sets at the end of the day, street sellers set up their charcoal grills and the air is filled with smoke and delicious smells of cooking. Crowds of locals and tourists sit on wooden benches and eat off paper plates, surrounded by the sights, smells and tastes of African culture: *harira*, for example, a rich soup made with lamb and spices. Or how about sheep's head or tiny boiled snails, served with a toothpick?

Australia: Fancy a pie floater?

Feeling hungry? No visit to South Australia is complete without trying the local speciality – a pie floater. They are traditionally sold at roadside kiosks, some of which stay open all night. It consists of a meat pie floating (usually upside down) in a thick green pea soup. Finally, the pie is covered with plenty of bright red tomato ketchup. Enjoy!

Mexico: The food of the people

It's lunchtime in Mexico City and everywhere people are queuing up for Mexico's favourite fast food *tacos*. They're soft corn pancakes served with a variety of fillings, such as chicken, beef or vegetables, and then covered with spicy sauce, lettuce and sour cream. "The best Mexican food is the food of the people," says Jose Iturriaga, who has written more than twenty books on Mexican food. And the city's best taco? "It's a taco made from cows' eyes," says Jose. "It's extraordinary".

# A Healthy Lifestyle.

One of the most valuable things in our life is health but a lot of teenagers do not pay enough attention on leading a healthy lifestyle. However it is very important to take care of our bodies and everyone has to be concerned about it since childhood. The rules of healthy living are not very difficult to follow – the key feature is to understand that our bodies and minds do depend on the way we treat them. And we need to remember that looking after our health today means a better hope for tomorrow.

t is not a secret that our bodies and minds are closely connected and we can enjoy our life when we are healthy both physically and mentally. Being friendly and cheerful is one of the best promoters of health. And one more rule to remember is finding some time and attention for ourselves.

The first thing to mentioned is the diet we follow. Having a healthy well-balanced diet is one of the main features of avoiding the long list of modern diseases including obesity, diabetes, and hypertension. Our bodies need to get vitamins, minerals and nutrients regularly so the best way to feel and look good is eating enough fruit and vegetables and avoiding fast food.

The next important rule for being healthy is having enough exercise. There are so many ways to feel the pleasures of being active – sports, dancing, or just walking. Regular exercising is a great way to be healthy and to enjoy life.

Smoking, alcohol and drug addictions can not only destroy our bodies but, unfortunately, can ruin all the hopes for the future.

#### A Healthy Lifestyle.

I consider that man's health depends on his mode of life. To prevent the diseases it's necessary to keep some simple regulations: to go in for sports, to eat carefully, to take a rest and to walk frequently in the open air.

It is a pleasure to look at a strong, athletic man and slim beautiful lady.

It is known that healthy people live longer and their career is more successful. To look well you must follow some simple rules: don't smoke and take drugs, don't drink alcohol, don't eat too much chips and sweets, eat more vegetables and fruits, sleep well, do exercises.

We have two lessons of physical training once a week. We do exercises, run, jump, play basketball and pioneer ball, ski in winter. I think that we must have more lessons of physical training than we have now. For example American pupils have their PT lessons every day.

- 1. Do you think it plays an important role in our life?
- 2. Why do many people go in for sport?
- 3. (- helps people to stay in a good shape, keeps them fit, healthy and makes them more organized and better disciplined in their activities)
- 4. What sports and games do you prefer? Why?
- 5. What sports or games can you call the most beautiful, the most dangerous, the most/ the least interesting to watch?

- 6. Let's listen to the tape and guess:

### Travelling.

People on our planet can't live without travelling now. Tourism has become a highly developed business. There are express trains, cars and jet-air liners all of that provide you with comfort and security.

What choice to make? It's up to you to decide. There is a great variety of choice available for you.

Those who live in the country like going to a big city, visiting museums and art galleries, looking at shop windows and dining at exotic restaurants. City-dwellers usually like acquired holiday by the sea or in the mountains.

Most travelers carry a camera with them and take pictures of everything that interests them — the sights of a city, old churches, castles, mountains, lakes, waterfalls, forests, trees, flowers and plants, animals and birds. Later, perhaps years later, they will be reminded by the photos of the happy times they have had.

If you travel for pleasure you would like all means to enjoy picturesque areas you are passing through, you would like to see the places of interest in the cities, towns and countries. Travelling gives us a good opportunity to see wonderful monuments, cultural and historical places, to learn a lot about the history of the country you visit, about the world around us, to meet people of different nationalities, to learn a lot about their traditions, customs, culture. In other words, you will broaden your mind.

Nowadays people travel not only for pleasure but also on business. You have to go to other countries to take part in different negotiations, to sign contacts, to participate in different exhibitions, in order to push the goods produced by your firm or company o Travelling on

business helps you to get more information about achievements of other companies» which will make your own business more successful.

There are a lot of means of travelling: by sea, by plane, by car, on foot. Tastes differ. That is why it is up to you to decide which means of travelling you would prefer. All means of travelling have their advantages and disadvantages. And people choose one according to their plans.

No wonder that one of the latest means of travelling is travelling by plane. It combines both comfort and speed and you will reach the place of destination very quickly.

Before boarding the plane you must check in at the airport. You are required to have your baggage weighed. Each passenger is allowed 20 kilograms of baggage free of charge. But if your baggage is heavier you must pay an extra charge.

Before the plane takes off the stewardess gives you all the information about the flight, the speed and altitude. She asks you to fasten the belts and not to smoke. She will take care of you during the flight and will help you to get comfortable in your seat. Inside the cabins the air is always fresh and warm. During the flight you can take a nap or have a chat, you can read and relax. In some planes you can watch video or listen to the music.

When the plane is landing or taking off you have an opportunity to enjoy the wonderful scenery and landscapes. While travelling by plane you fly past various villages and cities at the sight of which realize how majestic and tremendous our planet is. No doubt, travelling by air is the most convenient and comfortable means of travelling.

But if you are airsick the flight may seem not so nice to you. Unfortunately sometimes the flights are delayed because of unfavourable weather conditions, and one more inconvenience is jet-lag.

### The Infinftive

Инфинитив в английском языке представляет собой неличную форму глагола, которая обозначает действие — это неопределенная форма глагола (в русском языке инфинитив чаще всего так и называют). Эта форма выражает действие, но без уточнения лица или числа. Инфинитив отвечает на вопросы «что делать?», «что сделать?» — в словаре слова представлены как раз в этой форме:

# to run – бежать/прибежать

# to cook - готовить/приготовить

Отрицательная форма по-классике образуется с помощью частицы not — просто ставим ее перед инфинитивом. Если инфинитив с частицей to — отрицание not встает перед ней.

I decided not to buy ticket. – Я решил не покупать билет.

They asked him not to be late. – Они попросил его не опаздывать.

I might not come. - Я могу не прийти.

Инфинитив может употребляться с частицей to или без нее:

I want to help you. - Я хочу вам помочь.

I should help you. – Я должен вам помочь.

Чаще всего инфинитив используется с to, однако существует ряд случаев, когда частица to опускается

Когда употребляем с частицей to

1. Обычно инфинитив употребляется с частицей «to»: «to write», «to cook», «to go».

Но если в предложении есть два инфинитива, они стоят рядом и соединены союзом «and» или «ог», то перед вторым инфинитивом частица «to» как правило опускается.

She decided to go and buy something for supper. – Она решила пойти и купить что-нибудь на ужин.

I intend to call on him and discuss this question. – Я намерен зайти к нему и обсудить этот вопрос.

2. В конце предложения без глагола.

Так делают, чтобы избежать повторения одного и того же глагола в предложении. Такое употребление частицы «to» обычно встречается после глаголов «to wish» – желать, «to want» – хотеть, «to try» – пытаться, «to allow» – разрешать, «to have to» – быть должным и др.

I didn't want to stay there, but I had to. - Я не хотел оставаться там, но пришлось (остаться). He wished to go, but he wasn't able to. - Он хотел пойти, но был не в состоянии (не смог пойти).

3. После глаголов «ask» (спрашивать), «learn» (научиться, узнать), «explain» (объяснять), «decide» (решать), «find out» (узнать), «want to know» (хотеть узнать), когда после них стоит вопросительное слово.

We should decide now what to do next. – Мы должны решить сейчас, что делать дальше. Ralph wanted to know where to buy some good cheese. – Ральф хотел узнать, где можно купить хороший сыр.

4. После слов «first» (первый), «second» (второй), «next» (следующий), «last» (последний).

He loves parties: he is always the first to come and the last to leave. – Он любит вечеринки: он всегда приходит первым и уходит последним.

5. После выражений «would like» или «would love» (хотел бы), «would prefer» (предпочел бы), которые указывают на определенное желание.

I would like to talk to her right now. – Я бы хотел поговорить с ней прямо сейчас. I would love to help you, but I have no time. – Я бы с радостью с помог тебе, но у меня нет времени.

I would prefer to drink hot tea. – Я бы предпочел выпить горячий чай.

6. После слов «too» (слишком) и «enough» (достаточно).

It's too cold outside to go jogging. – На улице слишком холодно, чтобы пойти на пробежку. That place was good enough to visit it again. – То место было достаточно неплохим, чтобы посетить его еще раз.

Когда употребляем инфинитив без частицы to

1. После модальных глаголов.

Это особая группа глаголов, которые выражают не само действие, а отношение к нему: вероятность, долженствование, способность. Например, can, must, should, may и прочие. Сами по себе они не дают полного смысла, поэтому дополняются инфинитивом без частицы to — это самый распространенный случай.

She can't speak to you. – Она не может говорить с вами.

He should ask them a question. – Ему следует задать им вопрос.

Shall I talk to him? – Мне поговорить с ним?

They must leave before 10.00 а.т. – Они должны уйти до десяти утра.

Исключения — модальные глаголы «dare» / «ought» / «have» / «be». Им частичка to нужна.

She ought to be more polite to other people. – Ей следует быть более вежливой с людьми.

2. После глаголов make, let, feel, see, hear.

Например, в предложениях, где make используется в значении «заставлять», а let — «позволять».

Let's go to the cinema tonight. – Давай пойдем в кинотеатр сегодня вечером.

You made me cry. – Вы заставили меня плакать.

Don't make me read that boring book. – Не заставляй меня читать эту скучную книгу.

I saw her leave the room. – Я видел, как она вышла из комнаты.

I heard her sing. – Я слышал, как она поет

3. После глагола «help» (помогать) может использоваться глагол как с «to», так и без.

Help me (to) find my keys, please. – Помоги мне найти ключи, пожалуйста.

4. После оборотов had better и would rather.

Оборот had better переводится, как «лучше, следует». В сокращенном варианте пишется, как d'better.

We had better take some warm clothing. – Нам лучше взять теплой одежды.

She had better ask him not to come. – Ей бы лучше попросить его не приходить.

I would rather not tell them about it. – Я предпочел бы не говорить им об этом.

5. В вопросительных предложениях с Why.

После вопросительного местоимения why используется инфинитив без to, в случае вопроса с отрицательной частицей not — "why not?" — частица тоже опускается.

Why wait until tomorrow? – Зачем ждать до завтра?

Why not ask him now? – Почему бы не спросить его сейчас?

6. После глаголов восприятия в обороте «сложное дополнение».

Этот оборот в английском называется Complex object и строится по схеме: подлежащее + глагол + объект действия + инфинитив. В случае, если на месте глагола стоит глагол восприятия (see, hear, feel) — используем инфинитив без частицы to.

He saw her fall from the cliff. – Он видел, как она упала с утеса.

We heard them close the door. – Мы слышали, как они закрыли дверь.

They saw us walk toward the lake. – Они видели, как мы шли к озеру.

She felt the spider crawl up her leg. – Она почувствовала, как паук ползет по ее ноге.

1. People began to travel ages ago. The very first travellers were explorers who went on trips to find wealth, fame or something else. Their journeys were very dangerous but still people keep on going to the unknown lands.

Nowadays it is not as dangerous and much more convenient. Do you want to go somewhere? Hundreds of companies are there to help you. They will take care about your tickets and make all the reservations needed. You don't speak the language of the country you go to? There are interpreters that will help you. With modern services you can go around the world. You can choose the means of transport you like: *plane, train, ship, bicycle* or you can travel hiking. Tourism became a very profitable business because people are ready to spend their money for the great opportunity to have a great time learning about new countries, going sightseeing, resting and enjoying themselves.

b. If we are fond of travelling we see and learn all sorts of things we can never see or learn at home. Though we may read about them in books and newspapers and see pictures of them at the cinema. The best way to study geography is to travel and the best way to get to know and understand the people is to meet them in their own houses.

When I was a little girl every holiday that I had seemed to be perfect. In those far-off days the sun seemed to shine constantly and the water was always warm. All day I played on the sands with my friends. We made sandcastles with huge yellow walls. Sometimes we left the beach and walked in the country. Although I am now an adult, my idea of a good holiday is much the same as it was. I still like the sun and the warm sand and the sound of waves breaking on the beach. I don't want to build sandcastles any longer but still I like sunbathing and the feeling that sand is running through my fingers.

I like travelling. And I want to smell different smells. I want to see differentkinds of trees, flowers and plants. When I spend a holiday in travelling I always take a camera with me and photograph everything that interests or pleases me: the sights of a city, views of mountains, lakes, valleys; the ruins of ancient buildings. Some years later that will remind me the happy time that I had.

c.We can travel by car, by train or plane, if we have got a long distance tour. Some young people prefer walking or hitch-hike travelling, when you travel, paying nearly nothing. You get new friends, lots of fun and have no idea where you will be tomorrow. It has great advantages for the tourists, who want to get the most out of exploring the world and give more back to the people and places visited. If you like mountains, you could climb any mountains around the globe and there is only one restriction. It is money. If you like travelling, you have got to have some money, because it is not a cheap hobby indeed. The economy of some countries is mainly based on tourism industry. Modern tourism has become a highly developed industry, because any human being is curious and inquisitive, we like leisure, visit other places. That is why tourism prospers.

### Russia

The Russian Federation is the largest country in the world. It occupies about one-seventh of the earth's surface. It covers the eastern part of Europe and the northern part of Asia. It is total area is about 17 million square kilometres. The country is washed by 12 seas of 3 oceans: the Pacific, the Arctic and the Atlantic. In the south Russia borders on China, Mongolia, Korea, Kazakhstan, Georgia and Azerbaijan. In the west it borders on Norway, Finland, the Baltic States, Byelorussia and Ukraine. It also has a sea-border with the USA.

There is hardly a country in the world where such a variety of scenery and vegetation can be found. We have steppes in the south, plains and forests in the midland, tundra and taiga in the north, highlands and deserts in the east.

There are two great plains in Russia: the Great Russian Plain and the West Siberian Lowland. There are several mountain chains on the territory of the country: the Urals, the Caucasus, the Altai and others. The largest mountain chain, the Urals, separates Europe from Asia.

There are over two million rivers in Russia. Europe's biggest river, the Volga, flows into the Caspian Sea. The main Siberian rivers — the Ob, the Yenisei and the Lena — flow from the south to the north. The Amur in the Far East flows into Pacific Ocean.

Russia is rich in beautiful lakes. The world's deepest lake (1,600 meters) is a Lake Baikal. It is much smaller than the Baltic Sea, but there is much more water in it than in the Baltic Sea. The water in the lake is so clear that if you look down you can count the stones on the bottom. Russia has one-sixth of the world's forests. They are concentrated in the European north of the country, in Siberia and in the Far East.

On the vast territory of the country there are various types of climate, from arctic in the north to subtropical in the south. In the middle of the country the climate is temperate and continental. Russia is very rich in oil, coal, iron ore, natural gas, copper, nickel and other mineral resources. Russia is a parliamentary republic. The Head of State is the President. The legislative powers are exercised by the Duma. The capital of Russia is Moscow. It is its largest political, scientific, cultural and industrial centre. It is one of the oldest Russian cities.

But in spite of the problems Russia is facing at present, there are a lot of opportunities for this country to become one of the leading countries in the world.

### 1. Moscow.

The capital city of the Russian Federation is Moscow. It is one of the largest cities in the world. More than 8,4 million people live in Moscow. Moscow is the cultural, industrial, scientific, and transportation centre of Russia. It lies in western Russia, in the European part of the country. The Moscow River, for which the city was named, flows through the city.

Moscow was founded during 12th century. Moscow emerged as the most powerful Russian city in the late 1400's. The princes of Moscow played a leading role in uniting various Russian lands and in conquering non-Russian peoples and territories. Moscow became the capital of the Russian

Empire and was the home of Russia's czars until 1712, when the capital was moved to St. Petersburg. Moscow again became the Russian capital in 1918, after the Bolsheviks (later called Communists) took control of the country. In 1922, Russia and three other republics united to form the Union of Soviet Socialist Republics. Moscow was chosen as the Soviet capital.

The Communists lost power in the Soviet Union in August 1991. In December, the Soviet Union was dissolved. Russia and other former Soviet republics became independent countries. Most of the republics, including Russia, formed Commonwealth of Independent States. Moscow remained the capital of Russia. The city of Minsk, in Belarus, was named headquarters of the commonwealth.

Moscow is built in the shape of a wheel. This shape can be traced to the city's early history, when rings of fortifications were built to protect it from attack. Today, wide boulevards extend from the city's centre, forming the spokes of the wheel. They cross circular boulevards, which

make up the inner and outer rims of the wheel. A major highway circles Moscow. Past the highway lies the Green Belt, a ring of forests and parks covering about 1,800 square kilometres.

The oldest and busiest sections of Moscow lie near the Kremlin, a huge walled fortress at the city's historic centre. Just to the north and east of the Kremlin is the main business, commercial, and administrative district. Encircling this area and the Kremlin are Moscow's main shopping streets and many cultural buildings. Most of the city's new residential and industrial districts lie in the outermost rings — At the city's heart on the banks of the River Moscow lies the Kremlin, a walled fortress housing all the government buildings. Nearby St. Basil's Cathedral was built in the 16th century to celebrate a military victory; it is now a museum.

### **Traditions In Russia**

Every nation has its own culture and traditions. Russia is a unique country with a centuries-old history and long-established national customs. Although, it's a well-developed country with a high level of culture, most holidays and traditions date back to pagan times. For example, Easter, Christmastide, the Kupala Night, the Shrovetide - all these events have pagan roots. I'd like to say a few words about these holidays and traditions of their celebration. Easter in Russia is a glorious feast of Christ's resurrection. It came from Byzantium at the end of the 10th century. Since then, this holiday is widely celebrated throughout the country with beautiful and solemn rites, such as eggs' colouring, kulich baking, paschal greeting, etc. There are many interesting events during the Christmastide. Traditionally Russians have kept a 40-day fast before Christmas. On Christmas Eve they've prepared a delicious meal known as "kutia". It's a porridge made of wheat or barley and mixed with honey. Today, people use rice and dried fruits to cook this dish. On the night of Christmas it was habitual to visit the relatives and neighbours, to eat kutia and sing carols. Young girls would also arrange fortune-telling nights. Most devout people have spent days at the church. On the Ivana Kupala, which falls on midsummer night, people arrange posh celebrations. On this day young girls wear flower wreaths on their heads and sing songs, referencing to love and marriage. The Shrovetide used to be a holiday of commemoration of the dead. Today, Russians associate this day with the end of winter. They burn a scarecrow and other unnecessary things on this day. They also cook lots of pancakes and organize costumed performances. There are many other traditions in Russia, connected with christening, wedding, funerals, etc. But if you want to get a better understanding of this country, you should visit it during the main religious holidays.

2. Формы сравнительной и превосходной степеней образуются двумя способами:

**Способ 1.** Если прилагательное односложное, форма его сравнительной степени образуется при помощи суффикса -er, а форма превосходной степени – при помощи суффикса -est.

Положительная степень	Сравнительная степень	Превосходная степень
strong (сильный)	stronger (сильнее)	the strongest (сильнейший)
cold (холодный)	colder (холоднее)	the coldest (самый холодный)

Некоторые двусложные прилагательные оканчивающиеся на -y, -er, -ow образуют степени сравнения так же, как и односложные, с помощью суффиксов -er и -est. easy (легкий) — easier (более легкий, легче) — the easiest (самый легкий, легчайший)

**Способ 2.** От двусложных прилагательных и прилагательных состоящих из трёх или более слогов, сравнительная степень образуется при помощи слова more (less), а превосходная степень – при помощи слова most (least)

famous (знаменитый) – more (less) famous (более (менее) знаменитый) – the most famous (самый знаменитый)

interesting (интересный) – more interesting (более интересный) – the most interesting (самый интересный)

Запомните исключения при образовании степеней сравнения прилагательных:

Положительная степень	Сравнительная степень	Превосходная степень
good (хороший)	better (более хороший,	the best (самый хороший,
well (хорошо)	лучше)	лучший)
bad (плохой)	worse (более плохой, хуже)	the worst (самый плохой,
		худший)
little (маленький)	less (меньше, меньший)	the least (самый маленький)
much / many (много)	more (больше)	most (больше всего, самый
		большой)
far (далекий)	farther (более далекий)	the farthest (самый далекий)
far (далеко)	further (дальше)	the furthest (дальше всего)

Существительное, определяемое прилагательным в превосходной степени, всегда имеет определенный артикль.

В предложениях со степенями сравнения прилагательных и наречий используются следующие союзы: as ... as такой же ... как; not so ... as не такой ... как.

The full name of the country the United Kingdom of Great Britain and Northern Ireland. The United Kingdom is situated on the British Isles. The British Isles consist of two large islands, Great Britain and Ireland, and a great number of small islands. Their total area is over 314 000 sq. km. The British Isles are separated from the European continent by the North Sea and the English Channel. The western coast of Great Britain is washed by the Atlantic Ocean and the Irish Sea. Northern Ireland occupies one third of the island of Ireland. It borders on the Irish Republic in the south. The island of Great Britain consists of three main parts: England (the southern and middle part of the island), Wales (a mountainous peninsula in the West) and Scotland (the northern part of the island).

There are no high mountains in Great Britain. In the north the Cheviots separate England from Scotland, the Pennines stretch down North England along its middle, the Cambrian mountains occupy the greater part of Wales and the Highlands of Scotland are the tallest of the British mountains. There is very little flat country except in the region known as East Anglia. Most of the rivers flow into the North Sea. The Thames is, the deepest and the longest of the British rivers. Some of the British greatest ports are situated in the estuaries of the Thames, Mersey, Trent, Clyde and Bristol Avon. Great Britain is not very rich in mineral resources, it has some deposits of coal and iron ore and vast deposits of oil and gas that were discovered in the North Sea.

The warm currents of the Atlantic Ocean influence the climate of Great Britain. Winters are not severely cold and. summers are rarely hot. The population of the United Kingdom is over 58 million people. The main nationalities are: English, Welsh, Scottish and Irish. # 2. Political System of Great Britain.

The United Kingdom of Great Britain and Northern Ireland is a constitutional monarchy. It means that the sovereign reigns but does not rule.

Britain does not have a written constitution, but a set of laws.

Parliament is the most important authority in Britain. Technically Parliament is made up of three parts: the Monarch, the House of Lords; and the House of Commons. In reality the House of Commons is the only one of the three which has true power.

The monarch serves formally as head of state. But the monarch is expected to be politically neutral and should not make political decisions.

The present sovereign is Queen Elizabeth II. She was crowned in Westminster Abbey in 1953.

The House of Commons consists of Members of Parliament. There are 650 of them in the House of Commons. They are elected by secret ballot. General elections are held every five years. The country is divided into 650 constituencies. All citizens, aged 18 and registered in a constituency, have the right to vote. But voting is not compulsory in Britain. Only persons convicted of corrupt and certain mentally ill patients don't take part in voting.

There are few political parties in Britain thanks to the British electoral system. The main ones are: the Conservative Party, the Labour Party and the Liberal / Social Democratic Alliance.

Each political party puts up one candidate for each constituency. The one who wins the most votes is elected MP for that area.

The party which wins the most seats in Parliament forms the Government. Its leader becomes the Prime Minister. His first job is to choose his Cabinet. The Prime Minister usually takes policy decisions with the agreement of the Cabinet.

The functions of the House of Commons are legislation and scrutiny of government activities. The House of Commons is presided over by the Speaker. The Speaker is appointed by the Government.

The House of Lords comprises about 1,200 peers. It is presided by the Lord Chancellor. The House of Lords has no real power. It acts rather as an advisory council.

It's in the House of Commons that new bills are introduced and debated. If the majority of the members are in favour of a bill, it goes to the House of Lords to be debated. The House of Lords has the right to reject a new bill twice.

But after two rejections they are obliged to accept it. And finally a bill goes to the monarch to be signed. Only then it becomes law.

Parliament is responsible for British national policy. Local governments are responsible for organizing of education, police and many others.

### 3. Числительные (The Numerals)

### **Places of Interest in Great Britain**

Great Britain is rich in world-famous places. Certainly among them there are famous university cities Oxford and Cambridge, Shakespeare's birthplace — Stratford-upon-Avon, towns of Cardiff, Edinburgh and Glasgow.

Stratford-upon-Avon is a small town. Its chief points of interest are associated with Shakespeare, the greatest English poet and playwright. Shakespeare was buried in the church at Stratford on the banks of the Avon.

The Royal Shakespeare Theatre was opened in Stratford in 1932. Only Shakespeare's plays are performed here.

Those who come to Oxford certainly are interested in its university most of all. It was founded in the 12th century. But there is no "university" as such in Oxford. The component parts of the University of Oxford are the colleges. Each college is practically autonomous. But they do not stand in isolation, they are mixed together with houses, shops and offices.

Cardiff is the capital of Wales and its chief port. Cardiff is also a tourist centre. There are some places of interest there. Wales is sometimes called "the land of song". One of the Welsh traditions is festivals. Song festivals are very popular.

Edinburgh is a city where the historic past lives side by side with the present. Edinburgh Castle is the most famous building in the city.

Edinburgh is especially famous for its festivals. In summer there is the Edinburgh Festival. This is Britain's biggest arts festival.

There is a prehistoric monument in Great Britain which is as interesting to the tourists as the Egyptian pyramids. This is Stonehenge. Stonehenge was built in order to calculate the annual calendar and seasons.

# 2. Порядковые числительные Ordinal numbers

количественные - это числительные типа: один, два, три и т.д. порядковые - числительные типа: первый, второй, третий и т.д.

Представим первые десять порядковых числительных в виде списка:

one - the first

two - the second

three - the third

four - the fourth

five - the fifth

six - the sixth

seven - the seventh

eight - the eighth

nine - the ni<u>nt</u>h ten - the tenth

Как видно из перечисленных форм, порядковые числительные в английском языке, кроме первых трех цифр, образуются при помощи суффикса -th на конце и, как правило, определенного артикля the. Таким образом можно любое обычное число переводить в порядковое.

Тhe seventh (седьмой), the eleventh (одиннадцатый), the fifty-sixth (пятьдесят шестой). Порядковые числительные можно запоминать и без артикля the. Мы его пишем только для того, чтобы тебе было легче привыкнуть к тому, что в большинстве случаев перед этими числительными ставится как раз артикль the. Это обусловлено тем, что предметы, обозначенные порядковым числительным, единственные в своём роде. Для примера сказанного можно взять словосочетание "первый этаж". Когда мы говорим, о первом этаже, мы всегда имеем ввиду один первый этаж, так как второго такого первого этажа не существует. Соответственно, в английском языке это буде выглядеть вот так: the first floor. Также обрати своё внимание на то, что первые три числительных в уникальны в плане своих форм. Их следует просто хорошо запомнить:the first (первый), the second (второй), the third (третий). Не говори: oneth или twoth.

# Переведи предложения на английский язык

- 1. Первая машина
- 2. Седьмой дом
- 3. Вторая улица
- 4. Третий этаж
- 5. Пятый элемент

Помимо этого, нужно иметь в виду, что всё-таки имеются такие числительные, у которых кроме прибавления суффикса -th происходят небольшие изменения в написании. Например, у five и twelve согласная  ${\bf v}$  меняется на  ${\bf f}$  (the fifth, the twelfth), у eight на конце добавляется только  ${\bf h}$  (the eighth), а у nine опускается гласная  ${\bf e}$  (the ninth). У числительных, обозначающих десятки (twenty, thirty, fourty, etc.) крайняя гласная  ${\bf y}$  переходит в  ${\bf ie}$ : the twentieth, the thirtieth, the fourtieth, etc.

eleven - eleventh twelve - twelfth thirteen - thirteenth

fourteen - fourteenth

. . .

twenty - twent<u>ie</u>th twenty-one - twenty-first twenty-two - twenty-second

. . .

thirty - thirt<u>ie</u>th thirty-one - thirty-first

В английском языке порядковое числительное не может употребляться самостоятельно. Нельзя, например, просто сказать "The fifth.", а надо обязательно уточнить о чем конкретно идет речь. Например: the fifth floor - пятый этаж.

Однако, порядковые числительные можно употреблять и в абсолютной форме, которая не будет прямо указывать на конкретный предмет, но для этого после числительного необходимо добавить "one".

Andrew is their first child and Kate is the second one - Эндрю их первый ребенок, а Кейт - второй.

Что касается определенного артикля the, то он легко может быть заменен какой-либо другой частью речи, например местоимением или существительным:

The fourth car = His fourth car = Daniel's fourth car (Ho He: the his fourth car)

И последнее. На письме порядковые числительные очень часто обозначаются цифрами с добавлением соответствующего окончания: 1st,2nd, 3d, 4th, 5th, 6th и т.д.

### 1. The USA.

The USA occupies the central part of the North American continent. It borders on Canada in the north and Mexico in the south. It is washed by the Atlantic Ocean in the east, by the Pacific Ocean in the west and by the Gulf of Mexico in the south.

The present territory of the USA consists of three separate parts. The USA proper and Alaska are situated in North America. The Hawaii are situated in the central part of the Pacific Ocean. The area of the country is about 9,400,000 km2. Its population is about 256 million people. No general statement can be made about the landscape of the USA. It is a country of mountains and prairies, valleys and deserts. About one half of the territory in the west is occupied by the Cordilleras. In the east there are the Appalachian Mountains. Between these great mountain chains central and large valleys lie.

The Rocky Mountains extend from Alaska through Canada and the USA to Mexico. Together with the Sierra Nevada Mountains in California they have snow-capped peaks and clear mountain lakes.

The Great Lakes are situated in the north-east of the country. They are Lake Ontario, Lake Huron, Lake Erie, Lake Superior, Lake Michigan. The largest rivers of the USA are the Mississippi, the Missouri, the Columbia, the Colorado, and the Yukon. American rivers have very expressive names: the Snake River, the Milk River, the Green River, the Sweetwater River, the White River.

The USA has rich deposits of coal, oil, iron, zinc, copper, silver, phosphate rock, natural gas, uranium and nonferrous metals. The country has one fourth of the world's coal deposits.

# Political System of the USA.

The United States of America is a federative republic. Since 1959 the Federation comprises 50 states.

The president is the head of the state and executive body. He is also the commander-in-chief of the army and Navy of the USA. The president and vice-president are elected for a term of four years.

All the legislative power is vested in Congress, which consists of the Senate and the House of Representatives. There are 100 senators and 435 members in the House of Representatives. Two Senators from each state are elected by popular vote for a term of six years, the Representatives are elected for two-year term. Both houses must approve the bill for it to become a law.

An essential role in the US political system is played by the Supreme Court, which may declare a law, passed by Congress, to be contradictory to the Constitution of the country.

The various states have legislative and executive bodies of their own. Their structure, function and competence are determined by the Constitution of each state. There is an elected governor at the head of each state. States enjoy independence in their domestic affairs, including financial matters. However, state laws and actions of state authorities must not conflict with the Constitution of the USA

The United States government allows its citizens to be free from internal control. Citizens are allowed to take part in any action that they wish to involve themselves in as long as it is not an illegal action. The government encourages and provides its citizens freedom in order to create maximum opportunity and wealth creation for the entire nation.

In Amendment I of the Bill of Rights, the United States government gives individuals the right of freedom of speech and prohibits the government to abridge the freedom to exercise this right. The ability of the United States citizens to express themselves freely without restriction allows entrepreneurs to have maximum opportunities which creates economic wealth. However, there are restrictions on speech, ratings on movies, parental advisories on music, and other forms of entertainment. These restrictions do in some way restrict free speech.

The police forces of the United States protect its citizens from crime and criminals quite effectively. However, the fairness of the police force on minorities is in constant question. The police forces use of racial profiling and questionable shootings of Hispanics and African Americans causes minorities to be fearful of their encounters with the police force. These types of

racism and unequal treatment discourage the creation of businesses run by minorities which decreases wealth.

The United States dollar is the single currency used in the United States. The dollar is the only official currency used within the United States. The use of this helps to encourage commerce and creates economic opportunities wealth.

# 2. Using the past perfect tense.

### Form:

Affirmative	Interrogative	Negative
I had worked.	Had I worked?	I had not worked.
She had played.	Had she played?	She had not played.
It had rained.	Had it rained?	It had not rained.
They had waited.	Had they waited?	They had not waited.
You had promised.	Had you promised?	You had not promised.

As you can see in the **past perfect tense**, the auxiliary verb **had** is used with both singular and plural nouns.

### Uses

The past perfect tense is not usually used alone. It is mainly used with the simple past tense and then it refers to an action that has already happened by the time another action had commenced.

• The patient **had died** before the doctor arrived. (NOT The patient died before the doctor had arrived.)

We use the past perfect tense for the earlier of the two past actions.

- The train **had left** before we reached the station. (NOT The train left before we had reached the station.)
- I had cooked the meals before the kids came home from school.
- I had finished one project before I started the next.

In many cases we can use time conjunctions like **before** and **after** to indicate that one action had taken place before another commenced. The use of past perfect tense is optional in this case. That means you can use it but it is not necessary.

- After he finished the project he went to Australia for a month.OR
- After he had finished the project he went to Australia for a month.

Note that the past perfect tense is only used as described above. It is not used to simply say that something happened some time ago.

• I met an old friend of mine yesterday. (NOT I had met an old friend of mine yesterday.) Please share this with others if you feel it's helpful.

### 1. Customs and traditions.

Every nation has different customs and traditions, its own way of life.

In Europe there are people who have lived in the same house and been in the same job for 20, 30 or more years. That's not the American way of life. The Americans love change, they call it the spirit of adventure, a spirit that they think is more characteristic of America than of Europe. They like to move away, to change houses and jobs.

While the Englishman thinks it is ill mannered to ask private questions, the American doesn't

feel that at all. He will tell you all about himself, his wife and family, and ask where you have come from, what your job is, how you like America and how long you are staying. The American prefers sociability. In his home he doesn't object to being seen by everyone — he actually likes it.

With this sociability goes overwhelming hospitality. A national Thanksgiving Day is perhaps the only holiday spent by the Americans at home. Table decorations follow a traditional pattern — a harvest of Indian corn, apples, oranges, walnuts and grapes. Flowers also bring the fall scene indoors. The centrepiece is the traditional roast turkey.

Still another American tradition concerns Halloween. Its origin dates back hundreds of years to the Druid festival. The Druid New Year began on November 1, marking the beginning of winter and the reign of the Lord of Death. The custom of telling ghost stories on Halloween comes from the Druids. On this occasion children usually wear ghost costumes or false faces. They also carve out rounded eyes in pumpkins and put burning candles inside them to make them visible from far away.

In Texas, where the West begins, the biggest annual festival — the Fat Stock Show — is held. Its rodeo, hold together with the stock show, is the biggest indoor rodeo on the earth.

And of course, no nation can exist without humany. As they themselves say on American must

And, of course, no nation can exist without humour. As they themselves say, an American must have one wife, two cars, three children, four pets, five suits, six acres, seven credit cards — and is lucky to have eight cents in his pocket.

# Washington

Washington, the capital of the United States of America, is situated on the Potomac River in the District of Columbia. The district is a piece of land ten miles square and it does not belong to any separate state but to all the states. The district is named in honour of Columbus, the discoverer of America. The capital owes much to the first President of the USA — George Washington. It was G. Washington, who chose the place for the District and laid in 1790 the corner-stone of the Capitol, where Congress sits. Washington is not the largest city in the USA. It has a population of 900 000 people. Washington is a one-industry town. That industry is government. It does not produce anything except very much scrap paper. Every day 25 railway cars leave Washington loaded with scrap paper. Washington has many historical places. The largest and tallest among the buildings is the Capitol with its great House of Representatives and the Senate chamber. There are no skyscrapers in Washington because oother building must be taller than the Capitol. The White House is the President's residence. All American presidents except George Washington (the White House was not yet built in his time), have lived in the White House. It was built in 1799. It is a two-storied, white building. Not far from the Capitol is the Washington Monument, which looks like a very big pencil. It rises 160 metres and is hollow inside. A special lift brings visitors to the top in 70 seconds from where they can enjoy a wonderful view of the whole city. The Jefferson Memorial was built in memory of the third President of the USA, Thomas Jefferson, who was also the author of the Declaration of Independence. The memorial is surrounded by cherry-trees. The Lincoln Memorial is devoted to the memory of the 16th President of the US, the author of the Emancipation Proclamation, which gave freedom to Negro slaves in America. On the other bank of the Potomac lies the Arlington National Cemetery where President Kennedy was buried. American

soldiers and officers, who died in World Wars I and II are buried there too.

#### New York

New York is the largest city in the USA and the biggest seaport. It is the business centre of the United States. New York is situated in the mouth of the Hudson river. In comparison with such ancient historical cities as, say, Rome, London, Moscow or Paris, New York is quite young. It was founded in 1613 by Dutch settlers. There are five districts in the city: Manhattan, the Bronx, Queens, Brooklyn and Richmond. Manhattan is the central and the oldest part of the city. It is the district of business and finance. It is here in Wall Street that many business offices, banks and the world famous New York stock exchange are situated. The New York stock exchange dominates business life of many countries. The total area of New York is 365 square miles or 900 square kilometres. Its population together with the population of its suburbs amounts to 16 million people. Among the inhabitants of New York one can meet people of almost all nationalities. They settled here during the immigration in the 19th and at the beginning of the 20th century. A traveller who visits New York for the first time wonders at the modern architecture. The Statue of Liberty, which is on Liberty Island, was a present from France in 1876 on the occasion of the 100th anniversary of American independence. This statue and a few 18th and 19th century churches, hospitals, newspaper offices and other buildings are the only examples of "old" architecture in New York. Wherever your eyes travel, everywhere you can see sky-scrapers. New York, one of the USA leading manufacturing cities, is the home of great firms and banks. The most important branches of industry are those producing vehicles, glass, chemicals and all kinds of machinery. The city has very busy traffic. Its streets and highways are full of cars and buses. The mouth of the Hudson river makes an excellent harbour for numerous passengers and cargo ships from all over the world. Speaking about New York one can't but mention the outstanding role, the city plays, in the cultural life of the country. New York has many museums and art galleries which have collected works of art of many peoples and of all times. Many of them are on constant display in the Metropolitan Museum of Art, the Whitney Museum of Art. Most of the theatres and cinemas are in or near Broadway, the longest street and

### San Francisco

San Francisco is a special place, very different from most American cities. It lies on a small finger of land with the Pacific Ocean on one side and a huge harbour on the other. San Francisco's population is only about 700 000 but it is the biggest business center in the west of the USA. It is also America's most international city with newspapers in thirty different languages. The city is known as "the Paris of the West". Most people enjoy the climate in San Francisco. It's never too hot and never really cold. The sea winds are healthy and they make you hungry. And it's good to be hungry in San Francisco because the food is fabulous with more than 2600 restaurants serving food from all over the world. There are at least three small cities in San Francisco: "Little Italy", with its pizzerias and restaurants, "Chinatown" with wonderful shops and exciting food and "Japantown". And everywhere you go you will see boats out on the sea, smell fresh and salt and feel the sea wind on your face. If you live in San Francisco you get

She had been the first black star to sign a long-term contract with the BBC. By the time of her death she had recorded over seventy discs. During the war Adelaide had worked very hard and she had sung on the radio, in the theatre, in the movies and in the nightclubs until the bomb destroyed the club which she had bought in 1940. After that she moved out of London and lived in Surrey countryside. When the war ended, she went to Berlin where she was shocked by the devastation (разорение, опустошение). 4. Герундий — это неличная форма английского глагола с суффиксом -ing, имеющая грамматические особенности как глагола, так и существительного и всегда выражающая действие как процесс. При этом главное отличие от существительного — смысловой оттенок некоторого процесса:

walking – гуляние;

dancing – танец;

swimming – плавание.

Герундий образуется, когда окончание -ing в английском языке добавляет к инфинитиву любого глагола. И, как следствие, происходят орфографические изменения:

look — looking;

watch — watching;

marry — marrying;

read — reading.

Особенности глаголов, которые важно учитывать

1. Если окончание слова на «-е», то при добавлении «-ing» она опускается:

to bake — baking;

to smile — smiling.

2. Если слово оканчивается на согласную букву, а перед ней еще идет ударная краткая гласная, необходимо удвоить финальную согласную, а после подставить «-ing»:

to rub — rubbing;

to begin — beginning.

3. Если слово заканчивающимся на «-r» и имеет последний ударный слог, удвоенная последняя согласная также необходима. Исключение — наличие дифтонгов (сочетание двух гласных звуков в одном слоге):

to star – starring;

to tear – tearing.

4. Если слово оканчивается на букву «-l», то она удваивается (в британском английском. В некоторых словах американского английского — не удваивается):

to tell – telling;

to sell – selling.

5. Если инфинитив оканчивается на «-ie», то обязательно заменить на «-у»:

to lie – lying;

to die – dying.

Если глагол заканчивается на сочетание букв «ic», то при прибавлении -ing, суффикс -ic меняется на -ick:

traffic → trafficking

mimic → mimicking

panic  $\rightarrow$  panicking

Чтобы образовать отрицательную форму, нужно поставить перед герундием частицу «not»:

I prefer not reading in the dark. – Я предпочитаю не читать в темноте.

The most expensive thing in our life is not lying. – Самое дорогое в нашей жизни — не врать.

Существуют две формы герундия в английском языке: простая и перфектная. Простая форма используется для действия, которое происходит

одновременно с действием глагола-сказуемого. Перфектная форма используется для действия, которое предшествует глаголу-сказуемому.

Рассмотрим правила герундия.

## **Simple Gerund**

Активный залог - doing

Sorry for *pushing* you. — Извините, что я вас толкнул.

Пассивный залог - being done

I hate *being woken* up early. — Ненавижу, когда меня будят рано.

#### **Perfect Gerund**

Активный залог

having done

He apologized for *having pushed* you. — Он извинился за то, что толкнул тебя.

Пассивный залог

having been done

I regret *having been woken* up early in the morning. — Я сожалею, что меня разбудили так рано утром.

Герундий — может принимать различные функции в предложениях.

Рассмотрим на примерах:

### Подлежащее

Skiing is very useful for the health. — Катание на лыжах полезно для здоровья.

#### Предложное дополнение

Helen is keen on swimming. — Хелен сосредоточена на плавании.

Прямое дополнение

My husband minds your attending my office. — Мой муж против посещения вами моего офиса.

### Обстоятельство времени

After leaving box class, Max worked as a manager. — После завершения занятия по боксу, Макс работает менеджером.

### Обстоятельство образа действия

Learning rules without examples is no result. — Изучение правил без примеров не даст результат.

#### Составное именное сказуемое, состоящее из глагола-связки to be

Her favourite hobby is snowboarding. — Ее любимое хобби — кататься на сноуборде.

#### Определение

There is no sense in regretting. — Нет никакого смысла в сожалении.

Если есть зависимость от существительного или местоимения и подходит вопрос «какой?», значит это действительно определение.

# Часто герундий употребляется после глаголов и прилагательных с фиксированными предлогами.

Глаголы с предлогами, после которых нужен герундий: accuse of – обвинять в;

```
agree to – соглашаться с;
to be worth doing something - стоить что-то делать
blame for – винить за;
complain of – жаловаться на;
consist in – заключаться в;
count on/upon – рассчитывать на;
congratulate on – поздравлять с;
depend on – зависеть от:
dream of – мечтать o;
feel like – хотеть, собираться;
hear of – слышать o;
insist on – настаивать на:
keep from - удерживать(ся) от;
look forward to -c нетерпением ждать, предвкушать;
look like – выглядеть как;
object to – возражать против;
persist in – упорно продолжать;
praise for – хвалить за;
prevent from – предотвращать от:
rely on – полагаться на;
result in – приводить к;
succeed in – преуспевать в;
suspect of - подозревать B;
thank for – благодарить за;
think of - думать o.
```

# 5.Запомните выражения и придумайте свои диалоги с ними.

-Excuse me for interrupting you – Извините, что я вас прерываю.

Do you mind my reading here? –Вы не возражаете, если я буду здесь читать.

It's worth going there. –Туда стоит съездить.

I'm **looking forward to seeing** you. – С нетерпением жду (увидеть) вас.

Переведите на русский язык эту пословицу.

"What is worth doing at all is worth doing well" (Если уж стоить что-то делать, то делать надо хорошо).

**Инфинитив** в английском языке представляет собой неличную форму глагола, которая обозначает действие — это неопределенная форма глагола (в русском языке инфинитив чаще всего так и называют). Эта форма выражает действие, но без уточнения лица или числа. Инфинитив отвечает на вопросы «что делать?», «что сделать?» — в словаре слова представлены как раз в этой форме:

to run – бежать/прибежать

to cook – готовить/приготовить

I was glad to see the gasoline. – Я был рад увидеть заправку.

He can play chess. – Он умеет играть в шахматы.

He must leave before 11 а.т. – Он должен уйти до 11 утра.

# Отрицательная форма образуется с помощью частицы not — просто ставим ее перед инфинитивом. Если инфинитив с частицей to — отрицание not встает перед ней.

I decided not to buy ticket. – Я решил не покупать билет.

They asked him not to be late. – Они попросил его не опаздывать.

I might not come. – Я могу не прийти.

# Что такое инфинитив

В английском языке у глагола есть две формы: личная и неличная. Всего в английском языке присутствует три неличные формы глагола: инфинитив, герундий и причастие. Сегодня мы подробно рассмотрим, что такое инфинитив.

Инфинитив в английском языке представляет собой неличную форму глагола, которая обозначает действие — это неопределенная форма глагола (в русском языке инфинитив чаще всего так и называют). Эта форма выражает действие, но без уточнения лица или числа. Инфинитив отвечает на вопросы «что делать?», «что сделать?» — в словаре слова представлены как раз в этой форме:

to run – бежать/прибежать

to cook – готовить/приготовить

Формальным признаком инфинитива в английском языке является частица to, которая в некоторых случаях опускается. Все эти случаи мы подробно разберем дальше, а сейчас запоминаем: инфинитив — это не всегда глагол плюс частица to.

I was glad to see the gasoline. – Я был рад увидеть заправку.

He can play chess. – Он умеет играть в шахматы.

He must leave before 11 а.т. – Он должен уйти до 11 утра.

#### Отрицательная форма инфинитива

Отрицательная форма по-классике образуется с помощью частицы not — просто ставим ее перед инфинитивом. Если инфинитив с частицей to — отрицание not встает перед ней.

I decided not to buy ticket. – Я решил не покупать билет.

They asked him not to be late. – Они попросил его не опаздывать.

I might not come. – Я могу не прийти.

Инфинитив может употребляться с частицей to или без нее:

I want to help you. – Я хочу вам помочь.

I should help you. – Я должен вам помочь. Когда употребляем инфинитив без частицы to

1. После модальных глаголов.

Это особая группа глаголов, которые выражают не само действие, а отношение к нему: вероятность, долженствование, способность. Например, can, must, should, may и прочие. Сами по себе они не дают полного смысла, поэтому дополняются инфинитивом без частицы to — это самый распространенный случай.

She can't speak to you. – Она не может говорить с вами.

He should ask them a question. – Ему следует задать им вопрос.

Shall I talk to him? – Мне поговорить с ним?

They must leave before 10.00 а.т. – Они должны уйти до десяти утра.

Исключения — модальные глаголы «dare» / «ought» / «have» / «be». Им частичка to нужна.

She ought to be more polite to other people. – Ей следует быть более вежливой с людьми.

2. После глаголов make, let, feel, see, hear.

Например, в предложениях, где make используется в значении «заставлять», а let — «позволять».

Let's go to the cinema tonight. – Давай пойдем в кинотеатр сегодня вечером.

You made me cry. – Вы заставили меня плакать.

Don't make me read that boring book. – He заставляй меня читать эту скучную книгу.

I saw her leave the room. – Я видел, как она вышла из комнаты.

I heard her sing. – Я слышал, как она поет

3. После глагола «help» (помогать) может использоваться глагол как с «to», так и без.

Help me (to) find my keys, please. – Помоги мне найти ключи, пожалуйста.

4. После оборотов had better и would rather.

**Инфинитив** в английском языке представляет собой неличную форму глагола, которая обозначает действие — это неопределенная форма глагола (в русском языке инфинитив чаще всего так и называют). Эта форма выражает действие, но без уточнения лица или числа. Инфинитив отвечает на вопросы «что делать?», «что сделать?» — в словаре слова представлены как раз в этой форме:

to run – бежать/прибежать

to cook – готовить/приготовить

I was glad to see the gasoline. – Я был рад увидеть заправку.

He can play chess. – Он умеет играть в шахматы.

He must leave before 11 а.т. – Он должен уйти до 11 утра.

# Отрицательная форма образуется с помощью частицы not — просто ставим ее перед инфинитивом. Если инфинитив с частицей to — отрицание not встает перед ней.

I decided not to buy ticket. – Я решил не покупать билет.

They asked him not to be late. – Они попросил его не опаздывать.

I might not come. - Я могу не прийти.

# Что такое инфинитив

В английском языке у глагола есть две формы: личная и неличная. Всего в английском языке присутствует три неличные формы глагола: инфинитив, герундий и причастие. Сегодня мы подробно рассмотрим, что такое инфинитив.

Инфинитив в английском языке представляет собой неличную форму глагола, которая обозначает действие — это неопределенная форма глагола (в русском языке инфинитив чаще всего так и называют). Эта форма выражает действие, но без уточнения лица или числа. Инфинитив отвечает на вопросы «что делать?», «что сделать?» — в словаре слова представлены как раз в этой форме:

to run – бежать/прибежать

to cook – готовить/приготовить

Формальным признаком инфинитива в английском языке является частица to, которая в некоторых случаях опускается. Все эти случаи мы подробно разберем дальше, а сейчас запоминаем: инфинитив — это не всегда глагол плюс частица to.

I was glad to see the gasoline. – Я был рад увидеть заправку.

He can play chess. – Он умеет играть в шахматы.

He must leave before 11 а.т. – Он должен уйти до 11 утра.

# Отрицательная форма инфинитива

Отрицательная форма по-классике образуется с помощью частицы not — просто ставим ее перед инфинитивом. Если инфинитив с частицей to — отрицание not встает перед ней.

I decided not to buy ticket. – Я решил не покупать билет.

They asked him not to be late. – Они попросил его не опаздывать.

I might not come. – Я могу не прийти.

Инфинитив может употребляться с частицей to или без нее:

I want to help you. – Я хочу вам помочь.

I should help you. – Я должен вам помочь.

Когда употребляем инфинитив без частицы to

1. После модальных глаголов.

Это особая группа глаголов, которые выражают не само действие, а отношение к нему: вероятность, долженствование, способность. Например, can, must, should, may и прочие. Сами по себе они не дают полного смысла, поэтому дополняются инфинитивом без частицы to — это самый распространенный случай.

She can't speak to you. – Она не может говорить с вами.

He should ask them a question. – Ему следует задать им вопрос.

Shall I talk to him? – Мне поговорить с ним?

They must leave before 10.00 а.т. – Они должны уйти до десяти утра.

Исключения — модальные глаголы «dare» / «ought» / «have» / «be». Им частичка to нужна.

She ought to be more polite to other people. – Ей следует быть более вежливой с людьми.

2. После глаголов make, let, feel, see, hear.

Например, в предложениях, где make используется в значении «заставлять», а let — «позволять».

Let's go to the cinema tonight. – Давай пойдем в кинотеатр сегодня вечером.

You made me cry. – Вы заставили меня плакать.

Don't make me read that boring book. – He заставляй меня читать эту скучную книгу.

I saw her leave the room. – Я видел, как она вышла из комнаты.

I heard her sing. – Я слышал, как она поет

3. После глагола «help» (помогать) может использоваться глагол как с «to», так и без.

Help me (to) find my keys, please. – Помоги мне найти ключи, пожалуйста.

4. После оборотов had better и would rather.

Оборот had better переводится, как «лучше, следует». В сокращенном варианте пишется, как d'better.

We had better take some warm clothing. – Нам лучше взять теплой одежды.

She had better ask him not to come. – Ей бы лучше попросить его не приходить.

I would rather not tell them about it. – Я предпочел бы не говорить им об этом.

#### ARTS

There many arts in the world, but the most popular are: literature, music, theatre, cinema and others. Every person has his or her own favourite art.

Music has always fascinated people. It touches their hearts and makes them laugh or cry. Music can be heard everywhere. Nowadays there are a lot of musical genres: classical music, rock music, pop music, club music and others. I can listen to any genre of music. It depends on my mood. When I am sad I listen to classical music. When I am happy I like listening to energetic, fast music and hard beat. However, some people listen to one kind of music only and they listen to it no matter what mood they are in.

There are a lot of wonderful works of literature. Famous writers and poets created a big variety of poems, stories and novels that are read all over the world. Russian poets and writers like Pushkin, Tolstoy and Dostoevsky are famous all over the world. Their works are translated into many languages.

Theatre is a popular kind of arts, too. There are a lot of theatres in Russia, but most of them are situated in Moscow. The Bolshoi Theatre and the Maly Theatre are world famous. If you like opera you should go to the Bolshoi Theatre. The tickets are rather expensive though. The Maly Theatre stages dramas and plays based on classical novels.

I am a theatre-goer. I prefer going to drama theatres. I do not like opera and ballet. Not long ago I saw Uncle's Dream by Dostoevsky in the Vakhtangov Theatre. I liked the play a lot. The decorations were rich and the famous actors played very well. There was a storm of applause after the performance.

Nowadays theatres are becoming less and less popular, and cinema has got big popularity instead. There are a lot of cinemas in Moscow: modern and old-fashioned, cheap and expensive. Modern films are full of audio and computer special effects and people go to the cinema to enjoy them. The so-called home cinemas have appeared lately. More and more people buy modern TV-sets with large flat screens and special sound equipment and watch films at home.

My favourite art is painting. I enjoy going to art galleries to look at paintings. I think that this type of art will exist forever. Artists express their feelings and emotions in their paintings. There are a lot of art galleries in Moscow, but the most famous one is the Tretyakov Gallery. It has large collections of paintings by Russian and foreign painters. My favourite genre of painting is landscape. I think that Russian landscapists are the best in the world. I love going to this gallery when I have free time. One of my friends draws very well. She is going to enter the University of Arts to become a professional artist. But I think that amateurs are the best artists.

Unfortunately I do not have any talent for this or that art. I used to sing in childhood, but then I gave it up. I think that arts are not for me.

Vocabulary: атаteur - любитель арреаг - появляться аpplause - аплодисменты ballet- балет decoration - украшение depend on sth/sb - зависеть от чего-то/кого-то emotion- эмоция equipment - оборудование ехіst - существовать

fascinate - очаровывать
flat screen - плоский экран (телевизора)

#### **Ouestions:**

- 1. What arts do you know? What are the most popular ones?
- 2. Why is theatre becoming less and less popular? Are you a theatre-goer? Why (not)?
- 3. Do you often go to the cinema? Why (not)?
- 4. What are your favourite arts? Why?

# Participle 1 u participle 2

В английском языке есть две формы причастия. С одной стороны, они вроде похожи, с другой - несут абсолютно разную смысловую и грамматическую функцию.

Participle 1 и Participle 2 помогают сделать предложение информативным и логичным, оттеняя глагол-сказуемое, характеризуя подлежащее и позволяя отразить два действия. Образование Participle 1

**Participle 1 или Present Participle** отражает длительность процесса, подчеркивая одновременность действия со сказуемым. Причастие настоящего времени образуется от *глагола* + *окончание* - *ing*:

write – writing (пишущий)

Особенности написания:

- краткая гласная: run running;
- заканчивается на «е», а перед ней стоит согласная: take taking, но: see seeing; to die, to lie, to tie(умирать, лежать, связывать)меняют "ie" на "y": die dying, lie lying, tie tying.
- заканчивается на 1: travelling

# Временные формы:

Present Participle 1 Active: working — одновременные действия в настоящем

Present Participle 1 Passive: being working — одновременные действия в настоящем + указывает воздействие на подлежащее

Perfect Participle 1 Active: having worked – предшествует действию сказуемого

Perfect Participle 1 Passive: having been worked — предшествует действию сказуемого и указывает, что подлежащее подвергалось воздействию

Функции Participle 1

В предложении причастие настоящего времени может выполнять следующие функции:

1. Как определение употребляется перед существительным или же после него.

The dancing girls are our students. – Танцующие девушки – наши студентки.

2. Если употребляется в функции **обстоятельства**, то переводится на русский с окончанием «а», «я» или «в» (спрашивая, приехав, держа). Может выражать обстоятельство времени, причины, образа действия и сравнения.

Arriving at the station he bought a newspaper. — Приехав на вокзал, он купил газету (время). He was silent for a while, as if pausing for a reply. — Он немного помолчал, как будто

выдерживая паузу для ответа (сравнение).

He was standing on the top of the mountauns admiring the beautiful view. — Он стоял на вершине горы, наслаждаясь прекрасным видом (образа действия).

Having worked a little at this factory I understood everything. – Так как раньше я немного работал на этой фабрике, я все понимал (причины).

3. Как часть сказуемого.

The answer of the student is disappointing. – Ответ студента — разочаровывает. Образование Participle 2

**Participle 2** соответствует русской форме страдательного причастия: сломанная, написанная, прочитанная. Данная часть речи имеет только одну форму и используется для описания законченного действия. Другими словами можно сказать, что это результат, выраженный признаком или состоянием.

Broken leg – сломанная нога;

Locked door – закрытая дверь.

Past Participle образуется от **инфинитива без to** + **суффикс** – **ed.** Либо, если глагол неправильный, используется его 3-я форма – таблица Past Participle ( 3 колонка таблицы неправильных глаголов).

Open – opened (открытый);

*Teach – taught;* 

Dress – dressed (одетый).

Употребление в предложении.

Как и любой член предложения, в английском языке причастие выполняет определенные **функции.**Так Participle 2 может быть обстоятельством, определением или частью сказуемого.

1. Как определение употребляется перед существительным. На русский переводится причастием прошедшего времени и описывает совершенное над предметом действие. Или эта часть речи может стоять после существительного и сопровождаться пояснительными словами:

It was a untidily written letter. – Это было неаккуратно написанное письмо.

A parcel sent from Paris will be in London in some days. — Посылка, отправленная сегодня из Парижа, будет в Лондоне через несколько дней.

*Примечание:* Предлог by помогает обозначить лицо или предмет, который совершил действие, выраженное Participle 2.

A parcel sent from Paris **by my brother** will be in London in some days. — Посылка, отправленная братом сегодня из Парижа, будет в Лондоне через несколько дней.

2. **Как обстоятельство** может характеризовать время, условия выражения действия, уступки или сравнение действий. Для выражения времени часто используются when и while, условия — until, if, уступки — though, although. Союзы используются не во всех предложениях, поэтому, чтобы определить функцию, необходимо понимать смысл фразы. When called she refused to come. — Когда ее позвали, она отказалась прийти (время). Не will speak for hours until interrupted. — Он будет говорить вечность, пока его не перебьют(условие).

«I have to go home», he repeated as if hypnotized. – «Я должен идти домой», он повторял, как загипнотизированный (сравнение).

#### 3. Как именная часть сказуемого:

She looked worried. – Она выглядела обеспокоенной.

Though crushed, she wasn't broken. – Она не показывала этого ,хотя и была подавлена.(уступки)

Participle 1 и Participle 2 используется в причастных оборотах, которые имеют свои особенности.

Эта неличная глагольная форма совмещает в себе и свойства прилагательного, и наречия, и глагола. Такое уж оно многогранное — причастие в английском языке!

#### **PAINTING**

As we know, painting is one of the oldest and most important arts. Since prehistoric times, artists have painted on surfaces in way that express their view about people and the world. The paintings that artists create have great value for humanity. They give people enjoyment as well as information.

People are fond of painting for many reasons. They may think a painting is beautiful. People may enjoy the colors that the painter used or the way the artist arranged the paint on the surface. Some paintings interest people because of the way the artist expresses some human emotions like fear, happiness, or love. Other paintings are enjoyable because they skillfully portray nature. Even paintings of such everyday scenes as people at work and play and of such simple objects as flowers or animals can be a source of pleasure.

Paintings also teach. Some of them show what the artist felt about important subject, including death, love, religion, and social justice. Other paintings inform about the history of the period during which they were created. They provide information about the traditions, goals, and interests of the people of past societies. Painting also tells about such things as the building, clothing, and tools of the past. Much of our knowledge about prehistoric and ancient times comes from painting and other arts, as many early societies left few or no written records.

It's not easy to find a subject that no one has ever tried to paint. Artists paint the things they see around them - people, animals, nature, and surrounding objects. They also paint dreamlike scenes that exist only in the imagination. An artist can reach back into the past and paint a historical event, a religious story, or a myth. Some artists create pictures that show no clear subject matter at all.

However, they arrange the paint in some abstract way that expresses feelings or ideas that are important to them.

#### Architecture

Architecture is the art and technique of designing and building, as distinguished from the skills associated with construction. It is both the process and the product of sketching, conceiving, planning, designing, and constructing buildings or other structures.[ The term comes from Latin architectura; from Ancient Greek ἀρχιτέκτων (arkhitéktōn) 'architect'; from ἀρχι- (arkhiteri, and τέκτων (téktōn) 'creator'. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

The practice, which began in the prehistoric era, has been used as a way of expressing culture for civilizations on all seven continents. For this reason, architecture is considered to be a form of art. Texts on architecture have been written since ancient times. The earliest surviving text on architectural theories is the 1st century AD treatise De architectura by the Roman architect Vitruvius, according to whom a good building embodies firmitas, utilitas, and venustas (durability, utility, and beauty). Centuries later, Leon Battista Alberti developed his ideas further, seeing beauty as an objective quality of buildings to be found in their proportions. Giorgio Vasari wrote Lives of the Most Excellent Painters, Sculptors, and Architects and put forward the idea of style in the Western arts in the 16th century. In the 19th century, Louis Sullivan declared that "form follows function". "Function" began to replace the classical "utility" and was understood to include not only practical but also aesthetic, psychological and cultural dimensions. The idea of sustainable architecture was introduced in the late 20th century. Architecture began as rural, oral vernacular architecture that developed from trial and error to successful replication. Ancient urban architecture was preoccupied with building religious structures and buildings symbolizing the political power of rulers until Greek and Roman architecture shifted focus to civic virtues. Indian and Chinese architecture influenced forms all over Asia and Buddhist architecture in particular took diverse local flavors. In fact, During the European Middle Ages, pan-European styles of Romanesque and Gothic cathedrals and abbeys emerged while the Renaissance favored Classical forms implemented by architects known by name. Later, the roles of architects and engineers became separated. Modern architecture began after World War I as an avant-garde movement that sought to develop a completely new style appropriate for a new postwar social and economic order focused on meeting the needs of the middle and working classes. Emphasis was put on modern techniques, materials, and simplified geometric forms, paving the way for high-rise superstructures. Many architects became disillusioned with modernism which they perceived as ahistorical and anti-aesthetic, and postmodern and contemporary architecture developed.

Over the years, the field of architectural construction has branched out to include everything from ship design to interior decorating.

# Занятие № 36 Музыка. Театр

- 1. Прочитайте и переведите тексты на русский язык.
- 2. Составьте краткий рассказ о любимых музыкальных произведениях.

Theatre

We go to the theatre to see a play, that is to say, a performance given by actors and actresses. A play of a serious character, dealing with important human problems is called a tragedy. A play of a humo rous, lighter character is a comedy (or a farce). Dramatists are called playwrights nowadays and ther e are no longer such great dramatists as Shakespeare or G. B. Show.

If we want to go to a theatre we buy tickets at the box-

office and show them to the attendant at the entrance. In the building there is a hall, a large foyer and

a cloak-

room where we leave our overcoats, hats, etc. The audience can walk in the foyer in the intervals. M any doors lead to the auditorium consisting of stalls, boxes and balconies. In front of the auditorium there is a curtain separating it from the stage. The curtain rises when the play begins and falls at the end of each act.

Many people must work together to produce a play. The author writes it; the producer conducts the a cting; carpenters, mechanics, designers prepare the scenery; electricians and light operators see to th e light effects and operate the floodlights. We, the playgoers (or fans) demand an interesting plot, go od acting, impressive scenery — that is two hours of good entertainment.

Music

People cannot live without music. They listen to music, dance to music or learn to play musical instr uments. There is music everywhere: at home, in a concert hall, in the park, at the seaside, in the fore st and even in the street.

Music is not only a combination of pleasant sounds. It is an art which reflects life. Music reflects pe ople's ideas and emotions. In this world of ours, filled with conflicts, tragedies, joys and hopes, musi c strives to speak to people of what is most important, urgent and poignant.

Music in the lives of different people is different: some compose music, others play music, and other s only listen to it. A lot of people who cannot play any musical instrument love to listen to music eit her at home or at a concert. Different people like different kinds of music. You may prefer pop or ro ck music, country or folk music, classical music or jazz, but you certainly cannot think of a day with out music.

As for me, I prefer ... music. I have a lot of cassettes (CDs, records). I try to watch all the programm es dealing with it on TV and to go to the concerts as often as possible. My favourite composer (singe r, musician) is... I think he (she) is very talented. I can (not) play an instrument (the piano, the guitar, the violin). It is a great pleasure to be able to play an instrument and I like it a lot.

1. There are many interesting museums, exhibition halls and art galleries in the world and people love visiting them. They are especially popular among art lovers and people who prefer food for thought. Apart from art museums, there are many other types of exhibitions, such as historical, scientific, zoological, ethnographic, armoury, naval, etc. Museums of local lore are also interesting. They show how people lived and worked in this region.

The most famous Russian museums are the State Tretyakov Art Gallery and the Museum of Fine Arts named after Pushkin in Moscow, and the State Hermitage in Saint-Petersburg. The Hermitage houses more than 350 exhibition halls with a very rich collection of art works.

The largest Museum of Great Britain is the British Museum, which is famous for its huge library. The most famous museum in France is the Louvre.

I have once visited the Pushkin Museum of Fine Arts and it was an unforgettable experience. There I understood that art reflects life and appeals to our hearts and minds. This museum has one of the largest collections of the ancient, oriental and classical art in the world. Apart from paintings, I saw some outstanding sculptures there. The Pushkin Museum also holds one of the biggest collections of Ancient Egyptian Art. The Tretyakov Gallery is also huge and it contains mainly the works of famous Russian artists. One day isn't enough to see all of its masterpieces. The museum has seven departments with portraits, seascapes, landscapes and other genres of painting.

To sum up, I'd like to say that all museums are interesting and they give us an opportunity to learn something new about different nations and countries.

What can people see in the museums?

What are the most famous museums in Moscow and in Saint-Petersburg?

What is the largest museum in London?

What is the Pushkin Museum of Fine Arts famous for?

What opportunity do museums give us?

В предложениях с взаимными местоимениями предлоги всегда ставятся перед each и one. Чаще всего взаимные местоимения используются по отношению к людям.

В современном английском языке местоимения each other и one another взаимозаменяемы и переводятся одинаково как «друг друга». Однако each other используется чаще.

Can't you see? They love each other. – Разве ты не видишь? Они любят друг друга.

Science is a source of progress. It develops the world we live in. Our century isan epoch of great dis coveries in science and engineering. It is epoch ofscientific and technological revolution, when new ideas are being born and newdiscoveries, inventions are being made at an ever increasing rate. Toda yscience has become the most important factor in the development of nationaleconomy in the whole world. Scientific progress serves the interests of society,helps to increase the well --- being of people and develops public education.

Computer technologyplays the most important role in the progress of science. The ability of comput ers to solve manymathematical problems more effective than man does, has given rise to new trends in mathematics. Computer science is a new field of study and research.

In recent yearsscientists of the world have achieved great success in the development of physics, chemistry, biology, and such astonishing, interesting science aspsychology.

But science may be turned both for peace and military purpose. Itcan take good forms andevil forms. With the help of scientific inventionspoliticians make weapons of mass destruction. But on the othe r handresearches help us in our life: at home, at work, at school and make the level of the countryde velopment higher.

That's why there are a lot's of facts telling about a great amount of well-known scientists who had burned their works when they've understood the consequences of their inventions.

We are living in the modern world, full of computers, automatic devices, gadgets, cell phones and many other different interesting and useful things that technological progress has given us for usage. Although not even years have passed as we couldn't even dream about time when it would be enough just to tap on a screen and get connected with the other person on the different end of the world.

Science has given us possibility to fly into space and step on the moon, to start studying different parts of our galaxy and even farther. For example, what wonderful pictures of our galaxy and planets and stars surrounding Earth Hubble telescope has showed to us. Now we can develop further and maybe ever step on the other planets and even populate it.

Technology.

Technology has considerably made our life easier due to different discoveries. For example, nowadays we can travel with extremely high speed in different directions: many countries have high-speed trains which help us to feel comfortable all the way.

Older people have different devices that have highly improved the level of their life, such as special cars for driving or hearing aid that helps them to no more feel useless in the society.

On the other hand al this computerized environment may damage us too. Our children spend more and more time playing computer games, texting their friends instead of meeting them in the streets, living more and more in their own virtual world. Girls try to compete whose cell phone or tablet is better and more modern, or who has more friends on Facebook.

Anyway technology has its advantages and disadvantages, but we cannot escape from progress, the development is inevitable. But our responsibility is to preserve ourselves as modern, just and peaceful civilization.

Страдательный залог (Passive Voice)

Залог (Voice) — это форма глагола, которая показывает, является ли предмет или лицо исполнителем действия или же они испытывают на себе действие, выраженное глаголом. В английском языке существует два залога — активный и пассивный.

Активный (действительный) залог (Active Voice) показывает, что лицо или предмет, выраженный подлежащим предложения, является исполнителем действия, которое выражено сказуемым.

She is listening to her favourite song.

My parents travel a lot.

We didn't catch any fish yesterday.

• Пассивный (страдательный) залог (Passive Voice) широко употребляется в современном английском языке. Как правило, пассивные конструкции используются, если нет необходимости называть исполнителя действия, который подразумевается из контекста или же ясен из той или иной ситуации.

Her two brothers were killed in the war.

The letter has been sent this morning.

Форма пассивного залога в английском языке образуется с помощью вспомогательного глагола to be в нужной форме и причастия прошедшего времени смыслового глагола:

the Present Simple – is (am, are) done

the Past Simple – was (were) done

the Future Simple – will (shall) be done

the Present Perfect – has (have) been done

the Past Perfect – had been done

the Future Perfect – will (shall) have been done

the Future in the Past – would be done

the Present Progressive – is (am, are) being done

the Past Progressive – was (were) being done.

В пассивном залоге не употребляются такие сложные времена, как Future Progressive, Future Progressive in the Past и все формы Perfect Progressive.

В вопросительных предложениях первый вспомогательный глагол ставится перед поллежащим.

Was it done? When was it done?

How has the work been done?

Who will the work be done by?

В отрицательных предложениях отрицательная частица пот стоит после первого вспомогательного глагола.

The work was not done yesterday.

The fax has not been sent.

The fax won't be sent today.

The question is not being discussed now.

- Пассивный залог в английском языке употребляется, как правило, с переходными глаголами, то есть с глаголами, которые имеют после себя дополнение:
- 1. Ряд английских глаголов может иметь два дополнения прямое и косвенное. Наиболее употребительными из них являются: to tell, to give, to offer, to show, to pay, to promise, to send, to teach, to allow, to ask, to answer, to forgive, to invite, to advise. Такие глаголы образуют двойные конструкции в пассивном залоге: A very good job was offered to me. = I was offered a very good job. He was promised a raise in the salary. = A raise in the salary was promised to him.
- 2. Большое число глаголов в английском языке употребляется с дополнением, имеющим предлог. В таких случаях предлог занимает место после глагола в пассивном залоге.

Active: We sent for the doctor. – Passive: The doctor was sent for.

This film is much spoken about. – Об этом фильме много говорят.

The books were looked for everywhere, but weren't found. – Книги искали повсюду, но не нашли. You are being made fun of. – Над тобой подсмеиваются.

Why is he always laughed at? – Почему над ним всегда смеются?

This dictionary is often referred to. – На этот словарь часто ссылаются.

Запомните!

look at - смотреть (на)

look for – искать

look after – ухаживать, присматривать

look through – просматривать

listen to – слушать

speak about – говорить (о)

take care of – заботиться

pay attention to – обращать внимание (на)

rely on – полагаться, рассчитывать (на)

3. Глаголы to explain (something to somebody), to point out, to announce, to dictate, to describe, to mention, to repeat, to suggest, to propose могут образовывать только одну пассивную конструкцию.

The decision was announced to us.

The difficulty was explained to her.

A new plan was suggested to us.

• Глаголы to read, to sell, to wash, to clean, to peel, to crease, to break, to deform, to wear, to burn употребляются в форме активного залога, хотя и имеют пассивное значение.

This dress washes and wears well and doesn't crease.

Love stories sell well. Dry leaves burn well.

Такие глаголы, как to have, to chance, to happen, to seem, to appear, to lack, to become, to fit, to suit, to resemble не употребляются в пассивном залоге, так как они обозначают не действие (или процесс), а состояние лица или предмета.

This house lacks a big kitchen.

John resembles his father.

He has become a real professional.

С пассивными конструкциями часто употребляются предлоги of, from, with, by.

I was interrupted by a loud knock on the door.

He was shot with a gun.

My country house is made of wood.

This pie is made from eggs, milk and flour.

Формы страдательного залога английских глаголов образуются с помощью вспомогательного глагола to be в соответствующем времени, лице и числе и причастия II (Participle II) смыслового глагола:

The letter is written. Present Indefinite: Past Indefinite: The letter was written. The letter will be written. Future Indefinite: Present Continuous: The letter is being written The letter was being written. Past Continuous: The letter will be being written **Future Continuous:** The letter has been written. Present Perfect: Past Perfect: The letter had been written. The letter will have been written. Future Perfect:

- с) Если в составе сказуемого нет слова have (has, had), то это не Perfect
- d) Если в составе сказуемого нет глаголов shall/will, то это не Future.

# Computers have entirely entered our life.

Some scientists say that without the computer the 21<sup>st</sup> century would be impossible. Computers today are running our factories, planning our cities, teaching our children and forecasting our future. The computer solves in seconds the problems a generation of mathematicians would need months or years to solve without its help. The degree to which computers will take over human functions may frighten some people and astonish\* others. Computers, like the telephone or electricity, have become a common thing of everyday life used by almost everybody. They have entered our home life. They help to make up a person's shopping list, remind someone of important appointments and anniversaries and answer the telephone. We often hear that the increasing flood of information will be one of the problems of the 21<sup>st</sup> century.

A computer may help to solve it too. In a computerized library of the future request for information will be answered instantly\* and as fully as the user wants.

The invention of computers, calculating machines, capable of processing information, cardinally changed our life. The computer performs very simple actions, but its advantage is the speed it calculates at. In fact the computer performs hundreds of thousands of operations per second.

Computers are penetrating* all spheres of human activity, in many of them they have become
indispensible,* They calculate orbits, guide spaceships and planes, calculate the targets* of economic
development, play chess, help housewives to choose a menu.

## Technological progress.

People in contemporary world can hardly imagine their lives without machines. Every day either a new gadget is invented or an old one is improved. Different people appreciate new inventions differently. Some suppose that sophisticated gadgets are really useful and necessary, while others find them absolutely awful as they influence people badly. As for me, I am pretty sure that gadgets make people's lives easier.

Firstly, they do all kinds of dirty and hard work, as cleaning. Secondly, devices can save a lot of time as well as storage space. For instance, a computer disk can contain the same amount of information as several thick books. So, machines help people in different spheres.

However, opponents of this point of view are definitely sure that gadgets affect people negatively. People are reluctant to work due to the influence of machines. People become lazy and disorganized. They just expect their latest gadgets to do everything instead of them. Moreover, according to scientists, a great number of widespread devices produce radiation that can cause serious health problems. Furthermore, more and more people are becoming addicted to their modern gadgets, for instance computers, TVs or mobile phones. So, they neglect their home obligations, work or school and spend all their spare time in front of a laptop screen or a TV-set.

In conclusion, I firmly believe that in spite of all drawbacks, gadgets have, their benefits are much more considerable, as they save people's time and let them enjoy life.

1.Russia's contribution to the world's science can hardly be overestimated. People all over the world know the names of Russian scientists, Nobel prize winners and authors of important discoveries and inventions.

Russia's first world-famed scientist was Mikhail Lomonosov (1711-1765). Eager to get an education, he left his home village Kholmogory and walked to Moscow on foot. The son of a poor fisherman became the first Russian professor of Chemistry at St. Petersburg Academy of Science in 1745. In XX century Moscow State University was named after M. Lomonosov to commemorate his scientific achievements and efforts to establish the system of higher education in Russia.

Another eminent Russian Scientist is Dmitri Mendeleev (1834-1907) – a famous chemist who arranged the 63 known elements into a periodic table based on atomic mass. Today every student is familiar with this table that bears the name of Mendeleev. The legend says that Mendeleev saw the periodical

system in his dream. He was also able to predict the discovery of several elements that were not known at his time and have been discovered recently.

Among famous Russian scientists who contributed to world's science one should not forget Sofia Kovalevskaya (1850-1891) who became the first female professor of mathematics in the world. One can also remember outstanding scientists from different fields of knowledge. Thus Alexander Popov (1859-1905) invented radio, Academician Ivan Pavlov (1854-1929) became the first Russian Nobel Prize winner in Medicine, the work by Nikolai Basov (1922-2001) led to the invention of the laser.

But this list is not over. Russian scientists, physicists, chemists, psychologists, surgeons and those who work in other spheres make new discoveries and breakthroughs. We can be proud of our scientists of the past and of the scientists who work today.

Michael Faraday.

There are electric motors in most household appliances, from cassette players to washing machines. The design of all these motors is based on the principles discovered more than 150 years ago by Michael Faraday, the greatest of all English experimental physicist. First learning about science from an encyclopedia, Faraday was lucky enough to become an apprentice to the noted English chemist Humphry Davy (1778-1829). Scientists at the time had just realized how to produce electricity, and were looking for ways of applying it. Faraday's discoveries were perfectly timed to exploit this new power.

#### Marie Curie.

Holish0born physicist Marie Curie and her French husband Pierre are famous for their work on radioactivity. They were inspired by the work of French physicist Henry Becquerel (1852-1908). Marie Curie was the first to use the term 'radioactive' for substances that have considerable electromagnetic activity. She also isolated two new radioactive elements, polonium and radium. After Pierre's she took over his job as professor of physics at the University of Paris, the first woman to teach there.

She continued her research, looking for medical uses for radioactivity. She was awarded the Nobel Prize for physics in 1903 and for chemistry in 1911.

#### Isaac Newton.

The English physicist and mathematician Isaac Newton was one of the great scientists of all time. His theories revolutionized scientific thinking and laid the foundations of modern physics. His book 'Principia Mathematica' is one of the most important works in the history of modern science. Newton discovered the law of gravity, and developed the three laws of motion that are still in use today. He was the first person to split white light into colors of the spectrum, and his research into light led him to design a reflecting telescope. Newton was also one of the pioneers of a new branch of mathematics called calculus.

#### Archimedes

The Greek mathematician Archimedes was the father of geometry. He discovered the value of pi, which is the ratio of the circumference of a circle to its diameter. Pi is used to calculate the volume of cylinders and spheres. Archimedes then looked for ways of measuring the volume and mass of irregularobjects. Eventually ,he discovered the principle of displacement: that an object put wholly or partly into water loses weight equal to the weight to water it displaces. One method of lifting water is known as the Archimedes' screw because it is thought that he invented it.

Television (1920s)

The invention that swept the world and changed leisure habits for countless millions was pioneered by Scottish-born electrical engineer John Logie Baird. It had been realised for some time that light could be converted into electrical impulses, making it possible to transmit such impulses over a distance and then reconvert them into light.

Motor Car (Late 19th Century)

With television, the car is probably the most widely used and most useful of all leisure-inspired inventions. German engineer Karl Benz produced the first petroldriven car in 1885 and the British motor industry started in 1896. Henry Ford was the first to use assembly line production for his Model T car in 1908. Like them or hate them, cars have given people great freedom of travel.

Electricity

The name came from the Greek word for amber and was coined by Elizabeth I's physician William Gilbert who was among those who noticed that amber had the power to attract light objects after being rubbed. In the 19th century such great names as Michael Faraday, Humphry Davy, Alessandro Volta and Andre Marie Ampere all did vital work on electricity.

Photography (Early 19th Century)

Leonardo da Vinci had described the camera obscura photographic principle as early as 1515. But it was not until 1835 that Frenchman Louis Daguerre produced camera photography. The system was gradually refined over the years, to the joy of happy snappers and the despair of those who had to wade through friends' endless holiday pictures.

Telephone (1876)

Edinburgh-born scientist Alexander Graham Bell patented his invention of the telephone in 1876. The following year, the great American inventor Thomas Edison produced the first working telephone. With telephones soon becoming rapidly available, the days of letter-writing became numbered.

Computer (20th Century)

The computer has been another life-transforming invention. British mathematician Charles Babbage designed a form of computer in the mid-1830s, but it was not until more than a century later that theory was put into practice. Now, a whole generation has grown up with calculators, windows, icons, computer games and word processors, and the Internet and e-mail have transformed communication and information.

Aeroplane

The plane was the invention that helped shrink the world and brought distant lands within easy reach of ordinary people. The invention of the petrol engine made flight feasible and the American Wright brothers made the first flight in 1903.
